The Hong Kong Institute of Surveyors (HKIS or The Institute) was founded in April 1984 and had 85 founding members. The Institute was statutorily incorporated by virtue of the Hong Kong Institute of Surveyors Ordinance in January 1990 (Cap. 1148). In July 1991, the Surveyors Registration Ordinance (Cap. 417) was passed to set up a Registration Board to administer the registration of surveyors.

The number of Corporate Members has grown to 7,423 as at 31 December 2021; Members and Fellows – distinguished by the initials MHKIS and FHKIS. In 2021, the Institute admitted 69 Associate Members – distinguished by the initial AMHKIS. Apart from this, the total number of training grade members at the end of 2021 was 3,444.

HKIS work includes setting standards for professional services and performance, establishing codes of ethics, determining requirements for admission as professional surveyors, and encouraging members to upgrade skills through continuing professional development.

The Institute has an important consultative role in government policy making and on issues affecting the profession. We have advised the government on issues such as building safety and unauthorized building works, problems of property management, town planning and development strategies, construction quality and housing problems. We have also issued guidance notes on floor area measurement, real estates valuation and land boundary survey, etc.

To qualify as a Corporate Member of the Institute, surveyors must possess a recognised academic degree or similar qualification, complete supervised professional experience within strict guidelines for a minimum period of 24 months, followed by an Assessment of Professional Competence (APC).

The title “Surveyor” embraces a number of disciplines involved with land and its development with land and buildings, covering an extremely wide scope. Some surveyors work in private practices and others may work for a landowner, developer, building contractor or

government departments and related bodies. A **Land Surveyor** measures and records the shape and position of the land, define the boundary and set out the legal boundaries of the sites. A **General Practice Surveyor** advises on the best use of the land, assesses the feasibility and viability of the proposed development project as well as the valuation, marketing, sale, leasing and management of completed developments. A **Planning and Development Surveyor** further advises on the possible change of zoning, the likely environmental impacts and make suggestion on preliminary development contents. A **Quantity Surveyor** is concerned with the building contractual arrangements and cost control, and will evaluate the likely cost of the development project and advise on the most suitable kind of contract for the project. A **Building Surveyor** involves in the project management of building development proposal, holistic maintenance management of building and overall control of private building under relevant legislation. A **Property and Facility Management Surveyor** provides a comprehensive range of services in real estate management.

The Institute has established and continued to expand its presence in the international scene through reciprocity relationships with other national surveying bodies and through membership in relevant world bodies and international organisations to maintain its professional edge at international level. The Institute is one of the 3 founding members, apart from the Singapore Institute of Surveyors and the Institution of Surveyors, Malaysia, of the Surveyors’ Alliance Asia which was inaugurated in November 2004. General Practice Division

The General Practice Surveyor

Land is a strategic resource for operation and an investment asset. Interest in land or property is bought and sold for residential, retail, office and industrial uses. These uses require careful planning, administration, continuous management and improvement; properties are developed as direct investments or securitised, and if they are professionally managed, their values will be enhanced.

General Practice Surveyors are particularly equipped with skills and knowledge to offer timely and effective advice in connection with development, use and management of property resources both for operational needs and investment purposes. They are also concerned with planning, leases administration and

valuation of land and buildings; negotiation of sales and lettings by private treaty and sale by tender or auction; financial and economic aspects of investment in property. Contemporaneously, because of the General Practice Surveyors' understanding of investment principles and asset pricing, practitioners are ready to respond to the mounting demand for valuation of trade-related business assets and business enterprises.

The services offered by General Practice Surveyors can be wide and varied. Recently, we are involved in valuation of franchises and intangibles and business valuation. Major roles played by General Practice Surveyors are as follows:

Valuation of Properties

General Practice Surveyors value all types of landed properties for various purposes. These include:

- Valuations for sale, purchase, letting and mortgage purposes;
- Statutory valuations relating to land resumption, rating, stamp duty, and other taxation purposes;
- Valuations of company portfolios for listing, balance sheet purposes, company floatation, takeovers and mergers;
- Feasibility studies on all types of properties;
- Acting as an expert witness, independent valuer or arbitrator in valuation disputes.

Development and Town Planning Consultancy

Real estate development is a complex process, which needs professional expertise and judgment. Through proper training and experience, General Practice Surveyors can provide a comprehensive range of professional services covering:

- Market studies and evaluation of development opportunities;
- Negotiation with Government on lease matters including lease modification, surrender and regrant of land leases;
- Valuation of land in connection with land acquisition and lease modification;
- Applications and appeals to the Town Planning Board for change of uses under the Town Planning Ordinance;

- Preparation of detailed financial assessments, cash flow studies and expenditure control systems throughout the development period;
- Preparation of development and design briefs;
- Constant monitoring of the development to ensure that it meets the client's as well as the land lease requirements and reflects market needs; and
- Project management, from inception to completion and eventual marketing.

Sales, Lettings and Auctions

General Practice Surveyors, on behalf of the clients, negotiate the purchase, sale or leasing of all types of land and buildings. They may act as auctioneers in the disposal of properties or as owner's agents in selling properties by private treaty or tender. They may also advise on marketing strategy and on preparation of sale and lease documents.

Property, Asset and Facilities Management

In a society of rising user expectations, good quality professional management services are essential to sustain and enhance the property values. General Practice Surveyors have been involved in the management of all types of properties and facilities. They negotiate with landlords and tenants on rent review, lease renewal and re-letting of premises. They also advise on situations of refurbishment/renovation/enhancement and redevelopment of properties. Upon securitisation of properties, General Practice Surveyors also contribute their expertise in investment strategy and property portfolio planning.

Business Valuation

Contemporarily, experienced General Practice Surveyors are engaged to provide independent valuation of trade-related business assets and enterprises in connection with mergers and acquisitions activities in Hong Kong and Mainland China.

Services in Government and Statutory Body

Apart from their work in the private practice, General Practice Surveyors are also employed

by the Hong Kong SAR Government in various departments such as Lands Department, Rating and Valuation Department, Government Property Agency and Housing Department to handle work including government land disposal, resumption, rating, taxation, public housing and home ownership scheme etc. Other major employers include Hong Kong Housing Society, Urban Renewal Authority and MTR Corporation.

Land Surveying Division

The Land Surveyor

Broadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts; defining property boundaries; preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the Land Surveying Division (RPS(LS)) registered under the Surveyors Registration Ordinance and Authorised Land Surveyors (ALS) registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;
- Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of earthwork quantities for payment are types of works under this category. Land Surveyors are actively involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are:

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;
- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory.

Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, Land Surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundreds of kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along the roadside and benchmarks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;
- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

Land Information Management

In the Land Information Management aspects, Land Surveyors are engaged in the collection,

integration and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make valuable contributions to these systems.

Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in the air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer models from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/orthoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eye, its profile is determined by an echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current;

- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and
- Collection of any information relating to marine navigation.

Planning & Development Division

The Planning & Development Surveyor

Real estate development is a complex process which requires professional input of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

Property Development Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximising project return while minimising the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

Land Administration Input

Planning & Development Surveyors specialise in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the

land premium); and assist in the execution of the lands document.

Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within, development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and the strategy to submit planning applications, review and/or appeal; and coordinate with other professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plans to safeguard the interests of land owners.

Development Project Management

Property development requires a wide range of input from various disciplines. Planning & Development Surveyors can help set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme; advise on re-distribution of resources; and to resolve issues arising during the development process.

Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future income and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

Town Planning Public Sector

Planning & Development Surveyors are involved in the formulation of planning, land, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through

the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the relevant planning policies, the environmental context and specific site characteristics.

Private Sector

Planning & Development Surveyors advise clients on the extent to which the use and value of their land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations; and attending hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

Other Common Professional Services

Planning & Development Surveyors also assist clients in site planning and advise on urban design matters together with the relevant design experts. They also specialise in coordinating large-scale planning studies usually supported by various technical impact assessments e.g. Environmental/ Ecological Impact Assessment (EIA), Drainage Impact Assessment (DIA), Traffic Impact Assessment (TIA), Geological Impact Assessment (GIA), Landscape and Visual Impact Assessment (LVIA), and Social Impact Assessment (SIA).

Quantity Surveying Division

The Quantity Surveyor

Quantity Surveyors are professionals who have been trained as construction cost consultants. They possess expert knowledge of costs, values, finance, contractual arrangements and legal matters pertaining to the construction field.

Quantity Surveyors provide appropriate services to suit diverse needs and the majority of their employers or clients include professional quantity surveying firms, private developers, corporations, government departments and related bodies, building and civil engineering contractors, insurance companies etc.

Quantity Surveyors are equipped to provide advice concerning various disciplines ranging from building construction, and civil and structural engineering, to petro-chemical installations and mineral extraction.

Preliminary Cost Advice

From the outset, Quantity Surveyors give practical advice on the likely cost of a project. Cost studies and advice including, but not limited to, alternative design solutions, structural forms, choice of materials, construction sequences and maintenance costs are also prepared. From such information, a detailed cost plan is developed for budgetary control.

Cost Planning

Cost planning is a specialist technique

developed by Quantity Surveyors. Its aim is to help all members of the design team – architects, engineering consultants, interior design specialists and the like – to jointly maximise practical and aesthetic design solutions for a project whilst keeping within the client's budget.

Once a cost plan is prepared, and a realistic estimate agreed, effective cost planning ensures that everything that follows is in accord with the plan, from the acceptance of the successful contractor's tender to the final project cost.

In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

Cost Control & Financial Management

Cost control is one of the most important processes in any capital project. The basic objectives are to achieve for the client the best value for money, to maintain the required balance of expenditure between the various parts of the project, and to keep the final expenditure within the client's approved budget.

When clients, or their consultants, decide to effect changes to the designs and introduce variations, Quantity Surveyors rapidly assess and report the cost implications of the changes.

In principle, cost control consists of three basic steps, namely:

- Establishing an overall cost target;
- Checking any deviations that affect the cost target; and
- Taking such remedial action as necessary to preserve the target.

In practice, the process of cost control embraces a range of professional activities such as cost analyses of earlier projects, cost planning/estimating, cost studies of alternative construction options, cost checking during the design stage, cost reconciliation during the tendering stage, and cost monitoring during the construction stage.

Cost planning facilitates improved economic standards, and so better value for money, during the design stage, whilst constant monitoring during the construction phase ensures that the risk of overspending is identified early so that prompt corrective action may be taken.

Cost estimates and financial reports, which are regularly produced by Quantity Surveyors, form an important aspect of the financial management of capital projects. Periodic financial reports enable clients to anticipate and control their future financial commitments.

Value Management

Value management is a systematic approach to eliminate waste from a design or client's brief, while at the same time retaining the safety and key functions of the project.

The objective of value management is to provide the project functions to the required standard and quality having regard to the best value for the money expended. This does not necessarily mean the lowest initial cost, but the highest value considering all factors impacting upon the project as a whole.

Quantity Surveyors are well qualified to lead value management studies on a project. The structured nature of value management permits the project team to obtain a clearer understanding of the project functions and objectives hence being able to reduce unnecessary costs. Value management also addresses the whole life implications of the building design both in terms of cost and the client's business objectives.

Procurement Methods

Quantity Surveyors have the expertise, knowledge and tools required in the selection of the "right" contractors and suppliers for any given project.

No two projects are the same. Most major projects (and many smaller ones) are individual challenges and need individual solutions.

The most common method of procurement is through competitive tendering based on a variety of forms of contract and options. The bills of quantities prepared by Quantity Surveyors have been used world-wide as the basis of tendering for many decades. During construction, bills of quantities also form a crucial element in effective cost control as well as the basis for the valuation of variations.

On occasions, the situation may warrant other forms of tendering and contractual arrangements. These include design and build,

guaranteed maximum price, construction management, prime cost contract and cost plus, to name just a few. Quantity Surveyors provide advice on the best choice of contractual arrangement to suit the circumstances of each individual project.

Tendering

Competitive tendering of one kind or another remains the usual basis for awarding construction contracts, and bills of quantities are fundamental to this process. Bills of quantities translate the drawings, plans and specifications produced by the designer into a document that enables a contractor to calculate his tender price fairly and accurately, on exactly the same basis as his competitors.

Valuation of Construction Works

In most construction contracts, the contractor is paid monthly. Quantity Surveyors prepare interim valuations of the work carried out on the project at regular intervals and submit recommendations for payment.

Quantity Surveyors are normally retained throughout and beyond the completion of the project in order to facilitate the settlement of the accounts, when all necessary adjustments are dealt with. If required, they will also prepare any analyses of the final account that may be required, prepare statements of expenditure for tax or accountancy purposes, and assess the project's replacement value for insurance.

Financial Claims & Programme Analysis

Quantity Surveyors also prepare, and provide specialist advice and responses to claims, counterclaims and the like, for both time and money, including:

- Extension of time analysis: forensic analysis and delay demonstration techniques;
- Delay and disruption: time slicing, project analysis and productivity analysis; and
- Direct loss and/or expense: preparation of claims, responses to claims, auditing and analysis.

Dispute Resolution

If disputes arise, Quantity Surveyors offer the following expertise and technical knowledge:

- Independent appraisal of the strengths and weaknesses of an employer's and/or a contractor's case concerning quantum;
- Technical advice and assistance throughout the dispute resolution process;
- Preparation of particularised documents including technical position papers, assistance with pleadings, further and better particulars and witness statements; and
- When suitably experienced, to act as expert witnesses for quantum or other associated specialist areas.

Insurance Advice

Quantity Surveyors may choose to pursue their career in the field of construction insurance. The construction insurance professionals work in a variety of capacities in different organisations; examples of which include:

- Insurance administration personnel working for contractors/developers/consultants/public entities/Government/insurers/or other employers;
- Loss adjusters for loss adjusting firms on behalf of the insurers;
- Underwriting personnel for insurance brokers/insurers; and
- Risk assessment personnel for insurance broker/ insurers.

Young Surveyors Group

The Young Surveyors Group (YSG) is a section of the Hong Kong Institute of Surveyors representing the interests of about 5,000 members – comprising student members, probationers and young qualified members across divisions – the power of the surveying profession in future.

YSG representatives are nominated to the General Council, Divisional Councils, Boards, Panels, Committees and Working Groups of the Institute, in order to bring in views from young members.

To enhance the professional competence of young members, YSG has been organising various site visits, Continuing Professional Development (CPD) courses and Pre-qualification Structural Learning (PQSL) events throughout the year. The topics cover a

wide range of surveying disciplines in the real estate and construction industry. Tailor-made workshops for different divisions also help our probationers to tackle the Assessment of Professional Competence (APC).

In addition, YSG organises and participates in social events such as dragon boat competition, community services, wine tasting courses, sports competitions, outings, cooking classes and other social gatherings with other professional institutions, to enrich members' social lives.

Every year, YSG hosts study tours to visit cities in the Mainland China or overseas countries. YSG representatives also attend local and overseas conferences organised by local institutes and other international organisations such as the International Federation of Surveyors (FIG) and Pacific Association of Quantity Surveyors (PAQS). Through these visits and conferences, YSG members acquire a worldwide view of the surveying professional.

The professional image of the Institute is extended to the community by the works of YSG through a series of social events, volunteering works, joint events with various professional institutions and career talks to students of the universities and secondary schools in Hong Kong.

Sr Edwin TSANG
President

It has been a great honour and privilege to serve as the President of The Hong Kong Institute of Surveyors (“HKIS” or “the Institute”) for the council year 2020-2021.

My journey as President has been filled with many challenges. At the beginning of the year, I had to make a timely decision on whether renewing the tenancy or relocating the HKIS Secretariat Office and finding a suitable alternative. I also had to familiarise myself with new measures announced by the Central Government to facilitate the professional practices of Hong Kong registered professional surveyors and firms in the Greater Bay Area (GBA), Hengqin and Qianhai. For the first time in its history, the HKIS has had to take on political roles under the improved electoral system pursuant to Annex II of the Basic Law, amended by the National People’s Congress Standing Committee on 30 March 2021. The President and the authorised representative of the HKIS having specific duties in the nomination and election of the Election Committee, Legislative Council, and the Chief Executive.

Despite the challenges and under the lingering Covid-19 pandemic, I am delighted to share with you what the Institute has achieved during the year.

1 Membership

1.1 Growth

The total number of members has reached 10,944 as of 2 December 2021. Of the total membership, 7,425 were Corporate Members (563 Fellows and 6,862 Members), of which 312 were newly elected. There were 6 Honorary Fellows, 3,444 Probationers and Students and 69 Associate Members.

Corporate Members (First Division)

Year/ Grade	BSD		GPD		LSD		PDD		PFMD		QSD		Total

2020	105	1,357	172	1,944	56	271	6	7	2	48	214	3,030	7,212

1.2 Life-long learning

All members are required to keep up with the latest developments and enhance their professional and technical skills. Under the Covid-19 preventive measures, events continued to be arranged in the form of webinars for most of the year. While the pandemic was being brought under control in Hong Kong, there was a gradual return of face-to-face events with limited participation and/or events conducted in hybrid mode towards the latter part of the year. A total of 235 Continuing Professional Development (CPD) events on a wide range of professional topics were organised (from 14 December 2020 to 3 December 2021) by the six Divisions, Young Surveyors Group and the HKIS.

Organiser	No. of CPD events held*
Building Surveying (BSD)	39
General Practice (GPD)	34
Land Surveying (LSD)	14
Planning and Development (PDD)	22
Property and Facility Management (PFMD)	14
Quantity Surveying (QSD)	61
Young Surveyors Group (YSG)	22

*Some events were jointly held by the Divisions and YSG

1.3 Mandatory CPD Checking

The 5th Mandatory CPD checking exercise for the period from 1 January 2019 to 31 December

2021 will be conducted in 2022. All members are required to complete a minimum of 60 CPD hours during the prescribed 3-year period. A random draw by computer was conducted in early December 2021 and 138 members were selected to submit their CPD records for checking.

1.4 Enhanced Online Registration System

Some new features of the online registration system will be launched soon. The enhancement works, including automation of email reminders, integration of ZOOM webinar with the HKIS website using ZOOM API, and time conflict enhancement etc., will help alleviate the workload of the HKIS Secretariat Office.

1.5 Disciplinary Proceedings

As a reputable professional Institute, the HKIS is determined to uphold the integrity of the profession. Every member of the HKIS is required to maintain a high and honourable standard of professional conduct and shall discharge his/her duties in accordance with the highest standard of business ethics as provided under the Bye-Laws and Rules of Conduct of the Institute.

One complaint received during the year was dismissed after a review by the Preliminary Review Committee. There were three valid complaints received for investigation under the disciplinary procedures mechanism of the HKIS as at the end of November 2021.

2 Public Recognition

Members of the Institute have been active in providing feedback to the Government in relation to policies and legislations of the built environment, with topics including land supply, housing and building policies, land management and planning, and manpower supply, etc. Meetings were arranged with the Development Bureau, Transport and Housing Bureau, Environment Bureau, various Government departments, Construction Industry Council, and major stakeholders, to exchange insights into the industry and the business of the Institute.

Constant communication has been made with the Legislative Councillor representing the surveying industry to reflect our concerns over

issues affecting our members and the industry as a whole.

With societal needs in mind, we have quickly responded to the challenges posed by the pandemic by advising the Government and educating the public on the maintenance of domestic drainage system in relation to epidemic prevention. Our building surveyors have given recommendations on lavatory ventilation and drainage design, whereas our Property and Facility Management Division as well as Planning and Development Division have been able to provide feedback on areas ranging from visitor control to district-based greening and ventilation for the containment of infectious diseases. Guidelines have been prepared for the public to fight against the virus based on our surveying expertise. All in all, our various Divisions have been able to collaborate and help serve the society in times of crises such as this.

Property management involves the provision of professional services across multi-disciplines with consideration that service quality also affects the safety and hygiene standards of buildings as well as the living environment of the public. The enactment of the Property Management Services Ordinance (Cap. 626) (PMSO) is an important regulation to signify a general recognition and quality enhancement of property management services in our society. The Property Management Services Authority (PMSA) announced on 18 October 2021 that Fellows and Members of the Land Surveying Division and Quantity Surveying Division of the HKIS had been added to its list of “Recognised Professional Bodies” (RPBs). All six Divisions have successfully obtained recognition and are now qualified to apply for the Property Management Practitioner (Tier 1) licences as set out in the Property Management Services (Licensing and Related Matters) Regulations (Cap. 626B).

2.1 Consultations and Submissions

The Institute has been active in providing feedback to the Government in relation to policies and legislation that are related to the built environment, in such forms as attending briefing sessions, symposium, written submissions and responding to questionnaires. Views were submitted on issues, including:

- Policy Address and Budget
- Landlord and Tenant (Consolidation) (Amendment) Bill 2021
- Technical Circular (Works) for the Implementation of the Spirit of Security of Payment Legislation in Public Works Contracts
- Proposed Revision to the Code of Practice under the Land Survey Ordinance (Cap. 473)

- Subsidiary Legislation to Regulate the Operation of Small Unmanned Aircraft

2.2 Media Engagement

The Institute devised a media plan and engaged a public relations firm to facilitate our branding initiatives and increase our public exposure. The Institute hosted a media briefing on 19 February 2021, which was well-covered by the media. More than 24 media representatives attended and met with the 2020-2021 HKIS spokespersons who shared their professional views on topical public and social issues.

Chairpersons of the six Divisions, Young Surveyors Group, Land Policy Panel, Building Policy Panel and Housing Policy Panel, introduced their expertise and areas of focus for the year. To enhance our communications with the media, a Media Kit (containing the list of HKIS spokesmen for 2020-2021 and the scope of services of the six Divisions) were provided to the media.

Press Conference

- On 15 December 2020, a press conference was held in which the HKIS expressed its

views on the Risk of Virus Spreading from Domestic Drainage System

HKIS Valuation Standards 2020

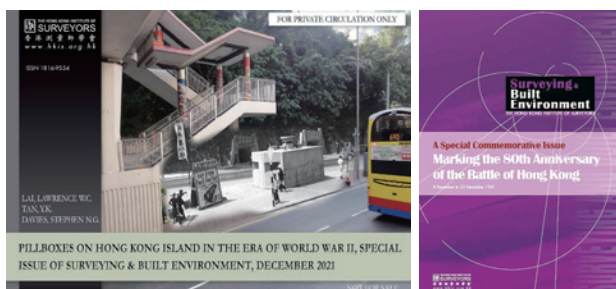

After ratification by resolution at the HKIS AGM on 11 December 2020, the *HKIS Valuation Standards 2020* (the "Standards") came into effect on 31 December 2020. The Standards, superseding the *HKIS Valuation Standards 2017 edition*, is mandatory for the HKIS members to apply to their valuation reports in respect of all properties, to be included in any document or to be used for any other purposes stated in the Standards.

Surveying & Built Environment

Surveying and Built Environment is an international peer reviewed journal that aims to develop, elucidate, and explore the knowledge of surveying and built environment; to keep practitioners and researchers informed on current issues and best practices, as well as to serve as a platform for the exchange of ideas, knowledge, and opinions among surveyors and related disciplines. Volume 30 was published in February 2021.

The Battle of Hong Kong (8 - 25 December 1941) was one of the first battles of the Pacific War in World War II. The Editorial Board of the HKIS Surveying & Built Environment (SBE) published a *Special Commemorative Issue Marking the 80th Anniversary of the Battle of Hong Kong* in November 2021, as well as a supplementary publication of *Pillboxes on Hong Kong Island in the Era of World War II, Special Issue of Surveying & Built Environment, December 2021* in early 2022.

Practice Notes for Quantity Surveyors

A Working Committee with representatives from the HKIS, Association of Consultant Quantity Surveyors and Hong Kong Construction Association was set up in October 2010 to establish a set of Practice Notes for the benefit of Quantity Surveying professionals in Hong

Kong. The Practice Notes are not intended to promulgate a standard of practice, but rather to produce some basic guidelines for core practices. A new Practice Note – Procurement Strategy was published in July 2021 and the Practice Note – Cost Control and Financial Statements (Revised Version) was published in September 2021.

2.5 Community and Charity Services

Caring Organisation

In recognition of our commitment to the community and concern for its employees and the environment, the HKIS was awarded the “15 Year Plus Caring Organisation Logo” by the Hong Kong Council of Social Service. This is the 15th consecutive year in which the HKIS has been honoured with this award and we thank the Agency for Volunteer Service for nominating the HKIS throughout all these years.

Project SPARKLE

Following the success of Project SPARKLE (Supporting Preteen Access to Resource, Knowledge, Love and Education 「擦亮童心」伙伴同行計劃) in recent years, the HKIS Community and Charity Services Committee jointly implemented the Mentorship Programme with the TWGH’s Jockey Club Tin Shui Wai Integrated Services Centre for 2020-21. First launched in 2010, Project SPARKLE is a mentorship programme that aims to create a harmonious and healthy environment to facilitate the development of children who live in Tin Shui Wai. Since 2017, the 2-year programme accepted a few children with special education needs (SEN), by providing additional support in creating a harmonious environment for their growth. During 2020-2021, 4 activities (1 online and 3 physical) were organised with around 30 volunteers from the HKIS sharing their fun and experience to the children.

Happy Future Mentorship Programme 2021

The Happy Future Mentorship Programme was launched in 2018. Jointly organised by the Hong Kong Society for the Deaf and the HKIS, the Programme 「前面有樂」量師童行計劃 aims at matching HKIS members with hearing

impaired children and helping the mentees discover themselves as well as their personal strengths and potentials. Under the guidance of HKIS members as mentors, the mentees are encouraged to take up challenges and build up their self-confidence. Through mentorship, social worker guidance and a series of activities, the hearing-impaired children can grow up healthily and socially, find confidence in learning, actively participate in activities and plan their future. With the COVID-19 pandemic becoming more stable in 2021, three physical events were organised with the participation of around 30 volunteers from the HKIS.

The HKIS would like to give special thanks to the HKIS Charitable Foundation for sponsoring the activities of Project SPARKLE and Happy Future Mentorship Programme during the year.

2.6 Dispute Resolution Services

The HKIS provided appointment services for resolving disputes, including:-

- Arbitrator (HKIA & HKIS Joint Appointment): 9
- Mediator (HKIA & HKIS Joint Appointment): 1
- Independent Valuation Expert: 6

The HKIS Adjudicators Nominating Body (“HKIS ANB”) was formed in August 2021 under the HKIS Dispute Resolution Committee. The HKIS ANB has applied to the Development Bureau

for admission into the Register of Adjudicator Nominating Bodies. The register is under the Security of Payment Legislation (SOPL) Framework in Technical Circular No. 6/2021, which was issued on 5 October 2021. The Technical Circular sets out the policy on the implementation of the spirit of SOPL in public works contracts with a view to facilitating timely processing of contract payments and providing for resolution of payment disputes through adjudication. The result of our application is expected to be announced before Christmas 2021.

3 Promoting the Surveyors’ Brand

3.1 Community Campaign

“Maintenance and Appreciation of Historical Buildings”

A series of Public Engagement Events under the programme “Maintenance and Appreciation of Historical Buildings” (「賞·惜·舊築跡」) were launched in 2019-2021 to promote Built Heritage Conservation of Hong Kong with a grant from Built Heritage Conservation Fund under the Development Bureau. “Maintenance and Appreciation of Historical Buildings” Creativity Competition was a major event that aimed at encouraging the public to explore, maintain and appreciate the historic buildings in Hong Kong by demonstrating the creativity to reveal their beauty and cultural values.

Although we were unable to organise some guided tours in person due to the Covid-19 pandemic, we continued to introduce the historical buildings of Il Shing Temple in Wang Chau, the Cheung Ancestral Hall in Shan Ha Tsuen, and the Tang Ancestral Hall in Ha Tsuen through online videos shot in Ping Shan in the New Territories. Surveyors also shared the challenges and difficulties of conservation and rehabilitation in each case.

In addition, two online workshops of Shanghai Plaster and Building Colouring were organised. Under the demonstration and guidance of the master craftsmen, participants tried out these traditional skills using the material kits at their homes, and gained a better understanding of the profound skills adopted in historical buildings as well as the challenges of rehabilitation and conservation work.

Experts in architectural, surveying and conservation sectors shared their valuable experience and knowledge in historical buildings conservation in an online forum held on 29 June 2021. Questions raised by participants regarding the maintenance of historic buildings were answered by experts on site, who encouraged timely conservation despite various technical challenges.

The campaign concluded with the closing ceremony on 14 December 2021. A “Heritage Manual” will be published in early 2022 to guide historic building owners in properly maintaining their buildings and provide them with the organisations that they can seek help in case of difficulties.

Closing ceremony of the “Maintenance and Appreciation of Historical Buildings”

“Beyond Your Campus” Competition 2021-2022

In light of the great success of the “Create Your District” Competition over the past three years, a similar campaign, “Beyond Your Campus” Competition 2021-2022 (「構建『你』想校園社區」創作比賽 2021-2022) was launched this year with an aim of educating the younger generation about the importance of sustainable development in Hong Kong. This competition aimed to motivate students’ critical thinking in developing an ideal community and exploring

the characteristics of their own campuses and surrounding communities. It also presented an opportunity for students to demonstrate their creativity, explore the work of surveyors and plan for their future studies and careers. Targeting at F.4 - F.6 secondary school students, knowledge sharing, discussion workshops and guided tours at selected venues were organised with the aim of delivering surveying knowledge in a more interactive and interesting way, and attracting students to join the surveying profession in the future.

3.2 Promotion of the Profession

The Divisions and Young Surveyors Group visited various academic institutions, organised roadshow career talks, and joined Virtual Information Days organised by local universities to share with the students their views and advices on career prospects.

The Institute, in collaboration with the Education Bureau’s Business-School Partnership Programme, held an online careers’ talk on “Career Prospects of the Surveying Profession” on 8 October 2021, with the participation of 150 students and teachers despite the Black Rainstorm Warning issued that day.

The HKIS Best Development and Conservation Award (BDCA) was launched on 16 January 2020. This pioneering award with the theme “Surveying Excellence in Development and Conservation” aimed to echo the United Nations Sustainable Development Goals from a local perspective; to promote the image of surveyors; and to display masterpieces in development and conservation projects. Many remarkable and outstanding projects entered into this pioneer award competition. The results of HKIS BDCA were announced and presented at the BDCA 2021 Award Presentation Ceremony held on 12 November 2021. The main theme of BDCA 2021 was to acknowledge projects that demonstrate excellence in the six surveying disciplines, contributed by in-depth experienced practitioners and other experts, irrespective of the project nature or usage, across different phases of a normal project development cycle

in the context of economic, environmental, and social sustainability.

Winner of Best Development & Conservation Award: The Mills

The Quantity Surveying Division Scholarship Programme aims to reward students who are studying quantity surveying at local universities (City University of Hong Kong, Hong Kong Polytechnic University and University of Hong Kong), the Hong Kong Institute of Vocational Education and the Technological and Higher Education Institute of Hong Kong, with the objective of becoming quantity surveyors, and to promote quantity surveying as a highly valued profession in the construction industry. On 2 July 2021, a presentation ceremony was held to award scholarships to 20 students in recognition of their outstanding performances in key quantity surveying courses leading to a bachelor's degree, associate degree, or higher diploma.

The HKIS Scholarship 2021 Presentation Ceremony to acknowledge the undergraduate students in the final year of their HKIS accredited courses for their outstanding academic performances in the previous academic years was held on 2 August 2021. Scholarships were awarded to 54 outstanding students from 5 academic institutions, namely, the City University of Hong Kong, the Hong Kong Polytechnic University, the University of Hong Kong, the Hong Kong Institute of Vocational Education, and the Technological and Higher Education Institute of Hong Kong.

The 2020 Outstanding Dissertation/ Dissertation Thesis Awards Presentation Ceremony was organised on 2 August 2021 in conjunction with the HKIS Scholarship Presentation 2021 Ceremony. The Awards aim to promote research amongst future surveyors and to recognise the efforts of students from local institutions. The Outstanding Dissertation Awards are for final year students of the HKIS

accredited first degree courses, based on merits in the research works as well as their applicability to the surveying profession. The Dissertation Thesis Awards are for postgraduate students, based on merits in the research contribution to the industry, innovation, and application to the surveying profession. A total of 29 submissions for the Outstanding Final Year Dissertation Awards, and 9 submissions for the Dissertation Thesis Awards, were received from six universities/academic institutions. Awards were presented to 14 undergraduates and 2 postgraduates respectively.

An online conference “Evolving Professional Surveying Services in Smart City” was held successfully on 27 March 2021, with over 200 participants from Hong Kong, the Mainland, Pakistan, Kazakhstan, Singapore, South Korea, and other countries. Funded under the Hong Kong Government's Professional Services Advancement Support Scheme (PASS), the HKIS event brought together experts from the Belt and Road cities/countries. Local government officials, industry practitioners and academics also participated to share and exchange their views and knowledge on professional services, practices and experiences on topics relating to the development of smart cities, including topics on Spatial Data Infrastructure (SDI), Development, Geoinformation System (GIS), and Talent. With the support of PASS, the HKIS has visited Belt and Road countries and taken part in workshops during the past few years.

3.3 Researches

The General Council approved research funding for the project:-

- Smart Technologies Application in Property & Facilities Management in Hong Kong

The following research projects were completed during the year:-

- The Nonlinear Relationship between Rental Price and Office Space in Hong Kong
- Pilot Study on the Land Survey Law and Regulations among “Belt and Road” Countries
- Position of Professional Land Surveyor in BIM Workflow
- A Study on the use of Building Information Modelling in the Property/Facility Management Industry in Hong Kong

- Research on Tree Health Analysis using Near Infrared Images on Hong Kong Old and Valuable Trees and Stone Wall Trees

3.4 Textbook Writing Sponsorship

A textbook writing sponsorship is provided to interested academic staff of local universities and HKIS members in writing textbooks on local practice for the surveying practitioners and students. The Board of Education received five book proposals during the year. The following proposals were granted sponsorship by the Institute:-

Book title	Author(s)
Sustainability and Hong Kong: challenges in planning and design	Dr Esther H.K. Yung, Prof Edwin H.W. Chan and Dr Sun Yi, Hong Kong Polytechnic University

Chinese Heritage in Hong Kong	Sr Dr Chan Tak Wa Caroline, City University of Hong Kong

The following textbooks, which were granted sponsorship in 2015 and 2020 respectively, were completed during the year:-

Book title	Author(s)
Core Competencies - Lessons Learned from 40 years as a Professional Surveyor	Sr Leung Koon Kee Anthony, SBS JP

4 Members' Communication and Services

4.1 Fighting for Members' Benefits

Enhancing the status and well-being of local surveyors is always our top priority. Despite the Covid-19 pandemic, the Institute has ensured ongoing professional development of our younger generation by securing training subsidies for employers and thus places for our graduates and assistant professionals. As

the impacts of the COVID-19 pandemic on the job market remain, the Government launched a further subsidy scheme entitled "Support for Engineering, Architectural, Surveying, Town Planning and Landscape Sectors 2.0" (Support Measure 2.0) to encourage private organisations to employ graduates and assistant professionals. The HKIS encouraged members in eligible companies to participate in online briefings hosted by the Development Bureau to benefit from the Government's Anti-epidemic Fund.

4.2 Review of the HKIS Office Accommodation

The General Council endorsed to renew the tenancy of the HKIS Secretariat Office headquarters and Surveyors Learning Centre at Rooms 1205-07, Wing On Centre, Sheung Wan, Hong Kong, for a further three year period commencing on 1 January 2022 until 31 December 2024. While relocation was preferable and may bring long-term savings, it was considered undesirable at present to incur the high fitting-out costs, after taking into account the current Institute's financial position. The General Council agreed to form a Task Force for early planning of the HKIS Office Accommodation beyond 2024, including a review of the office space and user requirements and exploring the feasibility of the purchase of permanent office premises.

To cope with the rapid change of the working environment under the "new normal", a Task Force has also been formed to review the HKIS Beijing Office, including its accommodation and operations.

4.3 On-line Payment Service for Annual Subscriptions

An alternative and convenient mode of payment for the settlement of annual subscriptions will be available in 2022. Members can opt to settle their 2022-2023 annual subscription via the on-line payment methods including Visa/MasterCard, FPS, UnionPay, AliPayHK, AliPay and WeChat Pay.

4.4 Networking

The Members' Welfare Committee successfully held a Candle Making Workshop for members on 16 October 2021 with the participation of 20 members and HKIS Secretariat staff.

Participants enjoyed a cosy time and made their own candles with customised natural ingredients and essential oils under the guidance of tutors.

The 60 Fan Club (樂齡俱樂部), a branding effort of the Senior Members Committee, aims to engage and create a sense of belonging for senior members through activities including seminars, workshops, and visits. A health seminar on ischemic heart disease and a Heritage Guided Tour in Sham Shui Po was successfully organised during the year.

The Sports and Recreation Committee have gradually resumed some activities after observing strict pandemic preventative measures during the year. The HKIS participated in the Joint Professional Volleyball Men's and Women's Competitions on 28 November and 5 December 2021 respectively.

4.5 Cooperation with other Professional Institutes, Government Departments and non-Government Organisations

We continue to maintain communications and connect our members with other Professional Institutes, Government Departments and non-Government organisations through meetings, forums, and briefings for the exchange of views on policy issues and to jointly pursue subjects of common concerns.

In February 2021, the HKIS joined together with representatives from the HKIA, HKIP and HKILA and the Legislative Council Member of the four Institutes' Functional Constituency (FC) for a further exchange of views with the Development Bureau on the proposed artificial islands in the Central Waters project of the large-scale Lantau Tomorrow Vision. It is anticipated that the project together with other initiatives related to brownfield sites, agricultural land, revitalisation of industrial land will bring an increase in Hong Kong's land supply.

The HKIS together with the HKIA, HKILA and HKIP co-organised a Joint Institutes Forum for the 2021 Election Committee Subsector Ordinary Elections (Architectural, Surveying, Planning and Landscape (ASPL)) on 15 September 2021. The forum provided a platform for the Authorised Representatives and qualified members of the four Institutes of

ASPL in learning more about the candidates for election and exchange of views.

On 6 December 2021, a Joint Institutes Forum for the 2021 LegCo General Election (ASPL FC) was held for qualified members of the four Institutes of ASPL to meet with the two candidates running for election.

5 Mainland and International Cooperation

5.1 Mainland Affairs

Due to the outbreak of COVID-19 and related anti-epidemic measures for cross-boundary travel between Hong Kong and the Mainland, all Mainland visits, were cancelled. Under this "new normal", the Committee and forums made use of technology to connect with members in the Mainland and maintained close dialogue with the relevant Mainland ministries and counterparts.

With the Mainland as our hinterland, the Institute will maintain its regional and international presence. We welcomed the measures of the Department of Housing and Urban-Rural Development of the Guangdong Province, via liaison with Hong Kong's Development Bureau, to set up a simple registration system for our building surveyors, quantity surveyors and general practice surveyors registered in the Surveyors Registration Board. Surveyors can register and practise not only in Qianhai but also in other parts of the Greater Bay Area.

On 6 September 2021, the Central Government announced its Plan for Comprehensive Deepening Reform and Opening Up of the Qianhai Shenzhen-Hong Kong Modern Service Industry Cooperation Zone (Qianhai Plan). The Institute will continue to explore ways to assist members in grasping the opportunities under the Qianhai Plan.

5.2 Comments and Suggestions

The Institute continues to act as a bridge between different government departments from the Hong Kong SAR / Mainland and members. We submitted comments and suggestions, through meetings, forums or in written format, to the Hong Kong SAR / Mainland Government, Legislative Councillors or related organisations regarding the possible favourable circumstances

for surveyors to practice in the Mainland. At the same time, the Institute updated and introduced our members the latest surveying related policies and opportunities in the Mainland, especially the Greater Bay Area, Qianhai Shenzhen and Hengqin Zhuhai, by organising seminars or sending eDM.

5.4 Reciprocal Recognition of Qualifications

The Institute continued to explore new relationships and co-operation, and strengthen connections with international and regional counterparts.

A Reciprocity Agreement between the HKIS (Quantity Surveying Division) and Chartered Institution of Civil Engineering Surveyors (Commercial Management Stream) was renewed at a signing ceremony held on 22 April 2021.

A Reciprocity Agreement between the HKIS and China Appraisal Society (CAS, 中國資產評估協會) was endorsed in principle by the General Council on 23 September 2021. The agreement paves the way for eligible General Practice surveyors to apply for CAS membership by taking various assessment tests. Subject to Mainland Chinese registration requirements, successful applicants can practise in mainland China, provide valuation services for statutory

purposes, and act as shareholders/partners of Mainland valuation firms.

A Memorandum of Understanding (MoU) for the promotion of continuing professional development was renewed between the HKIS (Planning and Development Division) and the Singapore Institute of Planners at a virtual signing ceremony on 25 November 2021. Under the MoU, both Institutes agree to co-operate in providing a good platform which enables planning and development professionals to share good practices and ideas to address urban planning challenges faced by many cities.

The HKIS entered into a Memorandum of Mutual Recognition of Membership for Planning and Development Professionals with the Royal Institution of Chartered Surveyors in December 2021.

6 Words of Appreciation

The key takeaways of my tenure, for me as a building surveyor by profession, were better knowledge and understanding of the industry, especially the challenges and concerns that other surveying divisions have been facing. I also learnt some new things to keep up with the rapid development of technology including Construction 2.0, Building Information Modelling and Modular Integrated Construction. It has also been interesting as a retired civil servant to act on behalf of the Institute in dealing with various Government departments.

One of my biggest regrets has been that there were nearly no opportunities to meet with members face-to-face at the institutional events, owing to the rigorous caution with which we have exercised during this pandemic. But we, the HKIS, have managed to remain cohesive and grow in strength. I would like to express my deepest thanks to the concerted efforts of all council members, our six Divisions, the Board of Education, Board of Membership, and Board of Professional Development, the Young Surveyors Group, and various committees, working groups and task forces.

I want to give special thanks to the HKIS Secretariat for their hard work in handling the additional workload under Covid-19. Last but not least, I wish the incoming General Council every success.

HONORARY TREASURER'S REPORT

For the Financial Year Ended 31 July 2021

Sr Alexander LAM
Honorary Treasurer

Dear Fellow Members,

I am pleased to present herewith the audited account of The Hong Kong Institute of Surveyors (HKIS) for the financial year ended on 31 July 2021. The auditor's report was prepared by Messrs Katon CPA Limited.

Due to impact of COVID-19, the total revenue of the HKIS for this financial year was HK\$27,752,760, representing a decrease of about 5.00% or HK\$1,461,919 as compared with that of the previous year (2020: HK\$29,214,679). On the expenditure side, the total amount of operating and administrative expenses (including taxation and finance cost) for the year was HK\$21,877,357, representing a decrease of about 13.40% or HK\$3,393,327 when compared with that of the previous year (2020: HK\$25,270,684). In total, a surplus of HK\$5,875,403 was recorded, representing an increase of about 49.00%.

The amount of accumulated fund of the HKIS as at 31 July 2021 was HK\$32,114,773, representing an increase of about 22.39% when compared with that of HK\$26,239,370 in the previous year, demonstrating that the Institute has placed great emphasis on prudent financial management and exercised appropriate control on operating and administrative expenses.

With full endorsement of the General Council, a fund from the surplus in the amount of HK\$1,093,820 was added to the Institute Reserved Fund for capital expenditure or necessary maintenance and renovation work of the HKIS in the future. I strongly believe that the financial position of the Institute would be equally good, if not better, in the coming years.

From 1 August 2021 onward, for taxation purposes, recurrent revenue and expenses of the Institute will be separated into two accounts, HKIS and SSL. With such arrangement, HKIS will enjoy tax benefit under the Inland Revenue Ordinance. All future tax savings will invariably strengthen the financial position of the Institute, which in turn will be in the best interest of every member.

The Institute will continue to observe the prevailing practices/guidelines with respect to financial controls on expenditures to ensure that all resources are allocated in the interests of the Institute as a whole.

The accumulated funds for the Institute, Divisions' and Young Surveyors Group are listed as follows:

<u>Accumulated Fund (HK\$)</u>	<u>31/7/2021</u>	<u>31/7/2020</u>
The Institute - Reserved Fund	4,487,341	3,393,521

It has always been an honour to serve the Institute, despite the fact that 2021 has been a difficult year for everyone. I would like to express my greatest gratitude to the President, Sr Edwin Tang, who led us through this tough year, the Office Bearers, the members of the General Council, the Finance Committee, and all staff of the Secretariat for their dedicated contributions and unfailing support. Last but not least, I would like to thank Ms Eva Leung for her supportive attitude and cautiousness in keeping the Institute's accounts in good order.

Wishing you all the best, especially a healthy and prosperous year of 2022!

Sr Robin LEUNG
Honorary Secretary

It is my greatest honour to present my second Honorary Secretary Report after my first one which was published 10 years ago. The Honorary Secretary should, under the direction of the General Council, conduct the ordinary business of the Institute in accordance with the Constitution and Bye-Laws; keep an accurate record of the proceedings of the Institute and the General Council; keep the Membership Register of the Institute; conduct the correspondence of the Institute; and give notice of all meetings of the General Council and General Meetings of the Institute.

I would like to thank the administration office for taking care of most of the routine duties of the Honorary Secretary, so that I can concentrate on the ad hoc duties assigned by the General Council, such as acting as the Chairman of the Editorial Board, the Convenor of the “Task Force on e-System Development” and the “Task Force on Implement the Recommendations of the Report of Working Group on Review of Disciplinary Procedures”, as well as handling disciplinary proceedings for a few cases.

It was a busy year for the Editorial Board as 2021 was the 80th Anniversary of the Battle of Hong Kong and in this regard we also published two Special Issues of *Surveying & Building Environment* in addition to the publication of the Vol 30 at the beginning of 2021. Furthermore, under the guidance of the Editorial Board, tailor made cover stories for *Surveyors Times* were written to echo the current affairs, drawing special attention from the public at large.

With the support and great contribution of the past five Honorary Secretaries, including Sr Thomas HO, Sr Raymond KAM, Sr Ben CHONG, Sr Alex WONG and Sr Edward Au, the findings by the “Task Force on Implement the Recommendations of the Report of Working Group on Review of Disciplinary Procedures” has been accepted by the General Council on its fifth meeting on 23 September 2021. A Working Group has been formed to amend the Bye-Laws and Code of Conduct to incorporate the recommendations of the Task Force. It is expected that an EGM will be convened in 2022 to consider and approve the amendments.

The nomination of Ir LAM Sai Hung, JP (林世雄先生) as Honorary Fellow of the Institute was accepted by the AGM held on 20 December 2021. It is encouraging and beneficial to the members of the Institute as Ir LAM’s experience can help in connecting and integrating the surveying expertise for further advancement of the local construction industry and real estate market.

In 2021, although there was about 3% increase in the number of Corporate Members, the total number of members has been offset by the almost 6% decrease of Associates, Probationers and Students, and thus technically no net growth of membership was noted. In view of the increasing demand for required workforce in the market, a strategy to attract new Probationers and Students will be necessary in the coming years.

BUILDING SURVEYING DIVISION

Sr Billy WONG
BSD Council Chairman

It is my great honour to serve as the Chairman of Building Surveying Division, The Hong Kong Institute of Surveyors. I have been working with the council members since 2020, one of the most challenging years in everyone's memory.

Facing the unprecedented crisis of COVID-19 in the past 2 years, we have demonstrated resilience under this new normal situation.

I would like to summarise some key efforts made by the BSD council in 2020/21.

Goals Set at AGM 2019/21

- Review of Team Working Structure**

Addition of OB, Hon Secretary in the 2020/21 Council year. Council members were assigned to 4 focus areas and each area was led by dedicated office bearers in the last 2 council years.

- Gender Equality & Ladies' Empowerment**

% of OB and Council members. Encourage more female representation in media to promote Building Surveying.

- Retreat for Mid- to Long-Term Strategy**

THE 1ST BSD RETREAT

The BSD Council Members joined a two-day brainstorming workshop from 11 to 12 January 2020, exchanged views on the development of the Building Surveying profession and formulated its year plan as well as mid- to long-term strategies. During the workshop, the committee reviewed its membership structure and performed a SWOT analysis to determine and define the strengths, weaknesses, opportunities, and threats in the following key focus areas:

1. Outreaching Students and Probationers
2. Enhancing Support for Professional members
3. Improving Connection to the Market and Industry
4. Serving the Community

Council members were assigned to the above focus areas, with each area led by dedicated office bearers in the last two council years.

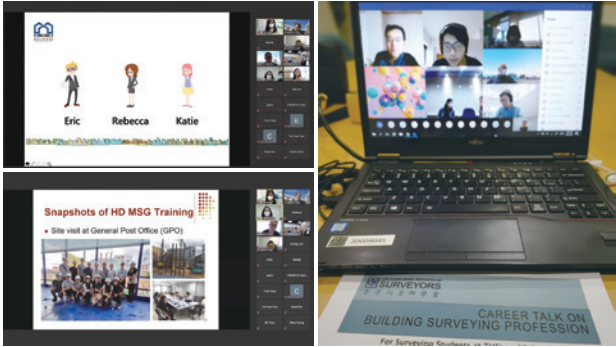

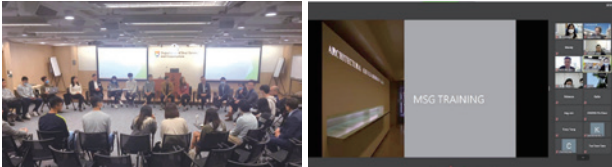

STUDENTS AND PROBATIONERS

1st Road Show Career Talks with ArchSD, BD and HD for Four Local Universities

We organised a series of career-sharing talks for the surveying students who are interested in a career in Building Surveying in the Architectural Services Department, Buildings Department, or Housing Department (ArchSD, BD and HD), as well as in the private sector. The talks allowed students to gain a better understanding of the BSG/MSG training scheme in the public and private sectors.

The officers responsible for the BSG/MSG training scheme, their BSG/MSG trainees from the three government departments, and representatives from the private sector attended this sharing session. The first road shows were held at The University of Hong Kong, The Hong Kong Polytechnic University, City University of Hong Kong and The Technological and Higher Education Institute of Hong Kong in first quarter of 2020 with positive feedback.

Road show career talks 2021 were successful completed in first quarter of 2021. It had been a good opportunity to reach out to the students who were interested in a career in Building Surveying.

Pre-Qualification Structured Learning (PQSL)

We organised 20 PQSL sessions in 2020 and 2021 to support our probationers in preparation for the APC. 10 out of 20 PQSL sessions were free of charge in view of the tough pandemic situation in the past two years.

Year	Number of PQSL		No of PQSL Free of Charge
	Online	Face to Face	
2020	10	-	6
2021	7	3	4
Total	20		10

Another New Initiative for APC Workshops in 2021

Something new was tried by the BSD in its PQSL sessions this year when it organised three workshops on three consecutive Saturdays in September on the three main streams defined in its APC Rules and Guide. The workshops featured several sessions of lectures and interactive discussions amongst participants. Representatives of each panel went on stage after each discussion to share the key contents of their discussions with other participants.

Assessment Of Professional Competence (APC)

New Initiatives for APC

APC Assessment had been seriously affected by the COVID-19 situation. To reduce the backlog of assessment candidates, new initiatives and measure were implemented.

A Milestone of Our APC:

Video Conferencing for the Final Assessment

The first formal session of Final Assessment conducted by video conferencing was held in September 2020. With the successful implementation of the assessment via video conferencing, online interviews had become an alternative to conventional face-to-face interviews.

APC Days for Final Assessment on Routine Basis

To reduce the backlog of candidates on the waiting list, two APC Days of Final Assessment were held in 2020 and three APC days were held in 2021. It was proven to be the most efficient way to clear the backlog and resume to normal situation with the full support and contribution of the assessors.

Year	APC	No of Panels	No of Assessors	No of Candidates
2020	Practical Task (1)	23	93	64
	Final Assessment (2)	43	139	122
Total		66	232	186
2021	Practical Task (2)	37	192	184
	Final Assessment (3)	47	159	169
Total		84	351	353

BS Probationers' Collaboration

With the impact of the pandemic situation, all social networking were put on hold and our communication with our members were mostly conducted via online.

When the situation had become more stable, a probationers' gathering was held successfully on 18 November 2021. It was an opportunity for the probationers, newly-qualified members, and council members to meet, exchange views, and foster stronger communications.

Bi-weekly articles in iMoney Magazine (屋有必測之風雲)

To better engage with the public, the BSD has published bi-weekly articles in *iMoney Magazine* (屋有必測之風雲) since 1 May 2021. Its purpose is to investigate different cases adapted from real-life building problems with a fictional character, Sr Holmes.B (福爾摩.B). Readers who are interested in investments and housing can easily understand the important role that building surveyors play in solving building problems.

15 articles have been published so far with each focusing on a specific building surveying case. All have received good responses. The BSD will continue to introduce different building surveying cases to readers as they follow Sr Holmes.B in tackling different building problems!

BSD Annual Dinner 2021 - COVID Fighters' Reunion

The Covid-19 pandemic has disrupted the work and daily lives of nearly everyone in the world. In response to such a new challenge, various industries and sectors have banded together to come up with an array of relief measures to support the needy and help the society ride out the difficult time. Thus, the BSD Annual Dinner 2021's Organising Committee has adopted "Covid Fighters' Reunion" as the theme of its dinner in 2021, to acknowledge everyone's hard work, passion, and dedication to their profession and their efforts to serve society. The gathering was successfully held on 22 November 2021. It was our great honour to have the Financial Secretary of HKSAR as our Guest of Honour.

I would like to express my sincere thanks and heartfelt appreciation to all office bearers, council members, co-opt members, fellow members and helpers for their unfailing support, valuable guidance and patience over the past years. I wish every success for the incoming council and good health to all of you.

GENERAL PRACTICE DIVISION

Sr Alnwick Chan
GPD Council Chairman

I am pleased to present to the members a summary of the GPD's major activities for the year.

Opportunities to Practice in Mainland China

To enhance business and career opportunities for the members, the Council has endeavored over the years to help members expand their fields of practice into Mainland China.

On 12 March 2021, delegates from the LOCPG's Department of Educational, Scientific and Technological Affairs paid a courtesy visit to the HKIS and were greeted by our office bearers led by President Sr Edwin Tang. Future opportunities to expand professional services to the Greater Bay Area, among other issues affecting the livelihood of fellow surveyors were discussed.

There are also ongoing discussions between the Development Bureau and the Mainland authorities on permitting Hong Kong surveying firms to carry out valuation assignments in the Greater Bay Area. With this objective in mind, the HKIS is lobbying the authorities to accept the HKIS Company List (GPD) as the first party to call when considering eligibility issues.

On this note, one of the many tasks that the upcoming GPD Council will undertake is to review the mechanism of admitting GP firms to the HKIS Company List. A working group shall be established to review the list and recommend the necessary changes to be made to the registration criteria, as appropriate. Please be assured that all GPD members will be consulted during the review process.

Standard Rates of Land Premium

The GPD has always been concerned with the existing land premium assessment mechanism and has repeatedly proposed improvements to the Government.

After years of advocacy, the GPD was delighted to see that the Government has rolled out a two-year pilot scheme for charging land premium at standard rates for lease modifications of industrial building redevelopment, with an aim to expedite lease modification and encourage redevelopment of aged industrial buildings.

On 15 March 2021, the Lands Department issued a practice note (PN No 1/2021) on its implementation and on 19 March, the Development Bureau expressed its gratitude for the constructive advice provided by the HKIS, in particular the knowledgeable counselling given by the GPD in person and in writing.

In July 2021, following a number of successful cases involving the use of standard rates, GPD advised the Government to consider offering a similar standard rate option for the land exchange premium assessment of agricultural lots to expedite land and housing supplies.

On 6 October 2021, the Chief Executive announced in her policy address that the standard rate premium assessment will be extended to land exchange cases in the New Development Areas in the near future. A meeting with Lands Department on this issue was scheduled in early December 2021.

Lease Expiry in 2047

The challenge of coping with a large number of land leases that will expire in 2047 has given rise to public unease over the last decade.

In March 2021, I met with Sr Hon Tony Tse, BBS, and requested that he raise the issue with the Legislative Council, which he kindly did on 28 April 2021.

The Secretary for Development replied by elaborating on the Government's ongoing efforts to address the matter. Members can find the Government's detailed official response at the weblink below:

<https://bit.ly/3vEgXnb>

Electoral Reform

The Improving Electoral System (Consolidated Amendments) Bill 2021 was published on 13 April 2021. The GPD generally supports the changes. There are 56 specified entities eligible to register as voters under the Election Committee's Architectural, Surveying, Planning and Landscape subsector.

However, the specified entities do not appear to fairly represent all HKIS members, especially since land surveyors and facilities managers in private practice are not included in the list of specified entities.

To enhance HKIS members' participation in the new Election Committee, the HKIS relayed its concerns to the Secretary for Constitutional and Mainland Affairs through a letter submitted on 28 April 2021.

In the letter, the HKIS recommended that the number of eligible entities should be increased by including more firms of different disciplines so that the Architectural, Surveying, Planning, and Landscape Subsectors would enjoy broader representation.

On 4 May 2021, the Secretary for Development replied with a letter addressed to the HKIS President Sr Edwin Tang, which can be

Remuneration for Lands Department-Appointed Expert Witnesses in Lands Tribunals

Lands Department appoints expert witnesses to help the Lands Tribunal resolve disputes over valuation matters. Under the current arrangements, surveyors appointed as expert witnesses are remunerated upon the full settlement of compensation claims, which could take years. Such an arrangement has caused concern and cash flow issues among many surveyors in the industry.

Surveyors appointed as expert witnesses should be given adequate autonomy to discharge their duties as experts. Thus, the GPD has asked Lands Department to review the remuneration arrangement for appointed consultants and suggested that stage payments be adopted in tender documents. This would ensure that surveyors are remunerated for their work in a timely manner.

The HKIS believes that periodic or stage payments are fair because similar compensation arrangements are offered to legal professionals. Therefore, the Government should extend this payment term arrangement to surveyors.

Zonal Plan and Reimbursement of Professional Fees

In July 2021, it came to the attention of the members that the Zonal Plan was no longer available for viewing on the Government's website, causing anxiety among many owners and professionals.

Separately, owing to Lands Department's publication of Practice Note Nos 5/2020 and 5/2020A on Payment of Professional Fees in Connection with Compensation Claims' Involving More than One Professional, GPD members were concerned whether fees incurred by their clients when seeking professional advice on accepting or rejecting ex gratia compensation

would be regarded as fees reasonably incurred.

In response to these two issues, GPD wrote to the Director of Lands to seek clarification and was invited to meet with representatives of the Lands Department's Acquisition Section on 14 September 2021.

GPD requested that the Acquisition Section formally announce the abolishment of the Zonal Plan and inform its stakeholders of its new arrangements to ensure transparency, and Lands Department provided an official written response on 21 October 2021.

New Members

This year, the Education Committee, under the leadership of Sr Dr Lennon Choy and Sr Leo Cheung, continued to ensure that all examination-related venues were provided with adequate social distancing.

By strictly adhering to the Government's social distancing guidelines, the APC Part I Assessment was successfully held on 2 and 16 October 2021. In total, 26 candidates sat for the Part I Assessment, while 35 candidates attempted the Professional Task written assessment. In December 2021, 55 candidates will sit for the Part II Assessment.

A diploma presentation ceremony was conducted on 2 October 2021 for newly qualified surveyors who undertook the Part II assessment in December 2020 and June 2021. 55 candidates passed their interviews.

Under the Memorandum of Mutual Recognition of Membership, the HKIS admitted 15 new members who were also RICS corporate members.

I express my deepest gratitude to the Education Committee, HKIS/RICS Working Group, and voluntary assessors for their contributions.

Acknowledgement

The GPD Council's affairs rely on the active voluntary participation of its Council Members in various task forces, panels, committees, and working groups.

The GPD's continued prosperity testifies to the Council's commitment and dedication. I thank all of its members, co-opted members, and YSG representatives for contributing their time, skills, and connections to help the GPD realise its potential and expand its influence throughout Hong Kong and the Greater Bay Area.

Finally, I thank all GPD members for their ongoing support.

Growth of Land Surveying Division

Established in 1984, The Hong Kong Institute of Surveyors (HKIS) is the only surveying professional body incorporated by ordinance in Hong Kong. HKIS' work includes setting standards for professional services and performance, establishing codes of ethics, determining requirements for admission as professional surveyors, and encouraging members to upgrade skills through continuing professional development.

As of 30 November 2021, the number of members reached 10,990, of which 7,467 were corporate members, 67 were associate members and 3,456 were probationers and students. We have 56 Fellows, 287 Professionals, 30 Associate Members and 221 Probationers in LSD. We have a growth of 6% of membership in LSD Corporate Members last year.

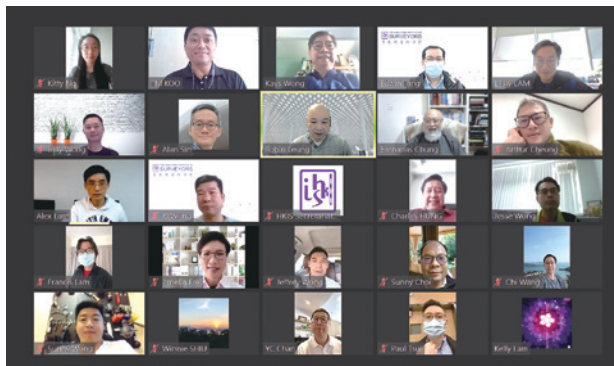

I count on the 221 Probationers to develop themselves and upgrade to Corporate Membership through the APC route housekeeping by our LSDEC. I think we should also recruit qualified professional land surveyors via Membership Applications under Reciprocal Agreements. The coming Council will take on the task for the healthy growth of LSD Corporate Members.

The Trend of Land Surveying Beyond 2020

The 2021 Council had a ZOOM Meeting on Tuesday, 5 January 2021 to discuss the action plan in 2021. We agreed to focus on our expertise in the provision of high precision spatial data via various surveying technologies e.g. UAS, 3D Laser and LiDAR. We should also promote our specialty in CSDI, BIM, GIS and Smart City initiatives. Some of our plan were reported to General Council /Boards in the HKIS Retreat 2021 on 23 January 2021.

HKIS Retreat 2021

Review of Specialised Fields of Land Surveying Practice

To realise our ever-expanding areas of specialisation in our profession which is largely driven by the technology-methodology-application cycle, land surveyors must be timely

adaptive to the changes of the cycle elements. LSD has defined fields of specialisation of the land surveying practice in Hong Kong.

The same are adopted as professional training fields for Assessment of Professional Competence. For instance, the invention of laser scanner has changed the method employed by land surveyors for mapping. The scanning methodology is also deployed by land surveyors to new applications, such as indoor mapping and scan-to-BIM operation. Such innovative applications can contribute to the invention or integration of new technologies, such as SLAM and AI.

A working group (WG), led by Sr Paul Tsui with WG Members: Sr Y C Chan, Sr Ricky Lai, Sr Kenny Chan, has conducted a review on the specialised fields of land surveying practice in 2021. The new set of Specialised Fields of Land Surveying Practice 2021 was endorsed by the LSD Council and would be uploaded to our website shortly.

Specialised Fields of Land Surveying Practice 2021

1	Cadastral Surveying
2	Engineering Surveying
3	Topographical Surveying
4	Geodetic Surveying
5	Hydrographic Surveying
6	Photogrammetry and Remote Sensing
7	Digital Mapping and Cartography
8	Geospatial Information Technology
9	Utility Surveying
10	Building Information Modelling

Apart from proposing a more adaptive categorisation to the latest development of the land surveying practices, LSDEC was vetted the duty to advise on the competence areas for each specialised field so as to meet the needs of tertiary education, professional training and client reference purposes.

Prescribed Conditions on Property Management Practitioner (Tier 1) Licence

Pursuant to the Property Management Services (Licensing and Related Matters) Regulation (“the Regulation”) in prescribing various

matters in respect of a licensing regime for property management companies and property management practitioners (“PMP”) under the Property Management Services Ordinance (Cap.626) (“PMSO”) came into operation in August 2020.

Land Surveying Division has submitted an expression of interest to the Property Management Services Authority (PMSA) in becoming a Recognised Professional Body (RPB) mentioned in section 7 of the Regulation and has provided information and documents for the PMSA’s consideration.

PMSA announced on 18 October 2021 that Fellows and Members of the Land Surveying Division of The HKIS have been recognised by the Authority for the purpose of fulfilling the criterion regarding membership of a RPB as holding a Property Management Practitioner (Tier 1) licence as set out in the Property Management Services (Licensing and Related Matters) Regulation (Cap 626 sub leg. B) and that it has been added to the list of “Recognised Professional Bodies” (RPBs) of the PMSA.

Review of Code of Practice approved under Land Survey Ordinance

Under the Land Survey Ordinance Cap 473 (LSO), for the purpose of providing practical instruction or guidance in respect of land boundary surveys and related matters, the Land Survey Authority (LSA), after consultation with the Institute, may approve and issue such codes of practice if in its opinion are suitable for that purpose. The last version of Code of Practice (COP) was approved in December 2006 and a review of the COP by LSA was kicked off in late

2020. Sr So Wing Yeung and Sr Tang Sze Kin were nominated to join the LBSWG on behalf of HKIS to help out the revision work in early 2021.

The draft 5th Edition of COP was sent to HKIS in late June 2021 for comment. A briefing to HKIS Members was held on 20 July 2021 by ZOOM to all LSD members. Sr Chan Siu Bun, Deputy Director/Survey and Mapping of Lands Department, the Land Survey Authority, briefed members about the changes from the 1st Edition to the 4th Edition of COP and how the 5th Edition would improve the COP such that the LSA would better serve the purpose of the legislation.

Upon HKIS’s comment given on 18 August 2021 as reported in my message in the August 2021 *Surveyors Times*, LSA gave his response to our comments on 12 November 2021. The Authority decided to put forward the implementation of the proposed Fifth Edition of COP as scheduled and defer the suggestion to the next round of amendment exercise for further consideration and action.

Small Unmanned Aircraft Order and Use of Unmanned Aircraft System (UAS) for Surveyors

An Unmanned Aircraft System (UAS) normally contains (1) a human-operated control system; (2) an Unmanned Aircraft Vehicle (UAV); and (3) a command and control system - to link (1) and (2).

UAS are being deployed increasingly in the Hong Kong Construction Industry for surveying and inspection purposes with enhanced productivity, safety, time and cost benefits. With the advancements in technology, UAS are becoming smaller in size, better in performance and more affordable.

Small Unmanned Aircraft (“SUA”), commonly known as “drone”, is defined as unmanned aircraft weighing 25 kg or less according to the International Civil Aviation Organisation’s general classification of unmanned aviation.

Under the existing legislative framework, unmanned aircraft are classified as aircraft and are governed, as far as aviation safety is concerned, by the Air Navigation (Hong Kong) Order 1995 (Cap. 448C), which provides that a person must not recklessly or negligently cause or permit an aircraft to endanger any person or property. In addition, the Air Transport (Licensing of Air Services) Regulations (Cap. 448A) requires that a person using an aircraft for hire or reward, including unmanned aircraft, must apply for a permit granted by the Director-General of Civil Aviation (“the Director”) before flight and must abide by the terms and conditions of the permit issued.

As the existing civil aviation legislation mainly aims at regulating the operations of manned and larger civil aircraft and is not specifically designed for unmanned aircraft, the Administration considers it necessary to introduce a customised and self-contained legislative framework under the Civil Aviation Ordinance (Cap. 448) to regulate SUA. The new regulatory regime for SUA adopts a risk-based approach which on the one hand aims to safeguard aviation and public safety while on the other, allows ample room for the development and applications of SUA in tandem with the evolving technology and innovation.

The Small Unmanned Aircraft Order (SUA Order) was gazetted on 16 July 2021. The Order was tabled in the Legislative Council for negative vetting on 21 July 2021. The Order would be operational with the transitional arrangement for certain offences under L.N. 116 during the six-month period between 1 June 2022 and 30 November 2022.

UAS is an important measurement tools for land surveyors in the new era of geospatial data capturing, digital mapping, 3D city modelling, BIM formation as well as other survey support for initiatives for smart city. Land surveyor uses differ sensors on UAS to achieve the required geospatial data in a particular spectrum to meet their work.

Mr Yuen Siu Kei Michael, Chief Operations Officer (Technical Administration), Unmanned

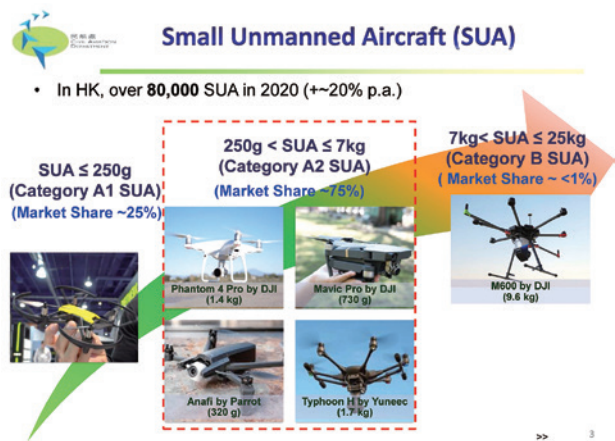

Aircraft Office, Civil Aviation Department delivered a CPD talk on the SUA Order to surveyors of HKIS. The CPD talk contains measures focusing on the implementation of the Order right after the completion of the legislation.

Measures for Surveyors

Land Surveyors Foster the Development of Smart City

To fully promote the development of Smart City in the creation of a healthy office and building environment for fighting the virus, LSD has to make use of its professional knowledge on land surveying to facilitate the capturing of high precision spatial data. We then transform them to needed spatial information, setting it as the basic infrastructure for the development of Smart City.

A HKIS Conference: Evolving Professional Surveying Services in Smart City was held on 27 March 2021 to share the professional service, practice and experience from Belt and Road cities / countries on Smart City development. The conference included four sessions and relevant topics, including Smart City and Common Spatial Data Infrastructure, Smart Planning and Development, Smart Geo-information System and Smart City Talent.

The Conference is under a project funded by Professional Services Advancement Support Scheme (PASS) with Sr Dr Conrad Tang as the Project Coordinator of HKIS PASS Program. In the Conference, three talks on the Smart City and CSDI were presented to mark the foundation of the Smart City Development:

With the Smart City Blueprint 2.0 for Hong Kong, we have to modernise our National Mapping and Cadastral Agencies (NMCA) as the skeleton for the smart-city of Hong Kong. We have to groom our Young Talents for Spatial Data Infrastructure (SDI), Smart Planning and Development with Smart Geo-Information System (GIS). Going

forward, we hope to continue pushing for unity, innovation, and ever-improving professional standards in our professional surveying industry by exchanging ideas and sharing experience with other countries.

Open Data on Digital Maps and Geospatial data

Open Data available on HKMS 2.0

Open Data available the Hong Kong GeoData Store (Geodata.gov.hk)

April 2021 was an exciting month for land surveyors. Government opens up useful geospatial data free to public starting from mid-April 2021. The geospatial data includes:

- (a) Digital Topographic Map;
- (b) Digital Land Boundary Map;
- (c) Geo-Reference Database;
- (d) Digital Orthophoto;
- (e) Digital Aerial Photo (300 dpi resolution);
- (f) GeoCommunity Database; and
- (g) 3D Spatial Data.

These free geospatial data support the public, academia and businesses in researches and application developments. We believe that the free data will facilitate the development of a digital economy, realising the visions of the Smart City Blueprint for Hong Kong 2.0 and bringing benefits to the society as a whole.

The open geospatial data are available for browsing and downloading from:

- (1) Hong Kong Map Service 2.0 (www.hkmapservice.gov.hk);
- (2) Hong Kong GeoData Store (Geodata.gov.hk) as well as the
- (3) Public Sector Information Portal (Data.gov.hk).

Lands Department announced on their Hong Kong Map Service 2.0 Portal that most of their digital map products would be available as Open Data from April 2021. This step would lead us to a better and smarter city with the support of the open digital map data sets.

The Development Bureau of the HKSAR Government has established the Geospatial Lab (GeoLab), encouraging the public to make use of spatial data in developing smart applications, dovetailing the Common Spatial Data Infrastructure (CSDI) initiative in support of smart city development.

A Task Force for the Construction Material's category under the HK Accreditation Service (HKAS) was formed. The terms of reference of this new task force include assisting the working party, to which it reports to, on various aspects relating to underground utility survey:

- i. drafting of technical criteria which conformity assessment bodies shall meet;
- ii. recommending interpretation and harmonisation of assessment standards;
- iii. identification, determination of qualifications and review of potential assessors;
- iv. identification of training needs for conformity assessment bodies and potential assessors; and
- v. Other technical aspects including evaluation of test procedures for purpose of accreditation.

LSD was invited to join the technical committee of the project “Development of Specifications and Standards for Underground Utility (UU) Survey based on Nondestructive Testing, Surveying, Imaging and Diagnostic (NDT/SID) Approaches” which was funded by Innovation Technology Fund (ITF) on 2018. It represents an effort of knowledge transfer from basic/applied research to practical use in Hong Kong and elsewhere. The Project was led by Ir Dr Lai Wai Lok Wallace of Department Land Surveying and Geo-Informatics of the Hong Kong Polytechnic University.

The technical committee met in 2021 and was managed to finalise the six specifications in the Project before submitting to the Hong Kong Laboratory Accreditation Scheme (HOKLAS) task force for endorsement. We expect Standardisation of Underground Utility Survey Methods and associated HOKLAS Accreditation will soon be available for reference.

Engineering Survey Practice Guides for Land Surveyors

Engineering Survey Practice Guides for Works Projects

The Engineering Survey Practice Guides for Works Projects (ESPG) was first issued in 2018 to recommend good practice of engineering survey for reference within the Government. In 2020, the Land and Engineering Survey Board proposed to revise the ESGP with a view to making it available for reference as a practical guide by practitioners in the surveying industry in both private and public sectors.

LSD has invited three key speakers, Sr So Man Cheong Kenneth, Sr Lai Lit Ki Ricky and Sr Chan Ka Lok to introduce the public version of ESGP, the progress of revision and the remarks for Land Surveyors in using this guide for members.

Thank you

I would like to take this opportunity to express my sincere appreciation to all council members for serving the Institute and leading the Land Surveying Division Council (LSD) this year. The LSDEC, the BOM representatives and all other LS representatives in various committees and working groups. The LSD grew significantly and expanded its scope of services to the community especially during this year.

Lastly, I am sorry to report that the LSD's Annual Dinner 2021 has to be cancelled again due to the COVID 19 pandemic. I look forward to Annual Dinner 2022 when the situation resumes normal next year.

I wish all the best for the incoming council and I shall render my support whenever necessary to enable the Council in carrying out the council works. I look forward to seeing more new faces, especially young surveyors to help promote our professional services to the public and the society.

PLANNING & DEVELOPMENT DIVISION

Sr Francis Lam
PDD Council Chairman

We have been living through a time of “new normal” under the coronavirus pandemic in Year 2021. Same as last year’s response to the local pandemic situations, the PDD Council has been taking a couple of measures to maintain the division’s functions without major disruption. We followed all the Government anti-pandemic regulations and guidance by conducting our council meetings and CPD/PQSL events online.

Furthermore, the PDD Council had decided not to organise our division’s annual conference and PDD Annual Dinner in 2021 in view of the uncertain pandemic situations.

Reciprocal Agreement with the RICS

We finished the negotiation with the Royal Institution of Chartered Surveyors (RICS) on the proposed reciprocal agreement between the PDD and their Planning and Development Pathway in October 2021.

In early November 2021, we obtained the endorsement of the HKIS General Council on the draft reciprocal agreement.

Both parties will arrange the official signing of the Memorandum of Mutual Recognition Agreement between the HKIS Planning and Development Division and the RICS Planning and Development Pathway in the near future.

Membership Profile

Notwithstanding the adverse impacts caused by the COVID-19, I am pleased to report that we have gained a total of eight new Corporate Members either by multiple membership applications or by PDD APC in 2021. The total number of PDD Corporate Members has reached 105 as at 11 November 2021.

On the other hand, we are pleased to have Sr Annie Chong and Sr Victor Ng promoted to become Fellow Members of PDD.

As at 11 November 2021, the membership profile of PDD was as follows:

Membership Class	Number of Member
Fellow	46
Member	59
Probationer	15
Student	16

We conducted two APC Final Assessments on 8 February 2021 and 8 July 2021 respectively. We are glad to see that two APC candidates, Mr Martin Wu and Miss Michelle Yeung, passed their APC Final Assessments this year, both are graduates of BA in Urban Studies course of the University of Hong Kong. We look forward to seeing more and more graduates from our cognate degree programmes to pass the PDD APC Assessments and be qualified as Planning and Development Surveyors in the years to come.

New Accredited Degree Courses for Admission to the PDD APC Scheme

On 27 May 2021, the HKIS General Council endorsed the Board of Education's recommendations on the accreditation of the **City University of Hong Kong's Master of Urban Design and Regional Planning** and the **Technological and Higher Education Institute of Hong Kong's Bachelor of Science (Hons) in Surveying** as cognate degree programmes.

This qualifies the abovementioned degree programmes for admission to the PDD's Assessment for Professional Competence Scheme.

We are looking forward to having new PDD Probationers from the graduates of these two degree programmes in the near future.

Supporting PDD Probationers and University Students

Our Council Member Sr Annie Chong delivered a career talk to the **Technological and Higher Education Institute of Hong Kong's** surveying students via ZOOM on 8 February 2021. Over 50 students attended the online talk.

Invited by Professor Tang Bo Sin, Sr Annie Chong and I joined the online presentations of **University of Hong Kong's BA in Urban Studies (BAUS) students** on 30 December 2020. This event was organised by the HKABAEIMA to showcase the students' ideas on integrating GIS and BIM in urban renewal projects.

On 5 March 2021, I joined an online presentation to the **University of Hong Kong's** surveying students as a commentator.

On 1 September 2021, Sr Victor Ng and I

attended an online programme orientation ceremony for the **City University of Hong Kong's Master in Urban Design and Regional Planning course**. We introduced to the new students the PDD's professional skills, route of qualifications and APC assessment. They were encouraged to join the PDD as Student Members.

PQSL Short Course: Planning Practice, Law and Ethics in Hong Kong

This year we continue our collaboration with the Department of Urban Planning and Development (DUPAD) of the University of Hong Kong in offering the PQSL short course "Planning Practice, Law and Ethics in Hong Kong" to our PDD Probationers as part of their PQSL in local planning practice and law. This course is a core course in DUPAD's Master of Urban Planning course.

PFM Surveyors Continuous Battle Against Pandemic

As the problems of the COVID-19 pandemic continues to linger on, both within Hong Kong and around the world, the year 2021 remained a very demanding and tough year for our PFM profession. Whilst there is a risk, there is always a new opportunity for us to improve and advance our skills and knowledge in our work. Apart from adapting to the “new normal” in our daily lives, we also reckon the importance of new measures in improving our environmental hygiene and the application of new technologies in our management. Many empirical applications of new technologies and data management have proven that we can save time, cost, and improve quality as well as safety in our building construction and facilities. We must try not to be a square peg in a round hole, by upkeeping our knowledge and skills in new technologies and IT management in the PFM applications. Throughout our CPD programmes this year, we have tried our best to introduce various types of new skills and techniques to our members, empowering them to become the forerunners of our profession. We also hope that developers will encourage the PFM practitioners to get involved early in the project design stage so as to facilitate the future operation and cost saving of building facilities in the long run, which will benefit the future occupiers of the developments after completion.

Major activities

1. Property Management Services Authority (PMSA) Notice

On 30 December 2020, PFMD’s Sr Kays Wong and Sr Amy Tang represented the HKIS, attended and expressed our views in the formulation of the following codes of conduct

and guidelines which took effect from 8 January 2021.

The respective Codes of Conduct entitled “Complaint Handling Mechanism of Property Management Companies” and “Effective Control over Property Management Business by Property Management Companies” were prepared to allow licensees of property management companies (PMCs) and property management practitioners (PMPs) licences to follow, in an effective and professional manner.

PMSA Chairman, Sr the Hon Tony Tse said, “The Codes of Conduct and Best Practice Guides provide PMCs and PMPs with practical guidelines in complaints handling and company operation. The purpose is to enhance the industry’s operation and encourage the industry to provide the public with high-quality PMS more effectively.” The PMSA will issue other Codes of Conduct and Best Practice Guides to cover different property management areas.

Other new Codes, “Codes of Conduct for Property Management Industry Entitled “Prevention of Corruption” and “Prescribed Conditions on Licences,” were gazetted on 23 July 2021.

Members are reminded to take note of the new Codes of Conduct and Best Practice Guides from time to time.

2. Contract - Procurement of Leak Investigation Services for Underground Water Mains

A Zoom meeting was held between Water Supplies Department and the HKIS on 18 December 2020. Our PFMD representative, Sr Tim Law, expressed his views from the property manager’s perspective, on the liabilities for leaking tests and repair costs that

the owners and occupiers may incur. As such work was considered rather specialised, there was the concern that there could be only a few contractors on the market for selection by the owners.

3. Qianhai GBA Task Force

In view of the rapid economic growth and business opportunities in Qianhai and Greater Bay Area (GBA), PFM representative, Sr Patrick Leung, was nominated to join the Task Force overseeing its development in January 2021. The Task Force is led by the Hong Kong Coalition of Professional Services. Patrick reports on the development's progress, business environment of the Mainland, and its opportunities to members from time to time.

4. HKIS Media Briefing 2021

“Hire PFM Professionals to Manage High Risk Buildings”

In the media briefing held on 19 February 2021 at the HKIS Surveyors Learning Centre, Sr Kays Wong raised our concern about the latest outbreak of the pandemic in some aged buildings and district areas. He recommended that the government or statutory bodies should set up funds and provide subsidies, in establishing a new specialised office with property and facility management professionals to manage the high risk buildings. This year, the Division encouraged members to apply innovative technologies in property and facility management to combat the epidemic. We also provided technical support to the government in improving the quality of life of the owners of the three-nils buildings where necessary.

5. Accreditation of Higher Education Institutes

(a) Technological and Higher Education Institute of Hong Kong (“THEi”), BSc (Hons) in Surveying (QSD and PFM Stream)

THEi submitted an application seeking accreditations under the BS, GP, PD, QS and PFM Divisions. In November 2020, an Accreditation Panel (QS and PFM Stream) was formed, which included PFMD members, Sr Kays Wong and Sr Prof Dr James Chan. After examining the course contents and related

information, a discussion with students and a site visit of THEi's facilities and provisions, the accreditation was approved in June 2021.

(b) New accreditation – BSc (Hons) in Property and Facility Management (GP & PFM) SPEED, Hong Kong Polytechnic University (PolyU)

An accreditation panel was formed to process an accreditation application from SPEED, PolyU. PFMD representatives, Sr Kays Wong was nominated as the Panel Chairman and Sr Gary Yeung as a Panel Member.

6. Small Unmanned Aircraft Order

The Small Unmanned Aircraft Order (SUA Order) was gazetted on 16 July 2021 to take effect on 1 June 2022. SUAs, commonly known as ‘drones’, are able to carry out activities such as building inspections and surveys of external wall conditions, which raise interests from estate management or development, other than privacy issues, insurance, and public safety. Members are reminded to pay close attention on the progress of this development and to provide comments. Further details are available from this link:

<https://www.info.gov.hk/gia/general/202107/14/P2021071400442.htm>

To enrich our members’ knowledge, a CPD event on this topic took place on 12 November 2021.

7. Social Links

(a) MTR Society Link Gathering-Visit to Tuen Ma Line

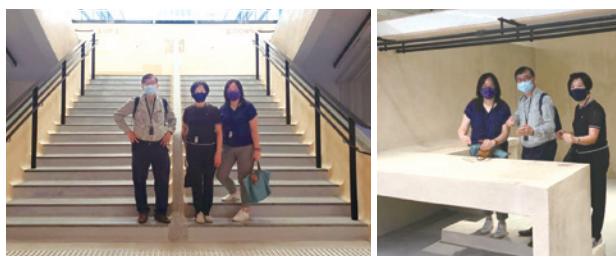

Sr Kays Wong represented the HKIS in the visit to Tuen Ma Line on 19 June 2021. The MTRC’s Operation Director, Dr Tony Lee, briefed on the

new features of the entire Tuen Ma Line and its facilities management provisions. He also led the visitors to the Sung Wong Toi Station and explained the archaeological discoveries unearthed during the construction work. The relics with historical explanation has become an attraction of the station.

(b) The Central Market Revitalisation Project Preview Tour

On 17 August 2021, Sr Kays Wong, Sr Amy Tang and Sr Rebecca Lee accepted an invitation from Chinachem Group and the Urban Renewal Authority (URA) to the Central Market Revitalisation Project Preview Tour. The Project is a conservation and revitalisation project under the URA, which is also part of the Government's new initiative "Conserving Central". The URA commenced restoration and preservation works for this 80-year-old grade three historic building using innovative restoration methods, repair materials, and project management software, with enhanced work quality and efficiency. The URA has partnered with Chinachem Group in the operation and management of this building located in the centre of Central.

(c) IFMA Integrate Conference "New Operation Mode in FM after the Covid-19 Pandemic"

On 8 September 2021, Sr Kays Wong represented the HKIS to attend the IFMA conference, which focused on new technological changes and a new operation mode. The pandemic across the world has led to massive changes in terms of innovation and technology in our daily lives. To ensure a safe, comfortable, and effective living environment, new modes of FM are important.

(d) Building Safety Symposium

Three council members Sr Kays Wong, Sr James Chan and Johnathan Lee of PFMD joined the Seventh Building Safety Symposium on 22 October 2021. The theme of this year's symposium is "Shaping a Smart and Livable Built Environment" as organised by the Buildings Department. Building professionals, members of the building management sector, government officials and academics were invited to exchange views on related issues.

8. Waste Disposal (Charging for Municipal Solid Waste) (Amendment) Bill 2018 by Legislative Council

After several years of discussion, the Legislative Council passed the captioned Bill on 26 August

2021. As the Bill will have a significant impact on everyone in Hong Kong, PFM members and their companies will manage and coordinate the various measures, such as costs and management implications to meet the new statutory requirements in all our property sectors in order to reduce waste. Our Division has set up a special task force, coordinated by Council Members, Sr Tim Law and Sr Alan Wong, in response to the new requirements. Members are encouraged to give comments and suggestions to the Divisional Council as soon as possible. For details, please refer to: <https://tinyurl.com/yz3mblgn>.

9. Discussion Meeting on Smart Lamppost Development for Hong Kong

On 13 September 2021, PFMD Council Member, Sr Ray Ng, attended a discussion meeting on Smart Lamppost Development in Hong Kong at the Tamar Government Offices. During the session, representatives of professional institutes including the HKIS, HKIA, HKIE, HKIUD, etc. expressed and exchanged their views and comments with Government officials on the continuation of the Pilot Scheme. Smart Lampposts equipped with smart devices like thermal detectors, air-quality sensors, Geo-QR code, RFID tag for blind patrons, Wi-Fi antenna, etc. can provide convenient data services, collect various real-time city data, enhance city, and traffic management, and facilitate future infrastructure development for 5G mobile communications services in Hong Kong. This was a key infrastructure project mentioned in the Government's 2017 Policy Address.

As dedicated professionals, PFM surveyors should seize the opportunity to connect buildings/ facilities under their planning and/ or management to such smart city digital infrastructure for better and more efficient life with the least environmental impact to Hong Kong citizens.

10. CPD Activities

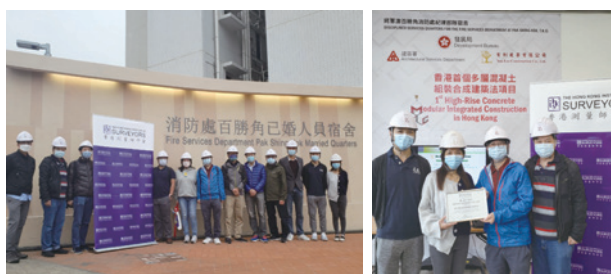

We were delighted to see the continuous support from PFMD members and Council Members, especially the PFMD CPD Chairman Sr Dick Li, Members Sr Danny Leung, Sr Jack Li, Sr Louis Lee and other committee members in making all the CPD events very successful during this hard time. Despite the continuing

pandemic, nine quality and successful CPD events were organised from November 2020 to October 2021. Most of the CPD activities were conducted by way of Zoom Conference with high participation rates and very good feedback and comments. Apart from the ZOOM CPD events, we managed to arrange two site visits when the pandemic situation stabilised during 2021.

MiC Visit

The first site visit was organised on 27 February 2021 to Hong Kong's first High-rise Concrete Modular Integrated Construction (MiC) at Fire Services Department's Pak Shing Kok Married Quarters.

Water World of Ocean Park

The second site visit was made to the Water World Facility of Ocean Park on 18 June 2021. We were warmly welcomed by Mr George Tso, Executive Director of Design and Engineering, Mr Ken Wong, Director of Water World Engineering and Mr James Lee, Head of Construction Department. The visit provided an overview of how facilities management were integrated into pre-development planning and operation with sustainability.

The organised CPD events are listed at Appendix 1.

11. Education

(a) HKIS Outstanding Final Year Dissertation Awards 2020

Council Members, Sr Louis Lee and Sr Shelly Chan represented PFMD at the HKIS Outstanding Final Year Dissertation Awards 2020 and Dissertation / Thesis Awards for Postgraduate Students 2020 held on 2 August 2021 at the HKIS Surveyors Learning Centre.

(b) Research Proposal

As in the past, we worked closely with higher academic institutions. In 2021, we commissioned Sr Prof Daniel Ho to conduct a research on the topic of “Smart Technologies Application in Property & Facilities Management in Hong Kong”. Further details of the research paper will be provided to the members soon.

12. Membership Growth

Starting from 594 founding members in 2005, the number of Property and Facility Management Division members have now grown to 823, which include 794 Corporate Members, 23 Probationers, and 6 Student members as of 28 October 2021. Despite some growth in the number of Corporate Members, further efforts in the promotion of the PFM profession for the enrolment of students need to be addressed.

Membership statistics for PFMD:

Grade of membership	October 2020	October 2021
Fellow	137	141
Member	646	653
Probationer	27	23
Student	15	6

After the signing of the Memorandum of Mutual Recognition of Membership (MMRM) with the Royal Institution of Chartered Surveyors (RICS) in 2019, applications from interested applicants have been received from time to time. Professional interviews were postponed due to the pandemic situation and statutory restrictions. As we have accredited some programmes of higher institutions and universities during the past two years, we hope more young members will join our profession in the coming years.

13. Quality Property and Facility Management Award

Owing to the continuing pandemic crisis, the Biennial Quality Property and Facility Management Award jointly organised by the HKIS and The Hong Kong Association of Property Management Companies (HKAPMC) has been postponed for nearly two years. With a decrease in the number of COVID-19 cases and the relaxation of the social gathering restrictions, both the HKIS and HKAPMC recently decided to resume this important event in early 2022. Further details of the award will be announced by the organising committee comprising members from the two organisations.

14. Surveying Students Career Sharing Seminars

Council Member, Sr Shelly Chan represented the PFMD in a Careers Talk held on 23 November 2020. She shared her experience and professional development as a PFM surveyor with the students at the THEi.

With positive response from the students, another career sharing seminar was held with the THEi students on 8 February 2021. Around 50 students joined the session. Sr Kays Wong and Sr Shelly Chan shared their career paths and working experiences with the surveying students, providing the students a better understanding of the PFM industry as well as some directions in choosing their streams of study and preparing for their careers after graduation.

An online career talk and sharing session on PFM practice to the 3rd and 4th year students of BSc in Surveying in HKU was held on 27 April 2021. Sr Kays Wong introduced the background of PFMD and its core business, activities, and

career prospects, while Sr Dr Danny Cheng, a former PFMD Council Member, shared the roles of a PFM surveyor in housing management and his unforgettable experiences of dealing with the Covid-19 pandemic at some large housing estates. Some interesting events and episodes were shared during the session. Positive feedback was received. Students raised questions regarding topics such as the taking over of a new development, the measurement of effectiveness and standards in property management practices, which were explained and discussed.

15. Media Coverage

An article entitled “物業管理新常態” by the PFMD was published in the column “高深可測” in *Sing Tao Daily* on 15 April 2021. It covered topics relating to the change of management modes and measurements during the pandemic crisis and the application of new technologies in the property and facilities management.

Looking Forward

In view of the improving situation of the pandemic crisis and our adaptation to “Working in the New Normal,” our activities can now be held in two modes i.e. face to face meeting with some restrictions or virtual meeting by way of

Zoom. This new mode will help promote our future activities and CPD events. In the last few years, we have seen a lot of new technologies and IT skills deployed to improve our environment, hygiene and daily living. Therefore, it is important for our professionals to keep up with the knowledge and skills in the new era of scientific and digital world.

New technologies (artificial intelligence and big data, smart living, the internet of things, low carbon footprint, green management, energy savings, sustainability, environmental protection, etc.) have to be familiarised and applied in the future Smart Management.

Also, the pandemic has made us realised that we must collaborate closely with our residents and clients to minimise the spread of COVID-19.

As for the professionals, research, and the application of new technologies in PFM services will certainly improve our service quality, efficiency and safety. Close collaboration with academic institutions to meet the high demand for professionals in housing and property developments in the next ten years, as a result of extensive and rapid developments in the North West of Hong Kong and Greater Bay Area, will attract more young people to join our profession.

Finally, may I express my sincerest gratitude and thanks to Sr Charles Hung and Sr Dr Kenny Chan, our two Vice Chairmen, and our PFMD council member as well as members, for their unflinching support during my chairmanship in the past two years.

1. LOCAL AFFAIRS

1.1 QSD Conference 2021 (23 October 2021)

The HKIS Quantity Surveying Division Conference 2021 was held at the SLC on 23 October 2021. This year's theme was "Forging Ahead: Practical Solutions in Quantity Surveying". The conference gathered government department heads, business leaders, experts, and scholars to share insights into the prospects for the quantity surveying industry.

The QSD was honoured to have Ms Winnie HO Wing Yin, JP, Director of Architectural Services at the Architectural Services Department, as its Guest of Honour to deliver the opening keynote speech. Also in attendance were the Honourable Sr Tony Tse, HKIS President Sr Edwin Tang, Senior Vice-President Sr KK Chiu, and Honorary Treasurer Sr Alexander Lam. Conducted both online and in person, the conference drew an audience of over 300 industry professionals.

Among the attendees were ten local and overseas industry leaders, experts, and scholars, who deliberated over emerging trends and explored the prospects for the quantity surveying industry from a variety of professional perspectives. The topics discussed included Covid-19 related construction claims, security of payment, the 3rd edition of the International Cost Management Standard, challenges in the application of BIM and MiC to construction, and the development of and career opportunities for the quantity surveying profession outside of Hong Kong.

In the conference, delegates were encouraged to explore and seize the opportunities that are emerging in the industry.

1.2 SMM5 (Building Works): Industry Consultation (23 April 2021 and 24 May 2021)

The current Hong Kong Standard Method of Measurement (4th edition, HKSM4) was published in 2005. While adopting a new tabulated format as the UK's SMM7, many measurement rules of the HKSM4 are based on previous trade practices. In recent decades, there have been vast changes to the construction industry such as the adoption of new construction materials and building components; utilisation of advanced construction technologies, particularly in prefabrication, standardisation, and mechanisation; the implementation of collaborative procurement approaches with more integration and partnership among all stakeholders; use of BIM technologies to enhance the design and construction process; and coping with the ever-changing and increasingly stringent legislative requirements. As a result, a new HKSM5 has been prepared.

Whilst the SMM5 Committee has completed the draft of the SMM5 (building works) sections, two online industry consultations chaired by Sr Dr Paul Ho (Chairman of the HKIS SMM5 Committee and QSD Past Chairman) were successfully held on 23 April and 24 May 2021.

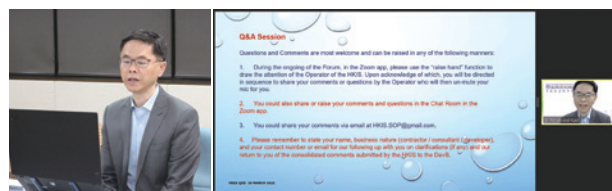

1.3 Online Forum on DevB Security of Payment (SOP) Provisions (30 March 2021)

In response to the Development Bureau's (DevB) request to evaluate certain documents prior to the promulgation of a new DevB Technical Circular (Works) to implement the spirit of the proposed Security of Payment (SOP) legislation in all new public works contracts, Sr Raymond Kam, Chairman of the HKIS Task Force on Security of Payment and QSD Past Chairman, convened an online forum for members to

do that on 30 March 2021. The drafts they commented on were:

- (1) Draft technical circular (Works) to implement the spirit of the Security of Payment (SOP) legislation in all new public works contracts
- (2) Draft booklet of SOP Provisions as a reference for incorporating such terms into relevant subcontracts under the main contracts
- (3) A draft leaflet highlighting the key features of SOP provisions

The Technical Circular (Works) No. 6/2021 on Security of Payment Provisions in Public Works Contracts was subsequently issued by the DevB on 5 October 2021.

1.4 Property Management Services Authority (PMSA) Recognition (8 October 2021)

The HKIS (BSD, GPD, PFMD, and PDD) is on the list of Recognised Professional Bodies of the Property Management Services Authority (PMSA). Members may be aware that President Sr Edwin Tang, Sr Paul Wong (HKIS Vice-President and QSD Past Chairman), Sr Raymond Kong (QSD Immediate Past Chairman), LSD Chairman, and I met with PMSA representatives on 4 June to follow up on the provision of further information to the PMSA in order to allow QSD corporate members to apply for Property Management Practitioner (PMP) Tier 1 licences upon fulfilling their membership requirements under Cap 626.

Following the provision of two rounds of supplementary information to the PMSA for the review of its Board in late September 2021, the PMSA finally gave the QSD a positive response on 8 October 2021, when President Sr Edwin Tang, Vice-President Sr Dr Lesly Lam, and QSD Immediate Past Chairman Sr Raymond Kong met with PMSA CEO Mr Alan Siu to receive a letter of recognition.

From now on, the PMSA will recognise QSD Corporate Members for the purpose of fulfilling the criterion regarding membership in a

recognised professional body as a condition for holding a Property Management Practitioner (Tier 1) Licence, as set out in the Property Management Services (Licencing and Related Matters) Regulation (Cap 626 sub leg B). Members who fulfil the criterion are encouraged to apply for membership.

4.3 “Let’s have a Chat about BIM” by ArchSD (12 March 2021)

The Architectural Services Department (ArchSD) organised the above event after its office hours on 12 March. It served as a platform for intelligence exchanges between consultants, contractors, and the ArchSD on the application of building information modelling (BIM). I attended the event in person whereas Sr Sunny Choi (QSD Vice-Chairman), Sr Paul Wong (HKIS Vice-President and QSD Past Chairman), and Sr Dr Paul Ho (QSD Past Chairman) joined the event online.

Among the various aspects of BIM discussed, the topic, “Transition of Design BIM to Construction BIM and How to Improve the Information Exchange between Different Parties,” was focused in this informal exchange session. In this respect, ArchSD and its respective project team of contractors shared their experiences with the “Fu Shan Public Mortuary” and “Inland Revenue Tower”. Views and opinions on BIM applications were also exchanged after the project sharing session. I shared the application of BIM to quantity surveying during project design and construction stages as well as the BIM training progress of QSD.

4.4 “Let’s Have a Chat 2 : Nurturing Talents in the Industry” by ArchSD (23 July 2021)

ArchSD organised the second event on 23 July after office hours. The topic for discussion was “Nurturing Talents in the Industry”.

I was honoured to be invited to share the QSD’s experiences with attendees at the ArchSD’s Community Hub at the Queensway Government Offices. Meanwhile, HKIS Vice-President and QSD Past Chairman Sr Paul Wong and QSD Council Members Sr Tiffany Chan and Sr Dr Ken Hui joined the event online.

The workshop ended after a fruitful exchange of views on the topic among attendees representing various organisations.

Sr Johnson Cheung (QSD Council Member and New Member Welcoming Party Organising Committee Vice Chairman) is one of the participants of this Party in 2019. We need to inject new blood into the QSD Council on a regular basis in order to sustain the development of our Council.

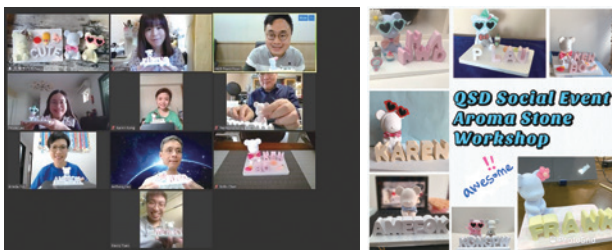

We were also grateful to have our HKIS Honorary Secretary Sr Robin Leung and QSD Past Chairmen Sr Thomas Ho and Sr Antony Man; and QSD Office Bearers attend the party.

Creative games for the new members were full of fun and laughter. At the end of the party, I conducted a lucky draw and presented the winners with their prizes.

6.3 Assessment of Professional Competence (APC) (Part I : 11 August 2021 & Part II : 15-16 September 2021)

The APC Parts I and II (Papers 1 and 2) were successfully held at KITEC, Kowloon Bay, on 11 August and 15-16 September 2021, respectively. This year, approximately 200 candidates sat for Part I, while some 500 sat for Part II. Given the pandemic, the QSD implemented the same precautions as last year such as social distancing in seating arrangements, access control using body temperature sensors, etc.

I express my heartfelt thanks to members of the Divisional Education Committee (DEC), chaired by Sr Steven Tang, and the HKIS Secretariat for organising the APC during this challenging period.

6.4 APC 2021 Professional Interviews (15 January 2022)

The Divisional Education Committee has scheduled to conduct the professional interviews on 15 January 2022. As previous years, there is a tremendous demand for interviewers. I encourage members who can spare half or a whole day of their precious time to participate in this meaningful exercise. This is the moment for us to have face-to-face discussions with prospective new blood of the quantity surveying profession. Members will be informed of the exact time and venue of the interviews in due course.

7. PRE-QUALIFICATION STRUCTURED LEARNING & CONTINUING PROFESSIONAL DEVELOPMENT

7.1 Pre-qualification Structured Learning (PQSL)

Fulfilling the Pre-Qualification Structured Learning (PQSL) hours is one of the mandatory requirements of Associate Members and Probationers, who must take a minimum of 15 hours of approved learning activities every six full months after their entry to APC, before they sit for the APC examination.

PQSL aims to enrich Associate Members and Probationers with essential knowledge in quantity surveying practices and principles in construction contracts, so as to prepare them for the APC examination. There are a series of PQSL events, namely measurement, procurement, standard form of building contract, contract administration and specialisation, which cover QS topics such as:

- Measurement techniques
- Measurement of building works and building services installations
- Tendering
- Reporting on tenders
- Variation and post-contract cost control
- Payment valuation and final accounts
- Contractual arrangements
- Liquidated damages and extension of time
- Direct loss and expense claims
- Dispute resolution
- Liquidation

From 2021 onwards, the QSD is geared to structuralise PQSL events to provide probationers with prime knowledge in various spectrums of the APC competencies as follows:

		Minimum Number of Events	No. of Events Completed
Core Competencies			
1	Measurement & Billing	1	3
2, 3 & 4	Pre-contract Cost Planning, Estimating & Pricing, etc.	2	4
5	Procurement	3	4
6	Contractor's Tendering & Cost Control	1	2
7	Contract Administration	5	6
Optional Competencies		2	3
APC Workshop		2	3

Together with the workshops for the APC Parts I and II examinations, QSD is committed to organising no fewer than 20 PQSL events each council year.

In this Council Year 2020/21, 25 PQSL events have been held, including four workshops for APC examinations. For details, please see Annex "A".

7.2 Continuing Professional Development (CPD)

Continuing professional development (CPD) is "the systematic maintenance, improvement and broadening of knowledge and skill and the development of personal qualities necessary for the execution of professional and technical duties throughout the practitioner's working life."

To upkeep our members' professional competence in their professional practices and technical performances is one of the importance tasks of the QSD. This year, the QSD CPD Sub-committee, organised 42 CPD events on a variety of topics, including contractual and legal, cost management, insurance, management, BIM, green measures, and other technical issues. For details of the CPD events of this Council Year 2020/21, please see Annex "B".

In addition, we have started collaboration with the Hong Kong Institute of Architect, the Hong Kong Institution of Engineers (Building Division) and the Hong Kong Institute of Construction Managers in CPD events this year. We recorded a total of some 1,000 members of the three institutes registered for a talk conducted by URA held in April 2021.

On behalf of the QSD, I would like to express my heartfelt gratitude to the CPD Sub-Committee Chair Sr Betty Lo and her team for the devotion, and tremendous efforts working together with other dedicated members in organising, promoting the CPD events to the members.

Looking forward, the QSD will continue to organise good quality CPD events in diversified areas, collaborate with other construction professionals, and cater for professional development and lifelong learning for our members.

8. PUBLICATIONS

8.1 Practice Notes for Quantity Surveyors (6 September 2021)

The QSD first published a series of practice notes on consultancy quantity surveying in 2012 with amendments in 2015. Through the joint efforts of the QSD and Association of Consultant Quantity Surveyors (ACQS), a new Practice Notes on Procurement Strategy was completed recently. The drafters of this Practice Notes

are Sr Dr Ken Hui and Sr H Y Wan representing QSD and Sr K C Tang and Sr Thomas Ho representing ACQS. Its launching ceremony was held at the Surveyors' Learning Centre on the evening of 6 September with Sr Thomas Ho (ACQS Honorary Secretary), Sr Sunny Choi (QSD Vice-Chairman), Sr Rex Ying (QSD Honorary Treasurer), Sr Antony Man (QSD Past Chairman), Sr Jim Chark, Sr Dr Ken Hui, Sr H Y Wan (QSD Council Members), and I in attendance. Following the ceremony, a CPD talk was delivered by Sr HY Wan, one of the drafters of the Practice Notes.

In addition, the *Practice Notes on Cost Control and Financial Statements* was amended with the incorporation of notes for "Architect's Instruction Pre-Approval". Both Practice Notes have been uploaded to the HKIS website for members' reference.

Members can get a hard copy of the "Practice Notes on Procurement Strategy" from the HKIS office while stock lasts.

9. PROMOTION OF THE QUANTITY SURVEYING PROFESSION

9.1 Interview by Economic Times – “測量業迎疫後發展機遇 惟缺專才” (20 August 2021)

I was interviewed by *the Hong Kong Economic Times* in August this year. A description of the quantity surveying profession was published on 20 August. The attractive title - “測量業迎疫後發展機遇 惟缺專才” has aroused public interest in learning more about the quantity surveying profession.

The full contents of the interview can be viewed in the below link:

<https://bit.ly/3h03eBX>

This record of interview in deed contributes to attract more new blood to join our profession.

Furthermore, the QSD also provided recommendations on relevant industry issues in respect of cost and contract.

The QSD spokespersons are Sr Amelia Fok, Sr Sunny Choi, Sr Staw Wong, and Sr Raymond Kam.

9.3 2021 HKIS Quantity Surveying Division Scholarship Presentation Ceremony (2 July 2021)

The HKIS QSD Scholarship Presentation Ceremony 2021 was successfully held on 2 July at the Surveyors' Learning Centre. Members may

have noticed that the QSD has been organising this event since 2011. The objective of setting up the scholarship for students studying quantity surveying related courses at local universities or the Institute of Vocational Education (IVE) is to nurture and encourage more young people to join the surveying profession. The scholarship should also enhance the status of quantity surveyors as highly-valued professionals in the construction industry.

The QSD was pleased to have HKIS President Sr Edwin Tang deliver the opening speech and, together with representatives of the scholarship sponsors and myself, present the awards to the winners.

Thanks to the generous support of local quantity surveying firms and related companies, we have a record high of 20 scholarships this year, awarded to students for their outstanding performance in key quantity surveying subjects leading to their associate's/bachelor's degrees or higher diplomas. 9.4 HKIS Diploma Presentation (2 October 2021)

The HKIS Diploma Presentation was held at the SLC on 2 October. President Sr Edwin Tang and I were honoured to present diplomas to the 60 new members of QSD. Congratulations to them all!

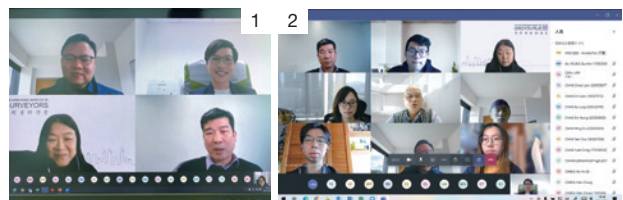

9.5 Online Career Talks to Universities and IVE

One of the items in my yearly plan is to strengthen communications with surveying students at local tertiary institutions. This year, the Promotion Sub-committee conducted several online career talks to a total of around 500 students who were studying surveying related subjects in local institutions offering HKIS cognate degree and higher diploma courses.

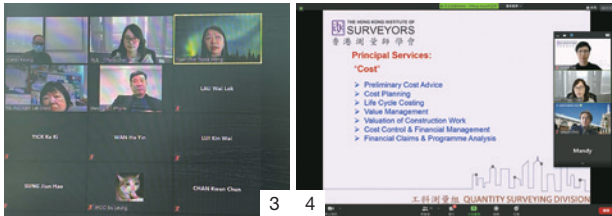

9.5.1 Technological and Higher Education Institute (THEi), City University of Hong Kong (CityU), and University of Hong Kong (HKU) (29 January 2021, 3 February 2021, 9 February 2021)

The Promotion Sub-committee arranged and conducted online career talks to surveying students at Technological and Higher Education Institute (THEi), City University of Hong Kong (CityU), and University of Hong Kong (HKU) on 29 January, 3 February, and 9 February, respectively. These talks were well-attended by over 210 students ranging from Years 1 to 4.

During these talks, the speakers introduced the roles and career prospects for professional quantity surveyors, as well as the routes to obtain the qualification. These were followed by each speaker giving an in-depth account of his/her professional experiences.

1. Speakers of Career Talk for THEi
 2. Interaction with the students of THEi

3. Career Talk for CityU
4. Career Talk for HKU

The students were actively involved during the Q&A sessions by inquiring on the essence of being a professional quantity surveyor, the challenges of and opportunities for the profession, techniques in preparing for the Assessment of Professional Competence, etc. I found this kind of promotional activity important in fostering greater communication between the surveying students and industry practitioners, which should effectively enhance the students' understanding of the profession as their possible lifelong career.

9.5.2 Hong Kong Polytechnic University (PolyU) (12 March 2021)

A career talk was held online for students of Bachelor's degree in Surveying and Higher Diploma in Building Technology Management (surveying stream) of PolyU on 12 March. Over 130 students attended this event.

The roles of and career prospects for the QS professionals and the routes to qualification followed by in-depth accounts of their personal experiences were introduced to the students. The students raised many questions during the Q&A session, particularly on career development and professional examinations.

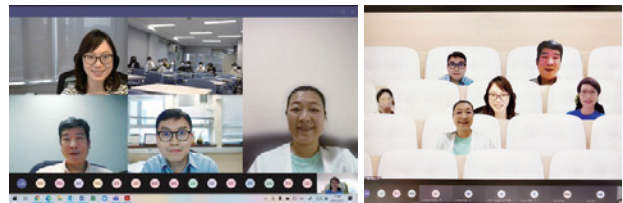

9.5.3 Institute of Vocational Education (IVE) (29 April 2021)

An online career talk was given to IVE Higher Diploma in Surveying students on 29 April. 80 students participated in this event.

A briefing on the role of a QS surveyor, its career

prospects, and the routes to being qualified, followed by brief summaries of the career paths of the speakers were delivered to the students. During the Q&A session, the students actively raised questions regarding their own career aspirations.

9.5.4 HKU MSc Students in Construction Project Management (2 October 2021)

At the invitation of HKU, Sr Steven Tang (QSD Council Member and Divisional Education Committee Chairman) delivered an online career talk to around 20 MSc students in its Construction Project Management programme with the presence of its director, Dr Roine Leiringer, on 2 October 2021. During the talk, he introduced the QSD profession and covered career opportunities and routes to QSD membership.

After the talk, the students had questions on their eligibility for membership, salaries, career prospects, work venues, industry trends, etc. A few students admitted that they had obtained their first degrees in non-construction-related fields, but intended to pursue quantity surveying careers. This is an indication that graduates of other disciplines also find quantity surveying to be a promising career.

9.6 Online Career Talk to Secondary School Students (8 October 2021)

Another fruitful and successful online career talk on surveying profession was held in collaboration with the Education Bureau – Business School Partnership Programme on 8 October.

The HKIS introduced all six surveying divisions to an audience of over 150 students despite the adverse weather that day. Sr Tiffany Chan (QSD Promotion Sub-Committee Chairperson & QSD Council Member) represented the QSD at the talk.

9.7 Publication of Articles

The QSD has published the following articles in this Council Year 2020/21.

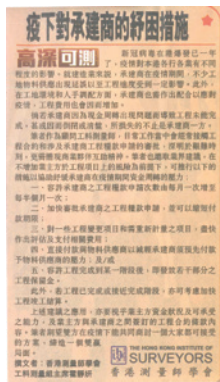

- (1) *Surveyors Times Cover Story - Evolving markets call for versatility in surveyor's roles*

By Sr Staw Wong (Honorary Secretary of the QSD, HKIS), Sr Tony Wan (Council Member of the General Practice Division, HKIS) & Sr Boris Yeung (Member of the Building Surveying Division, HKIS)

- (2) “疫下對承建商的紓困措施” | 「星島日報」2021年2月4日 | 地產 | 高深可測 |

10. Modular Integrated Construction (MiC)

10.1 Visit to InnoCell at the Hong Kong Science and Technology Park Corporation (HKSTP) (27 March 2021)

On 27 March, Sr Sunny Choi (QSD Vice Chairman), Sr Rex Ying (QSD Honorary

Treasurer), Sr Paul Wong (HKIS Vice-President and QSD Past Chairman), Sr Raymond Kong (QSD Immediate Past Chairman), Sr Dr Paul Ho (QSD Past Chairman), six Council members, eight BSD members, and I visited InnoCell at the HKSTP. We were received by Sr Steven Chan, Associate Director of Contract Management of HKSTP, and his team.

The delegation was given a brief account of the project's background, its contract procurement strategy, payment terms, arrangement of insurance and warranty, application of innovative technologies, the challenges it faced during the construction of the project, etc. This was followed by a site visit to the common areas and various accommodation units in the building.

InnoCell has become a showcase of modern smart living and co-creation communities by offering flexible design and ancillary facilities. It would accommodate its occupants in July 2021 tentatively.

10.2 Visit to Nano and Advanced Materials Institute Limited (NAMI) at the Hong Kong Science and Technology Park (HKSTP) (19 June 2021)

On 19 June, Sr Sunny Choi (QSD Vice-Chairman), Sr Raymond Kong (QSD Immediate Past Chairman), Sr Paul Wong (HKIS Vice-President and QSD Past Chairman), Sr Keith Yim (QSD Past Chairman), Sr Raymond Kam (QSD Past Chairman), Sr Jim Chark, Sr Dr Betty Lo, Sr Christina Wong (QSD Council Members), Sr Sunny Wong (YSG Vice Chairman and QSD Co-opted Member), ten BSD members and I visited NAMI at the HKSTP, which was incorporated in 2006 as a subsidiary of the Hong Kong University of Science and Technology and designated by the Government's Innovation and Technology Commission as a research and development centre for nanotechnology and advanced materials. The visit was organised by the MiC Working Group.

The delegation was received by Dr Ivan Sham, NAMI's Director of Research and Development (Construction) and his team, who delivered an informative presentation regarding the latest construction technologies and led us to visit their MiC prototype.

NAMI's MiC prototype was a hybrid comprising high-strength steel frame as structure and lightweight concrete to form a non-structural wall with reinforced mesh. A unique technology, "Triple-proof," which protected against water, fire, and smoke, was applied in stitching between modules. To make its technologies ready for construction use, NAMI has submitted two four-storey designs to the Buildings Department for In-principle Acceptance (IPA).

11. CONCLUSIONS

This year, the QSD has been vigorously adapting to the new norm under the pandemic. The QSD Conference 2021 was held successfully in form of webinar. Our presence in PAQS Congress 2021, ICEC meetings, 中國數字建築峰會 2021 與大灣區第三屆粵港澳大灣區大型基建項目管理創新高峰論壇 and communication meetings with our counterparts in mainland China were also conducted through the virtual platform.

The promotion of quantity surveying as a high-valued professional in the construction industry as well as a career to youngsters is our prime importance. Online career talks were conducted and a record high of 20 scholarships presented to students of 7 local tertiary institutes for their outstanding performance in key quantity surveying subjects. Interviews by media and articles in newspaper have aroused the attention of the public on our profession.

Nurturing our rising professionals is equally important. This year, the QSD has structuralised the PQSL events by APC competency, organised free PQSL workshops and CPD events on diversified topics. Besides, CPD/PQSL coupons were given to our members.

I am pleased to conclude that the QSD Council has accomplished most of the tasks set out in the yearly plan.

My heartfelt thanks go to all outgoing Council members and the Secretariat of the Institute for their hard work, relentless efforts, unflinching support and valuable advices, without which the QSD would not have been able to accomplish its targets in the Council Year 2020/21.

Last but not least, I would like to send my sincere gratitude to all members of the QSD and the Divisional Council for giving me the opportunity to serve the QSD Council 2020/21 as the Chairperson and I wish our members will continue to support the QSD in Council Year 2021/22.

YOUNG SURVEYORS GROUP

Sr Kitty Ng
YSG Council Chairperson

The service of the YSG Committee Session 2020-2021 finally ended in November 2021. I hereby express my greatest gratitude to YSG's immediate past chairlady, office bearers, committee members, co-opted members, and student representatives for their continuous support of YSG throughout the year.

Fortunately, the pandemic situation improved a bit in 2021 and allowed YSG to resume its physical meetings and activity planning. Apart from the series of continuous professional development trainings throughout the year, we also had a running event at the beginning of the year followed by a hiking event; pottery-making workshops; a beach-cleaning event; and zipline, abseiling, and rock-climbing workshops, the committee devoted itself to organising a series of exciting events for members. I will share the details of the accomplishment of the YSG committee below.

Continuous Professional Development (CPD) and APC Workshops

A total of 22 CPD events and APC workshops were held this year with over 3,500 registered participants. These seminars covered critical topics related to the surveying profession, which provided the participants with the latest information about the real estate and construction industry as well as market insights from experienced practitioners in the industry.

Apart from CPD, we also worked with other divisions to provide APC workshops for the probationers. Throughout the workshops, our speakers shared their knowledge on different core competences and valuable work or APC related experiences with the audience, so that the probationers can equip themselves with the required knowledge and skills to become a professional surveyor.

On behalf of YSG, I would like to take this opportunity to thank our CPD conveners, Sr Gigi Mok and Sr Tracy Wong and other committee members, Sr Coolidge Siu, Sr Johnson Cheung, Sr Mickey Ng and Sr Otto Li for their contributions to organise CPD events for our members.

Social Events and Sports Events

Thanks to the efforts of our social event sub-committee and sports sub-committee, we have successfully organised four social events and sports events this year.

The first event was a virtual running event. Members ran together along the Kwun Tong Promenade and finished a 3km run at the Zero Carbon Building. More experienced runners continued their journey to the Kai Tak Cruise Terminal Park before returning to Kwun Tong Promenade for a 10-km run. Through this event, we successfully encouraged members to do more exercises and promoted the health and sports culture in the industry. Thanks to conveners, Sr Candy Ho and Sr Sunny Wong in coordinating this meaningful event!

In our second event, we invited award-winning photographer Sr Jacky Lee to join our hiking activity. Participants walked from Siu Sai Wan to Big Wave Bay while Jacky taught them basic photography skills by simply using a mobile phone. It was a day full of fun and laughter.

The third event is a series of pottery making workshops Which was originally planned for two workshops. Due to the overwhelming responses

from the members, we have eventually provided an additional Sunday class, which also attracted a full house within two days after it was open for registration. Participants followed the instructions of the instructors and made their own pottery artwork in a relaxing atmosphere.

The last social event was the Zipline, Abseiling and Rock Climbing Workshop. Participants experienced three exciting activities during the four-hour workshop under the supervision of professional coaches. Many positive feedbacks were received from the participants.

It is believed that these activities have provided a good networking opportunity for our members. I am sure that more interesting social events would be organised in the future when the pandemic situation is relieved.

Charity Event

Ever since its establishment in 2019, YSG's social services sub-committee has been brainstorming ideas on various charity events, with an aim to bring positivity to the society. We finally launched our first social service, a beach cleaning event, in 2021 on 19 June, and attracted an overwhelming number of HKIS members. Even though the weather was hot, it did not prevent members from joining this outdoor and meaningful activity. It was great to hear the participants discuss their enjoyment of the event and interest in joining more community services like this in the future. I would like to thank Sr Patrick Leung for leading the social service sub-committee.

HKIS Dragon Boat

It was a pity that the Stanley International Dragon Boat Championships was cancelled in 2020. Luckily, the pandemic situation became less stressful in 2021 so that our dragon boat team could compete in the Stanley Invitation Cup 2021 held on 14 June (Tuen Ng Festival) at Stanley Main Beach. Starting from April, our dragon boat

team conducted training every week in order to achieve good results in the coming competition. We eventually managed to win the second runner-up in the Silver Final in the Open Division, after competing with seven other strong squads in the competition. Special thanks are given to Sr Sunny Wong, Iris Mak and Camman Chan, who have been participating and leading our team to achieve the excellent results.

Institutional Events

As YSG consist of members coming from different divisions, we always actively participate in various institutional functions. Our committee and co-opt members have helped out during many events such as HKIS Scholarship and Dissertation Awards Presentation, Diploma Presentation, Annual Conference, large-scale career talks and other divisional events for the opportunities to help connect our young members with the Institute.

Universities Events

YSG spends a lot of time and effort in building up relationship with our student members in order to enhance their sense of belonging. Through organising various events, we are able to communicate with the students and share with them the latest information of the surveying profession. We were invited by the student societies from HKU and THEi to deliver talks,

related to topics about the roles of surveyors, the route to membership and career prospects etc. We are happy to see that the members from the student societies of CityU, HKU, PolyU and THEi have actively participated in our events this year and we hope they can help further promote YSG and broaden our exposure to their institutions.

Joint Professional Events

In the previous years, YSG has closely worked with various professional bodies and their young groups to provide a great variety of events for our members. However, due to the pandemic situation and the social distancing measures, it was difficult for us to arrange joint professional events. As these joint professional events offer a great opportunity for our members to meet with other professionals and broaden their own social network, I hope these events can resume as soon as the situation permits in the future.

YSG Annual Dinner

Our annual dinner was postponed for a few times due to the pandemic situation. After considering the existing circumstances, we decided to call off the annual dinner 2021 but co-operate with a charitable organisation to organise an event in November 2021. Thanks for the effort made by the convener Sr Wilson Ko and the other organising committee members for this meaningful event, which was full of love and joy.

Acknowledgements

Lastly, I would like to reiterate my greatest gratitude to our immediate past chairlady, office bearers, committee members, co-opt members and student representatives, for their numerous supports provided during the service term. I am so proud of our committee members who have worked together wholeheartedly to strive for an excellent year. Also, special thanks should be given to the HKIS Administration Office. Without their assistance, our events could not be held so successfully. I hope all YSG members will continue to support the new session of the YSG Committee and the committee members will continue to serve the members in the YSG with their best effort.

Recognition of practice in Greater Bay Area for HKIS APC purpose

The BOE generally recognises the practice in Greater Bay Area for APC purpose if the nature of training fulfils the requirement of the APC training competencies. The Divisional Education Committees will consider each application on an individual basis.

Digitised submissions and approvals of training records required for APC

It was agreed that a digital platform will be developed to manage APC training record submissions and approvals. Digitisation is one of the key work plan items for HKIS. The Administration Office will follow up on this matter.

2021 was a busy and challenging year for the members of BOE, Divisional Education Committees, and the Divisional Panel of Assessors. The arrangement and preparation of APC assessments became more complicated with the increase in number of candidates in recent years and implementation of additional precautionary measures under the COVID-19 pandemic. The APC assessments were conducted successfully, under strict adherence to the social distancing measures implemented by the government. I would like to take this opportunity to convey my heartfelt thanks to all assessors and administrative staff who have offered their unfailing supports and contributions to the Institute and the surveying profession in spite of the COVID-19 pandemic. Thank you very much for your dedicated service!

In order to provide timely response to membership applications, the Board continued to hold bi-monthly meetings. As the spread of the COVID 19 pandemic was gradually becoming under control, the Board resumed face-to face meetings in May, July, September and November. The continued dedication of all Board Members, together with all Divisional Membership Committees and the YSG Membership Committee is deeply appreciated, for without which, the Board could not have functioned so efficiently. The Divisional and YSG Membership Committees comprised the Divisional and YSG representatives to the Board and co-opted committee members and assessors for the vetting of applications and assessment interviews with the applicants when required.

During the session year, the statistics of membership applications processed are as follow:

Applications	BSD	GPD	LSD	PDD	PFMD	QSD	Total
FHKIS	4	5				3	12
<i>Rejected</i>							
<i>Approved</i>	4	5				3	12

<i>(via reciprocity)</i>		<i>(15)</i>	<i>(8)</i>		<i>(5)</i>	<i>(7)</i>	<i>(35)</i>

<i>Rejected</i>		1				1	2
<i>Approved</i>	28	18	2		1	21	70

With more reciprocity agreements being entered into by Divisions with their counterparts in sister professional bodies, the number of applications for membership via reciprocity also significantly increased.

The above statistics refer only to the number of applications processed during the year and do not reflect the actual changes to the membership base of the Institute. It should be noted that applicants may migrate from one membership grade or category to another. For full details of all members, readers should refer to the Membership Registers kept by the Honorary Secretary in accordance with Bye-law 2.1 of the HKIS Constitution.

Pursuant to Bye-law 2.5.2, the required Probationer membership of 8 years continued to be enforced administratively. Probationers with over 8 years of membership but still in the process of pursuing the APC will have their membership extended further for a year subject to the approval of the General Council. This arrangement has been working well and the membership statistics may be rationalised to reflect the legitimate status of surveyors-in-training.

During the session year, the statistics of the changes of probationer membership are as follow:

Probationers	BSD	GPD	LSD	PDD	PFMD	QSD	Total
<i>Applications for extension</i>	32	13	20	2	4	318	389
<i>Rejected</i>	5						5
<i>Approved</i>	27	13	20	2	4	318	384
<i>Withdrawal</i>	11	6	2			27	46

Pursuant to General Council's agreement last year, an ex-gratia renewal of student membership is allowed for one more year so that the students may smoothly upgrade to probationers when they secure suitable employment for their professional practical training.

During the session year, the statistics of the changes of student membership are as follow:

Students	BSD	GPD	LSD	PDD	PFMD	QSD	Total
<i>Applications for renewal</i>	17	39	3	5	4	29	97
<i>Rejected</i>	5	20	2	2	4	11	44
<i>Extended</i>	12	19	1	3		18	53

On a personal note, this is my tenth annual report on the Board of Membership. Special thanks must be recorded for Ms Kiny Hung, the Secretary, for her dedicated and efficient service during my chairmanship. I am retiring from the Board and I wish the succeeding Board to operate even more effectively under the new leadership.

Enhancement works for online registration system

The upgrade of the online CPD registration system is to reduce the excessive administration work as a result of the overwhelming subscriptions of online CPD events. The upgrade works have been completed in 2021. New features of the online registration system will be added to the website in early 2022.

Mandatory CPD requirements checking 2019 – 2021

To maintain the professionalism of our members and to preserve the confidence of the public to the surveying profession, each member must comply with the Guidance Notes for Mandatory Continuing Professional Development (June 2007) and complete a minimum requirement of 60 CPD hours over a three-year period.

The 5th Mandatory CPD checking exercise for the period between 1 January 2019 and 31 December 2021 will be conducted in 2022. All members are required to complete a minimum of 60 CPD hours for the prescribed 3-year period. Selected members will be required to submit CPD records for the relevant 3-year period (i.e. from 1 January 2019 to 31 December 2021) to demonstrate compliance.

A random draw for the 5th Mandatory CPD checking exercise was conducted at the November BoPD meeting. 138 members were selected by computer to submit their CPD records for checking on or before 28 February 2022.

I would like to take this opportunity to thank all the BoPD Members, the CPD organisers and the helpers for their valuable inputs and participation in this challenging year. Without your participation and dedication, we would not have accomplished such achievements in Year 2021.
