Dear Sir

**Adoption of Eurocodes for
Civil Engineering Structural Design of Public Works
Updated Design Guiding Documents**

We refer to your letter dated 22 October 2012 inviting the Hong Kong Institute of Surveyors to comment on the Adoption of Eurocodes for Civil Engineering Structural Design of Public Works of Updated Design Guiding Documents.

HKIS welcomes the initiatives and the effort made by respective departments for migration to Eurocodes for public works. We have no further comment on the draft manuals on civil engineering aspects.

Moreover, we are looking forward to a further migration to Eurocodes for general specifications for building works and building maintenance items.

Thank you for your attention.

Yours faithfully

Coody Ko
Senior Manager (Administration)
