# The Hong Kong Institute of Surveyors

The Hong Kong Institute of Surveyors (HKIS or The Institute) was founded in April 1984 and had 85 founder members. The Institute was statutorily incorporated by virtue of the Hong Kong Institute of Surveyors Ordinance in January 1990 (Cap. 1148). In July 1991, there was also passed the Surveyors Registration Ordinance (Cap. 417) to set up a Registration Board to administer the registration of surveyors.

The number of corporate members has grown to 5,858 as at 31 December 2013; Members and Fellows – distinguished by the initials MHKIS and FHKIS. In 2013, the institute admitted 64 Associate Members – distinguished by the initial AMHKIS. Apart from this, the total number of training grade members at the end of 2013 was 2,890.

To qualify as a corporate member of the Institute, surveyors must possess a recognized academic degree or similar qualification, followed by a minimum of 2 years supervised professional experience within strict guidelines, followed by an Assessment of Professional Competence (APC).

As a reputable and responsible professional body of surveyors, the Institute has always maintained vigorous assessment standards for entry to the profession and has also maintained high professional and ethical standards of member surveyors, through the various codes of professional practices, the code of ethics, and continuing professional development. The Institute has taken on an important and responsive consultative role in government policy making particularly on issues affecting land, property, construction.

The title “Surveyor” embraces a number of disciplines involved with land and its development with land and buildings, covering an extremely wide scope. Some surveyors work in private practices and others may work for a landowner, developer, building contractor or government departments and related bodies. A **land surveyor** measures and records the shape and position of the land, define the boundary and set out the legal boundaries of the sites. A **general practice surveyor** advises on the best use of the land, assesses the feasibility and viability of the proposed development project as well as the valuation, marketing, sale, leasing

and management of completed developments. A **planning and development surveyor** further advises on the possible change of zoning, the likely environmental impacts and make suggestion on preliminary development contents. A **quantity surveyor** is concerned with the building contractual arrangements and cost control will evaluate the likely cost of the development project and advises on the most suitable kind of contract for the project. A **building surveyor** involves in the project management of building development proposal, holistic maintenance management of building and overall control of private building under relevant legislation. A **property and facility management surveyor** provides a comprehensive range of services in real estate management.

The Institute has established and continues to expand its presence in the international scene through reciprocity relationships with other national surveying bodies and through membership in relevant world bodies and international organisations in order to maintain its professional edge at international level. The Institute is one of the 3 founding members, apart from the Singapore Institute of Surveyors and the Institution of Surveyors, Malaysia, of the Surveyors’ Alliance Asia which was inaugurated in November 2004. The Institute has reciprocal agreements with:

# Land Surveying Division

## The Land Surveyor

Broadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts, defining property boundaries, preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

## Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the Land Surveying Division (RPS(LS)) registered under the Surveyors Registration Ordinance and Authorised Land Surveyors (ALS) registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;
- Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

## Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of earthwork quantities for payment are types of works

under this category. Land Surveyors are actively involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are:

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;
- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

## Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory.

Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, Land Surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundreds of kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along the roadside and benchmarks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;
- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

### Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in the Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

### Land Information Management

In the Land Information Management aspects, Land Surveyors are engaged in the collection, integration and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make

valuable contributions to these systems.

### Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer models from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/orthoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

### Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eye, its profile is determined by an echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current;
- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and
- Collection of any information relating to marine navigation.

# Planning & Development Division

## The Planning & Development Surveyor

Real estate development is a complex process which requires professional input of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

### Property Development Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximizing project return while minimizing the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

### Land Administration Input

Planning & Development Surveyors specialize in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for a modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the land premium); and assist in the execution of the lands document.

### Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within, development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and the strategy to submit planning applications, review and or

appeal; and coordinate with other professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plans to safeguard the interests of land owners.

### Development Project Management

Property development requires a wide range of input from various disciplines. Planning & Development Surveyors can help to set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme; advise on re-distribution of resources; and to resolve issues arising during the development process.

### Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future income and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

### Town Planning Public Sector

Planning & Development Surveyors are involved in the formulation of planning, land, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the relevant planning policies, the environmental context and specific site characteristics.

### **Private Sector**

Planning & Development Surveyors advise clients on the extent to which the use and value of their land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations; and attending hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

### **Other Common Professional Services**

Planning & Development Surveyors also assist clients in site planning and advise on urban design matters together with the relevant design experts. They also specialize in coordinating large-scale planning studies usually supported by various technical impact assessments e.g. Environmental/Ecological Impact Assessment (EIA), Drainage Impact Assessment (DIA), Traffic Impact Assessment (TIA), Geological Impact Assessment (GIA), Landscape and Visual Impact Assessment (LVIA), and Social Impact Assessment (SIA).

# Quantity Surveying Division

## The Quantity Surveyor

Quantity Surveyors are professionals who have been trained as construction cost consultants. They possess expert knowledge of costs, values, finance, contractual arrangements and legal matters pertaining to the construction field.

Quantity Surveyors provide appropriate services to suit diverse needs and the majority of their employers or clients include professional quantity surveying firms, private developers, corporations, Government departments and related bodies, building and civil engineering contractors, insurance companies etc.

Quantity Surveyors are equipped to provide advice concerning various disciplines ranging from building construction, and civil and structural engineering, to petro-chemical installations and mineral extraction.

## Preliminary Cost Advice

From the outset, Quantity Surveyors give practical advice on the likely cost of a project. Cost studies and advice including, but not limited to, alternative design solutions, structural forms, choice of materials, construction sequences and maintenance costs are also prepared. From such information, a detailed cost plan is developed for budgetary control.

## Cost Planning

Cost planning is a specialist technique developed by Quantity Surveyors. Its aim is to help all members of the design team – architects, engineering consultants, interior design specialists and the like – to jointly maximize practical and aesthetic design solutions for a project whilst keeping within the client's budget.

Once a cost plan is prepared, and a realistic estimate agreed, effective cost planning ensures that everything that follows is in accord with the plan, from the acceptance of the successful contractor's tender to the final project cost.

In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

## Cost Control & Financial Management

Cost control is one of the most important processes in any capital project. The basic objectives are to achieve for the client the best value for money, to maintain the required balance of expenditure

between the various parts of the project, and to keep the final expenditure within the client's approved budget.

When clients, or their consultants, decide to effect changes to the designs and introduce variations, Quantity Surveyors rapidly assess and report the cost implications of the changes.

In principle, cost control consists of three basic steps; namely:

- Establishing an overall cost target;
- Checking any deviations that affect the cost target; and
- Taking such remedial action as is necessary to preserve the target.

In practice, the process of cost control embraces a range of professional activities such as cost analyses of earlier projects, cost planning/estimating, cost studies of alternative construction options, cost checking during the design stage, cost reconciliation during the tendering stage, and cost monitoring during the construction stage.

Cost planning facilitates improved economic standards, and so better value for money, during the design stage, whilst constant monitoring during the construction phase ensures that the risk of overspending is identified early so that prompt corrective action may be taken.

Cost estimates and financial reports, which are regularly produced by Quantity Surveyors, form an important aspect of the financial management of capital projects. Periodic financial reports enable clients to anticipate and control their future financial commitments.

## Value Management

Value management is a systematic approach to eliminate waste from a design or client's brief, while at the same time retaining the safety and key functions of the project.

The objective of value management is to provide the project functions to the required standard and quality having regard to the best value for the money expended. This does not necessarily mean at the lowest initial cost, but the highest value considering all factors impacting upon the project as a whole.

Quantity Surveyors are well qualified to lead value management studies on a project. The structured nature of value management permits the project team to obtain a clearer understanding of the

project functions and objectives hence being able to reduce unnecessary costs. Value management also addresses the whole life implications of the building design both in terms of cost and the client's business objectives.

### Procurement Methods

Quantity Surveyors have the expertise, knowledge and tools required in the selection of the "right" contractors and suppliers for any given project.

No two projects are the same. Most major projects (and many smaller ones) are individual challenges and need individual solutions.

The most common method of procurement is through competitive tendering based on a variety of forms of contract and options. The bills of quantities prepared by Quantity Surveyors have been used world-wide as the basis of tendering for many decades. During construction, bills of quantities also form a crucial element in effective cost control as well as the basis for the valuation of variations.

On occasions, the situation may warrant other forms of tendering and contractual arrangements. These include design and build, guaranteed maximum price, construction management, prime cost contract and cost plus, to name just a few. Quantity Surveyors provide advice on the best choice of contractual arrangement to suit the circumstances of each individual project.

### Tendering

Competitive tendering of one kind or another remains the usual basis for awarding construction contracts, and bills of quantities are fundamental to this process. Bills of quantities translate the drawings, plans and specifications produced by the designer into a document that enables a contractor to calculate his tender price fairly and accurately, on exactly the same basis as his competitors.

### Valuation of Construction Works

In most construction contracts, the contractor is paid monthly. Quantity Surveyors prepare interim valuations of the work carried out on the project at regular intervals and submit recommendations for payment.

Quantity Surveyors are normally retained throughout and beyond the completion of the project in order to facilitate the settlement of the accounts, when all necessary adjustments are dealt with. If required, they will also prepare

any analyses of the final account that may be required, prepare statements of expenditure for tax or accountancy purposes, and assess the project's replacement value for insurance.

### Financial Claims & Programme Analysis

Quantity Surveyors also prepare, and provide specialist advice and responses to claims, counterclaims and the like, for both time and money, including:

- Extension of time analysis: forensic analysis and delay demonstration techniques;
- Delay and disruption: time slicing, project analysis and productivity analysis; and
- Direct loss and/or expense: preparation of claims, responses to claims, auditing and analysis.

### Dispute Resolution

If disputes arise, Quantity Surveyors offer the following expertise and technical knowledge:

- Independent appraisal of the strengths and weaknesses of an employer's and/or a contractor's case concerning quantum;
- Technical advice and assistance throughout the dispute resolution process;
- Preparation of particularized documents including technical position papers, assistance with pleadings, further and better particulars and witness statements; and
- When suitably experienced, to act as expert witnesses for quantum or other associated specialist areas.

### Insurance Advice

Quantity Surveyors may choose to pursue their career in the field of construction insurance. The construction insurance professionals work in a variety of capacities in different organisations; examples of which include:

- Insurance administration personnel working for contractors/developers/consultants/ public entities/Government/insurers/or other employers;
- Loss adjusters for loss adjusting firms on behalf of the insurers;
- Underwriting personnel for insurance brokers/insurers; and
- Risk assessment personnel for insurance broker/insurers.

# Young Surveyors Group

The Young Surveyors Group (YSG) is a section of the Hong Kong Institute of Surveyors representing the interests of about 4,000 members – comprising student members, probationers and young qualified members across divisions – the power of the surveying profession in future.

YSG representatives are nominated to the General Council, Divisional Councils, Boards, Panels, Committees and Working Groups of the Institute, in order to bring in views from young members.

To enhance the professional competence of young members, YSG has been organizing various site visits, Continuing Professional Development (CPD) courses and Pre-qualification Structural Learning (PQSL) events throughout the year. The topics cover a wide range of surveying disciplines in the real estate and construction industry. Tailor-made workshops for different divisions also help our probationers to tackle the Assessment of Professional Competence (APC).

In addition, YSG organizes and participates in social events such as dragon boat competition, community services, wine tasting courses, sports competitions, outings, cooking classes and other social gatherings with other professional institutions, to enrich members' social lives.

Every year, YSG hosts study tours to visit cities in the mainland China or overseas countries. YSG representatives also attend local and overseas conferences organized by local institutes and other international organizations such as the International Federation of Surveyors (FIG) and Pacific Association of Quantity Surveyors (PAQS). Through these visits and conferences, YSG members acquire a worldwide view of the surveying professional.

The professional image of the Institute is extended to the community by the works of YSG through a series of social events, volunteering works, joint events with various professional institutions and career talks to students of the universities and secondary schools in Hong Kong. HKIS was one of the participants in the annual Education & Career Expo hosted by the Hong Kong Trade and Development Council and YSG has been the coordinator for HKIS in the past few years.

## President's Report

# President's Report 2012-2013

## 會長報告

It has been a great honour and privilege to serve as the President of the Hong Kong Institute of Surveyors ("the Institute") for the council year 2012-2013. The past year has been both fruitful and challenging. The Institute has continued to raise its profile and has received widespread recognition by contributing its professional expertise and high professional standards for the improvement and betterment of the community.

It is my pleasure to share with you some of the works that we have accomplished and highlight the progress of the Institute in this Council year.

### Membership

#### Growth

At the end of November 2013, the Institute had a total membership of 8,821, representing a steady growth of 4.59% over the last year. Of the total number, 5,859 are Corporate Members, of which 262 were newly elected this year, representing an increase of 51% over the last year.

#### Life-long Learning

All members whether newly qualified or have been a professional surveyor for many years need to maintain a high level of competence in their professional practice and keep up with the latest developments in all related areas and in various forms including community and social service. There were a total of 165 Continuous Professional Development ("CPD") events on a wide range of professional topics that was organised during the year by the Divisions, YSG and HKIS.

#### Disciplinary Proceedings

As a reputable professional Institute, the HKIS is determined to uphold the integrity of the profession

and the image and status of our members under fair and established disciplinary procedures. All members have a responsibility to the Institute, the surveying profession, their clients and other members, and shall maintain a high and honourable standard of professional conduct when discharging their duties and in accordance with the highest standard of business ethics.

At the end of November 2013, there were eight valid complaint cases of which four were new cases received during the year. I would like to thank those members appointed to sit in the Committee of Investigation and Disciplinary Boards from time to time for their service to the Institute.

#### Secretariat Office

On 28 January 2013, the HKIS headquarters and Surveyors Learning Centre (SLC) moved to its new office premises at Rooms 1205-7, 12<sup>th</sup> Floor, Wing On Centre, 111 Connaught Road Central, Sheung Wan, Hong Kong. Although the size of the accommodation has been scaled down slightly, it still provides the same facilities as those provided at the old premises in Jardine House.

#### Mainland Representative Office

An increasing number of members are now working in Mainland China. A rapid increase of real estate projects in the Mainland has in turn led to many opportunities for surveyors. To provide services to members stationed in the Mainland and to facilitate closer communications with our Mainland counterparts and strengthen liaison with the Mainland authorities, the General Council endorsed a proposal for setting up a representative office in Beijing. The Beijing Office was officially opened on 12 November 2013.

## Promotion of the Industry

As surveying professionals, we are faced with many challenges and need to grasp every opportunity available. According to a survey we conducted earlier this year, about 70 per cent of the responding surveying practices said they had faced a shortage of surveying professionals in the past year and expected an increase in workload in the coming years. In response, the HKIS has stepped up its efforts to encourage more young people to join the surveying industry. The Institute has further strengthened its support for young members who are at an early stage of their career which have included offering scholarships to outstanding surveying students; the Building Surveying Scholarship for Secondary School students; Quantity Surveying Division Scholarship for outstanding performances in key quantity surveying subjects in bachelor and associate degrees and higher diploma courses.

Respective Divisions have participated in the

Information Days organised by the local universities to provide details about education, training and career development to prospective students interested in surveying courses being offered. They also visited other academic institutions and secondary schools for the promotion of the surveying profession.

The Institute also continued to promote the surveying profession in the annual HKTDC Education and Careers Expo.

## Researches

The Council approved research funding for three projects namely, Life Cycles of Building Elements and Components; Studies of Roles of Professional Land Surveyors in the Emerging Opportunities of Building Information Modeling (BIM); and A Feasibility Study in the Use of New Engineering Contract in Hong Kong.

## Collaboration with Industry And Counterpart Institutions

### Reciprocity Agreement

The Institute and respective Divisions have worked closely and maintained communications with counterparts and other professional bodies outside Hong Kong in order to promote the surveying profession further. On 25 March 2013, a signing ceremony was held for the renewal of the reciprocity agreement between the HKIS and the Chartered Institution of Civil Engineering Surveyors (ICES) in relation to the membership reciprocity between the Corporate Members of the Quantity Surveying Division and the Fellows and Members of the Commercial Management Stream of ICES after three years of collaboration. The new agreement is a result of the time and effort spent by both sides for closer collaborations between the two professional bodies.

### Joint Events

Apart from participating in the various events and activities of our counterparts in the industry, we also shared similar interests and objectives with other local professional and construction related counterparts. On 11 September 2013, the HKIS together with 12 professional bodies

co-organised a “Luncheon Talk by the HKSAR Chief Executive on Long Term Housing Strategy (LTHS)” at the Renaissance Hong Kong Harbour View Hotel. They included the Hong Kong Coalition of Professional Services, Hong Kong Institute of Certified Public Accountants, Hong Kong Institute of Architects, Hong Kong Construction Association, Hong Kong Institute of Construction Managers, Hong Kong Institution of Engineers, Hong Kong Institute of Housing, Hong Kong Institute of Landscape Architects, Law Society of Hong Kong, Hong Kong Institute of Planners, Hong Kong Institute of Real Estate Administrators, and Hong Kong Institute of Chartered Secretaries. We were honoured to have Chief Executive the Honourable CY Leung share his views on Hong Kong’s long term housing strategy, as well as summarizing and highlighting the LTHS’s consultation document.

On 9 August 2013, the HKIS organized the Annual SDI (Spatial Data Infrastructure) Conference on Building Information Modeling in collaboration with the Chartered Institution of Civil Engineering Surveyors, Hong Kong Institution of Engineering Surveyors and the Department of Land Surveying and Geo-Informatics of the Hong Kong Polytechnic University.

To recognize excellence and leadership in the industry, the HKIS jointly organised the Quality Property and Facility Management Award with The Hong Kong Association of Property Management Companies (HKAPMC) on 26 April 2013.

To facilitate a better understanding of the Chief Executive’s policy address which was delivered on 16 January 2013, a “Joint Institutes’ Forum on Policy Address” was co-organised on 28 January by the HKIS, the Hong Kong Institute of Architects, Hong Kong Institution of Engineers, Hong Kong Institute of Landscape Architects, Hong Kong Institute of

Planners, and Hong Kong Institute of Urban Design. The forum provided HKIS members the opportunity to share their views with a focus on the economy, land and housing supply, and the environment.

## Honorary Treasurer's Report

# Honorary Treasurer's Report

## For the Financial Year Ended on 31 July 2013

I am pleased to present the audited account of the Hong Kong Institute of Surveyors (HKIS) for the year ended 31 July 2013 for your information. The report has already been audited by the Institute's appointed auditor, Messrs Fok Chan Leung Wan CPA Limited.

The total revenue of HKIS for the year was HK\$19,168,645 which is about 3.75% higher than the revenue of HK\$18,477,233 for the previous year. The operating and administrative expenses for the year were HK\$25,362,002 which is about 53.34% higher than the expenses of HK\$16,539,202 for the previous year. The Institute recorded a deficit of HK\$6,193,357 this year. After deduction of the non-recurrent fit-out and reinstatement expenses for the new Wing On Centre Office and Ex-Jardine House Office and the increase of legal fee which together totalled more than HK\$7.3 million, the recurrent expenses only recorded a moderate increase and is considered commensurate with general inflation. The accumulated fund of HKIS at the end of the financial year was HK\$7,137,565, having reduced by 46.46% relative to the amount of HK\$13,330,922 for the previous year.

There was an increase of revenue this year for about 3.75% compared with last year mainly due to the slight increase in membership subscription, increased income from the Divisional activities, and income from the surveying company listing. Owing to the relocation of HKIS Office, the Surveyors Learning Centre (SLC) was closed temporarily early this year such that its rental income has been reduced quite substantially, otherwise the overall increase of revenue will be more than as recorded.

Whilst striving for continuous improvement of the Institute's member services, it remains a great challenge of the Institute to exercise stringent control on operational and administrative expenses, and simultaneously tap new sources of revenue. Most importantly, we have reviewed the budget for 2013, the rental charges for the new SLC, the annual membership subscription, the surcharge/administration costs for handling subscription in arrears and reinstatement of membership.

Members may recall my report of 2012 where I forewarned members of the likely reduction of accumulated fund owing to the relocation of HKIS Office and SLC. It was recorded as 46.46% lower than last year. However, the Institute could thereafter enjoy a saving in rental charges, rates and management fee expenses under the new lease. It is therefore opined that the accumulated fund will increase in the coming few years. Having taken into account the various effects, the financial situation of the HKIS is still considered as healthy.

On the Divisions and Young Surveyors Group accounts, the individual accumulated funds are listed as follows:

<b>Divisions</b>	<b>Accumulated Fund (HK\$)</b>
Building Surveying	645,660
General Practice	1,297,381
Land Surveying	105,812
Planning and Development	120,063
Property and Facility Management	231,829
Quantity Surveying	2,155,272
Young Surveyors Group	793,703
<b>Total:</b>	<b>5,349,720</b>

In concluding, I must say I am delighted to have the opportunity of serving as your Honorary Treasurer for two consecutive years and enjoyed a fruitful 2013 with all the members of the Institute. I would also like to take this opportunity to thank the Office Bearers, Members of the General Council and Finance Committee, and all staff of the Secretariat for their advice and unfailing support.

- maintained the membership Register and recordkeeping of member records;
- conducted discussion forums, Annual General Meeting and Extraordinary General Meeting in accordance with the Constitution and the decision of GC; and
- organized the housewarming party for the new HKIS Office.

In 2013, in the capacity of Honorary Secretary, I had taken part in a number of activities of the Institute and I would like to highlight some of them in this report:

## 1. House warming Party for New HKIS Secretariat and Office

- 1.1 An official opening ceremony for the new HKIS Secretariat and Surveyors Learning Centre was held on 18 March 2013 at Rooms 1205-1207, 12/F., Wing On Centre, 111 Connaught Road Central, Sheung Wan, Hong Kong which marked a new era for the Institute. Guests including Secretary for Development Mr Paul Chan Mo-po, Government officials, heads of Government departments, professional organizations and universities, and past Presidents of HKIS and members participated in the event. We were delighted to have Mr Chan as our Guest of Honor at the official opening. A ceremony for unveiling a commemorative plaque in recognition of the HKIS past Presidents of the past 29 years was also held.
- 1.2 I was delighted to be Chairman of the House Warming Party Organizing Committee. With the efforts of Committee members including Sr Rebecca Lo, Jason C W Chan, Jenny Yuen, Stephen Chan, Rebecca Lee, Tzena Wong and HKIS Senior Manager Margaret Yung, a marvellous ceremony and party was conducted.
- 1.3 Over 100 guests and members gathered on a warm and wonderful evening in the new Surveyor Learning Centre mingling with each other to celebrate the official opening of the new office.

Besides our Honorable Guest Mr Chan, we were also delighted to have the Under Secretary for Transport and Housing Mr S M Yau, Permanent Secretary of Development Ir C S Wai and the directors of various government departments, president of professional institutions and HKIS past Presidents present at the party. In order to acknowledge the achievements and the recognition of HKIS past Presidents, the Housewarming Organizing Committee designed a commemorative plaque engraved with the names of all the HKIS past Presidents. The commemorative plaque has been placed permanently at the HKIS reception for display.

## 2. Special General Council Meeting

*The HKIS New Office Opening and House Warming Party*

- 2.1 In January 2013 a **Working Group on the Review of Corporate Governance Structure** (WG) submitted a report (Report) to GC. The WG was commissioned by HKIS GC in December 2011 to review the corporate governance structure of the Institute. It was tasked to provide recommendation on any action to be taken to address members' concern on issues relating to the existing structure. These include division of responsibilities between the GC, the ExCom and the Boards; fulfillment of social responsibilities of the Institute; provision of satisfactory service to members; and continuity of tenure of office of the president and the vice-precedents etc.
- 2.2 The submitted Report was first discussed and debated in a HKIS Retreat session held on 2 February 2013. Diversified views were collated. HKIS **Office Bearers (OBs)** then held follow up meetings to discuss the way forward on the implementation of the recommendations of the Report and put them forward to the GC for discussion. Under the direction of the GC, two Special GC

Meetings were organized and some of the recommendations made by the WG were accepted. The Corporate Governance Structure review will be continued in the new GC with a view to implementing those accepted recommendations.

### 3. Open Forums

- 3.1 In 2013, two open discussion forums were organized to discuss the “Alternative Route to Membership” and “Termination of MMRM with RICS”.

#### 3.1.1 Forum on “Alternative Route to Membership” (Alternative Route)

*Forum on Alternative Route to Membership*

*Forum on MMRM*

BoM proposed the Alternative Route with the objective to admit professionals who meet certain criteria and have gained sufficient surveying professional experience to become HKIS members. The proposed routes to membership by experience were to cater for mature candidates who have proven industrial experience in the surveying profession, and who are in fact sharing the same career commitments and aspirations as our own members. Under the direction of GC, a discussion forum was organized on 22 May 2013 with over 50 members attending. The proposal was originally put to an EGM on 11 September 2013 to consider amendments to the HKIS Bye-Law. However, after further deliberation, the General Council at its meeting on 21 August 2013 reviewed the Alternative Route to Membership proposal and resolved to defer it for further review.

#### 3.1.2 Forum on the Memorandum of Mutual Recognition of Membership (MMRM) between the HKIS and the Royal Institution of Chartered Surveyors (RICS)

As directed by GC, a discussion forum was organized on 24 June 2013 to collect members' views on mutual recognition of membership between the HKIS and RICS. Attended by about 40 members, the forum was chaired by Sr Peter Wong, who is HKIS Past President and Chair of HKIS/RICS Liaison Committee. The termination decision was made after long time spent on discussion and deliberation within different divisions, committees and GC of the HKIS. On 2 July 2013, the HKIS issued a letter to the RICS to terminate the MMRM, with effect from 2 January 2014.

#### 4. The Proceedings of the Institute

During the year 2013, 11 Executive Council Meetings and six General Council Meetings plus two Special General Council Meetings were held by the GC to conduct the ordinary business of the Institute in accordance with the Constitution and Bye-Laws and the directives of the General Meeting.

Membership growth is an important task of the Institute. During the year, there was an overall membership growth of 4.55%. In terms of professional members, there were a total of 243 new members joining the Institute during the year.

## Divisional Council & Young Surveyors Group Reports

# Divisional Council & Young Surveyors Group Reports

## Building Surveying Division

**Sr Robin Leung**  
BSD Council Chairman

I am delighted to report the following during my term of Building Surveying Division Chairman in 2012-13.

### 1. Increase in membership

In 2013, the increase in the different grades of membership of Building Surveying Division (BSD) was as follows:

Grade	2012	2013	Increase	(%)
Fellow	84	92	8	9.52
Member	898	976	78	8.69
Associate Member	0	0	0	0
<b>Sub-Total</b>	<b>982</b>	<b>1068</b>	<b>86</b>	<b>8.76</b>
Probationer	714	683	-31	-4.34
Student	30	66	36	120
<b>Total</b>	<b>1725</b>	<b>1816</b>	<b>91</b>	<b>5.28</b>

The year 2013 marked the breakthrough of a thousand professional Building Surveyors. The significant increase in the number of student members indicated that building surveying as a subject was well received by university undergraduates. In this regard, it is anticipated that the number of probationers would increase in the coming years.

### 2. Keeping up with the Qianhai Development to utilize BS's expertise

We are actively involved in discussions with the Qianhai Authority, both directly or jointly with the Shenzhen Project Management Engineers Association ( 深圳市監理工程師協會 ). We signed a framework agreement on 9 December 2012 with the association to promote the joint implementation of professional services for the

development of Qianhai District offered by both organizations.

Several meetings with the Authority and the association were also held to discuss the future mode of project management for building projects in the Qianhai District. It is understood that the Authority will appoint a local General Practice Surveyor firm to deal with the land disposal matters in order to ensure cooperation between Hong Kong professionals and their counterparts in Shenzhen.

### 3. Implementation of Assessment of Professional Competence Reform for AMHKIS

Although no AMHKIS candidate sat for the Practical Task in 2013, the task has been designed to cater for the technical assessment and professional assessment. With the experience gained this year, the task will be further fine-tuned to suit the first batch of AMHKIS candidates to be assessed in 2014.

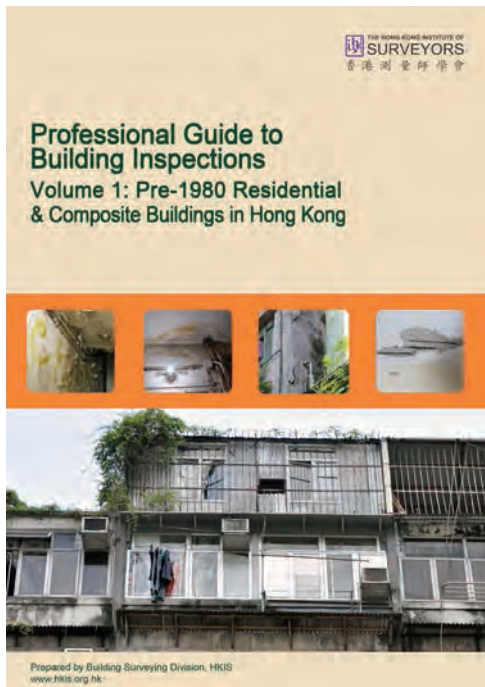

### 4. Launch of the Professional Guide for Detection and Diagnosis of Water Leakage in Residential Buildings

The main contents of the research have been completed. The steering committee of the study is now reviewing the presentation of the guide which would be launched in the near future.

### 5. Finalization of the Professional Guide for Building Inspection

With the dedicated efforts of the research team and the steering committee, the **Professional Guide to Building Inspection Volume 1: Pre-1980 Residential and Composite Buildings in**

**Hong Kong** was published in September and Corporate Members of HKIS in BSD can get a free copy from our administration office.

## 6. HKIS Building Surveying Scholarship and Eddie Lee Memorial Education Foundation for Secondary School Student

Out of the 10 awardees of the Scholarship 2012, one is now studying the undergraduate course in the University of Hong Kong in pursuit of a degree in surveying. In this regard, the 2nd stage scholarship to this awardee is being arranged. The Scholarship 2013 received another record-breaking number of applications and the working group is now conducting the necessary assessments. We hope that the presentation of the scholarship can be arranged in end December 2013 or early January 2014.

## 7. The List of Experts (Water Leakage)

The Panel worked very hard to make the list of experts (water leakage) and the list was finalized in October 2013. Pending the finalisation of the recommended fee scale, the list and the fee scale will be uploaded to the HKIS Website.

## 8. Promotional activities via our appointed Public Relations consultant

With the arrangement of our PR consultant, we have a regular column in the "Capital Weekly". The PR consultant also helped us arrange a workshop in June 2013 for secondary school students to draw their attention on the problem of unauthorized building work (UBW), in particular sub-divided units. The service agreement of the PR consultant will soon expire and the BSD Council will review its effectiveness for consideration on the way forward for our future promotional activities.

## 9. Monitoring of the renovation work of the new HKIS Beijing Office

Apart from contributing to the monitoring the renovation work of our new office in Sheung Wan, our fellow building surveyors stationed in Beijing helped a great deal in the renovation work of HKIS's Beijing Office which opened on 12 November 2013.

## 10. Regular gatherings with BSs and Discussion Forum

Although the first gathering in February 2013 received a very good response, the proposed second one in August was cancelled in view of

the low number of enrollments. On the other hand, we arranged a free CPD seminar on 6 August 2013 to facilitate a discussion on the handling of UBWs and on topics included in a Discussion Forum convened by the Buildings Department.

### 11. Enhancing BS's expertise in the area of Heritage and Fire Safety

A series of CPD seminars and visits have been arranged to enhance members' knowledge in heritage buildings and their conservation. A working group has also been formed to promote the maintenance of heritage buildings. For fire safety aspects, a panel has also been formed after a CPD seminar was held on fire safety assessment. We hope that our expertise in these areas can be enhanced with the effective operation of the working group and panel.

### 12. Press Conference and Press Release

We held two press conferences in January and June 2013 on the UBW related issue. We proposed a long-term strategy in handling UBW in January and a short & medium term strategy in handling sub-divided units in June. Apart from the two press conferences, we issued press releases to announce the publication of the "Guide to Prospective Homebuyers Care on Purchase, Take Over & Fit-out (Second Edition - 2013)" on 22 May 2013. Another press release was issued on 25 September 2013 to express our concern on the new tendering arrangement proposed by the URA.

### 13. Voluntary Services

The BSD will participate in the Voluntary Service for Housing Society Elderly Safe Living Scheme. We will provide voluntary professional advice on the feasibility and design as well as the supervision/monitoring of improvement works in elderly people's homes.

The BSD will also participate in the Pilot Scheme on Provision of Professional Advice on Appointment of Authorised Persons (AP) offered by the Home Affairs Department. The Hong Kong Institute of Architects is the other organization joining this scheme. We hope that we can assist those Owners' Corporations on the appointment of AP for the refurbishment work of their building.

### 14. China's Overseas Aid Projects

The BSD has met the officers of the Ministry of Commerce of the Mainland Government. It is understood that pilot projects will soon be offered to Hong Kong professionals in providing project management cum supervision services to their overseas aid projects.

# Divisional Council & Young Surveyors Group Reports

## General Practice Division

**Sr Francis Ng**  
*GPD Council Chairman*

This year, the General Practice Division (GPD) Council was successful in promoting the valuation professional standards. Highlights of work by the Council during 2013 are as follows:

### 1. HKIS Land Policy Panel

Convenor of the Land Policy Panel Sr C K Lau attended the LegCo's Development Panel meeting on the Northeast New Territories (NENT) New Development Areas on 8 December 2012. A written submission was also made.

About Public Engagement on Reclamation and Rock Cavern Development, a CPD was held on 23 May for the CEDD to brief our members on government proposals. Sr CK Lau also attended the Legco Development Panel meeting on this topic on 1 June 2013.

Stage 2 Community Engagement (CE) for Hung Shui Kiu New Development Planning and Engineering Study (the Study) commenced on 15 July 2013. The Study was intended to solicit public views on the preliminary Outline Development Plan to facilitate formulation of the Recommended Outline Development Plan in the next stage of the Study. To facilitate exchange of views, a briefing on the Study and related issues was arranged on 9 October 2013.

Other items being considered are: lifting of moratorium in Mid-Levels and Pokfulam and the New Development Area in Yuen Long South.

### 2. Development Cost Pro-forma and Cost Index

Residual method of valuation is commonly used

by practitioners when assessing the market value of development land. Construction cost is one of the major components in the residual model.

HKIS is pleased to promulgate a Development Cost Pro-forma ("Pro-forma") after consultation with practitioners. Members are encouraged to adopt such a Pro-forma when engaging in such assessments.

The Pro-forma covers five types of asset class: 1) office, 2) residential, 3) hotel, 4) shopping centre, and 5) industrial development. Items will include construction cost of the building, site formation, slope work, additional foundation cost, external work, car parks (above ground and at basements), extra tall building and costs for complying with the land grant requirements such as road formation, footbridge, green building features, etc. As construction cost has increased rapidly in recent years, a time factor which reflects adjustments to be made, from publication of relevant cost information to the date of assessment, has also been included.

The Pro-forma has been uploaded to the HKIS website.

### 3. HKIS/RICS(HK) Joint Guidance Notes for Commercial Rent Reviews in Hong Kong

The working group has circulated the draft document to the appointed experts for comment. It is intended that the Guidance Notes will come into effect in 2014. There may be some changes to the Practical Guide on the appointment process, as necessary.

#### 4. New Assessment of Professional Competence (“APC”) Rules and Guide and New Arrangements

Members may recall that after the EGM on 18 July 2011, a new APC scheme (“the New Scheme”) took effect on the same date. The New Scheme recognized the importance of professional knowledge in some specific areas and, as such, probationers undergoing the APC will have to attain the requisite standard. The GPD Education Committee convened by Sr Louie Chan with members Sr Edward Au, Joseph Ho, Thomas Chan and Lawrence Pang had re-vamped the GPD APC Rules and Guide in accordance with the resolution.

There are two parts under the New Scheme. Part 1 is a combination of (a) 12-month experience; (b) 20 hours pre-qualification structured learning (“PQSL”) for cognate degree holders [40 hours PQSL for non-degree holders] to be done within 12 months after a probationer completes part 1 of the written assessment; and (c) written assessments on four papers. Probationers who have passed Part 1 may proceed to Part 2 if they have accumulated a minimum of 24 months structured training. Part 2 is for submission of a critical analysis followed by an oral assessment.

The GPD Education Committee held a briefing session with some 50 GPD APC Assessors on 5 December 2012. The session was intended to promote the new APC scheme and, at the same time, briefed assessors about its operations. Under the new APC Scheme, only two projects (including a “Critical Analysis”) shall be included in the final submission. Candidates would have more preparation time comparing with the arrangements of previous years.

#### 5. APC and Structural Learning event

To help candidates preparing for the APC written examinations, the Education Committee convened by Sr Louie Chan with members Sr Edward Au, Joseph Ho and Thomas Chan had arranged 17 sessions (51 hours) APC SLP Revision Workshops to cover the entire syllabus of Part 1 of APC written examination.

The Learning Programme included: Valuation (15 hours), Agency Practice and Asset Management and Property Management (12 hours), Laws (12 hours) and Urban Land Economics and Analysis (12 hours). Candidates were required to complete at least 40 hours out of a total of 51 hours. At the same time, this SLP also served as CPD events for members. The lectures were delivered between May and September 2013.

#### 6. Valuation Standards Panel

The GPD set up a Valuation Standards Panel (the “Panel”) in 2010 to conduct a comprehensive review on the valuation standards. The intention was to maintain the best professional standards when preparing valuation reports. Convened by Sr Joseph Ho with members Andrew Chan, Charles Chan, Chiu Kam Kuen, Russell Austin, David Faulkner, Lau Chun Kong, Simon Lynch, Lawrence Pang, Tony Wan and Samuel Young, the Panel had reviewed the two HKIS valuation standards existing at that time – the HKIS Valuation Standards on Trade related Business Assets and Business Enterprises and the HKIS Valuation Standards on Properties. Both were first published in 2005.

The Panel proposed that a unified and concise set of valuation standards, which was mandatory for members to comply with, should be prepared to cope with changes in business valuations and financial reporting. Since publication of the two existing standards, there had been significant changes in the International Valuation Standards (IVS) published by the International Valuation Standards Committee (IVSC). The Panel had completely revamped the two existing standards and finished updating the draft document in November 2011, followed by several rounds of panel and GPD Council discussions, consultations with members and regulatory and professional bodies.

A new version of the valuation standards, “The HKIS Valuation Standards 2012 Edition” (the new “Standards”), was eventually endorsed by the HKIS General Council in October 2012. The new document was published on 1 January 2013 with a grace period of three

months. The new Standards superseded the aforementioned two valuation standards after publication. Hard copies of the new Standards are available for sale at the HKIS Secretariat. A free downloadable web version is also available at the HKIS Website ([www.hkis.org.hk](http://www.hkis.org.hk)). With effect from 1 April 2013, all HKIS general practice practitioners are bound by the new Standards. Members must adopt and abide by the new standards when preparing their valuation reports.

Two CPD events for the revised valuation standards were held on 26 February and 20 March 2013. The DVD version was also distributed to regulatory bodies and other professional institutes. Members are requested to note that it is mandatory to comply with the updated standards.

The Valuation Standards Panel held a round table meeting with several major surveying firms in June 2013 to discuss compliance with the mandatory inspection requirement. The meeting was convened by Sr Joseph Ho and during the meeting the principles concerning compliance with the mandatory inspection requirement were agreed. The HKIS GPD published an addendum to the existing HKIS Valuation Standards on 27 June 2013.

## **7. Roundtable Meeting on Intellectual Property Valuation (IP Valuation)**

HKIS was invited by the Director of Intellectual Property to attend a Roundtable Meeting on IP Valuation on 26 August 2013 (the Meeting). Represented by Sr Edward Au and Joseph Ho, HKIS joined the Meeting and presented our views. The IP Trading WG was set up, in accordance with the Chief Executive's announcement in his Policy Address 2013, to advise on the overall strategies to promote development of Hong Kong as an Intellectual Property (IP) Trading Hub, to identify policy and other support measures to facilitate IP trading in Hong Kong

The Working Group is now setting up a Sub-Group to study one of the specialized professional services under strategic area 3

- IP valuation. To facilitate setting up of the Sub-Group, the Working Group has engaged relevant stakeholders through the Roundtable meeting to gather and exchange views on how IP valuation could strengthen Hong Kong's position as an IP trading hub. The Meeting noted that HKIS GP surveyors possess the relevant professional skill and knowledge in carrying out IP valuation, and that IP valuation has been one of the core competences of GP surveyors in recent years. Besides, HKIS has also set up a mandatory valuation standard to govern its members when undertaking intangible asset valuation.

As briefed at the Meeting, Hong Kong is one of the innovative and creative economic leaders in the region and is currently a services-driven economy. As an established international financial and trading centre, Hong Kong possesses the potential infrastructure for trading intellectual property. Common challenges for the IP trading include the lack of capacity to capitalize the real value of their IP portfolios. Such trading must be supported by a range of IP intermediaries that add value to the transactions. In addition to IP valuers, other examples of IP intermediaries include related consultants, brokers, conference organizers, financiers, agents, lawyers, mediators and arbitrators.

## **8. Board of Education (BoE)**

The Accreditation working group of BoE vetted an Associated Degree course at the City University of Hong Kong and a High Diploma course at the Polytechnic University. Represented by Sr Edward Au, the working group had reviewed curricula and syllabus of these courses and visited the universities. They also interviewed the teaching staff and students to get better understanding of these courses and the teaching environment. Both associated degree courses were subsequently accredited by the GPD council for admission to associate membership application.

## **9. CIREA Subscription/Regulation**

Arrangement for collection of future membership fees was concluded with CIREA.

A MOU to that effect was executed by both institutes. GPD Council at its meeting on 18 April 2013 endorsed the principles for off-setting fees collected by the two institutes. Both institutes would collect subscriptions from their members direct with effect from 1 April 2013.

Collection of annual subscriptions and checking of the registration forms of the 2nd batch CIREA members were completed and the same was sent to CIREA for processing. For the 1st batch CIREA members, the annual subscriptions received were also remitted to CIREA.

#### **10. Revised Supplement to the Code of Measuring Practice**

The HKIS Standing Committee on Code of Measuring Practice, which was chaired by Sr Lawrence Poon with members from other divisions, met on 17 June 2013 to discuss problems in relation to operation of the new rules and the HKIS Code of Measurement. Thereafter, two ad-hoc meetings with the Sales of First-hand Residential Properties Authority were held to discuss the problems in hand.

The Standing Committee later met the Director of Sales of First-hand Residential Properties Authority (SRPA) on 9 July 2013. Issues related to saleable area based on the Residential Properties (First-hand Sales) Ordinance (Cap 621) and our Supplement to the Code of Measuring Practice were discussed. HKIS had identified the problems encountered (such as interpretation of the ordinance requirement, HKIS's Code, our views on conflicts between current practices and operation of our Code and the ordinance etc).

#### **11. CPD Events**

Our CPD conveners (Sr CW Jason Chan, KM Chau and Simon Poon) had actively arranged events for members had organized over 34 CPD and seminars including 17 sessions of SLP which also counted as CPD. It covered a wide range of topics from the Hong Kong property market, court decisions on land matters, Sale of First Hand Residential Properties Ordinance, Competition Ordinance, IT Related Legal

Issues, sale of properties through to transfer of company shares, PRC laws and regulations, etc. All events were well attended.

#### **12. Research paper on land supply**

GPD Council had agreed to carry out a research project on "Meeting 10 years forecast on land supply". Sr Jim Lam of the Research Committee would follow up action on this matter.

#### **13. Project Management**

The GPD Council noted that GP members also acted as project managers. In fact, some GP members were providing project management services to their clients for various development projects, corporate real estate services and cross-border valuation assignments. As such, the GPD Council had agreed to support preparation and publication of a list in the HKIS website on GP surveying firms which were providing project management services for development projects (including sales and letting and property management) and corporate real estate services.

#### **14. Guide to Establishing and Developing a Valuation Professional Organisation**

IVSC intends to provide guidance to new and developing bodies for them to eventually apply for Valuation Professional Organisation membership status of the IVSC at a later stage.

As discussed with IVSC, they would like HKIS (and others) to consider their thoughts on challenges confronting the profession in three aspects (some of which may overlap) namely: valuation profession globally; local valuation discipline and organisation both globally and nationally.

#### **15. Progress on Qianhai Development Meeting**

Sr Joseph Ho on behalf of the GPD had attended a brainstorming workshop on Qianhai Development on 8 January 2013. The meeting was to consider the government's action plan on how to promote local construction stakeholders to operate their business in

Qianhai. HKIS would propose to the Qianhai Development Bureau to allow local GP firms to set up its offices there free of any limitation / restriction; and to permit HK GP surveyors to provide services without any limitation / restriction on qualifications.

#### **16. Formation of Working Group on “Consultation Paper on Adverse Possession”**

A working group had been formed. It was convened by Sr Louie Chan with members Sr Jim Lam, Edward Au, Ringo Lam and Patrick Lee. Recommendations on Adverse Possession were sent to The Law Reform Commission in March 2013.

### **External Affairs**

### **Hon Treasurer Report – by Sr Jason CW Chan**

Over the past year (from November 2012 to October 2013), the GPD generated a total income of \$691,600.00, while the total expenses for the same period were \$223,740.64. That resulted in a net income of \$467,859.36 for fiscal year 2013.

The GPD's income came mainly from PQSL, CPD and social events, while expenses were primarily from venue charges, overseas events, and meal expenses for Council activities. The unaudited "Accumulative Balance of GPD" was \$1,284,434.12 as at 31 October 2013 (compared to a balance of \$816,574.76 as at the end of October 2012). Details of the breakdown of the GPD's account are annexed hereof.

## Land Surveying Division

**Sr Koo Tak Ming**  
LSD Council Chairman

First of all, I wish to express my sincere gratitude to all Council members and Office Bearers for their dedication to the work of the Land Surveying Division (LSD) this year. I truly appreciate the hard work from all committee/working group chairmen and members for their contribution to keep the business of the Division so successful.

### Serving the community

With the mission of contributing our professional expertise to serve the community, LSD has been working closely with the HKIS Office Bearers and Divisions to express our views in various areas for development of public policies. We have submitted our views to the Chief Executive and Financial Secretary in relation to the 2012 - 2013 Policy Address, in particular on (a) Determination of land boundaries and (b) Establishment of Cadastre system for engaging the public to participate in the management of land resources of Hong Kong.

We are glad to learn that the Government is working on a revised proposal for the amendment of the Land Survey Bill for enactment of legislation for determination of land boundaries for both old and new land. We shall further liaise with the relevant policy bureau to provide our views on the matters as far as possible. The standard and control of relevant professionals should be applied to all land boundary surveys instead of the limited scope as required in the Land Survey Ordinance today. We shall also urge the Government to consider establishing a public-accessible cadastre system in Hong Kong in facilitating efficient access of relevant land boundary information by the public.

On December 2012, the Adverse Possession Sub-committee of the Law Reform Commission released a Consultation Paper (the Paper) making preliminary

proposals for the reform of the law on adverse possession. The preliminary recommendations of the Sub-committee were made against a background of a deeds registration system (which is a register of documents) as still used in Hong Kong as opposed to a title registration system of land conveyancing.

A reply, jointly prepared by LSD and General Practice Division, was sent to the Adverse Possession Sub-committee on 15 March 2013 to express our views to the Paper and its recommendations. We opine that adverse possession has long been in practice historically and is legally sound in terms of the Common Law and the Basic Law in Hong Kong. We urge the Government to enact legislation for determination of land boundaries which will enable identification of the extent of land parcels with certainty. We strongly believe that good land governance requires the support of an effective land boundary system. The legislation for implementation of determination of land boundaries is necessary for bringing certainty to the location of land parcels. We opine that it is of vital importance for the Administration to take the lead to implement a legal framework for quality Determination of Boundaries through the Land Survey Ordinance.

### Activities in 2012 - 2013

1. The 8th Beijing Hong Kong Macao Geomatics Conference 第八屆京港澳測繪技術交流會. The one-and-half-day Conference was held successfully on 23 May 2013 on a sunny day despite the rainstorms (Black rainstorm warning) a day earlier. Our President, Sr Stephen Lai, welcomed the 140-plus delegates from Beijing, Hong Kong and Macau at the biennial conference which carried the theme:

「測繪新科技與智慧城市建設」。 We held one keynote session and four presentation sessions with a total of 20 papers submitted. The Conference provided a forum for practitioners, scholars, vendors from the regions to exchange knowledge and experience on the subjects through seminars, lunch and dinner.

2. In the 7th Hong Kong Building Information Modeling Appreciation Awards (HK BIM Awards) on 24 July 2013, BIM applications from building industry professionals as well as professionals for civil engineering projects were reported. They included a range of accomplishments of innovative use of BIM in building design decision-making, green and sustainable design decision-making, creative use of information in BIM, and business practice transformation in building and civils projects. BIM is a tool for professionals to enhance our productivity in all these projects. As a land surveyor, I regard BIM as a successor to the tools of computer-aided drafting (CAD) as well as the Geographical Information System (GIS) in the evolution of computer technologies over the past three decades. BIM enables us

to view the drawings in 3D with interactivity. The change in one view will automatically be reflected in other views to gain model data integrity with the advent of BIM.

*Hon Sr Tony Tse delivered the keynote speech on BIM*

3. HKIS conducted a technical Visit to Liaoning from 28 July to 1 August 2013. Liaoning Province has a total area of 148,000 square kilometers with total population standing at 43.89 million in 2012 and is the largest economy of Northeast China. We met representatives from government, including the

Liaoning Provincial Department of Housing and Urban-rural Development (遼寧省住房和城乡建设廳) and Liaoning Provincial Department of Land and Resources (遼寧省國土資源廳), to understand the latest updates from our counterparts in Liaoning. We introduced the work of land surveyors in Hong Kong and our plan to join in the examination of Registered Surveyors in Mainland during our meeting with officials from the Liaoning Bureau of Surveying and Mapping (遼寧省測繪地理信息局). We also learned the latest situation on their work in digital city, small and medium scale national mapping as well as their different level of map information sharing strategy for confidential use, government use and public use.

4. On 9 August 2013, LSD co-organised the SDI 2013 Conference jointly with ICES, LSGI of HKPU and HKIES to explore the use of Building Information Modeling (BIM) in the context of SDI. BIM surely will become a must for all types of tools and technologies for

innovative applications. The BIM technology creates new intelligent platform in promoting new working relationship among professionals of architects, surveyors, planners and landscape architects who participate at different stages and with different degree of involvement in a development project. BIM technology allows professionals to create and manage projects faster, with members of the team working more closely with each other throughout the cycle. There was the challenge to build an architectural and legal environment allowing the users of spatial data to easily interact with the Internet, and with a common and reliable platform to facilitate the accessibility and exchange of spatial data. The 2013 Conference has been successful in promoting BIM to build a wider user group of users from the government, the developers, the mainstream professions, Small and Medium Enterprises (SME) and young people.

5. HKIS Annual Conference 2013 Evolving Hong Kong – Infrastructure & Property Development was held on 14 September 2013 (Saturday) at the Grand Ballroom, Conrad Hotel, Hong Kong. The Conference aimed to provide a unique opportunity for real estate and construction professionals to review and explore the challenges and opportunities arising from infrastructure and property development in Hong Kong and also served as an important platform for industry stakeholders to exchange their experiences and views. Prof Ding Xiaoli, Chair Professor and Head of Department of the Department of Land Surveying and Geo-Informatics (LSGI) of the Hong Kong Polytechnic University, gave a talk on SDI, jointly prepared by Sr Dr Conrad Tang and

Prof Ding, at the Conference 2013. Prof Ding remarked that Hong Kong needed more land as land determined the well-being and future of Hong Kong. He expressed that we need much better information on our land and much better technology to manage the information.

6. The 7th Cross-Strait Geomatics Conference (第7屆海峽兩岸測繪發展研討會), jointly organised by the Lands Department, the HKIS, the Hong Kong Polytechnic University and the Hong Kong Institution of Engineering Surveyors, was held from 21 to 23 November 2013 at the L’hotel Nina et Convention Centre. We had the honour to have Secretary for Development Mr Paul Chan Mo-po as our guest of honour to deliver the opening speech. We had over 240

delegates from Mainland, Taiwan, Macau and Hong Kong at this conference. The theme of the Conference was “測繪地理信息、服務美好生活”.

## Education

7. We have maintained good cooperation with academia and have attended the regular liaison meeting and the Advisory Committee Meeting of the Department of Land Surveying and Geo-Informatics (LSGI) of the Hong Kong Polytechnic University (PolyU). We also participated in the Orientation Programme for newly enrolled students on 31 August 2013 at the new LSGI venue. At the event, we gave a brief introduction of HKIS to the students regarding routes to HKIS membership and all the assistance we can offer to facilitate their professional development.
8. We also helped to promote the industry to students through the Hong Kong Polytechnic University Education Information Day organized by LSGI on 5 October 2013. Our team explained in detail the education, training and career choices as well as developing skills in the industry to those prospective students who have a keen interest about the courses offered by LSGI. As members of HKIS, we look forward to welcoming future graduates on geomatics technology to strengthen our industry and to cope with future land development as well as construction work in Hong Kong. The LSD will endeavor to arrange and be involved in more events for young professionals and students to assist in developing their career and network with industry professionals.

*Sr Kenneth So gave a brief introduction of HKIS to the students.*

## Assessment of Professional Competence /ATC Reform and New LSD APC RULES AND GUIDE

11. The APC is a training and assessment scheme. Its purpose is to provide a path for those with recognized qualifications to seek for admission as a Member of the Institute. Through the Professional Training as required for the APC, candidates are expected to develop a high standard of professional and ethical competences. The warrant of such competences is achieved by the requirements and assessments as set out in this Rules and Guide. Candidates who receive professional training should opt to take the Part I Assessment Interview if they want to obtain associate membership before becoming a Member. Candidates of the respective qualifications, depending on the nature of training they receive, are required to undergo the minimum period of training as specified. Having identified the assessment components and training period as necessary, candidates can pursue the APC by undergoing the following processes as necessary using the APC forms specified and to fulfill the relevant requirements as described in the specified sections in the Rules and Guide.

12. The Syllabus Part I Examination of APC of HKIS LSD was revised in March 2013. The revised Syllabus is published on our website for all candidates who plan to take the Part I Examination. A LSD APC Part I Workshop was held on 16 November 2013 to help candidates familiarize with skills in taking Part I Exam under the new LSD APC Rules & Guide.

### Social Function

13. The LSD Annual Dinner 2013 was held on Friday, 18 October 2013 at Royal Plaza Hotel on Prince Edward Road West, Kowloon. We had the honour to have Sr Hon Tse Wai-chuen, the Legislative Councillor for the Architectural, Surveying and Planning constituency, and Dr Fu Peng-peng of Liaison Office of the Central People's Government as our honourable guests with the presence of HKIS OBs, Division Chairs and Board Chairs. It was an important

occasion to meet friends in the trade and the academic institutes. We were also delighted to have Sr Siu Wai-ching JP, Deputy Director (Survey and Mapping) and Sr Cheng Wai-pun, Assistant Director (Survey and Mapping) of the Lands Department as our head table guests. ## Planning & Development Division

**Sr Raymond Chan**  
PDD Council Chairman

### 1) PDD Council 2013-2015

PDD Annual General Meeting (AGM) 2013 was held on 8 November 2013 in the Surveyor Learning Centre. The Council Members for the term 2013-2015 were elected at the AGM.

The new PDD Council for 2013-2015 is composed of:

- Sr Dr Leung Ka Tung, Tony (Chairman)
- Sr So Chun Hin, Albert (Vice-Chairman)
- Sr Prof Pong Kam Keung, James (Vice-Chairman)
- Sr Chong Wing Hong, Ben (Hon. Secretary)
- Sr Mok York Yee, Cyrus (Hon. Treasurer)
- Sr Chan Yuk Ming, Raymond (Immediate Past Chairman)
- Sr Tsang Ching Lun, Edwin (Member)
- Sr Yu Kam Hung (Member)
- Sr Yew Yat Ming, Edmond (Member)
- Sr Chan Jing Yun, Stephen (Member)
- Sr Victor Ng (Co-opted Member)

### 2) Growth of the Division

The number of members of the Division increased from 63 to 67 this year. The allocation of the members including fellow, corporate, probationer and student members are as follows:-

	As at November 2013
Fellow	23
Member	38
Probationer	3
Student	3
<b>Total</b>	<b>67</b>

Such an increase in numbers of members demonstrated that there is a growing need for planning and development surveyors.

### 3) Recognition of HKU MSc(Urban Planning) Program

The Division has been working closely with universities to train up more P&D Surveyors. In early 2013, the Division agreed with the University of Hong Kong (HKU) that the 4-year Urban Studies Programme can be accepted as a cognate degree for admission to APC Examination. The Division also agreed that graduates of MSc (Urban Planning) Program will be eligible to sit for PDD APC upon the completion of top-up courses.

### 4) Technical Visit to Shanghai

The PDD Council visited Shanghai together with the HKIS's Mainland Committee during 10-12 April 2013. During the three-day visit, we met academics, government officials, and developers and made significant progress in: -

- i. Exploring the possibility of setting up courses in Shanghai to train up P&D Surveyors;

- ii. The promotion of P&D Surveyors' services; and
- iii. Liaising with HKIS members who are working in Shanghai.

The visit successfully opened up opportunities for cooperation and for the further development of P&D Surveyors' professional services in China.

#### 5) Learning opportunities and liaison with the mainland and international organizations.

- Our council members attended the 2013 Mainland and Hong Kong Construction Industry Forum "Developing Quality and Innovative Construction to Promote "Going

Global", jointly organized by Development Bureau and the Ministry of Housing and Urban Rural Development in October in Ningbo, China. This was an industry-wide platform for the Hong Kong and Mainland construction stakeholders to share knowledge and experience, as well as building networks.

- Our council members took part in Technical Visit to Liaoning, China in July 2013. We visited several construction and land related government departments, a university, and leading property developers and shared with them their insights on future growth. At the same time, we exchanged our views on sustainable development.

## Property & Facility Management Division

**Sr Dick Kwok**  
PFMD Council Chairman

### Promoting Green Management and Green Buildings

This year, we put additional emphasis on the performance of green management operations and how they could be implemented innovatively. I attended meetings and conferences with other professionals (e.g. architects, engineers, landscape architects, surveyors, and town planners) who all shared the same passion for promoting green buildings in Hong Kong.

Collaboration among different stakeholders is the key to advancing the green building movement. As key stakeholders, we actively participate in and contribute to the cause to improve our environment and save our planet. Moreover, our Council has restarted the drafting of the Green Management Practice Guide with the assistance of a specialised consultant.

In view of the public's increasing green awareness and the implementation of more green initiatives for existing buildings, I have contributed to and shared my professional knowledge and experiences as a Property and Facility Management (PFM) surveyor for the BEAM Society during my tenure as the nominated director for the 2012-14 term. Moreover, the BEAM Plus Existing Building rating tool is now undergoing a full revamp. We need to place more emphasis on green management operations and energy efficiency rather than simply focusing on building designs and infrastructural aspects.

Due to my involvement in the various task forces and working panels, I have noticed a strong motivation and determination among a group of professionals to improve Hong Kong's carbon emissions record and achieve a sustainable environment.

### Involvement in the Government's Legislation and Publications

In January 2013, I attended a Joint Institute Forum co-organised by the six professional institutions in Hong Kong: the HKIA, HKIE, HKILA, HKIP, HKIS, and HKIUD. That was the first-ever collaboration among the six professional institutions in response to the Chief Executive's Policy Address. The main focus was on the economy, land and housing supply, and the environment. As we eagerly seek a solution to sky-high residential property prices, we must also find a way to strike a balance between developmental needs and environmental protection.

Concurrently, a joint collaboration with the BSD was initiated to provide professional services on a pro bono basis for the Home Affairs Department's

(HAD) “Proposed Pilot Scheme for the Provision of Professional Advice to Owners’ Corporations on the Appointment of APs for Building Maintenance Works”. This pilot scheme aims to advise and provide building owners with samples and basic documents relating to tenders and contracts, help them understand the proper and correct procedures for tendering exercises and procurements, and guide them on how to prepare for owners’ meetings in compliance with the meeting procedures, according to the Building Management Ordinance and Deed of Mutual Covenant.

This year, we produced a new publication called “Standard Property Management Agreement” in both English and Chinese. It is the second such publication to our last issue of the “HKIS Guide to Good Property Management Practice”. We wish to provide the property management industry with a standard document for reference and advocate its broad adoption by owners’ corporations.

### The 2012 Quality Property and Facility Management Award (QPFMA)

The evening of 26 April 2013 marked a perfect ending to the 2012 QPFMA ceremony. The Award Presentation Banquet was officiated by our Guest of Honour, Mr Wong Kam Sing, JP, Secretary for the Environment. This year, we placed additional emphasis on the performance of green management operations and how they can be implemented innovatively. To cope with calls to expand the award categories, we extended the coverage in the residential/non-residential category. As a result, a total of 174 nominations were received. The Jury Panel finally shortlisted 34 winners. I am proud to announce that every award-winning project represented a high standard of quality services and excellence in teamwork. This reflects a wide recognition of the awards and demonstrates the eagerness of practitioners to pursue excellence, professionalism, and service quality. It also echoes our main theme of “Championing innovative service through quality management 服務顯創意 管理尚優質”.

The QPFMA is a biennial award jointly organised by the HKIS and the Hong Kong Association of Property Management Companies (HKAPMC). The award also honours and stimulates greater public recognition of the outstanding projects in the property and facility management industry. All of the award-winning projects delivered contemplative performances in terms of bringing comfort, safety, and security to their users and occupiers, whilst complying with the law and respecting the environment.

### CEPA

Our division has been maintaining close contact with the China Property Management Institutes. In March 2013, I joined a reception led by the HKIS's Planning and Development Division (PDD) with guests from the Shanghai Committee of the Chinese Communist Party and the Hong Kong-Shanghai Economic Development Association. I took this opportunity to express our intention to meet with our counterpart institutions in Shanghai and seek their assistance in arranging our first official visit to Shanghai. Later, in November 2013, we joined the CEPA Committee to visit Beijing in order to establish a closer relationship and ties with our Mainland counterparts.

### Membership Growth

Membership growth is always our division's concern. In 2013, five new members joined our division, so total membership has now increased to 745. In addition, we welcomed four new probationers bringing the total to 44 as at November 2013. With efforts made to publicise ourselves to undergraduates, we expect more young graduates to join our division after being informed of the bright career prospects for PFM Surveyors.

### CPD Event and Seminars

A total of 22 hours of events, including seminars, conferences, and site visits, were arranged. These included a CPD event on "Facility Management for the Elderly in Public and Subsidising Housing" and a tour to Mei Ho House, which is now designated

a Grade 2 Historical Building. The events received an overwhelming response from members.

Furthermore, I represented the HKIS in presenting a paper on "Asset Appreciation through Life Cycle Management" in a seminar on "Sustainability in Asset Management". The seminar was organised by The Hong Kong Quality Assurance Agency for practitioners such as property developers, facility managers, and asset managers. The talk was well-received by participants.

Our CPD work group organised a number of CPD events for the second half of 2013. These included a site visit to the Grand Award Winners of QPFMA 2012, a hotel management talk, a Mandatory Building and Window Inspection Scheme that focused on the property management aspect, and a tour to the Yau Ma Tei Theatre, etc.

### The Way Forward

Our Council has been making every effort to forward members' concerns to the HAD regarding the legislation to license property management companies and practitioners. The coming year will be challenging - the draft bill was put before LegCo in late 2013 and we expect to see the introduction of the aforementioned legislation.

Finally, I wish to thank Council members for their valuable contributions to and unfailing support for the growth and development of the division. Without your efforts, the Council would not have achieved so much. Also, thank you for supporting your fellow members and I look forward to the continued success of our division in the coming year.

## Quantity Surveying Division

**Sr Keith Yim**  
QSD Council Chairman

### 1. Introduction

Time is flying. With one blink of the eyes the tenure of the chairmanship of the Quantity Surveying Division (QSD) for the Council Year 2012/13 is about to finish. It is time to review what the Council has done during the last 12 months. This Report will highlight the various activities and events that the Council has accomplished over the past 12 months.

### 2. Mainland Affairs

#### 2.1 Presentation Ceremony for Certificates and Stamps for Registered Cost Engineers (PRC-Hong Kong Region)

The Ceremony was held at the Crowne Plaza Suite Hotel, Shenzhen, on 12 December 2012. The guests from the Mainland included:

Ms Xu Hui Qin 徐惠琴理事長	中國建設工程造價管理協會 (CECA)
Ms Tan Hua 譚華處長	住房城鄉建設部 (MoHURD)
Mr Wu Zuo Min 吳佐民秘書長	CECA
Ms Kong Xian Zhen 孔憲珍主任	CECA

The guests from Hong Kong included:

Sr Serena Lau	President of the Institute
Sr Stephen Lai	Senior Vice President of the Institute
Dr Fu Peng Peng	Liaison Office of the Central People's Government in the HKSAR

Sr Kenneth Poon	Association of Consultant Quantity Surveyors
Sr Michael Yu	Association of Consultant Quantity Surveyors
Sr C C Lai	Association of Consultant Quantity Surveyors

A total of 65 members have been approved by MoHURD as Registered Cost Engineers. At present, there are altogether 144 members who have successfully registered with the Mainland Authority as Cost Engineers. The certificates and stamps were presented by our guests from the Mainland.

#### 2.2 Technical Visit to Shenyang, Liaoning Province

A delegation of 11 members of the Institute led by the President, Sr Stephen Lai, paid a visit to Shenyang, Liaoning Province from 28 July to 1 August 2013. The Immediate Past Chairman, Sr Thomas Ho, represented the QSD on this visit. The purpose of the visit was to introduce the Institute and the surveying profession to various government departments and related organizations in Liaoning Province and to explore possible cooperation between the surveying professions in the two places.

During the visit, the delegation met representatives from the Department of Housing and Urban-Rural Development of Liaoning Province; the Liaoning Provincial Department and Land and Resources; the Liaoning Provincial Department and Land and Resources;

the Liaoning Bureau of Surveying and Mapping; the Liaoning Provincial Office of Overseas Chinese Affairs; the Overseas Chinese Affairs Office of Shenyang Municipality; the Shenyang City Urban and Rural Construction Committee; and Shenyang Jianzhu University.

### 2.3 Mainland and Hong Kong Construction Industry Forum 2013

I represented the Council to attend the Mainland and Hong Kong Construction Forum 2013 organized by the Ministry of Housing and Urban-Rural Development, the Ningbo Municipal People's Government, and the Development Bureau of the HKSAR Government, from 20-22 October 2013 in Ningbo, Zhejiang Province. The delegation from the Institute was led by our President, Sr Stephen Lai, who also delivered a talk on "How to Improve the Current Practice of Cost Management on Construction Projects". At the forum, which carried the theme "發展高質創新建造、推動企業「走出去」", distinguished speakers from the Mainland and Hong Kong shared their experiences on this topic.

### 2.4 Foshan Engineering Cost Association (FSECA), Mainland China 佛山市工程造價協會

A delegation comprising over 30 members from the Foshan Engineering Cost Association 佛山市工程造價協會 led by 余建平站長 of 廣東省佛山建設工程造價站 and 嚴偉鋒會長 visited the Institute on 19 November 2013. The delegation was received by Sr T.T.

Cheung, Sr Dr Paul Ho, Sr Thomas Ho and myself. We held a panel discussion with the delegation to compare the full scope of services (全過程工料測量服務) provided by Consultant Quantity Surveying firms in Hong Kong and the local consultant firms in the Mainland. Members may be aware that Consultant Quantity Surveying firms from Hong Kong would normally provide full scope of services to clients in Hong Kong and the Mainland while our counter-parts would only provide partial services due to the restriction on the scope of services imposed by the qualification certificate (資質證書). Another reason may be the fact that our counterparts have never been requested to provide such extensive services by their clients. As a matter of fact it is uncommon for Mainland clients in the Pearl River Delta Region to request consultants to provide a full scope of quantity surveying services for their projects.

The panel discussion was well received by the delegation. For their closing remarks, 余建平站長 and 嚴偉鋒會長 invited the Council to visit them and organize a seminar for their members in the future.

### **2.5 Third Batch of the Assessment Exercise for CECA Qualification**

The Mainland Sub-committee conducted two meetings with CECA in May 2013 and November 2013 which were held in Xian and Beijing respectively. Some of the major criteria for signing the Supplemental Agreement have been tabled and discussed. Upon the approval of the Council and the Institute, we are then in a position to execute the Supplemental Agreement with CECA. Further meetings with them are required in order to finalise the details. The Council will be working hard to achieve this result.

## **3. International Affairs**

### **3.1 Signing of the Reciprocity Agreement between the HKIS and the Chartered Institution of Civil Engineering Surveyors (ICES)**

The Reciprocity Agreement between the HKIS (QSD) and ICES has been renewed for three more years. The Agreement was signed by the respective Presidents of the Institute at the Annual Dinner of the Hong Kong Region of ICES. The signing ceremony was witnessed by Mr Enoch Lam, the Deputy Secretary for Development (Works) and other guests.

### **3.2 Meetings with International Organisations**

#### **3.2.1 Meeting with the President of the Chartered Institution of Civil Engineering Surveyors**

The President of ICES, Mr Alan Barrow, visited the Institute on 21 March 2013. Mr Barrow was accompanied by a delegation of nine persons from their Hong Kong Region. Wong, Sr Thomas Ho, Sr Daniel Ho, Sr Sunny Chan, and Sr Franki Yeung also kindly spent some of their precious time to join the meeting.

Mr Barrow mentioned that ICES had signed a Memorandum of Understanding (MoU) with the RICS. He briefed us on the background of the MoU, which essentially deals with the recognition of the professional standing of the ICES and RICS in their respective sectors of the industry. During the meeting, we also took the opportunity to introduce the latest developments of our Institute in the Region. After the meeting, ICES kindly hosted a dinner for the Institute.

### 3.2.2 Meeting with The Association for the Advancement of Cost Engineering International (AACEI)

Dr Alexia Nalewalk, the Vice Chairperson of the International Cost Engineering Council (ICEC) and Director of External Affairs of The Association for the Advancement of Cost Engineering International (AACEI), visited the Institute on 26 September 2013. The Office Bearers of the Institute, Sr Simon Kwok, Senior Vice President, and Sr Edward Au, the Hon Secretary, took time out from their busy schedules to receive the guest, who had come all the way from the United States.

During the meeting, we explored the possibility of collaboration between the two Institutes. Both Institutes considered that the provision of training to members is one area in which the AACEI and HKIS could collaborate. In addition, each Institute could help the other promote its Continuing Professional Development (CPD) events, seminars, conferences, etc., for the mutual benefits of both Institutes' members. The Council opined that there are new areas of knowledge in which the AACEI was strong and into which the HKIS could tap.

Both Institutes intended to explore the possibility of signing a Memorandum of Understanding for further collaboration on the aforementioned matters. Council Members, Sr T. T. Cheung, Sr Daniel Ho, Sr Thomas Ho, Sr Antony Man, Sr K. L. Wong, Sr S. C. Tse, Sr Dr Sandy Tang, and Sr Evelyn Kwok had kindly spared the time to attend the meeting with Dr Nalewaik.

### 3.3.2 The 27th International Project Management Association (IPMA) World Congress 2013 in parallel with 2nd ICEC/IPMA Global Congress

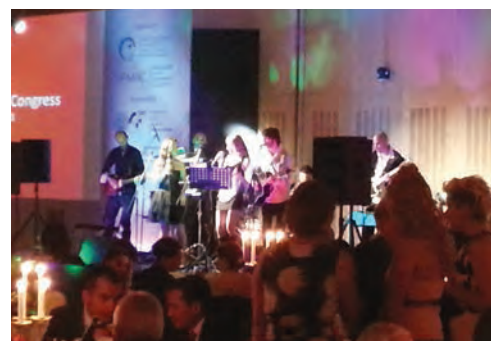

Sr T. T. Cheung, the Past President of the Institute, and I represented the QSD Council

in attending the above congress, which was co-organised by the IPMA and International Cost Engineering Council. It was held from 30 September to 3 October 2013 in Dubrovnik, Croatia. The theme of the Congress was “Finding Balance & Moving Forward”. More than 700 delegates from all over the world were in attendance. In order to cater for the large number of delegates and parallel sessions, the congress was held at three different hotels, namely the Hotel Valamar Lacroma (the Main Conference Hotel), Hotel Valamar President, and Hotel Royal Princess. There were six keynote speakers and 12 parallel sessions, some of which were related to quantity surveying / cost engineering. In addition, there were several workshops and panel discussions on interesting topics in respect of project management and cost engineering.

Sr T. T. Cheung presented a paper entitled, “Planning and Control of Construction Cost for Public Rental Housing Development in Hong Kong”. Apart from being a presenter, he also acted as facilitator for a parallel session on cost engineering. Delegates from other ICEC member countries, such as Australia, Egypt, the United States, Denmark, Norway, Brazil, Hungary, the Netherlands, Turkey, Bosnia, and the United Kingdom, also shared their experience on cost management of construction projects.

During the congress, Sr Samson Wong, Chairman of Project Management Committee of the Institute, Sr T. T. Cheung, and I took the opportunity to meet the President of the IPMA, Professor Mladen Radujkovic, to understand more about the organisation’s structure. Similar to ICEC, the IPMA comprises members from association of different countries and regions. It was noted that more and more professional quantity surveyors have taken up the role of project managers in the Mainland and Hong Kong. The opportunities are there for the Institute to explore if we need an international platform for our members to keep abreast with international project management practices and trends as well

as sharing our unique experiences in managing complex and fast-tracked projects that are common in Hong Kong.

**4. Cocktail Reception cum Diploma Presentation for Hon. Fellow, Mr Ong See Lian**

At the last Annual General Meeting of the Institute in December 2012, it was decided that the Council’s recommendation of conferring the title of Hon. Fellow to Mr Ong See Lian be approved. The cocktail reception cum diploma presentation was eventually held on 29 October 2013 at the Surveyors Learning Centre (SLC) of the Institute.

We had the honor to invite the Senior Vice President of the Institute, Sr Simon Kwok to present the membership diploma to Mr Ong See Lian. The ceremony was well attended by some of the Institute’s Past Presidents and Divisional Chairmen including Sr T.T. Cheung, Sr Prof Anita Liu, Sr Nelson Cheng, Sr Dr Paul Ho and Sr Thomas Ho. The Office Bearers and members of the Council also joined the event to share in the festivities.

After his acceptance speech, Mr Ong delivered a CPD talk entitled “Sustaining Growth Through Economic Turbulence” for the Council. He drew the audience’s attention to how professionals such as surveyors can face the full brunt of economic crisis and turn these challenges into opportunities. He highlighted six critical success factors and seven principles for growth. The advice advocated by Mr Ong would be very useful for us during the next recession. I am sure that everyone in the audience left the SLC with valuable advice under their belts.

The Council is very proud to have such a prominent figure as Mr Ong as an Honorary Fellow of the Institute.

**5. Liaison with Bureau and Works Departments of Hong Kong Government**

**5.1 Meeting with the Secretary for Development**

With the kind assistance of our Past President, Sr T. T. Cheung, the QSD Council was able to meet Mr Paul Chan Mo-po, MH, JP, the Secretary for Development, to exchange views on a number of topics, for instance, the implementation of NEC 3 Contract on civil and building works projects. The meeting was held at the Central Government Offices on 3 May 2013. Members who attended the meeting included Sr T. T. Cheung, Sr Thomas Ho, Sr K. L. Wong, Sr Honby Chan, Sr Jesse Wong, Sr S.C. Tse, and myself. The meeting provided a platform to exchange views on issues of common interest. The

Council will endeavor to initiate more meetings with the Development Bureau should circumstances dictate it.

## 5.2 Meeting with the Electrical and Mechanical Services Department

The Council was delighted to meet the Electrical and Mechanical Services Department (EMSD) on 14 August 2013 at its headquarters in Kowloon Bay. The meeting was attended by Mr Alfred Sit, Deputy Director of Regulatory Services; Mr Tai Tak Him, Assistant Director; and Mr S. L. Tang, Contract Advisor. Representatives from the Council included Sr T. T. Cheung, Sr Spencer Kwan, Sr S. C. Tse, Sr Thomas Ho, Sr Raymond Kam, Sr Raymond Kong, and myself.

Various issues relating to QS involvement in M&E engineering installation works were discussed. We also spent time sharing our experiences in M&E maintenance works in the private and government sectors. It was apparent that the EMSD showed interest in what the QSD Council could offer in terms of enhancing cost control and contract management of its operations and maintenance and repair works. In closing the meeting, we agreed that more meetings should be held to provide further opportunities for exchanging views and exploring the possibility to initiate an innovative approach on contract management. Once the EMSD's Management Board agrees, it plans to set up a working group with the QSD to work towards this end.

## 6. International Quantity Surveying Building Information Modelling (BIM) Conference 2013, Hong Kong

The one-day conference was successfully held on 9 November 2013 at the Chiang Chen Studio Theatre of the Hong Kong Polytechnic University with a full house of approximately 250 attendees. We were pleased to have

Mr Paul Chan Mo-po, the Secretary for Development, as our Guest of Honor and Ms Ada Fung, the Deputy Director of the Hong Kong Housing Authority (Development & Construction), as our keynote speaker. The Council was very pleased to have invited some of prominent figures in this specialized area on the application of the BIM technology in quantity surveying - particularly in the areas of cost, contract and commercial management of construction projects from the Asia Pacific Region - to deliver talks for us.

The conference was truly international with speakers from Australia, Malaysia, Singapore and Sri Lanka. The audience enthusiastically raised questions to speakers to resolve their misconceptions about Building Information Modelling. Members who did not attend the conference, but who remain interested in these topical issues, can download the conference papers and proceeding at: <http://www.hkis.org.hk/hkis/general/events/bimconf-2013S.pdf>

I would like to take this opportunity to thank the conference co-organizer, the Hong Kong Polytechnic University, Department of Building and Real Estate, all sponsors, supporting organizations, speakers and helpers for their earnest support for this conference.

Finally may I extend my sincere thanks to the Organizing Committee of the Conference under the chairmanship of Sr K C Tang for its unfailing efforts in organizing such a well-received and unprecedented event in such a short period of time without the assistance of professional event organizing company.

## 7. Assessment of Professional Competence (APC)

### 7.1 Assessment of Professional Competence (APC) 2012

The Assessment of Professional Competence (APC) 2012 has been completed. There were a total of 261 attempts at the old APC System with 82 candidates satisfying the assessment requirements and thus were eligible for membership in the Institute in due course.

Last year marked the first attempt on Part 1 APC under the new APC Reforms, which were implemented in 2011. A total of 70 out of 78 candidates passed the written assessment. Among those who passed, 18 candidates applied for Associate Membership of the Institute. All candidates were notified of the results.

I would like to take this opportunity to congratulate those candidates who passed

the APC (the old system) and the Part 1 APC (the new system) and to welcome them as our Members and Associate Members.

### 7.2 Assessment of Professional Competence (APC) 2013

The Assessment of Professional Competence 2013 was held from 16 to 18 September 2013 at the Kowloon International Trade and Exhibition Centre (KITEC), Kowloon Bay. Sixty-nine candidates sat for the Part 1 Paper while another five candidates attempted both the Part 1 and Part II Papers of the new Assessment of Professional Competence (APC) Scheme. As far as the old APC Scheme was concerned, approximately 230 candidates sat for the assessment papers. All of the papers were distributed to assessors for marking. To ensure fairness to all candidates, all papers would be marked by at least three assessors. There were, altogether, over 300 members who are on the panel of assessors.

It should be noted that those candidates who pass the written papers are required to attend an interview with a panel of three interviewers. The Divisional Education Committee (DEC) has tentatively fixed a date for conducting interviews on 18 January 2014 (Saturday). Last year all interviews were completed in one day. By adopting this practice, the Sub-committee should be able to reduce the assessment time and, hence, allow us to announce the results earlier. Every year there is tremendous demand for interviewers to interview candidates. This is the moment for fellow members to have face-to-face discussions with the new blood of the profession.

### 7.3 APC Assessors' Briefing Session

The Council organized a briefing session for Assessors of the APC on 11 October 2013 at the World Trade Centre Club. More than 110 Assessors and Council Members attended the briefing session,

which aimed at discussing the marking scheme, suggested answers, common mistakes, and frequently asked questions. Following the briefing session, a buffet dinner was served to the Assessors.

## 8. Training and Continuing Professional Development (CPD)

### 8.1 Continuing Professional Development (CPD)

The CPD Sub-committee successfully organized 55 CPD events during the Council Year. The events include delivering talks by guest speakers, conducting training sessions and workshops and carrying out site / factory visits. Judging from the overwhelming response of our members, we consider that the quality and contents of the CPD events satisfied our members. Members would note that many site / factory visits had been organized by the Sub-committee over the past few years. We believe that members would gain more knowledge of the latest developments in construction technology through site / factory visits than from reading or lectures. This would further enhance members' continuing education and, indeed, has been proved useful in the workplace.

It is a pity that only a handful of members had the opportunity to join the site / factory visits. The following is a list of the visits that the CPD Sub-committee had successfully carried out: -

- Site visit to the Hong Kong-Zhuhai-Macau Bridge
- Site visit to Mei Ho House (Grade II Historic Building)
- Visit to factory with a gypsum block wall system production line in Guangzhou
- Visit to a glass factory in Huizhou and aluminium window / door / curtain wall factory in Shenzhen

- Visit to a factory that made pre-cast concrete elements, steel moulds, Starfon, GRC and GRG, and to the BIM Centre in Huizhou

Many thanks to the CPD Sub-committee under the chairmanship of Sr K. L. Wong for its great efforts in organizing so many CPD events for members to attend. The CPD Sub-committee would keep working hard to organize more high quality / level CPD events in future.

### 8.2 Pre-qualification Structural Learning Programme (PQSL)

The Training Sub-committee successfully organized 15 sessions of PQSL programme for probationers to attend during the Council Year. It covered various aspects of quantity surveying practice for which the probationers should be acquainted with prior to attempting the Assessment of Professional Competence.

The Training Sub-committee would organize similar events in the next Council Year as per the core competence requirements of the APC for probationers to attend.

## 9. Research Projects

The research project entitled “Case Studies and a Survey of BIM Applications in Hong Kong Quantity Surveying Profession” had been submitted by the Research Team. Upon incorporating the comments given by the Education & Research Sub-committee, the research project would be submitted to the Council for approval. It is hoped that the research project would be endorsed by the Council in due course.

Another research project led by Sr Leung Hing Fung, the Associate Professor of the Department of Real Estate and Construction, the University of Hong Kong, had been approved by the General Council. The project title is called “A Feasibility Study in the Use of New Engineering Contract in Hong Kong”. The research project would take two years to complete.

## 10. Publications

### 10.1 The Standard Form of Maintenance Contract (Buildings)

The QSD Council has been collaborating with the Building Surveying Divisional Council to draft a new Standard Form of Maintenance Contract (Buildings) over the past few years. The final draft has been approved by the Institute and has been forwarded to the publisher for printing. The new Maintenance Contract will be on sale very soon. The Contract Sub-committee will determine a suitable time to officially launch it. The Maintenance Contract should be well-received by the general public and industry. The drafter is now working on the Chinese translation of the Contract.

### 10.2 Hong Kong Standard Method of Measurement for Building Works, Fourth Edition 2005 (SMM4)

The corrigenda to amend the typographic errors of the SMM4 had been agreed by all the stakeholders of the standard documents. Hard copy of the fully amended version of the SMM4 would be available for sale at the Institute by the end of December 2013.

### 10.3 Standard Form of Building Contract 2005 Edition

The Contract Sub-committee is now working on the amendment for Nominated Sub-contract and nominated supply contract. It is hoped that the exercise could be completed in the next Council Year.

## 11. Promotion

### 11.1 HKIS QSD Scholarship Presentation Ceremony 2013

The HKIS QSD Scholarship Presentation Ceremony 2013 was successfully held on 31 May 2013 at the Institute’s Surveyors Learning Centre. This is the third year in a row that the QSD has organized the event. The scholarship will enhance the status of Quantity Surveying as a highly-valued profession in the construction industry. This initiative is also in line with the key objectives of the Institute, which are to nurture and encourage more young people to join the surveying profession.

The industry has witnessed a shortage of surveying professionals over the past 6-12 months, according to a survey conducted by the Institute. In order to sustain the surveying profession, the Council considers that a well-planned and organized succession scheme is necessary. The scholarship, along with other related promotional activities, will put the Council at the forefront of attracting more young people to the profession.

## 11.2 Visit to the Universities

### 11.2.1 Visit to the City University of Hong Kong

#### 11.2.1.1 Bachelor Degree Programme

The Promotion Sub-committee organized a visit to the City University of Hong Kong on 5 April 2013. More than 40 Final Year students reading for the Bachelor of Science in Surveying attended the event. In order to let students gain a more thorough understanding of what Quantity Surveyors do, we spared some time to share our experiences at a session that was hosted by a number of QSD Council Members from different backgrounds. The students were actively involved in the session and tremendously enjoyed our visit. It is also encouraging to note that nearly all the Final Year students already have job offers.

#### 11.2.1.2 Associate Degree Programme

Our Immediate Past Chairman, Sr Thomas Ho, and Vice Chairman, Sr K. L. Wong, visited students who were reading for the Associate Degree at the City University of Hong Kong on 22 April 2013. The QSD's representative briefed them on how to be admitted as Associate and Full members of the Institute. An experience-sharing session was also held so as to encourage students to pursue the quantity surveying profession.

### 11.2.2 Visit to the Hong Kong Polytechnic University

The Promotion Sub-committee, along with the Building and Real Estate Students' Society (BRESS) of the Hong Kong Polytechnic University, organized a visit to the University on 24 April 2013.

The visit was well-organized by the BRESS with two students acting as Masters of Ceremony for the event. Apart from showing the QSD video and outlining the career development of a professional quantity surveyor, Council Members led group discussions and shared their experiences with students so as to enable them to gain a thorough understanding of what it takes to become a professional quantity surveyor. The students were avid listeners and actively participated in the group discussions. This kind of interactive promotional activity would effectively deliver the Institute's message to young people.

### 11.2.3 Visit to the University of Hong Kong

#### 11.2.3.1 Master Degree Programme

On 7 September 2013, Sr Joseph Chong represented the QSD at a session to introduce professional organizations to MSc students at the University of Hong Kong. This was part of the first lecture to MSc(RE) and MSc(CPM) students held in the Knowles Building. Joseph briefed the students on the structure of the Institute and on how to become a qualified quantity surveyor. He mentioned to them that there was a huge demand for quantity surveyors due to the recent implementation of infrastructure and housing projects. According to a recent survey conducted by the Institute, there was a shortage of surveyors in the market. Some students were interested in knowing if their current work experiences could count as professional experience towards the APC. Other students expressed that they would consider joining the Quantity Surveying profession after graduation because of its attractive remuneration.

#### 11.2.3.2 Bachelor Degree Programme

This was the final visit to universities during the Council Year 2012/13. Approximately 30 students

attended the briefing session, which was held in the Knowles Building of the University of Hong Kong on 5 November 2013. Sr Thomas Ho introduced some of the Institute's background information, as well as that of the Quantity Surveying Divisional Council. Students were very enthusiastic about their career prospects as professional surveyors after graduation. We also shared our experiences in respect of the work of surveyors in different sectors of the industry. All in all, the visit was well-received by the students.

### 11.3 Visit to the Hong Kong Institute of Vocational Education (IVE)

#### 11.3.1 Tsing Yi Campus

The Office Bearers of the Council, namely Sr K. L. Wong (Vice Chairman), Sr Thomas Ho (Immediate Past Chairman) and I visited the Hong Kong Institute

of Vocational Education, Tsing Yi Campus on 24 November 2013. The audience was mainly students studying for the Higher Diploma in Building Studies / Surveying. During the briefing session, we highlighted the route for a student member to qualify as a professional member via associate member's route. Not only were the students curious about this route, but also they showed a keen interest in their career prospects after graduation. Hence, they appreciated this experience sharing session.

### 11.3.2 Morrison Hill Campus

The Office Bearers and Council Members comprising Sr K. L. Wong, Sr Jesse Wong, Sr Thomas Ho, Sr Raymond Kam and I visited the Hong Kong Institute of Vocational Education, Morrison Hill Campus as the final activity organized by the Promotion Sub-Committee for the Council Year 2012/13. Over 100 students studying for the Higher Diploma in Surveying attended the session. They were very eager to know the route leading to a professional qualification. Fortunately the

Chairman of Board of Education of the Institute, Sr Raymond Kam was present and thoroughly answered all the queries raised by the students. At the end of the session, we encouraged the students to join the Institute as student members so that they could enjoy the benefits offered by the Institute

## 11.4 Visit to the Secondary Schools

The Council has always considered that arousing youngsters, particularly senior year secondary school students, to gain an interest in the surveying profession is the foremost task it can carry out in order to attract more of them to join the profession. In this connection, the Promotion Sub-committee has organized a series of school visits to introduce the surveying profession to students. We hope that students will gain an interest in the profession after going through a series of interactive activities during the visits. They can then select surveying as their course of study when they enroll in university.

### 11.4.1 Munsang College

Over the past 12 months, the Council arranged three visits to secondary schools to promote our profession. On 21 June 2013, Sr Thomas Ho (Immediate Past Chairman), Sr Steven Tang (Member of the Promotion Sub-committee), and Sr William Lai (YSG) visited Munsang College. There were approximately 300 students from Forms 4 and 5 attending the talk. Sr Ho delivered an interesting speech, which included an introduction to the Institute, the roles of our six surveying professions, and the routes to membership. Sr Tang and Sr Lai conducted a quiz. All of the students enjoyed the presentations and received souvenirs.

#### 11.4.2 St Paul's College

Sr K. C. Chang and Sr Francis Au, both of them old boys of St Paul's College, were invited by their alma mater to deliver a career talk on the surveying profession on 24 June 2013. Once again, the talk was well-received by the students and the school. The visit was the third in a row conducted by the Council. We hope to continue this exercise next year.

#### 11.4.3 Po Leung Kuk Choi Kai Yau School

Our Vice Chairman, Sr Paul Wong, and Sr Raymond Kam (Chairman of BoE) visited Po Leung Kuk Choi Kai Yau School on its Career Day on 2 July 2013. This was the second year we were invited by the school to participate in the event. Besides introducing the Institute and its routes to membership, Sr Wong and Sr Kam shared their experiences and rewards gained in their careers with the students.

#### 11.4.4 Pui Ching Middle School

On 9 July 2013, Sr Thomas Ho, Sr Gilbert Kwok (Past Chairman), Sr Jesse Wong (Hon. Treasurer), and Sr Steven Tang visited Pui Ching Middle School. We were delighted to see the students jump up to answer our questions to get a prize – a QSD umbrella. The School thanked us for delivering an enjoyable presentation for

the students and teachers while introducing our profession.

### 12. Networking

#### 12.1 Newly Qualified Members' Welcoming Party

The party was held on 8 March 2013 at the Surveyors Learning Centre of the Institute

We had the honor of having our President, Sr Stephen Lai, who took time from his hectic schedule, to attend this party and deliver a great speech to our newly qualified members. Other guests included the Vice Chairman and Council Members of the Land Surveying Divisional Council.

The party has become one of the major events of the QSD Council of each council year. It provides an opportunity for the Past Chairmen and QSD Council Members to meet our younger surveyors and see new faces. In addition, the event has proven to be a good platform for the Council to introduce the function of the various sub-committees to our newly qualified members in the hope of nurturing more young surveyors to participate in the busy activities of the various sub-committees. New blood is absolutely required to sustain the Council.

The party was well-received by members and guests. They had a great time

participating in all sorts of games organized by the Committee. The highlight of the event was, of course, the lucky draw with the grand prize being an iPad Mini.

Organizing Committee also arranged a series of fabulous programmes, interesting games, and lucky draws, so as to boost the atmosphere of the event. The event was very enjoyable, as guests and members acknowledged.

To recognize the outstanding performance of our newly elected member, Ms Lai Ka Wing, in her Assessment of Professional Competence, we presented her with the 2012 APC Best Performance Award. We hope that she will keep up the good work in the work place.

My sincere thanks go to the Organizing Committee of the event. Indeed, they spent a lot of valuable time and tremendous effort to make the event a success. I would also like to thank all the sponsors of this Annual Dinner for their unfailing support throughout these years, without which the event would not have been so successful.

### 12.2 HKIS QSD Annual Dinner 2013

The HKIS QSD Annual Dinner was held on 7 June 2013 at the Junior Ballroom of the Royal Plaza Hotel, Kowloon. The Annual Dinner is one the major events of the QSD's 2012/2013 Year Plan. We had the honor of greeting guests from government bureau / departments, the Legislative Council, educational institutes, other professional institutes, and the Liaison Office of the Central People's Government in the HKSAR. Other guests included the President, Office Bearers of the General Council, Divisional Chairmen / Vice Chairmen, Past Presidents, and Past QSD Chairpersons of the Institute.

As last year we had three TV artists as Masters of Ceremony and singers. The

### 12.3 BBQ Buffet Party cum Experience Sharing

The Social and Welfare Sub-committee organized a BBQ Buffet party on 7 September 2013, Saturday at the United Services Recreation Club, 1, Gascoigne

Road, Kowloon. Over 150 members attended the event. The Council considers that this kind of event would create a platform for members to get to know each other under a relaxing atmosphere.

### 13. Consultation on Government's Policy

#### 13.1 Security of Payment Legislation

The QSD's representative at the Working Group is Sr Dr Paul Ho with Sr Gilbert Kwok as alternate member. It is the Government's intention to submit the Bill to Legislative Council for examination in 2015 after completing the consultation process with all stakeholders of the industry.

The Council has expressed our opinions and comments on some of the controversial issues all along the consultation process. A meeting was held with the Development Bureau on 10 October 2013 in the presence of our members, namely, Sr Dr Paul Ho, Sr Thomas Ho, Sr Francis Au and myself to discuss the matter further with them. It is expected that the consultation process will be continued in 2014/15.

#### 13.2 New Engineering Contract 3 (NEC 3)

Members may note that the Development Bureau has been actively promoting NEC 3 in the past years, particularly in civil engineering works. Now the Bureau would like to have a trial of the NEC 3 on building and term maintenance works. One capital works and one term maintenance project have been awarded using the NEC 3 form. It should be noted that the QSD's stance has never changed. It is vital that the independent role of Quantity Surveyor must be maintained.

The Council will seek to reflect our concern on the implementation of NEC 3 in building works to the Bureau by means of different channels.

### 14. Conclusions

I am pleased to report that the Council has accomplished most of the tasks set out in the Year Plan 2013 with the unfailing effort of the Office Bearers, Council Members, Co-opted members, Sub-committee Chairmen and members, Advisors and the secretariat of the Institute.

My sincere thanks go to the various Organizing Committees for organizing well received events such as the "Newly Qualified Members' Welcoming Party, "HKIS QSD Annual Dinner 2013" and "International Quantity Surveying BIM Conference, 2013 Hong Kong". I also like to extend my heartfelt thanks to the CPD Sub-committee for its tremendous efforts in organizing so many high quality and well received CPD events with a total of 55 events successfully held during the Council Year 2012/13 which is another record in the history of the QSD Council and the Institute as well.

I would also like to take this opportunity to thank all members of the Quantity Surveying Division for your continuous support and active participation in various activities and events organized by the Council. Without your support and participation, the Council could not have been able to achieve the tasks set out in the Year Plan.

Finally may I express my sincere gratitude to all members of the Quantity Surveying Division and the Divisional Council for giving me the opportunity to serve the Council as Chairman for the Council Year 2012/13. It has been my great honor to serve as the Chairman of the Quantity Surveying Division for the Council Year 2012/13. With this Council tenure approaching its end, the new Council tenure will commence very soon. I wholeheartedly request your continuous support to the next Council for Council Year 2013/14.

I am very delighted to have such a great team comprising our Immediate Past Chairman Sr Kenny Chan, the 25 committee members, 18 co-opted members and student representatives from the three universities during my term of 2012/2013. Our team delivered our effort and commitment to provide a diversified platform for our young members.

### Continuous Professional Development (CPD)

We organised a total of 15 CPD events including seminars, forums, site visits and study tours. They provided updated information of the profession and market insights to consolidate the professional development of members to match with our industry needs. Some of the events also touched on the hot topics of the market, such as the high land price, and provided a platform for members to discuss the future development of the profession. Besides, site visits to Holiday Inn Express, Innocentre and Caritas Lok Mo Integrated Vocational Training Centre were held to allow the members to have real experience of the latest developments and some special areas related to the surveying profession.

### Study Tour

With 26 members including some senior members and 11 student members, we completed on a very successful tour to Xiamen from 10 to 13 October 2013. We visited the Bureau of Planning, the University of Xiamen and a private residential development managed by mainland developer Vanke. With the help of the Hong Kong and Macau Affairs Office of Xiamen Municipal Government (港澳辦), we arranged a dinner gathering with our surveying counterparts at Xiamen who shared with our different divisions of the HKIS their experience on their professional development and contributions. Apart from those formal events, we also visited the heritage sites at Tolou (土樓) and Gulangyu Island (鼓浪嶼).

## Pre-Qualification Structural Learning (PQSL) and APC Workshop

Apart from the CPD, we also worked with other HKIS divisions to provide pre-qualification learning and development for the probationers, which included the Building Surveying Assessment of Professional Competence (APC) Workshops with the Building Surveying Division and a series of PQSL seminars with Quantity Surveying Division and Land Surveying Division. There were in total 23 events in which experienced speakers shared their knowledge and experience on different aspects and areas related to the APC and helped the probationers to keep on the right track to become professional surveyors. Every event recorded a near-full house in attendance and the success should be attributed to all the speakers, helpers and all the participants.

## Big Brothers & Big Sisters Scheme

One of the biggest projects organized by the Young Surveyors Group (YSG) this year would be the “Big Brother and Big Sister Scheme”. We initiated this scheme based on the similar one used in secondary schools, which provides another casual platform to allow probationers and young qualified members to come together. We were very happy to successfully pair up over 160 members and each “big brother or sister” would take care of one to three probationers to share their experience on preparation of the APC, career development, technical knowledge and even personal development.

## Social Events

Work Hard, Play Hard. We always encourage our young members to actively participate in our social events to reduce pressure and meet new friends. We successfully held events such as the Surveyors League, Chocolate Tasting, Macaroon Making, Oyster Shucking & Wine Tasting. Our Dragon Boat team also trained hard from February to September

2013 and participated in three major competitions with good results.

## Institutional Events

As YSG consists of members coming from different divisions, we are always the core members for every institutional function of the HKIS. Our committee and volunteers actively served the HKIS in many events such as Career Expo, Diploma Presentation Annual Dinner, Annual Conference and Divisional Conferences. This year, our Honorary Secretary Joanmi Li and I represented the YSG in the Beijing visit cum National Reception Dinner at the Great Hall of The People. The event was co-organized by Sr Tony Tse Wai-chuen, LegCo Member of Architectural, Surveying and Planning Functional Constituency and by the Liaison Office of the Central People’s Government in HKSAR.

## University Events

The first step to becoming a professional surveyor is holding a surveying or related degree. YSG spends a lot of time and effort to support and sponsor university events, such as career talk, seminars, study tours and social events every year. This year,

we were invited by four students' societies from three universities to deliver seminars and hold sharing sessions regarding career prospects, routes to membership, our professional development and also introduce the HKIS and its six divisions and YSG. Apart from these, YSG also sponsored the four societies to co-organize a Joint University Party to provide a chance for students from different universities to meet and have an enjoyable night.

### Joint Professional Events

To provide all rounded professional and social development for our members, YSG closely works with various professional bodies and their young members groups to provide a variety of seminars, forums and social events for our members. This year, we worked with three different groups of professionals: the Coalition of Young Professional Group (YCPG) under Hong Kong Coalition of Professional Services (HKCPS); One Day Seminar Working Group; and the Legislative Council's Architectural, Surveying and Planning Functional Constituency. The constituency consists of organisations such as the Hong Kong Institute of Architects, Hong Kong Institute of Planners, and the Hong Kong Institution of Engineers. Throughout the year, the YSG co-organized over 10 events and we were also the supporting organization to the events held by these professional young groups. These

events offered a great opportunity for our members to be update with the current developments in different professions, our society and even their own social network.

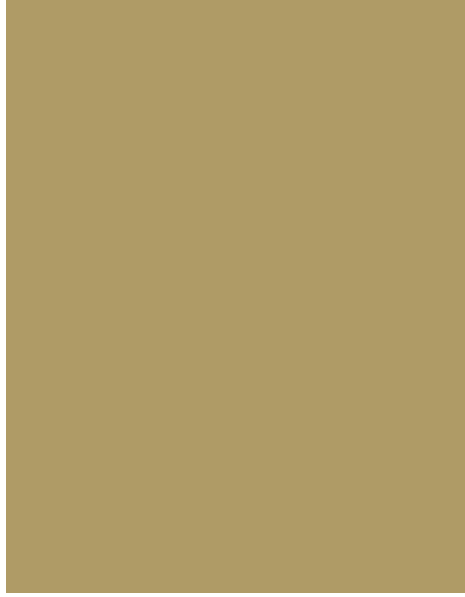

The significant events held included the Youth Forum, One Day Seminar on Contract Management, site visits to the Zero Carbon Building, Revitalisation project at Mallory Street, study tours to Zhuhai and Guangzhou, visit to the ethnic minorities, drinks parties and a charity band show. Worth particular mention was the "Youth Forum" by the YCPG. At the forum, over 500 young professionals had a chance to join in dialogue with the HKSAR Chief Executive Leung Chun Ying and the three reputable speakers from the health, financial and construction sectors on the topic of "Opportunities and Challenges of the Young Professionals".

### YSG Annual Dinner 2013

We were excited to note over-subscription for the YSG Annual Dinner this year with over 160 members and friends joining the funny Animal Party held at The Harbourview hotel. We were honored to have the presence of our President Sr Stephen Lai at the party while the Office Bearers included Sr Simon Kwok and Sr Edward Au, BSD Chairman Sr Robin Leung, Legco member and HKIS Past President Sr Tony Tse, representatives from the China Liaison Office of the Central People's Government in HKSAR and young professional groups and many of our past YSG chairmen. That memorable night is shared with you with the event photos on the separate page. I would like to give thanks to all the sponsors for their generous support and the efforts of the working group led by our Jenny Tang.

Serving the Junior Organization (JO) and now the YSG for about 10 years from student representative to YSG Chairman, it has been my great honour and privilege to work with all the past chairmen and energetic young members. Without their contributions and continuous support, all the above events could not be held so successfully. All the precious and fruitful moments were brought about by the team and all the participants.

With your continuous support, I believe that our incoming Chairman and Committee can continue the YSG spirit to strive for greater success. I wish YSG all the best.

During the session year, the Board continued to deliberate on the introduction of alternative routes to both professional and technical membership, with a view to increasing and strengthening the membership base of the Institute. The exercise was carried over from the previous year and will be refined in the ensuing year for the formulation of a suitable resolution which will involve policy amendments to the Bye-laws and continuous monitoring and approvals by the General Council.

Where membership is the fundamental basis for the sustainability of the Institute, the Board has embarked on an Overall Review of the Portfolio and Jurisdiction of the Board of Membership, with a view to rationalizing and updating constitutional enabling provisions and administrative procedures which have seen many changes in the past 30 years since the founding of the Institute. This is a mammoth task which has to be pursued steadily and patiently.

In pursuance of the provisions of Part VII of the Bye-Laws, the Board continued to consider policies and control mechanism for mandatory continuing professional development and lifelong learning to help members enhance not only their professional competence but also their social status as professional surveyors. This is to require all professional and technical members to engage themselves in a continuous process of sharpening their expertise and broadening their specialist knowledge base. It is only with consistently high and ever-improving professional competence of its members that the Institute may strengthen its strategic position in the property industry, for the long-term sustainability of the surveying profession in Hong Kong.

In 2013, 120 Continuing Professional Development (CPD) events were organized by the various Divisions and the Young Surveyors Group (YSG), which reflected a 4% decrease from 125 of the previous year. Apart from the 7 institutional events, QSD was among all the Divisions the largest CPD organizer, hosting 54.5 events (including 1 joint CPD with YSG, 2 joint CPD with PFMD and 1 joint institutional event). The ranking order of the other Divisions was GPD (17.5, including 1 joint CPD with PFMD), YSG (14.5, including 1 joint CPD with BSD, 1 joint CPD with QSD, 1 joint CPD with LSD and 2 joint institutional events), BSD (12.5, including 2 joint CPD with PFMD, 1 joint CPD with YSG and 2 joint institutional events), PFMD (6.5,

including 2 joint CPD with BSD, 2 joint CPD with QSD and 1 joint CPD with GPD ), LSD (5.5, 1 joint CPD with YSG), PDD (2). (See the Note below)

*Note on calculation of CPD events:* 1 is counted if the CPD is organised by 1 Division only while 0.5 is counted for the joint CPD organised by joint Divisions or joint institute (not more than 2 organizers)

### **Mandatory Continuing Professional Development**

According to the Guidance Notes for Mandatory Continuing Professional Development (June 2007), all Corporate and Associate members are required to complete a minimum requirement of 60 CPD hours over a three-year period.

The first checking exercise was held in 2010 and the second checking exercise was held in 2013. Random spot check was conducted and the selected members were required to submit CPD records for the three-year period from 1 January 2010 to 31 December 2012. We have received about 70% response rate from the selected members. About 53% of the selected members had fulfilled the minimum 60-hour CPD requirement.

Following the checking exercise, the Board considered that it is necessary to enforce and better implement the Mandatory CPD. As such, the Board had discussed about the review of the Guidance Notes for Mandatory Continuing Professional Development (June 2007) which should be accomplished in recent years. The proposed amendments to the Guidance Notes include the following:-

- A set of sanctions for members who found not in compliance with the Mandatory CPD requirements: from reminders, warning letters, to interview and finally refer to General Council for necessary action.
- Simplification of the Mandatory CPD requirements e.g. CPD categories and development of the declaration system etc.

The Board would seek legal advice on the proposed sanctions and amendments. Upon acceptance from all division councils and YSG, it will be presented to General Council for approval. A forum will be held to seek views from all members. The Constitution and Bye-laws may be amended accordingly.

### **E-learning system**

With an aim to provide web-based CPDs for members, especially those residing in the Mainland and overseas, the Board initiated the development of the E-learning system and has sourced out the possible vendors for the General Council's consideration. Detailed investigation and consultation would be carried out in due course.

### **The CPD attendance system and the CPD attendance guidelines**

The Barcode electronic recording system for CPD attendance has been operating since April 2013. The HKIS membership cards have a barcode feature which can record the details of the CPD attendance such as the date, the venue, the title as well as the time-in and time-out for a particular CPD event. All members should bring their membership card for registering attendance of CPD events held by HKIS. The system will update members' online CPD profile after completion of the events.

Following the implementation of the CPD attendance system, a set of CPD attendance guidelines had been developed as follows:-

- (a) Members will be asked to present their membership card for scanning when they enter or exit the CPD venue.

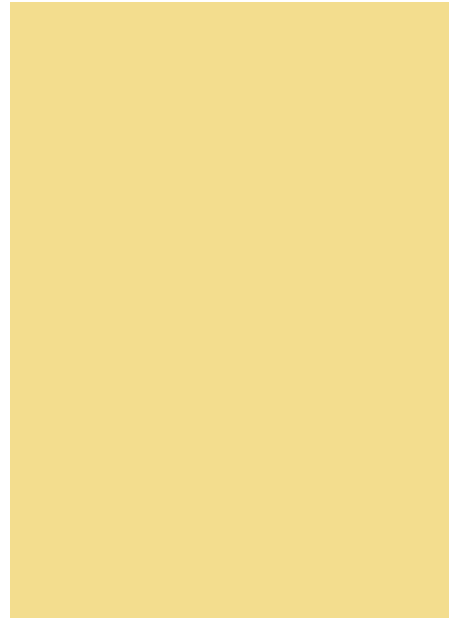

- (b) A grace period of 20 minutes is permitted for late arrival.
- (c) Members who are late (i.e. arrive 20 minutes after the CPD commences) will be permitted to attend the CPD event but they will not receive any CPD hours for that event.
- (d) No early departure is permitted. Any members who depart before the scheduled / actual closing time (including the Q&A session) of the CPD event will be recorded as absent and they will not receive any CPD hours for that event.
- (e) The attendance stamp / ticket will only be available after completion of the event.
- (f) A specific attendance ticket will be issued to walk-in applicants and members who forget to bring the receipt. Attendance ticket will not be issued to the walk-in applicants after the event.
- (g) The barcode attendance system is not applicable for walk-in registration. Members should record attendance by signing in when they arrive and signing out when they leave the venue. They should update their CPD attendance by themselves on their online CPD profile manually after completion of the event.

The Board is pleased to note that the late arrival record of CPD events has reduced a lot since the introduction of the barcode attendance system and the Board would like to thank all the members for their co-operation on this new attendance system.

### **The Hong Kong Coalition of Professional Services (HKCPS) CPD cross-sharing scheme**

The Board has participated in the CPD cross-sharing scheme organized by the Hong Kong Coalition of Professional Services (HKCPS). Under the scheme, CPD events of each member body of HKCPS would be shared by the others and be open to members of other bodies of the HKCPS. The Board would broadcast the CPD events recommended by HKCPS member bodies to members if considered worthwhile. In the meantime, the Board would select some HKIS CPD events and share them with the HKCPS member bodies regularly.
