The Hong Kong Institute of Surveyors (HKIS or The Institute) was founded in April 1984 and had 85 founding members. The Institute was statutorily incorporated by virtue of the Hong Kong Institute of Surveyors Ordinance in January 1990 (Cap. 1148). In July 1991, the Surveyors Registration Ordinance (Cap. 417) was passed to set up a Registration Board to administer the registration of surveyors.

As at 31 December 2022, the number of members reached 10,989. The number of Corporate Members has grown to 7,637 including Members and Fellows – distinguished by the initials MHKIS and FHKIS. In 2022, the Institute admitted 61 Associate Members – distinguished by the initial AMHKIS. Apart from this, the total number of training grade members (Probationers and Students) at the end of 2022 was 3,291.

HKIS work includes setting standards for professional services and performance, establishing codes of ethics, determining requirements for admission as professional surveyors, and encouraging members to upgrade skills through continuing professional development.

The Institute has an important consultative role in government policy making and on issues affecting the profession. We have advised the government on issues such as building safety and unauthorized building works, problems of property management, town planning and development strategies, construction quality and housing problems. We have also issued guidance notes on floor area measurement, real estates valuation and land boundary survey, etc.

To qualify as a Corporate Member of the Institute, surveyors must possess a recognised academic degree or similar qualification, complete supervised professional experience within strict guidelines for a minimum period of 24 months, followed by an Assessment of Professional Competence (APC).

The title “Surveyor” embraces a number of disciplines involved with land and its development with land and buildings, covering an extremely wide scope. Some surveyors work

in private practices and others may work for a landowner, developer, building contractor or government departments and related bodies. A **Land Surveyor** measures and records the shape and position of the land, define the boundary and set out the legal boundaries of the sites. A **General Practice Surveyor** advises on the best use of the land, assesses the feasibility and viability of the proposed development project as well as the valuation, marketing, sale, leasing and management of completed developments. A **Planning and Development Surveyor** further advises on the possible change of zoning, the likely environmental impacts and make suggestion on preliminary development contents. A **Quantity Surveyor** is concerned with the building contractual arrangements and cost control, and will evaluate the likely cost of the development project and advise on the most suitable kind of contract for the project. A **Building Surveyor** involves in the project management of building development proposal, holistic maintenance management of building and overall control of private building under relevant legislation. A **Property and Facility Management Surveyor** provides a comprehensive range of services in real estate management.

The Institute has established and continued to expand its presence in the international scene through reciprocity relationships with other national surveying bodies and through membership in relevant world bodies and international organisations to maintain its professional edge at international level. The Institute is one of the 3 founding members, apart from the Singapore Institute of Surveyors and the Institution of Surveyors, Malaysia, of the Surveyors’ Alliance Asia which was inaugurated in November 2004. • General Practice Division •

The General Practice Surveyor

Land is a strategic resource for operation and an investment asset. Interest in land or property is bought and sold for residential, retail, office and industrial uses. These uses require careful planning, administration, continuous management and improvement; properties are developed as direct investments or securitised, and if they are professionally managed, their values will be enhanced.

General Practice Surveyors are particularly equipped with skills and knowledge to offer timely and effective advice in connection with development, use and management of property resources both for operational needs and investment purposes. They are also concerned with planning, leases administration and

valuation of land and buildings; negotiation of sales and lettings by private treaty and sale by tender or auction; financial and economic aspects of investment in property. Contemporaneously, because of the General Practice Surveyors' understanding of investment principles and asset pricing, practitioners are ready to respond to the mounting demand for valuation of trade-related business assets and business enterprises.

The services offered by General Practice Surveyors can be wide and varied. Recently, we are involved in valuation of franchises and intangibles and business valuation. Major roles played by General Practice Surveyors are as follows:

Valuation of Properties

General Practice Surveyors value all types of landed properties for various purposes. These include:

- Valuations for sale, purchase, letting and mortgage purposes;
- Statutory valuations relating to land resumption, rating, stamp duty, and other taxation purposes;
- Valuations of company portfolios for listing, balance sheet purposes, company floatation, takeovers and mergers;
- Feasibility studies on all types of properties;
- Acting as an expert witness, independent valuer or arbitrator in valuation disputes.

Development and Town Planning Consultancy

Real estate development is a complex process, which needs professional expertise and judgment. Through proper training and experience, General Practice Surveyors can provide a comprehensive range of professional services covering:

- Market studies and evaluation of development opportunities;
- Negotiation with Government on lease matters including lease modification, surrender and regrant of land leases;
- Valuation of land in connection with land acquisition and lease modification;
- Applications and appeals to the Town Planning Board for change of uses under the Town Planning Ordinance;

- Preparation of detailed financial assessments, cash flow studies and expenditure control systems throughout the development period;
- Preparation of development and design briefs;
- Constant monitoring of the development to ensure that it meets the client's as well as the land lease requirements and reflects market needs; and
- Project management, from inception to completion and eventual marketing.

Sales, Lettings and Auctions

General Practice Surveyors, on behalf of the clients, negotiate the purchase, sale or leasing of all types of land and buildings. They may act as auctioneers in the disposal of properties or as owner's agents in selling properties by private treaty or tender. They may also advise on marketing strategy and on preparation of sale and lease documents.

Property, Asset and Facilities Management

In a society of rising user expectations, good quality professional management services are essential to sustain and enhance the property values. General Practice Surveyors have been involved in the management of all types of properties and facilities. They negotiate with landlords and tenants on rent review, lease renewal and re-letting of premises. They also advise on situations of refurbishment/renovation/enhancement and redevelopment of properties. Upon securitisation of properties, General Practice Surveyors also contribute their expertise in investment strategy and property portfolio planning.

Business Valuation

Contemporarily, experienced General Practice Surveyors are engaged to provide independent valuation of trade-related business assets and enterprises in connection with mergers and acquisitions activities in Hong Kong and Mainland China.

Services in Government and Statutory Body

Apart from their work in the private practice, General Practice Surveyors are also employed

by the Hong Kong SAR Government in various departments such as Lands Department, Rating and Valuation Department, Government Property Agency and Housing Department to handle work including government land disposal, resumption, rating, taxation, public housing and home ownership scheme etc. Other major employers include Hong Kong Housing Society, Urban Renewal Authority and MTR Corporation.

• Land Surveying Division •

The Land Surveyor

Broadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts; defining property boundaries; preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the Land Surveying Division (RPS(LS)) registered under the Surveyors Registration Ordinance and Authorised Land Surveyors (ALS) registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;
- Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of earthwork quantities for payment are types of works under this category. Land Surveyors are actively involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are:

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;
- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory.

Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, Land Surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundreds of kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along the roadside and benchmarks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;
- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

Land Information Management

In the Land Information Management aspects, Land Surveyors are engaged in the collection,

integration and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make valuable contributions to these systems.

Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in the air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer models from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/orthoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eye, its profile is determined by an echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current;

- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and
- Collection of any information relating to marine navigation.

• Planning & Development Division •

The Planning & Development Surveyor

Real estate development is a complex process which requires professional input of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

Property Development Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximising project return while minimising the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

Land Administration Input

Planning & Development Surveyors specialise in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the

land premium); and assist in the execution of the lands document.

Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within, development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and the strategy to submit planning applications, review and/or appeal; and coordinate with other professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plans to safeguard the interests of land owners.

Development Project Management

Property development requires a wide range of input from various disciplines. Planning & Development Surveyors can help set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme; advise on re-distribution of resources; and to resolve issues arising during the development process.

Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future income and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

Town Planning Public Sector

Planning & Development Surveyors are involved in the formulation of planning, land, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through

the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the relevant planning policies, the environmental context and specific site characteristics.

Private Sector

Planning & Development Surveyors advise clients on the extent to which the use and value of their land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations; and attending hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

Other Common Professional Services

Planning & Development Surveyors also assist clients in site planning and advise on urban design matters together with the relevant design experts. They also specialise in coordinating large-scale planning studies usually supported by various technical impact assessments e.g. Environmental/ Ecological Impact Assessment (EIA), Drainage Impact Assessment (DIA), Traffic Impact Assessment (TIA), Geological Impact Assessment (GIA), Landscape and Visual Impact Assessment (LVIA), and Social Impact Assessment (SIA).

• Quantity Surveying Division •

The Quantity Surveyor

Quantity Surveyors are professionals who have been trained as construction cost consultants. They possess expert knowledge of costs, values, finance, contractual arrangements and legal matters pertaining to the construction field.

Quantity Surveyors provide appropriate services to suit diverse needs and the majority of their employers or clients include professional quantity surveying firms, private developers, corporations, government departments and related bodies, building and civil engineering contractors, insurance companies etc.

Quantity Surveyors are equipped to provide advice concerning various disciplines ranging from building construction, and civil and structural engineering, to petro-chemical installations and mineral extraction.

Preliminary Cost Advice

From the outset, Quantity Surveyors give practical advice on the likely cost of a project. Cost studies and advice including, but not limited to, alternative design solutions, structural forms, choice of materials, construction sequences and maintenance costs are also prepared. From such information, a detailed cost plan is developed for budgetary control.

Cost Planning

Cost planning is a specialist technique

developed by Quantity Surveyors. Its aim is to help all members of the design team – architects, engineering consultants, interior design specialists and the like – to jointly maximise practical and aesthetic design solutions for a project whilst keeping within the client's budget.

Once a cost plan is prepared, and a realistic estimate agreed, effective cost planning ensures that everything that follows is in accord with the plan, from the acceptance of the successful contractor's tender to the final project cost.

In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

Cost Control & Financial Management

Cost control is one of the most important processes in any capital project. The basic objectives are to achieve for the client the best value for money, to maintain the required balance of expenditure between the various parts of the project, and to keep the final expenditure within the client's approved budget.

When clients, or their consultants, decide to effect changes to the designs and introduce variations, Quantity Surveyors rapidly assess and report the cost implications of the changes.

In principle, cost control consists of three basic steps, namely:

- Establishing an overall cost target;
- Checking any deviations that affect the cost target; and
- Taking such remedial action as necessary to preserve the target.

In practice, the process of cost control embraces a range of professional activities such as cost analyses of earlier projects, cost planning/estimating, cost studies of alternative construction options, cost checking during the design stage, cost reconciliation during the tendering stage, and cost monitoring during the construction stage.

Cost planning facilitates improved economic standards, and so better value for money, during the design stage, whilst constant monitoring during the construction phase ensures that the risk of overspending is identified early so that prompt corrective action may be taken.

Cost estimates and financial reports, which are regularly produced by Quantity Surveyors, form an important aspect of the financial management of capital projects. Periodic financial reports enable clients to anticipate and control their future financial commitments.

Value Management

Value management is a systematic approach to eliminate waste from a design or client's brief, while at the same time retaining the safety and key functions of the project.

The objective of value management is to provide the project functions to the required standard and quality having regard to the best value for the money expended. This does not necessarily mean the lowest initial cost, but the highest value considering all factors impacting upon the project as a whole.

Quantity Surveyors are well qualified to lead value management studies on a project. The structured nature of value management permits the project team to obtain a clearer understanding of the project functions and objectives hence being able to reduce unnecessary costs. Value management also addresses the whole life implications of the building design both in terms of cost and the client's business objectives.

Procurement Methods

Quantity Surveyors have the expertise, knowledge and tools required in the selection of the "right" contractors and suppliers for any given project.

No two projects are the same. Most major projects (and many smaller ones) are individual challenges and need individual solutions.

The most common method of procurement is through competitive tendering based on a variety of forms of contract and options. The bills of quantities prepared by Quantity Surveyors have been used world-wide as the basis of tendering for many decades. During construction, bills of quantities also form a crucial element in effective cost control as well as the basis for the valuation of variations.

On occasions, the situation may warrant other forms of tendering and contractual arrangements. These include design and build,

guaranteed maximum price, construction management, prime cost contract and cost plus, to name just a few. Quantity Surveyors provide advice on the best choice of contractual arrangement to suit the circumstances of each individual project.

Tendering

Competitive tendering of one kind or another remains the usual basis for awarding construction contracts, and bills of quantities are fundamental to this process. Bills of quantities translate the drawings, plans and specifications produced by the designer into a document that enables a contractor to calculate his tender price fairly and accurately, on exactly the same basis as his competitors.

Valuation of Construction Works

In most construction contracts, the contractor is paid monthly. Quantity Surveyors prepare interim valuations of the work carried out on the project at regular intervals and submit recommendations for payment.

Quantity Surveyors are normally retained throughout and beyond the completion of the project in order to facilitate the settlement of the accounts, when all necessary adjustments are dealt with. If required, they will also prepare any analyses of the final account that may be required, prepare statements of expenditure for tax or accountancy purposes, and assess the project's replacement value for insurance.

Financial Claims & Programme Analysis

Quantity Surveyors also prepare, and provide specialist advice and responses to claims, counterclaims and the like, for both time and money, including:

- Extension of time analysis: forensic analysis and delay demonstration techniques;
- Delay and disruption: time slicing, project analysis and productivity analysis; and
- Direct loss and/or expense: preparation of claims, responses to claims, auditing and analysis.

Dispute Resolution

If disputes arise, Quantity Surveyors offer the following expertise and technical knowledge:

- Independent appraisal of the strengths and weaknesses of an employer's and/or a contractor's case concerning quantum;
- Technical advice and assistance throughout the dispute resolution process;
- Preparation of particularised documents including technical position papers, assistance with pleadings, further and better particulars and witness statements; and
- When suitably experienced, to act as expert witnesses for quantum or other associated specialist areas.

Insurance Advice

Quantity Surveyors may choose to pursue their career in the field of construction insurance. The construction insurance professionals work in a variety of capacities in different organisations; examples of which include:

- Insurance administration personnel working for contractors/developers/consultants/public entities/Government/insurers/or other employers;
- Loss adjusters for loss adjusting firms on behalf of the insurers;
- Underwriting personnel for insurance brokers/insurers; and
- Risk assessment personnel for insurance broker/ insurers.

• Young Surveyors Group •

The Young Surveyors Group (YSG) is a section of the Hong Kong Institute of Surveyors representing the interests of about 5,300 members – comprising student members, probationers and young qualified members across divisions – the power of the surveying profession in future.

YSG representatives are nominated to the General Council, Divisional Councils, Boards, Panels, Committees and Working Groups of the Institute, in order to bring in views from young members.

To enhance the professional competence of young members, YSG has been organising various site visits, Continuing Professional Development (CPD) courses and Pre-qualification Structural Learning (PQSL) events throughout the year. The topics cover a

wide range of surveying disciplines in the real estate and construction industry. Tailor-made workshops for different divisions also help our probationers to tackle the Assessment of Professional Competence (APC).

In addition, YSG organises and participates in social events such as dragon boat competition, community services, wine tasting courses, sports competitions, outings, cooking classes and other social gatherings with other professional institutions, to enrich members' social lives.

Every year, YSG hosts study tours to visit cities in the Mainland China or overseas countries. YSG representatives also attend local and overseas conferences organised by local institutes and other international organisations such as the International Federation of Surveyors (FIG) and Pacific Association of Quantity Surveyors (PAQS). Through these visits and conferences, YSG members acquire a worldwide view of the surveying professional.

The professional image of the Institute is extended to the community by the works of YSG through a series of social events, volunteering works, joint events with various professional institutions and career talks to students of the universities and secondary schools in Hong Kong.

Sr CHIU Kam Kuen
President

It has been a great honour and privilege to take up the presidency of The Hong Kong Institute of Surveyors (HKIS) and bringing with me 30 years' service to the Institute.

The devastating fifth wave of the COVID-19 pandemic in late December 2021 had impacted the economy and brought challenging conditions to all our members. While the pandemic did not affect the contribution and commitment made by the Secretariat staff in maintaining normal services as far as possible to members of the HKIS, they had to cope with the challenges arising from the pandemic and to make necessary adjustments in order to work "normally" under such a difficult situation. While some of our activities and events had been scaled down due to social distancing policies, members were encouraged to keep engaging in a hybrid mode of physical and online meetings so as to maintain our strong cohesiveness. As the severity of the COVID-19 pandemic had begun to subside in July 2022 and with the easing of social distancing measures, the Institute began to go full speed ahead with the organisation of events which had been previously postponed or changed in format.

I am delighted to share with you what the Institute has accomplished, both internally and externally, during the year.

1. Membership

1.1 Growth

The total number of members has reached 10,988 as of 30 November 2022, representing a growth of 0.49% from the previous year. Of the total membership, 7,637 were Corporate

Members (559 Fellows and 7,078 Members) among which 314 were newly elected during the year. There were seven Honorary Fellows, 3,293 Probationers and Students, and 61 Associate Members. A Diploma Presentation was held on 11 July 2022 for presenting diplomas to the newly qualified members.

During the year, the Board of Membership (BoM) had reviewed the membership application forms. In May 2022, BoM resolved to revise the application forms to include a declaration of any criminal conviction and/or misconduct.

1.2 Life-long Learning

All members are required to keep up with the latest developments and enhance their professional and technical skills. In light of the COVID-19 preventive measures, events continued to be arranged in the form of webinars for much of the year. With the pandemic being brought under control in Hong Kong, there had been a gradual return of face-to-face events with limited participation and/or in hybrid mode towards the latter part of the year. A total of 227

Continuing Professional Development (CPD) events on a wide range of professional topics were organised (from 20 December 2021 to 30 November 2022) by the six Divisions, the Young Surveyors Group, and the HKIS.

1.3 Mandatory CPD Checking

The fifth mandatory CPD checking exercise is currently in progress. 138 members had been randomly drawn by computer to submit a CPD record to demonstrate their compliance with the mandatory CPD requirement for the relevant three-year period (i.e. from 1 January 2019 to 31 December 2021). About 90 per cent of the eligible members submitted more than 60 CPD hours. CPD records have been distributed to the Divisions for checking, of which results will be available soon.

The Board of Professional Development (BoPD) had adopted a constructive approach to encourage members to fulfil the mandatory CPD requirement. To increase members' understanding, encourage the use of online CPD profile, etc., BoPD is planning on producing a promotional video to introduce the CPD requirement. A review of the guidelines on mandatory CPD, including the activities within the CPD category and the number of hours associated with the category, will be conducted by BoPD in the following year.

1.4 Disciplinary Proceedings

The HKIS is determined to uphold the integrity of the profession; all members are required to maintain a high and honourable standard of professional conduct and discharge their duties in accordance with the highest standard of business ethics as provided under the *Bye-Laws and Rules of Conduct*.

In January 2022, a Task Force was formed by the General Council to implement the recommendations of the Task Force on Study Recommendations of the Report of the Working Group on Review of Disciplinary Procedures that had been accepted by the General Council on 23 September 2021. Amendments to the Bye-Laws and Rules of Conduct were recommended by the Task Force to provide expedient and simplified procedures and to provide elaboration of the disciplinary procedures. Counsel was engaged to provide legal advice on the proposed amendments before presentation to members at a discussion forum.

2 Public Recognition

The Institute has been active in offering professional insights and feedback to the Government in relation to policies and legislation that are related to the built environment, including land supply, housing, and building policies; land management and planning; and manpower supply. We had initiated regular dialogue and communication with various government departments, including the Development Bureau, the Housing Bureau, the Antiquities and Monuments Office, the Commissioner for Heritage's Office, the Lands Department, and major stakeholders, to exchange insights into the industry and business of the Institute.

Constant communications were made with the Legislative Councillor representing the surveying industry to reflect our concerns over issues affecting our members and the industry as a whole.

2.1 Consultations and Submissions

The Institute has been active in providing feedback to the Government in relation to policies and legislation that are related to the built environment in the form of attending briefing sessions, symposia, and written submissions. Our views and comments were submitted on issues including:

- HKIS Views on Land, Housing and Building Policy to Chief Executive Mr John Lee
- HKIS Views to the *2022 Policy Address*
- HKIS's Suggestions on the *2022–23 Budget*
- Policy Review of the *Land (Compulsory Sale for Redevelopment) Ordinance (Cap. 545)*

- Proposed amendments to the *Fire Safety (Buildings) Ordinance (Cap. 572)*

2.2 Media Engagement

The Institute had devised a media plan and engaged a public relations firm to facilitate our branding initiatives and increase our public exposure. The Institute hosted an annual media briefing in virtual format on 10 March 2022, which was joined by more than 15 media representatives and was well covered by the media. On behalf of the Institute, I shared a range of key topical issues for 2022, such as land and housing supply, the Buildings Ordinance, and anti-epidemic support for the property management industry to fight against the COVID-19 pandemic. Equal emphasis was put on our consultative role in real estate sustainability as well as other socio-economic topics. To enhance our communications with the media, a media kit (containing the HKIS Spokespersons list 2021/22 and the scope of services of the six Divisions) and press release including the themes for each Division were sent to the media.

The six Divisions had set out their key themes on which they intended to focus during the year:

Division	Key theme
Building Surveying	Urge the amendment of sanitation laws
General Practice	Study the lowering of the application threshold for compulsory sales
Land Surveying	Promote wide adoption of Geographic Information System (GIS) technology
Planning and Development	Submit timely planning and development strategies to the Government
Property and Facility Management	Provide dedicated support to the property management sector for anti-epidemic work
Quantity Surveying	Share surveying information with the public and the industry

Newspaper Columns

Apart from sharing our professional insights and expertise with the Government, the Institute had also expressed its views in over 25 articles that were published in the columns of two prominent local newspapers, and received positive feedback. From time to time, the HKIS Spokespersons actively commented on topical issues and offered in-depth interviews to achieve desired media exposure and increase the public

profile of the HKIS. Our young surveyors also appeared in newspaper columns and dedicated interviews.

To better engage with the public, BSD has been publishing biweekly articles in *iMoney Magazine* (《屋有必測之風雲》) since 1 May 2021. Its purpose is to investigate different cases adapted from real-life building problems with a fictional character, Sr B Holmes (福爾摩·B). Readers who are interested in economic investment and housing can easily understand the important role that building surveyors play in solving building problems. 32 articles have been published so far with each issue focusing on a specific building surveying case. All have received good responses.

風的季節

「本港風勢逐漸增強，天文台會於今晚11時或之前改發8號烈風或暴風訊號……」收音機正播放着天氣報告，的士司機嘆口氣：「打風有甚麼可怕，我家坐北向南也未嘗怕，用牛皮膠紙一勞永逸。」膠紙止得一時，止不住一季。」福爾摩B坐在後座講話，司機望了一眼後鏡便嘆道：「你又知？年輕人，我食過多過你食米。」福爾摩B看著手錶，見時間尚早，於是勾脣轉角：「去你家自有分曉。」司機爽快答應：「好！我叫馬叔，就你看請乘貴賓座吧。」

首先驗窗

他們來到一座土瓜灣唐樓，福爾摩B開始驗窗。一牆入馬叔的家，他就直直走向窗邊，看到窗內窗架方直，沒有變形。他亦沾沾自喜的接位仔細觀察，窗框內有足夠的螺絲及拉釘。馬叔問：「你在看甚麼？」福爾摩B回應：「天文台預告會下大雨，所以觀察有否漏水問題。」馬叔又問：「難道你從事裝修？」福爾摩B笑而不語，過了一會才說：「窗機排水孔沒有阻塞，防水膠邊和窗邊膠條若有輕微老化現象，但也沒完整。」

再搬雜物

檢查完窗，福爾摩B走到熱點，因此他脫下西裝外套，怎料差點碰到窗邊的盆栽。馬叔見狀大喊：「小心！」然後他舉起花瓶一檢查，花瓶是否完好。福爾摩B舉起一盞花說：「如果窗被風吹倒，或窗邊物是窗邊的物件，故此應收貴重物品。」他探頭見外邊設有晾衣架並加衣服，便說：「外邊上的設施也要收，以免被吹走。」話罷，他將窗框都移上茶几上，而馬叔則忙收衣服。

他立刻提議：「冷氣機位可能會漏水，因為接取窗口的邊膠有缺口，你應該找專業人士修補膠邊。」馬叔憂心地说：「糟糕！聽說這次會吹來颶風，我家會不會遭殃？」福爾摩B安慰道：「不用怕，可以暫時用布遮住冷氣機位。」他又接着說：「現在可以貼牛皮膠紙了。」

馬叔驚呼：「你不是說膠紙止得一時嗎，為何仍要膠紙？」福爾摩B回答：「膠紙的確可以輕微阻礙玻璃產生的共振，若玻璃破裂也可防止碎片四射，不過前提為窗戶本身無問題。膠紙方能發揮作用，另外貼『米』字膠紙最為穩妥。」話音未落，馬叔已經找到牛皮膠紙。福爾摩B上前自動換膠：「馬叔，我來幫你吧！」馬叔說：「好，麻煩你了。」

他們貼完膠紙後，福爾摩B就遞上半包，馬叔才知眼前的年輕人是建築業師傅，他稱讚：「原來你認真負責『測量師』。年紀輕輕經驗這麼豐富，真了不起。」福爾摩B說：「感謝。」馬叔給他的獎勵：「日後的士同業要聽你的話，一定介紹給你。」福爾摩B微笑：「先謝謝你。」

Biweekly articles in *iMoney Magazine* (《屋有必測之風雲》)

多管齊下提效提量 為市民締造宜居環境

社會各界的廣泛參與對政府施政尤其重要。因此，香港測量師學會樂見新一份《施政報告》廣納群言，更採納了本會多項建議，如降低「強拍門檻」、精簡土地發展的審核程序、推動使用「組裝合成」建築法、推動數碼化等，以助香港擺脫土地房屋不足的困境。報告提出包括加快興建公屋以及擴大「青年宿舍計劃」等多項政策，以增加基層住屋供應。然而，報告未有著墨於如何取締分間樓宇單位（劏房），筆者期望政府盡快公布取締劏房的時間表及具體措施，以解決這個困擾香港多年的房屋問題。

宜落實人均居住面積最低標準

對於政府為新建單位面積「封底」至不少於26平方米，我們深表贊同，並建議政府應進一步制定和落實人均居住面積最低標準，積極研究制定適當政策，以改善生活質素為市民締造宜居空間。報告提出多項措施吸引人才，試圖解決人才外移問題。然而，先就向合資格外來人才選進印花稅的政策而言，居港滿七年的要求過高，恐未能助香港在國際人才市場取得優勢，故政府應持續優化計畫。此外，政府除可資助專業人員向外地推廣香港專業服務及輸入外勞外，還可增撥資源予專業團體，創造宣傳及教育，吸引年輕人行，及重新推出「創造職位計畫」，資助及鼓勵企業增聘人才。務求從多方面吸引和留住人才。

相信社會各界均樂見今屆政府親創並廣納民意，在此寄望政府能持續完善各項政策，滿足各界期望。

2.4 Publications

Surveying and Built Environment

Surveying and Built Environment is an international peer-reviewed journal that aims to develop, elucidate, and explore the knowledge of surveying and the built environment; to keep practitioners and researchers informed on current issues and best practices; as well as to serve as a platform for the exchange of ideas, knowledge, and opinions among surveyors and professionals/practitioners from related disciplines. Volume 31 issue 1 was published in May 2022 and Volume 31 issue 2 in December 2022.

Guidance Notes for Land Boundary Survey 2022

While the Land Survey Ordinance has prescribed relevant technical standards to the Authorised Land Surveyors, the HKIS is obligated to prescribe equivalent technical guidelines to all professional members who are involved in the land boundary surveying service. The introduction of the HKIS Guidance Notes for Land Boundary Survey since 2013 (“Guidance Notes”) demonstrated the leading effort of the HKIS in setting out the professional procedures and standards of the land boundary surveying service in Hong Kong. The Guidance Notes informs the general public on the role, ethics, and operational requirements of our professional members who engage in land boundary surveying service. It also serves as a user-friendly reminder to our professional members of our obligations to the clients and society-at-large.

Overview of the Land (Compulsory Sale for Redevelopment) Ordinance (3rd Edition) and Overview of the Land (Compulsory Sale for Redevelopment) Ordinance – Executive Summary (3rd Edition)

The Overview debuted in April 2009 as a guide to help the general public gain a deeper understanding of the compulsory sale regime. It

outlined the basic framework and procedures of compulsory land sales in Hong Kong. In 2010, the Government had ordered the lowering of the compulsory sale application threshold to 80 per cent for three lot classes; as a result, the HKIS updated the Overview and released its second edition in June 2011. This year had seen another update to the Overview given the changes to the regime derived from Land Tribunal cases over the past 11 years. The Working Group on Cap. 545 Review streamlined and enhanced the contents to make the Overview more easily understandable to the general public.

2.5 Community and Charitable Services

Caring Organisation

The Hong Kong Council of Social Service awarded the “15 Year Plus Caring Organisation Logo” in 2021 to the HKIS in recognition of its commitment to the community and concern for its employees and the environment. This year marked the 16th consecutive year in which the HKIS has been honoured with the award and we thank the Agency for Volunteer Service for nominating the HKIS throughout these years.

Project SPARKLE

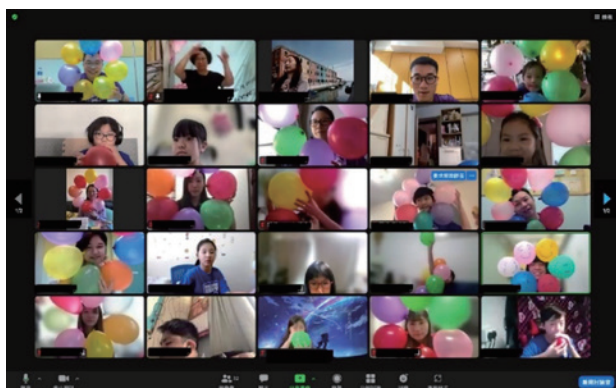

The Community and Charity Services Committee (CCSC) jointly implemented its mentorship programme “Project SPARKLE (‘Supporting Preteen Access to Resource, Knowledge, Love and Education’)” (「擦亮童心」伙伴同行計劃) with the Tung Wah Group of Hospitals (TWGH)’s Jockey Club Tin Shui Wai Integrated Services Centre during 2021/22. First launched in 2010, Project SPARKLE is a mentorship programme that aims to create a harmonious and healthy environment to facilitate the development of children who live in Tin Shui Wai. Since 2017, the Programme has accepted some children with special education needs (SEN) to provide

additional support in creating a harmonious environment for their growth. In 2021/22, around 23 volunteers from the HKIS shared fun and experience with the children through four face-to-face activities.

Happy Future Mentorship Programme

Following the success of Project SPARKLE, the HKIS jointly launched “Happy Future Mentorship Programme” (「前面有樂」量師童行計劃) with the Hong Kong Society for the Deaf in 2018. The Programme aims to match HKIS members with hearing-impaired children and help the mentees to explore themselves. Under the mentors’ guidance, the mentees are encouraged to take up challenges and improve their self-confidence. As the COVID-19 pandemic became more stable in 2022, one online activity and three in-person activities were organised for the children.

Growing Partner II – Child Development Fund Programme

The Boys’ & Girls’ Clubs Association of Hong Kong has launched the Growing Partner III – Child Development Fund Programme (「結伴再成長」——兒童發展基金計劃) for Sha Tin and Kwun Tong Districts during the years 2020/23 and 2022/25. Supported by the Labour and Welfare Bureau, the Programme targets to support 200 children aged 10 to 16 from low-income families in the development of the necessary skill set, attitude, social network, personal experience, and funding in the critical ages of their life. Under the guidance of mentors, the children can explore the world and plan and achieve their life and career goals. 29 HKIS members (15 for 2020/23 and 14 for 2022/25) participated in the Programme. Past Chairman of

the Community and Charity Services Committee Sr Billy Wong was elected as Chairman of the Advisory Committee of the Programme.

“Fight the Virus Together! Let’s do it” Volunteer Project

Apart from the above regular programmes, the Institute has encouraged members to participate in other meaningful community programmes. The CCSC and YSG formed two volunteer teams, with 25 HKIS volunteers participating in the volunteer programme “Fight the Virus Together! Let’s do it” organised by the Hong Kong Council of Volunteering to deliver care packs and food to the needy and the elderly in Shek Wai Kok Estate on 16 April 2022.

Strive and Rise Programme

The HKIS supported the Government’s “Strive and Rise Programme” (共創明「Teen」計劃) by nominating members to participate as mentors to share their life experience to help underprivileged junior secondary school students (“mentees”) build up self-confidence and guide them to develop personal goals in a proactive and positive manner. The mentors will also assist the mentees in developing positive financial planning concepts and apply effectively the financial support provided under the Programme. The YSG is organising a visit to the iHub and sharing for the mentors and mentees on 3 June 2023.

HKIS Charitable Foundation Limited – Charity Raffle Ticket Sale

The HKIS supported and promoted the Charity Raffle Ticket Sale of the HKIS Charitable Foundation Limited for raising funds to support various services to the community.

2.6 Dispute Resolution Services

The HKIS provided appointment services for resolving disputes, including:

- Arbitrator (HKIA–HKIS Joint Appointment): 11
- Mediator (HKIA–HKIS Joint Appointment): 1

On 23 December 2021, the HKIS was admitted by the Development Bureau to become one of the Adjudicator Nominating Bodies (ANBs) under the Development Bureau’s register of ANBs. As an ANB, the HKIS is required to have a panel of adjudicators to provide services for clients with the need for adjudication. Two Adjudicators Training Courses were conducted in August and November 2022 respectively for the benefit of members to equip themselves with the skills in adjudication with a view to accreditation for admission into the HKIS Panel of Adjudicators. All information related to adjudication as a means of rapid dispute resolution in public works contracts was published on the HKIS website in April 2022.

BAEDC (Pilot Scheme) was launched by the HKIS at a Press Conference held on 3 November 2022. The establishment of BAEDC aims to provide services for applicants from the public seeking an expert to resolve building-related technical issues or disputes, including but not limited to water seepage, decoration or fitting-out works, repair and maintenance works for existing buildings (but excluding disputes on the handover status of new flats or commercial units), and liability of unauthorised building works.

3 Promoting the Surveyors’ Brand

3.1 Community Campaign – Beyond Your Campus Competition 2021/22

Riding on the previous success of our signature outreach campaign, Create Your District Competition, the HKIS Beyond Your Campus Competition was organised this year to provide opportunities for secondary school students to gain a better understanding of the role of surveyors in all aspects of the land and property

development process, as well as inspire them to unleash their creativity to develop their ideal campus and surrounding community. We were glad to receive encouraging feedback and were most impressed by the students’ creativity, demonstrated time and time again by their presentations. The guidance from the voluntary mentors was also highly appreciated. An Awards Presentation Ceremony was successfully held on 24 September 2022.

3.2 Facilitating HKIS’s Development in Greater China and Belt and Road Countries

Due to the outbreak of the COVID-19 pandemic and related anti-epidemic measures for cross-border travel, all Mainland visits were unfortunately cancelled during the year. However, under this “new normal”, we were still able to maintain close dialogue with the relevant Mainland ministries and counterparts online.

The Institute continued to explore opportunities for our members through participating in various conferences and seminars related to the Greater Bay Area, particularly Qianhai and Nansha. At present, these two cities have opened their doors to Hong Kong professionals with very favourable incentive schemes and tax concession. Hopefully, these policies will be extended to more Mainland cities in the future. Equally importantly, we attended the Belt and Road Summit 2022 on 31 August and the Belt and Road Global Forum Annual Roundtable on 2 September 2022, from which we also learnt of the strong demand for surveying professionals in these overseas countries.

A seminar “Overall Plan for Deepening Globally Oriented Comprehensive Co-operation amongst Guangdong, Hong Kong and Macao in Nansha

of Guangzhou: Opportunity for Surveying Industry” (《廣州南沙深化面向世界的粵港澳全面合作總體方案》為測量行業帶來的機遇) was organised by YSG on 19 October 2022. The HKIS Guangzhou Forum Chairman and Vice Chairman; representatives from Hong Kong and Macao Affairs Cooperation Office at the Guangzhou Nansha Economic and Technological Development Zone (南沙開發區港澳合作事務辦公室), The Housing & Urban-Rural Construction Bureau (“HURCB”) of Nansha District (南沙區住房城鄉建設局), and The Human Resources and Social Security Bureau of Guangzhou Nansha District (南沙區人力資源和社會保障局); and Mr Raymond Yip, Chief Liaison Officer of the Guangzhou Nansha Service Centre in Hong Kong (廣州南沙新區香港服務中心首席聯絡官葉澤恩) shared their insights including on the opportunities for surveying professionals in Nansha, mutual recognition of qualifications, policies and overview of the Nansha Plan.

The Institute has successfully applied for a funding of HK\$800,000 under the Professional Services Advancement Support Scheme for the project “Hong Kong Surveying Profession in Greater Bay Area: Opportunities and Challenges for Advancing Net Zero Project and Property in Technological Era” (香港測量專業在大灣區：在科技時代中「邁向淨零」房地產項目及物業的機遇與挑戰). In the project, several seminars or conferences will be organised, and a guidebook will be published to enhance members’ professional knowledge through exploring the latest trends and focus in addressing climate change by offering related professional services and technology adoption for contribution in a smarter approach to sustainable built environment.

3.3 Promotion of the Profession

The Divisions and YSG visited various academic institutions, organised roadshow career talks, and joined Virtual Information Days organised by local universities to share their views and advice on career prospects with the students.

The Institute, in collaboration with the Education Bureau’s Business–School Programme, held an online talk on “Career Prospects of the Surveying Profession” on 7 October 2022, with 130 students and teachers joining in. Two thematic talks were held – “Land Surveyors – Flying Land Surveyor” organised by LSD on 22 September

2022, which attracted 91 secondary school students, and “Building Surveyors – Planning, Design, Maintenance and Improvement of Drainage System in Buildings” organised by BSD, which attracted 248 secondary school students.

The HKIS supported the Building Safety Pioneer Programme (樓宇安全學生大使計劃) organised by the Buildings Department and co-organised by the Education Bureau and Hong Kong Education City. The Programme aims to promote building safety to secondary school students continuously with a sense of awareness and responsibility towards a safe, high-quality, and sustainable Hong Kong built environment.

The HKIS Scholarship Presentation Ceremony to acknowledge the outstanding academic performance in the previous academic year of the undergraduate students who were in the final year of their HKIS-accredited courses was held on 1 August 2022. 69 awards were presented to winners from five academic institutions, namely City University of Hong Kong, the Hong Kong Polytechnic University, the University of Hong Kong, the Hong Kong Institute of Vocational Education, and the Technological and Higher Education Institute of Hong Kong.

The HKIS Outstanding Dissertation/Thesis Awards 2021 Presentation Ceremony was held on 1 August 2022 in conjunction with the HKIS Scholarship Presentation Ceremony. There were a total of 19 awardees. The purpose of the Awards is to promote research amongst future surveyors and to reward the efforts of the final-year students of HKIS-accredited first-degree courses and postgraduate students. The Awards are based on merits in the research contribution to the industry, innovation, and application to the surveying profession. The HKIS Outstanding Dissertation/Thesis Awards 2022 has received 39 submissions for the Outstanding Final Year Dissertation Awards while 10 submissions have been received for the Thesis Awards from six academic institutions providing surveying courses. The results of the 2022 Awards are expected to be announced in the first quarter of 2023.

The QSD Scholarship Programme aims to reward students studying quantity surveying at local universities and tertiary institutes in the hopes of them becoming quantity surveyors and

to promote quantity surveying as a highly valued profession in the construction industry. On 6 July 2022, a presentation ceremony was held to award scholarships to 20 students in recognition of their outstanding performance in key quantity surveying courses leading to a bachelor's degree, associate's degree, or higher diploma.

Over the past year, the HKIS had repeatedly expressed its concern in the shortage of professional and technical practitioners in real estate and construction industries, particularly so when numerous massive infrastructure projects and developments in the Northern Metropolis, Lantau Tomorrow, and other related schemes shall come on stream soon. In our submission to the Chief Executive of the HKSAR Government, we recommended that the Government should allocate more resources to surveying courses in universities in order to train up more professional graduates and fill up the vast vacancies in different disciplines.

3.4 External Collaboration

A Memorandum of Understanding (MoU) between the HKIS and Vocational Training Council has been extended for three years from 4 July 2022. The intention of the MoU is to set out the framework for understanding and cooperation in developing a Certificate in Building Information Modelling (Quantity Surveying) and in other training and CPD events for surveying professionals.

3.5 Research

The General Council approved research funding for the project "Towards Smart Shopping Centre Management: Assessing the Performance of Four Types of Smart Tools" during the year.

To encourage and promote research in surveying, the General Council has approved to increase the research funding from HK\$100,000 to HK\$150,000 a year for each Division starting from the council year 2022/23.

3.6 Textbook Writing Sponsorship

A textbook writing sponsorship was provided to interested academic staff of local universities and HKIS members in writing textbooks on local practice for the surveying practitioners and students. The Board of Education (BoE)

had received seven book proposals during the year. The following proposals were granted sponsorship by the Institute:

Book title	Author
<i>Town Planning: Physical Planning Principles and Key Issues</i>	Sr Prof Lawrence W C Lai, Sr Dr Jason W Y Kwong, Department of Real Estate and Construction, The University of Hong Kong
<i>Geospatial Approaches to Sustainable Cities</i>	Prof Qihao Weng, Chair Professor of Geomatics and Artificial Intelligence, Department of LSGL, The Hong Kong Polytechnic University
<i>The Development of Real Estate and Construction Innovation in APAC and its Impact on the Architecture and Surveying Industries</i>	Sr Lo Ming Yan Leo, CHFT Advisory and Appraisal Limited

The following textbook, which had been granted sponsorship in 2020, was completed during the year:

Book title	Author
<i>The Placemakers of Hong Kong</i>	Sr Roger Nissim

4 Members' Communications and Services

4.1 Review of the HKIS Beijing Office

To cope with the rapid change in the working environment under the "new normal", the General Council formed a Task Force to review the HKIS Beijing Office, including its accommodation and operations. The General Council accepted the recommendations from the Task Force to relocate the Beijing Office to another location with a better transportation network and a lower rental cost. Thanks to the contribution from the Beijing Forum, the Beijing Office moved to a high-end shared office with well-equipped activity meeting rooms in the central business district in August 2022.

4.2 Fighting for Members' Rights

Enhancing the status and well-being of local surveyors is always our top priority. Despite the COVID-19 pandemic, the Institute has ensured the ongoing professional development of our younger generation by securing training subsidies for employers and places for our graduates and assistant professionals. We encouraged members in eligible companies to participate in the Support for Engineering, Architectural, Surveying, Town Planning and Landscape Sectors 3.0 (Support Measure 3.0) which the Government had launched to continue providing a subsidy to private organisations to employ assistant professionals and graduates of the construction industry.

4.3 Members' Welfare

The Members' Welfare Committee successfully held two flower arrangement workshops for members on 20 August 2022 with 30 HKIS members and staff members participating. Participants enjoyed a cosy time and made their own flower arrangement under the guidance of the tutors.

A food and wine pairing dinner was also organised by the Committee on 30 August 2022. Members from all Divisions enjoyed a Chinese cuisine in a private kitchen with different types of wine served.

4.4 Online Payment Services for Annual Subscription

An online payment service for HKIS Annual Subscription was officially launched on 8 April 2022, offering an easier and convenient way for members to settle their Annual Subscription.

4.5 Members' Forum

A Discussion Forum on the Ratification of Guidance Notes on Standards – HKIS Guidance Notes for Land Boundary Survey (2022 Edition) had been organised on 12 August 2022 to brief members on the major revisions and changes to the Guidance Notes before it was ratified by resolution at an Extraordinary General Meeting (EGM).

At the EGM held on 22 August 2022, the resolution for ratification of the HKIS Guidance

Notes for Land Boundary Survey (2022 Edition) was passed by members.

4.6 Networking

A Surveyors Lunch was held on 11 November 2022 with guest speaker Mr Lam Sai Hung, GBS, JP, Secretary for Transport and Logistics, who delivered a talk on “提升雙航優勢 基建驅動發展” to HKIS members. Mr Lam was elected as Honorary Fellow at the HKIS AGM on 20 December 2021.

5 Mainland and International Cooperation

5.1 Mainland Affairs

The Institute continued to keep acting as a bridge between different government departments from the HKSAR and the Mainland and members. The Institute submitted comments and suggestions through meetings, forums, e.g. Exchange Session of Shenzhen and Hong Kong Cooperation in Qianhai on Planning and Construction Area (前海規劃建設領域深港合作座談交流會), Seminar on Integration of Regulations Between Shenzhen and Hong Kong (深港兩地規則對接專題座談會), Webinar: New Business Opportunities in Guangzhou Nansha (廣州南沙投資營商環境線上推介會), or in written format to the HKSAR and Mainland Governments, Legislative Councillors or related organisations regarding the possible favourable circumstances for surveyors to practise in the Mainland. At the same time, the Institute updated and introduced our members to the latest surveying-related policies and opportunities in the Mainland, especially in the Greater Bay Area; Qianhai, Shenzhen; Nansha, Guangzhou; and Hengqin, Zhuhai, by organising seminars or sending a notice.

5.2 Mainland Forums

5.3 Reciprocal Recognition of Qualifications and Cooperation

The Institute continued to explore new relationships and cooperation and strengthen connections with international and regional counterparts.

A Memorandum of Understanding was signed with the Guangdong Territorial Spatial Planning Association (廣東省城市規劃協會) on 4 March 2022.

The HKIS entered into a new Reciprocity Agreement (RA) with the New Zealand Institute of Quantity Surveyors (NZIQS) on 11 September 2022. The RA was updated to incorporate changes in the criteria for election into the respective Institutes and replaces the agreement made between the HKIS and NZIQS in June 2007.

6 Heartfelt Thanks

I would like to express my sincere gratitude to all Office Bearers, members of the General Council and Executive Committee, the Divisional Councils, BoE, BoM, BoPD, YSG, Policy Panels, various Committees, Task Forces, and Working Groups, and the Secretariat Office for providing their unfailing support to me and to the Institute, in fulfilling our visions. On a final note, I wish the incoming General Council every success.

• HONORARY TREASURER'S REPORT

For the Financial Year Ended 31 July 2022

Sr Raymond Kam
Honorary Treasurer

Dear Fellow Members,

I am pleased to present herewith the audited account of The Hong Kong Institute of Surveyors (HKIS) for the financial year ended on 31 July 2022. The auditor's report was prepared by Messrs Katon CPA Limited.

Due to the impact of COVID-19, the total revenue of the HKIS for this financial year was HK\$27,051,441, representing a decrease of about 2.50% or HK\$701,319 compared with that of the previous year (2021: HK\$27,752,760). On the expenditure side, the total amount of operating and administrative expenses (including taxation and finance cost) for the year was HK\$22,382,996, representing an increase of about 2.30% or HK\$505,639 compared with that of the previous year (2021: HK\$21,877,357). In total, a surplus of HK\$4,668,445 was recorded, representing a decrease of about 20.50%.

The amount of accumulated fund of the HKIS as at 31 July 2022 was HK\$36,783,218, representing an increase of about 14.50% compared with that of HK\$32,114,773 in the previous year, demonstrating that the Institute has placed great emphasis on prudent financial management and exercised appropriate control on operating and administrative expenses.

With full endorsement of the General Council, a fund from the surplus in the amount of HK\$1,013,060 was added to the Institute's Reserved Fund for capital expenditure or necessary maintenance and renovation work of the HKIS in the future. I strongly believe that the financial position of the Institute will be equally good, if not better, in the coming years.

From 1 August 2021 onward, for taxation purposes, recurrent revenue and expenses of the Institute have been separated into two accounts, HKIS and Surveyors Services Limited (SSL). With such arrangement, the HKIS will enjoy tax benefit under the Inland Revenue Ordinance. All future tax savings will invariably strengthen the financial position of the Institute, which in turn will be in the best interest of every member.

The Institute will continue to observe the prevailing practices/guidelines with respect to financial controls on expenditures to ensure that all resources are allocated in the interests of the Institute as a whole.

The accumulated funds for the Institute, Divisions, and the Young Surveyors Group are listed as follows:

<u>Accumulated Fund (HK\$)</u>	<u>31 July 2022</u>	<u>31 July 2021</u>
The Institute - Reserved Fund	5,500,401	4,487,341

Total:	<u>36,783,218</u>	<u>32,114,773</u>

It is my honour to serve the Institute. 2022 was a difficult year for all walks of life with unprecedented constraints in business and daily living. Thanks to President Sr Chiu Kam Kuen, who led us through this tough year, and to the Office Bearers, members of the General Council, the Finance Committee, and all the staff of the Secretariat for their dedicated contributions and unfailing support, the HKIS has strived to sustain another stable and healthy financial year. Last but not least, I would like to express my deep gratitude to Ms Eva Leung and her colleagues for their dedication, support, and professionalism in keeping the Institute's accounts in good order.

May I take this opportunity to wish you all the best in the year of 2023.

Sr Tony Wan
Honorary Secretary

I am very honoured to be Honorary Secretary for the year 2021/22 and it is my great pleasure to present this Report for members' perusal. As Honorary Secretary of the Institute, it was my duty under the direction of the General Council to conduct the ordinary business of the Institute in accordance with the *Constitution and Bye-Laws*; to keep an accurate record of the proceedings of the Institute and the General Council; to keep the Membership Register of the Institute; to conduct the correspondence of the Institute; and to give notice of all meetings of the General Council and General Meetings of the Institute.

Apart from the above, I was responsible for handling membership affairs including the applications for exemptions and concessions of subscriptions, applications for reinstatement of membership, complaints against members as well as disciplinary proceedings.

In 2022, apart from the Annual General Meeting for the election of Office Bearers of the HKIS, one Extraordinary General Meeting was conducted in relation to the ratification of Guidance Notes on Standards under the *HKIS Guidance Notes for Land Boundary Survey (2022 Edition)*.

HKIS Extraordinary General Meeting on 22 August 2022

In view of the approval and issuance of the *Code of Practice (COP)*, Fifth Edition, under the *Land Survey Ordinance (Cap.473)*, the Land Surveying Division Council considered that the *HKIS Guidance Notes for Land Boundary Survey (2013 Edition)*, which had been prepared for the use of all HKIS members, should be reviewed so as to keep pace with the standards of land boundary survey as stipulated in the *COP (Fifth Edition)*, and to propose other necessary changes to strengthen the standards. The revised *Guidance Notes "HKIS Guidance Notes for Land Boundary Survey (2022 Edition)"* was endorsed by the General Council on 24 March 2022. A Discussion Forum was held on 12 August 2022 to share with members the rationale for the major amendments to the revised *Guidance Notes*. To effect the ratification of the *Guidance Notes on Standards*, a resolution for the ratification of the *HKIS Guidance Notes for Land Boundary Survey (2022 Edition)* was put to the vote of Corporate Members present in person or by proxy and voting at the HKIS Extraordinary General Meeting on 22 August 2022. The results of the voting were as follows:

Resolution	Number of votes (%)		Total number of votes*
	For	Against	
That the <i>HKIS Guidance Notes for Land Boundary Survey (2022 Edition)</i> be ratified in accordance with the <i>HKIS Bye-Law 6.1</i> .	237 (97.5%)	6 (2.5%)	243

* Including 210 by proxy and 33 voting in person

As more than 50 per cent of the votes were cast in favour of the resolution, the resolution was duly passed.

Proceedings of the Institute

During 2022, five Executive Committee meetings and six General Council meetings were held for the conduction of the ordinary business of the Institute under the Constitution and Bye-Laws.

BUILDING SURVEYING DIVISION

Sr Arthur Cheung

Chairman, Building Surveying Division

It has been my great honour to serve as Chairman of the Building Surveying Division (BSD). Over the last 12 months, I am delighted to have had the full support from Council Members, Co-opted Members, and others for managing council matters and organising promotional, educational, and knowledge-sharing events.

1. Membership

Compared with 2021, there was an increase of 86 Corporate Members (5.60%), a decrease of 69 Probationers (8.50%), and no change in the number of Associate Members. The net membership gain in 2022, excluding Student Members, was 17 (0.70%).

2. Professional Development

(a) Assessment of Professional Competence (APC)

Our APC had been seriously affected by the fifth wave of COVID. Firstly, BSD had no choice but

to cancel the Practical Task (PT) which should have been held in May 2022; the only PT was then held from 9 to 12 November 2022. 130 candidates attended this PT, as we formed 23 panels in total and 87 APC assessors involved in the assessment. Secondly, as a result of the anti-epidemic measures imposed by the Government, the examination venue was closed for a period of time. The final assessment (FA) day had been put on hold therefore for over six months. As an alternative, we tested, fine-tuned, and tried holding the FA by video conferencing. Two panels were set up to interview six candidates on 7 May 2022. Following the relaxation of the anti-epidemic measures, the FA day was resumed on 18 June 2022; in July and October, there were two more FA days during which 36, 45, and 39 candidates were interviewed respectively.

(b) Continuing Professional Development (CPD)

25 CPD events have been organised covering a diverse scope of professional knowledge/practice till January 2023. The total CPD registration by 15 November 2022 was 2,712.

On the other hand, from July to August 2022, 10 PQSL talks including workshops had been organised. Topics from pre-contract document and procedures, new development control to building conversion and A&A works were covered. Since face-to-face workshops were not feasible due to the pandemic situation, we ultimately made a brand-new attempt by setting up a quiz after the themed talk, followed by a discussion session in each workshop. Probationers were able to test themselves with instant analysis and sharing by our guest speakers, and we received overwhelmingly positive feedback on this interactive mode.

(c) Research

- **Professional Guide to Building Inspections – Post-1980 Residential and Composite Buildings in Hong Kong**

Members were invited to join the Focus Group Discussion Session held on 24 September 2022. The purposes of this 1.5 hours' Discussion Session were to collect further details and to clarify the uncertainty revealed from the questionnaire survey with supplements provided seeking views from invited members in enriching our survey findings. The analysis was completed in late 2022.

- **Benchmarking and Evaluating Building Control Systems in Hong Kong and Asia Pacific Cities**

To address public concerns on healthy building design after COVID, after review, the topic would be adjusted. Tentatively, it would be concentrating on natural lighting and ventilation design in the light well. Invitation for submission of proposals was issued. We target to finish the research within 12 months after receiving confirmation from the researchers.

(d) Training Course on Conservation

To strengthen members' competence in heritage and conservation, we had approached universities and developed a 36 hours' training programme. The proposal is under negotiation and we aim to roll out the programme during Q1–2 in 2023.

(e) Professional Publications

A working group was set up to review the current professional guides published by BSD and to draft the *Guide on Design for Maintenance*.

(f) Government Consultations

BSD representatives had continuously attended consultation meetings with the Development Bureau and the Buildings Department, including the APSEC Discussion Forum of Buildings Department, and covered matters such as the Administration of the Buildings Ordinances. Key topics in 2022 included the Proposed Buildings (Drainage) Regulations and CoP, performance-

based GFA Concession Scheme, e-submission, streamline of the approval process, and the Northern Metropolis.

(g) Mainland Affairs

BSD representatives attended the Forum organised by China Association of Engineering Consultants (CAEC) on 26 November 2022 via video conferencing and delivered a speech on building maintenance in Hong Kong.

(h) Trademark Application

To address members' concern about the use of “建築測量師” and “樓宇醫生” by the public, we have submitted an enquiry and an application to Trade Marks Registry respectively awaiting the reply from the Authority.

3. Education

(a) Outreaching to Students

A Joint-university Talk for promoting the building surveying (BS) profession to the university students was conducted on 25 January 2022. Over 170 students from the surveying programme of City University of Hong Kong (CityU), the Hong Kong Polytechnic University (PolyU) and its School of Professional Education and Executive Development (SPEED), the Technological and Higher Education Institute of Hong Kong (THEi), the University of Hong Kong (HKU), and representatives from different government departments joined the Talk.

(b) BS Scholarship

No scholarship programme had been arranged for the 2021/22 academic year. The programme for 2022/23 is scheduled for early 2023. Written assignment has been proposed for students.

(c) Revised APC Rules and Guides and Associated Documents

The rules and guides of APC and the associated forms have been refined and updated to reflect practically the market expectation about the capabilities of building surveyors. The core competences weighting of different mainstream practices had been reshuffled in this amendment. All APC candidates should gain sufficient in-depth practical experience

in “building project management including procurement and contract administration”. Related forms have been updated accordingly.

(d) Re-accreditation of University Programmes

Separate re-accreditation panels were set up by the BoE of the HKIS with representatives from BSD. In May 2022, after review, nine programmes from five institutions have been re-accredited for five years till the 2026/27 academic year. BSD had commented that practical knowledge sharing by professional building surveyors should form a part of their programmes.

4. Promotion and Publicity

(a) General Media

BSD continued to have strong exposure of building surveyors in press, online media, television, and radio, with topics covering building design, fire safety, building safety, flat inspection, drainage design in COVID, minimum size of residential flat, subdivided flats, streamline processing, sustainability, views on the 2022 Policy Address, setting up of Building Affairs Expert Determination Centre (BAEDC), pre-acquisition survey of second-hand domestic premises, etc. Dedicated efforts of spokespersons and veteran surveyors were well appreciated.

(b) Letter to Hong Kong Customs

In response to a government press release on 12 April 2022, we had filed our written feedback to Hong Kong Customs on 21 April 2022 expressing our concerns to the news about the arrest of a director of an alleged “building surveying consultant company” for suspected unfair trade practices in contravention of the Trade Descriptions Ordinance (TDO). Hong Kong Customs replied verbally in May that our concerns would be addressed in their future press releases.

(c) BSD Masks

The remaining BSD masks from the annual dinner last year were distributed to the BSD members who had subscribed the BSD Channel during the promotional period and to those

candidates or assessors who participated in the FA Day. We believed BSD-branded souvenirs would help enhance the bonding between BSD and its BS members.

(d) iMoney Magazine

The Council had published 25 articles in the past 12 months in *iMoney Magazine* drawing public attention to the BS practice, building safety, and other building-related matters.

(e) BS Company Visit for BD and PGBC Programmes

To support the public engagement campaign of Buildings Department and Professional Green Building Council of the Government, we have successfully lined up two BS firms (i.e. Ample Surveyor Services Limited and Freevision Limited) to facilitate students’ visits and to introduce them to the BS practice.

f) Facebook and Instagram

The Council continued to publish our latest information and share BS-related news on social media platforms.

(g) BSD Channel

BSD Channel, which is a YouTube Channel used to store old videos of BSD, had been re-organised and rebranded. A production house was engaged in Q2 in 2022 to start designing the relevant channel graphics and to produce two shows of 13 episodes each. BSD Channel was officially launched on 15 November 2022 with the first channel series “ 鍾 SIR 解構123” published on the same day (with sincere thanks to Sr Prof Chung, the working group, and all the support team members). The Channel aims to become a platform for the sharing of BS knowledge or stories among our members and to promote BS to the public.

5. Social and Community

(a) Launch of the Building Affairs Expert Determination Centre (BAEDC)

BAEDC is an alternative dispute resolution way to help the public solve building-related disputes in a more time and cost effective way. Unlike the traditional litigation approach, expert

determinators could also provide the public with a technical proposal about the rectification works.

BAEDC (Pilot Scheme) have been put into service since 3 November 2022. In this connection, assessment interviews had been conducted for applicants who wished to be included in the respective lists of experts. The public are able to seek nomination of expert from BAEDC to resolve building-related technical issues or disputes, such as water seepage, decoration or fitting out works, repair and maintenance works for existing buildings, and liability of unauthorised building works.

(b) Working Groups on (1) Pre-acquisition Survey of Second-hand Domestic Premises and (2) Handover Inspection for New Residential Units

The Working Group on Pre-acquisition Survey of Second-hand Domestic Premises had developed a set of draft checklists in 2022, which is now in a test run. Meanwhile, the second Working Group focusing on new residential flat inspection has been working on the drafting of the relevant inspection standard.

(c) Services and Talks

BSD participated in the HKIS Beyond Your Campus Competition that consisted of a briefing and a 3D models presentation, and Project SPARKLE. In addition, members delivered talks to the public on drainage maintenance issues in various districts in Hong Kong under the arrangement of the Home Affairs Department.

6. Conferences, Awards, and Events

(a) Building Surveyors Conference 2022

The Building Surveyors Conference 2022 was successfully held on 14 October 2022 with over 240 participants. It was the first conference event of the HKIS returning to face-to-face mode since the outbreak of COVID although lunch was not allowed during the event. The Conference was titled “Sustainability in Built Asset and Countryside Conservation”. We had the pleasure to have Sr Cheung Hau-wai, SBS, Chairman of the HKGBC, as our Guest of Honour to deliver the opening keynote speech.

With the profound thoughts and presentations from speakers from government departments, countryside conservation project owners, NGOs, green building and ESG experts, professors, etc., I trust that all participants have expanded their horizons after this day-long conference.

(b) Building Surveyor Awards (BSA) 2023

Led by our Past Chairman, Sr Kenny Tse, the Working Group of BSA 2023 has been set up. Award framework and jury panels have been confirmed. BSA will be opened for entry very soon and the Award Ceremony be held in Q2–3 in 2023. Please stay tuned for details.

(c) BSD Annual Dinner

Because of the pandemic, the only social event of the BSD in 2022 was the BSD Annual Dinner. Taking into account the anti-epidemic measures during the planning stage, the Council decided to keep the Dinner scale small to around 120 persons and to limit it to BSD members only.

7. Administration

(a) Stakeholders

Maintaining contact and working relationship with counterparts, the Government, and Mainland officials is essential. Over the months, BSD representatives had attended meetings and sharing sessions with local and PRC parties including:

- **Local**
The Development Bureau, the Transport and Logistics Bureau, the Buildings Department, the Architectural Services Department, the Fire Services Department, the Home Affairs Department, and BEAM Society.
- **The PRC**
Liaison Office of the Central People’s Government, China Association of Engineering Consultant (CAEC), etc.

(b) Representatives to External Bodies

Members were nominated to various committees, focus groups, and task forces administrated by different government

departments and statutory bodies, for instance, the Construction Industry Council, the Surveyors Registration Board, the Hospital Authority, the Buildings Department, the Electrical and Mechanical Services Department, and the Water Supplies Department.

(c) Internal Affairs

Members were nominated to various boards, committees, and panels of the HKIS and BSD. In addition, BSD Office Bearers were tasked to support and share workload on different Council matters.

Last but not least, I would like to extend my heartfelt gratitude and sincere thanks to all Official Bearers, Council Members, Past Chairmen, Distinguished Building Surveyors, Core and Co-opted Members for their hard work and contribution to BSD during my last year's term of chairmanship. I wish every success and all the best to our incoming Council.

GENERAL PRACTICE DIVISION

Sr Alnwick Chan

Chairman, General Practice Division

2022 has been a momentous year for all of us in Hong Kong, with the installation of a new government cabinet led by Mr John Lee and the celebration of the 25th anniversary of the establishment of the Hong Kong SAR, which ushers in a new era for our city.

I am delighted to present a summary of the General Practice Division (GPD)'s main accomplishments in 2022.

Official Launch of the *Overview* (3rd Edition)

On 25 May, the HKIS launched its third edition of the *Overview of the Land (Compulsory Sale for Redevelopment) Ordinance* (《「強拍條例」概覽》).

The *Overview* debuted in April 2009 as a guide to help the general public gain a deeper understanding of the compulsory sale regime. It outlined the basic framework and procedures of compulsory land sales in Hong Kong.

In 2010, the Government had ordered the lowering of the compulsory sale application threshold to 80 per cent for three lot classes. As a result, the HKIS updated the *Overview* and released its second edition in June 2011.

Given the changes to the regime derived from Land Tribunal cases over the last 11 years, a working group was formed to publish a new edition. The Working Group on Cap 545 Review (hereafter “the WG”) streamlined and enhanced the contents to make the *Overview* more easily understandable to the general public.

Other major updates to the third edition of the *Overview* include:

1. Mediation obligation between majority and minority owners
2. Reimbursement of litigation costs by majority owners
3. Exemption of stamp duty for minority owners

Moreover, the WG introduced a concise version of the *Overview* in booklet format. It provides simple answers to many common questions asked by affected owners during a compulsory sale case. Both versions of the *Overview* have been uploaded to the HKIS website. Members may download them for free via the links below:

Overview

Overview: Executive Summary

<https://tinyurl.com/y4xy23g4>

A press conference was held on 25 May to launch the third edition of the *Overview*, which was well attended by various media outlets. During the conference, GPD reported on the progress of the then ongoing policy review, which had been undertaken by the WG.

Policy Review of the Land (Compulsory Sale for Redevelopment) Ordinance

During the 2021 Policy Address, the former Chief Executive of the HKSAR proposed lowering the compulsory sale application threshold under the *Land (Compulsory Sale for Redevelopment) Ordinance*.

After six months of hard work, the WG issued its recommendation to the Development Bureau on 21 June 2022 and held a press conference to discuss its findings on 22 June 2022.

During the course of the policy review, the WG solicited views from various stakeholders concerning the current compulsory land sale regime. They included the Real Estate Developers Association of Hong Kong (REDA), professional members of GPD and BSD, and a community outreach organisation.

To examine whether the current regime provided adequate protection to minority owners, the WG carried out the following study, among others, which featured:

- 1) Replacement Flat Test
- 2) Review of Final Offers vs Apportioned Reserve Prices
- 3) Review of Objections to Compulsory Land Sale

Based on the findings of the stakeholder engagement and various studies, the WG identified areas for improvement in the current regime and put forward six suggestions to the Government, including:

1. Lower the Compulsory Sale Threshold
2. Review the Restrictions on Lot Applications
3. Establish an Appeal Mechanism and Allocate Additional Resources to the Lands Tribunal
4. Establish Reasonable Vacant Possession Delivery Requirements and Minimise the Impact of Missing Owners
5. Provide Financial Assistance to Minority Owners to Protect Their Interests
6. Enhance the Role of Surveyors

The WG supported the Government's proposal to lower the threshold for a compulsory sale application for "three-nil buildings" or buildings that are at least 60 years old to address pressing

problems arising from the lack of building management and maintenance, especially for those buildings with obsolete sewerage systems and outdated means of escape which pose fire hazards.

By increasing the public's understanding of the compulsory land sale regime, the Government can better safeguard the interests of majority and minority owners. As such, I gave interviews to TVB and Metro Radio to discuss the regime and promote the significance of surveyors in the compulsory sale cases. The TVB interview was aired during its News Magazine programme (新聞透視) on 18 June.

For the same purpose, I wrote an article on urban renewal, which was published by the *Hong Kong Economic Times* on 27 June 2022.

On 19 October 2022, I was pleased to hear during the 2022 Policy Address that the new Chief Executive proposed to lower the compulsory sale following the advice of the WG.

The Chief Executive proposed to lower the application thresholds for private buildings aged 50 or above but below 70 from 80 to 70 per cent of ownership, and further to 60 per cent for those aged 70 or above. For industrial buildings in non-industrial zoning, the threshold would be lowered to 70 per cent of ownership for those aged 30 years or above.

The Government would also relax the requirements on compulsory sale applications covering abutting lots, streamline the legal procedures for compulsory sale, and set up a dedicated office to provide additional support to affected minority owners.

I would like to recognise the tremendous contributions made by members of the WG. Apart from myself, members of the WG included

Sr Leo Cheung, Sr Dorothy Chow, Sr Ken Chung, Sr Anne Lam, Sr Alvin Leung, Sr Paul Li, and Sr Joel Teh.

Land Policy Panel

The HKIS Land Policy Panel issued three policy review papers to the Government on the following subjects:

1) Unreasonable Car Park Requirements for New Developments

This paper sets out the HKIS's views and concerns over the unreasonable car park requirements endorsed by the Transport Department for new developments, particularly for small sites with deep basements.

The document also makes recommendations, such as those that modify the *Hong Kong Planning Standards and Guidelines*, to account for various site areas and building uses, as well as reviews the GFA concession for above-ground parking with the goal of encouraging developers to build more parking spaces on sites with suitable attributes.

2) Lengthy Planning Approval Process

This study aims to identify areas of delay and problems of “comments” in the planning approval process before suggesting ways for the Planning Department and the Town Planning Board to resolve such issues.

3) Excessive Requirements on New Tender Sites

This paper reviews the land sale conditions for the (1) provision of public car park and GIC facilities and (2) different impact assessments over the past three financial years (2019/22).

A total of 36 tender documents had been reviewed including three unsuccessful tenders. The Panel recommended several areas for improvement including building covenant periods and lease covenants pertaining to multi-use facilities such as government accommodations and public car parks.

I thank all members of the Land Policy Panel who worked diligently to prepare these policy reviews under the direction of Sr C K Lau.

Remuneration of Professional Fees by Stage Payment

Occasionally, the Lands Department tenders contracts for valuation of compensation arising from land acquisitions and resumptions to general practice surveyors in private practice.

According to past consultancy contracts, the Government would only make a full payment when a case concludes. For example, for a Lands Tribunal (LT) case, the Government would pay the consultant when the case is concluded without an appeal, which could take years. Such an arrangement had caused concern and cash flow issues among many surveyors in the industry.

Along with fellow GPD delegates, I met with Lands Department representatives to discuss this matter in 2021. GPD recommended that the Government take stage payments into consideration as a possible solution.

In June 2022, the Lands Department decided to revamp the payment arrangement and began to implement stage payments for new contracts based on the progress of consultancy services. This new arrangement was seen as fair and to have vastly improved over the prior procedure.

I express gratitude on behalf of GPD to the responsible Lands Department assistant director for their wise decision and heeding the views of industry representatives.

Pop Quiz

Social distancing measures have prevented GPD from hosting large-scale gatherings since the beginning of the pandemic.

On 20 July 2022, GPD held an online pop quiz and offered prizes such as cash coupons and/or whiskey to the winners.

I applaud the organisers, hosts, and the HKIS administrative staff for putting together such a fantastic event via Zoom. Particular appreciation goes to Sr Chris Chan, Sr Kason Cheung, Sr Jason C S Chan, Sr Tracy Wong, Sr Cara Ng, Sr Camman Chan, and Ms Sharon Cheung.

Discussion between the Development Bureau and the HKIS

I am pleased to see that the Development Bureau has been collaborating closely with industry professionals to advance Hong Kong's future development.

On 2 August, I, along with other HKIS delegates, were invited by the Development Bureau to exchange views on issues pertaining to the property industry. The meeting was convened by Secretary for Development, Ms Bernadette Linn.

1) Streamlining Statutory Procedures

I was pleased to hear that Development Bureau would prioritise the streamlining of the statutory procedures. The Secretary also informed attendees that the Development Bureau had been listening to feedback from various stakeholders during earlier consultation sessions. It intended to submit legislative amendment proposals to the Legislative Council before the end of 2022.

2) Streamlining Administrative Procedures

The Secretary advised that the Development Bureau hoped to also streamline administrative procedures in 2023. She invited the HKIS to submit recommendations to the Development Bureau for its consideration, as it shall consolidate all views from the HKIS, the Hong Kong Institute of Architects, the Hong Kong Institute of Planners, and the Real Estate Developers Association of Hong Kong before deciding on the necessary changes.

3) Expediting Urban Redevelopment

The Development Bureau endeavoured to expedite Hong Kong's urban renewal with the help of the URA and private sector. It commended the HKIS for submitting its recommendations following a policy review of the *Land (Compulsory Sale for Redevelopment) Ordinance (Cap 545)*.

During the meeting, I brought up the implication of the Court of Final Appeal's decision in the case of *Fully Profit (Asia) Limited vs. The Secretary for Justice for and on behalf of the Director of Lands (FACV 17/2012)*. The

"House" restriction in Government leases had led to more uncertainties over redevelopment projects throughout the years and slowed down Hong Kong's urban renewal process. The Development Bureau took note of the issue and would address the industry's concerns.

4) Creating Opportunities for Youth

The Secretary also discussed the opportunities for the younger generation in the Greater Bay Area and the HKSAR. The HKIS urged the Government to provide younger surveyors with more opportunities to work in government projects.

At the Development Bureau's invitation, GPD submitted the CVs of several younger surveying professionals for possible appointment to the Government's various advisory panels, committees, and working groups. The HKIS wishes to collaborate with the Government to groom the next generation of competent surveyors in Hong Kong.

GPD Annual Conference

The GPD Annual Conference 2022 held on 15 October 2022 was a huge success, with over 400 participants turning up physically and virtually. We sincerely appreciate the participation of our Guest of Honour, Mrs Regina Yip Lau Suk-yee GBM GBS JP, and all the esteemed speakers. I extend my gratitude to the Organising Committee under the leadership of Sr Alexander Lam. The Committee worked tirelessly to ensure that the landmark event was a success. Other members of the committee included Sr Andrew Chan, Sr Charles Chan, Sr Kelly Lam, Sr C K Lau, Sr Paul Li, and Sr Joel Teh.

continued to broaden our influence as general practice surveyors across Hong Kong and the Greater Bay Area.

New Members

This year, the Education Committee, under the leadership of Sr Leo Cheung and Sr Alex Fong, continued to ensure that all examination-related venues provided adequate social distance.

By strictly adhering to the Government's social distancing guidelines, the APC Part I Assessment was successfully held on 8 and 15 October 2022. In total, 27 candidates sat the Part I Assessment, while 48 candidates attempted the Professional Task written assessment; 63 candidates applied to sit the Part II Assessment in December 2022.

Under the Memorandum of Mutual Recognition of Membership, the HKIS admitted 10 new members who were also RICS Corporate Members this year.

I express my gratitude to Sr Leo Cheung and Sr Alex Fong from the Education Committee, Sr Jason C W Chan from the HKIS/RICS Working Group, and all our voluntary assessors for their contributions over the past year.

Acknowledgements

The Annual General Meeting on 16 November 2022 concluded my third year in office as Chairman. I want to thank all our GPD Council Members, Co-opted Members, and YSG representatives for giving their time, knowledge, and resources throughout the past 36 months. GPD's continuous prosperity testifies to the Council's passion and commitment.

Finally, I want to express my gratitude to all GPD members for their unwavering support as we

LAND SURVEYING DIVISION

Sr Paul Tsui

Chairman, Land Surveying Division

1. Introduction

The year of 2021/22 has been a challenging year for the Land Surveying Division (LSD). Due to the pandemic, most of our council meetings were conducted online. Despite this, the operations of LSD have been kept normal: thanks to the collaborative efforts of Council Members, a lot of tasks were accomplished including the LSD Annual Conference 2022 and the Extraordinary General Meeting (EGM) for revision of *Guidance Notes for Land Boundary Survey*.

Group photo of the LSD Council 2021/22 after attending the LSD AGM 2021

2. Membership

As of November 2022, LSD had 353 Corporate Members of which 56 were Fellow Members and 218 were Probationers. There were 12 new Corporate Members joining LSD in 2022. We will strive to grow the membership in the following three ways:

- a. LSD Education Committee will continue to organise more CPD events to facilitate and assist more Probationers to get through the APC and obtain LSD Corporate Membership via the traditional route;

- b. We will continue to enrol qualified and experienced land surveying practitioners as our Corporate Members through our Reciprocal or Mutual Recognition Agreements with overseas institutes and through professional interviews. Four Corporate Members were enrolled through this route this year; and
- c. We have started liaising with non-land surveying departments of local universities to get their land surveying and GIS related undergraduate courses accredited by the HKIS.

New Corporate Members attended the event of Diploma Presentation 2022

3. Revision of Areas of Specialisation

To reflect the latest service scope and changing role of modern land surveyors with technological advances, a Task Force was formed in 2021 to revise the Areas of Specialisation on the LSD web page. The highlights of this revision are the addition of Building Information Modelling (BIM) given the increasingly important role of land surveyors in BIM data management and applications as well as its integration with GIS; and the use of more common and modern terminologies that can be comprehended by the students (and their parents) who want to

choose land surveying as the core subject of their university study. The revision task had been completed and the revised Areas of Specialisation was published on the LSD web page in April 2022.

4. Revision of LSD APC Rules and Guide

The revised Areas of Specialisation had triggered the update of the Competence Areas in the APC Rules and Guide of LSD since they should align with each other. LSDEC thus also took this opportunity to make a holistic review of the *APC Rules and Guide* which was last updated in 2017. Apart from the update of Competence Areas, the training requirement was also strengthened from one to two competence areas. The draft of the revision was accepted by LSDEC and the LSD Council. It would be put forward for the endorsement by the Board of Education and the General Council in the following year.

5. Revision of Guidance Notes for Land Boundary Survey

In view of the approval and issuance of *Code of Practice (Fifth Edition) (COP)* under the *Land Survey Ordinance (Cap. 473)* in December 2021, the LSD Council initiated a review of the provisions of the *Guidance Notes for Land Boundary Survey* published by the HKIS (*Guidance Notes*), to strengthen the standard for conducting land boundary survey and to align the *Guidance Notes* with the *COP*. A Task Force led by Sr Alex Chu was formed to review and update the *Guidance Notes* after seeking members' comments. An EGM to resolve the ratification of the *Guidance Notes (2022 Edition)* was convened by the General Council and concluded successfully on 22 August 2022. The full version of the revised *Guidance Notes (2022 Edition)* is now accessible from the HKIS website.

6. Professional Services Advancement Support Scheme (PASS) Project

In 2018, LSD had successfully applied for a fund of around HK\$1.7 million from the PASS to promote Land Surveying Technological Services to Belt and Road Countries including Mainland China, Pakistan, Kazakhstan, and Sri Lanka. According to the project proposal, the project team visited and exhibited in Pakistan and Kazakhstan; three online workshops and a hybrid conference were also hosted in Hong Kong. Due to the pandemic, the exhibitions of Hong Kong Land Surveying Services in Sri Lanka and Mainland China had been postponed. Nevertheless, the project team conducted an online exhibition in Sri Lanka in early December 2022.

7. LSD Research Activities

LSD successfully applied for a funding of HK\$200,000 from the Research Committee of the General Council to support its two-year research project namely “Systematic Review on the Change Detection of Land Use and Land Cover Over Urbanised Areas Using Very High-resolution Remote Sensing Images”. The Project is about the change detection of urbanisation and economic activities on earth surface using remote sensing images. It started in 2021 and has just been completed by the end of 2022. Beside the publication of the final report, Sr Prof Charles Wong, who was the principal investigator of the Project, will deliver two CPD talks on international developments and local remote sensing applications in early 2023.

8. LSD Annual Conference 2022

The LSD Annual Conference 2022 was successfully held on 29 October with over 200 participants joining physically and online. The conference theme was “Land Surveyor: Driving Innovation in the New Era of Geospatial Data”. We managed to invite Secretary for Development as our Guest of Honour. Moreover, we also invited 10 speakers coming from a diversity of background to demonstrate their applications of spatial data. Two students from the Department of Urban Planning of the University of Hong Kong presented their award-winning project on urban renewal study of Mongkok using GIS and geospatial data; Dr Kwong from the Department of History of Hong Kong Baptist University

showed how he uses GIS and geospatial data to teach his undergraduate students spatial history. Sustainability had become a hot topic recently; we were also honoured to invite President of the Hong Kong Institute of Landscape Architects to talk about GIS applications in management of city trees which is essential to the greening of the city and reduction of greenhouse gases. As BIM had become one of the LSD's Areas of Specialisation, we invited two speakers from two well-known and large-scale civil engineering contractors respectively to share their experience in BIM/GIS integration.

Ms Bernadette Linn, JP, Secretary for Development presented the keynote speech at the LSD Annual Conference 2022

9. Continuing Professional Development (CPD)

Provision of CPD opportunities to our members has been the top priority of the LSD Council. Although most of the CPD events had to be held online because of the pandemic, we successfully held 13 CPD events in 2022. We offered three free online CPD events to all HKIS members in order to encourage them to participate in more CPD events and all three of them drew a full house. Despite the pandemic, we managed to make a technical visit to GeoLab as one of the CPD events. Moreover, the CPD event “Virtual Site Visit to Trunk Road T2 and Cha Kwo Ling Tunnel (Engineering Survey)” was co-organised with YSG so as to encourage more young members to participate in CPD events. Also,

another CPD event “Land Surveyors’ Role for a Sustainable Future” was also supported by the Working Group on Sustainability. Below please find a summary of the CPD events in 2021/22:

10. Exchange with Mainland and Overseas Counterparts

Keeping regular communications and exchange with our Mainland and overseas counterparts associations is an important task of LSD, through which our members can get a better understanding of the current situation as well as the development of land surveying industry in the Mainland and other countries, where we could also learn from each other in both technical and professional aspects. We invited President of the Land Surveying Division of Singapore Institute of Surveyors and Valuers to share the role of land surveyors in Singapore in driving innovations with geospatial data. With our Mainland counterparts, we also co-organised “京粵港澳測繪地理信息學術交流會” (Beijing, Guangdong, Hong Kong and Macao Seminar on Mapping and Geographic Information) in December 2022.

11. Acknowledgements

I would like to take this opportunity to express my sincere gratitude to all Council Members for serving LSD in 2022. Without their hard work and support, all of the above could not have been achieved. Particularly, I would like to thank the members of LSDEC led by Sr Ben Chow and all the APC assessors for keeping the LSD APC assessment operations smooth and proper. Moreover, I would like to convey my heartfelt thanks to the members of the Task Force on the revision of the *Guidance Notes for Land Boundary Survey* led by Sr Alex Chu and on the successful organisation of the EGM for making it effective. Finally, I would like to show my deepest appreciation to the members of the Organising Committee, student helpers, the HKIS Office as well as the masters of ceremonies of the LSD Annual Conference 2022 led by Sr C K Lau, which made the event a great success.

I would like to express my heartfelt thanks and appreciation to all Office Bearers, Council Members, Co-opted Members, YSG representatives, and the HKIS Secretariat Staff for their unfailing support, contribution, and valuable advice during the past year. Without their assistance, our events could not have been held so successfully.

PROPERTY & FACILITY MANAGEMENT DIVISION

Sr Charles Hung

Chairman, Property and Facility Management Division

It has been a difficult year for everyone due to the persistent pandemic issues and strict social distancing rules which prohibited us from meeting face to face. It was a pity that we only held the first council meeting in person for new members and the majority of the Council meetings were arranged by Zoom.

Notwithstanding the above, the Property and Facility Management (PFM) surveyors managed to play an important role in helping to fight against COVID-19 on the front line through dissemination of health information, distribution of medical care packages, regular disinfection and cleansing activities, etc. From our vigorous training and learning from the following activities and advanced technologies, it is hoped that we will be able to enrich our professional skills in delivering better services to the satisfaction of the public at large:

A. Major Activities

a. Quality Property and Facility Management Award (QPFMA) 2022

QPFMA was jointly organised by the Hong Kong Association of Property Management Companies (HKAPMC) and PFMD in 2022. A briefing ceremony was held on 8 March with the announcement of jurors and its submission requirements. There had been 149 submissions received and assessed initially by both HKAPMC and PFMD members on 4 July 2022, followed by site visits on 30 and 31 July 2022. 42 nominations were shortlisted for final presentations, which were held on 27 and 28 August 2022 at Chiang Chen Studio Theatre of the Hong Kong Polytechnic University (PolyU). The winners received their awards on 30 November 2022 at the Hong Kong Convention and Exhibition Centre.

b. Liaison with the Property Management Services Authority (PMSA)

The PMSA formally launched its Continuing Professional Development (CPD) requirements on 14 March 2022 as PFMD being one of their supporting organisations with a view to improving the service quality in the Property Management industry. It will be further enhanced with electronic communications and the use of mobile phones.

By May 2022, the PMSA had already issued almost 7,000 licences. The three-year transitional period will end on 31 July 2023. All relevant stakeholders must hold valid Property Management Licences starting from 1 August 2023 under the Property Management Services Ordinance (Cap 626).

c. Dialogue with the Media

The HKIS held a Zoom meeting with the media to promote the professionalism of surveyors and to introduce the works of each Division on 10 March 2022. On 4 April 2022, Sr Jonathan Lee, PFMD Vice Chairman also attended a live interview with Metro Radio to talk about the efficient and proper procedures of distributing the Government's rapid antigen testing kits, the difficulties encountered as well as the anti-epidemic measures in our daily operations, which promoted the contributions of PFM surveyors in fighting against COVID-19 on the front lines.

d. Meeting with the Antiquities and Monuments Office (AMO)

The HKIS had been organising the Maintenance and Appreciation of Historical Buildings Campaign with the support from the

Development Bureau since March 2019 with its closing ceremony held on 14 December 2021. PFMD members also played an important part in managing historical buildings so as to ensure their timely maintenance and conserve the built environment.

All divisional representatives attended a luncheon with the AMO on 27 July 2022, with a view to discussing future collaboration in organising heritage-related activities. It also gave the AMO the opportunities to understand the works of PFM surveyors with particular regard to the preservation of heritage buildings through good property management.

e. Beyond Your Campus Competition

The HKIS's Beyond Your Campus Competition 2022 started with a briefing on 8 January 2022 to encourage secondary school students to explore their campuses and the surrounding communities and allow them to express creativity by designing an ideal environment for their schools. This event was attended by Sr Shelley Chan, PFMD Honorary Secretary who introduced the role of PFM surveyors in campus management, the air conditioning DIY workshop, and PFMD mentors. The submissions were assessed and presented on 28 August and the Prizes Ceremony was successfully held on 24 September 2022.

f. Architectural Services Department General Specification 2022

The Architectural Services Department arranged a briefing session for various stakeholders on 1 March to introduce a new section on Modular Integrated Construction (MIC) and the changes to other parts. Sr Louis Lee, PFMD Council Member attended the meeting and highlighted the amendments related to the NEC ECC table, normal flow rate of showers and non-mixing water taps, VOC content, landscaping pruning types, and green environment requirements to curtain walls and glazing. The 2022 version was launched in Q3 in 2022 and adopted in Q4 in 2022.

g. Cover Story: Surveyors Times

The following PFMD Council Members have made contributions to the publication of Cover Story of *Surveyors Times*:

- Sr Ray Ng explained the roles of consultants and property managers who play the role of arranging building maintenance works. He also outlined the difficulties property managers face in managing mixed-use buildings where the Deed of Mutual Covenant should be observed.
- Sr Louis Lee introduced the use of geospatial data for building management work. The integration of static and dynamic information from buildings to the open geospatial data system is a prerequisite for developing a smart city and also an inevitable tendency for PFM surveyors to follow/use.
- Sr Jonathan Lee informed that environment, social, and governance (ESG) would become increasingly important and help popularise green building certifications. Listed developers and corporate owners are keener to appeal to investors with their commitment to reducing the carbon footprints of their portfolios.

h. Water Seepage Investigation

A working group of water seepage investigation was formed to identify the difficulties encountered during investigation and to seek remedial measures with a view to improving the current procedures. It was not sure whether the litigation aspect from the sufferers would be covered under the existing insurance policy, which should be further explored. A close liaison with BSD has been maintained and dialogue with them will continue.

i. External Connections

1. Hong Kong Institute of Facility Management (HKIFM)

- Sr Charles Hung attended its AGM and the networking dinner on 14 December 2021 to foster a closer relationship that includes organising joint CPD and other events with HKIFM.

2. Development Bureau

- A seminar on construction projects in Guangdong Province involving

Hong Kong professionals was organised by the Development Bureau and Guangdong Housing and Construction Authority with help from the Liaison Office of the Central People's Government on 16 December 2021. Useful contacts were established to create more job opportunities in the Greater Bay Area for PFM members in future.

3. Hong Kong Institute of Certified Property Mangers (HKCPM)

- The Property Management Week 2022 Award Ceremony and discussion forum of HKCPM were held on 8 July 2022. Knowledge and experiences in the Greater Bay Area were explored. There has been strong demand for Hong Kong property management professionals equipped with good language/communication skills, international perspectives, professionalism under licence, human relation skills, law-abidingness, and high integrity.

4. The Hong Kong Polytechnic University (PolyU)

The Faculty of Construction and Environment (FCE) Alumni Reunion Day at PolyU was held on 13 August 2022 to celebrate the 85th Anniversary with the presence of our PFM members being the highly valued alumni including Sr Patrick Leung, one of the outstanding Young BRE Graduates in 2009 with a BSc(Hons) in Property Management. Useful contacts were made on that day with other alumni including Sr Prof Eddie Hui and Sr Dr Sandy Tang.

5. Chartered Institute of Housing (CIH)

A seminar and a lunch were organised by the CIH (Asian Pacific Branch) on 31 August 2022 during the International Property Management and Procurement EXPO at the Hong Kong Convention and Exhibition Centre. Prominent speakers such as Dr William Yu, Founder and CEO of World Green Organization, gave a talk on how ESG

performance is related to the property management industry. Useful contacts were made with the Institute including Chairman Matthew Ng.

6. Hong Kong Institute of Housing (HKIH)

The HKIH Annual Dinner cum HKIH Elite Award Presentation Ceremony was held on 18 October 2022 at the Hong Kong Convention and Exhibition Centre. Secretary for Housing, Ms Winnie Ho, delivered a speech on excellent contribution of property management professional and Housing Authority's core values with the 4Cs: Customer-focused, Caring, Creative, and Committed. The Elite Awards aims to acknowledge and appreciate the hard work and high standard of professionalism with a view to improving our living environment. It was a great encouragement to property management professionals and practitioners. Useful contacts were made with President Ms Patricia Chang, Deputy Director of Housing Department Mr Ricky Yeung, etc.

j. Social Activities

1. Central Market

The Urban Renewal Authority (URA) had revitalised Central Market with shops, restaurants, and cultural facilities with a central open space. The celebration ceremony was held on 12 November 2021 and hosted by Donald Choi, the executive director of the Chinachem Group that manages Central Market. It was a happy evening filled with unique features and attractions including live musical performance.

2. Advancing Net Zero Carbon Ideas Exhibition

The Hong Kong Green Building Council and Swire Properties organised an opening ceremony and exhibition on 29 November 2021 at Taikoo Place. The submissions have inspired the professionals to develop and build a knowledge bank of net zero carbon

buildings with renewable energy and energy-saving technologies.

3. East Rail Line Cross-harbour Extension

It was an MTR Special Society Link Gathering on 7 May at Telford Plaza, Kowloon Bay. The tour introduced the new facilities at the interchange, modern designs with art elements, and history such as the World War II bomb. The exhibits also illustrate the construction of 11 pre-cast concrete units immersed under the harbour which was a mega project that lasted 10 years.

4. Voluntary Work at Shek Wai Kok Estate

Sr Maxine Yao joined a volunteering activity co-organised by the Agency for Volunteer Services (AVS) and the HKIS on 16 April 2022 to deliver care packages to the elderly at Shek Wai Kok Estate and to explain to them some health information including the vaccination procedures.

5. 618 Shanghai Street, Mongkok

A guided tour was organised by Sr Hon Tony Tse to visit the historical building at 618 Shanghai Street on 27 July 2022. The building has preserved heritage elements and was reused for pre-war shops, kiosks, ground-floor community spaces, Dignity Kitchen social enterprises, etc.

B. Education

a. Re-accreditation of Courses

The re-accreditation of the submissions from the University of Hong Kong, PolyU, and School of Professional Education and Executive Development (SPEED) was approved and would be valid for five years.

b. Research Project

The Research Project entitled "Towards Smart Shopping Centre Management: Assessing the Performance of Four Types of Smart Tool" was

approved in 2022.

c. Membership Growth

The membership growth was not satisfactory as there were only 10 new members who were two RICS applicants and eight HKIS members via the multiple division route. It was suggested that the current situation could be improved through school career talks, introduction of training workshops, mentorship, etc.

d. APC Integration and Partial Exemptions with Other Institutions

The Council has approved the integration of PART 1 with the practical task examination so as to simplify the current procedure without lowering the quality at entry. Partial exemptions with other reputable Institutions (e.g. RICS and IFMA) should be further explored.

C. CPD

With the overwhelming support from Council Members, the provision of the CPD courses led by Sr Dick Li was a successful one this year. It was noted that there were about 36 CPD offline and online events organised. The attendance of the online events was encouraging and unexpectedly good. Also, the joint CPD with HKIFM was also welcomed by members; other CPD programmes approved by the PMSA also attracted great participation.

The CPD courses included the hot topics related to epidemic prevention measures, Protech, digital integration, MIC, PV panels, land compulsory sales, nuisance claims, rent protection for business tenants, smart parking, adjudications, energy saving, IS41001, information technology, BIM, site safety, spatial data, MBIS, paint technology, sustainability/ decarbonisation transformation, feng shui, UK experience, multitrade integrated mechanical, electrical and plumbing (MiMEP), water seepage, etc.

It is hoped that all Council Members will continue to give full support to these important CPD events which will enrich our knowledge and enhance our quality in the PFM field.

QUANTITY SURVEYING DIVISION

Sr Sunny Choi

Chairman, Quantity Surveying Division

INTRODUCTION

Owing to the anti-epidemic policies of the Hong Kong Government and the high rate of COVID-19 vaccination of the Hong Kong people, the COVID-19 epidemic situation had become fairly stable since the third quarter of 2022. As the various COVID-19 related restrictions gradually relaxed, certain large-scale events such as physical conferences and annual dinners could be held subject to certain precautionary measures.

At the beginning of this council year, I set out a number of face-to-face events to be accomplished and all of them had been successfully carried out despite the epidemic situations.

My Chairman's Report will present what has taken place, both external and internal to the Quantity Surveying Division (QSD), in the past 12 months following the below categories:

1. LOCAL AFFAIRS
2. INTERNATIONAL AFFAIRS
3. MAINLAND AFFAIRS
4. NETWORKING WITH EXTERNAL BODIES
5. NETWORKING WITH MEMBERS
6. ASSESSMENT OF PROFESSIONAL COMPETENCE (APC)
7. PRE-QUALIFICATION STRUCTURED LEARNING (PQSL) AND CONTINUING PROFESSIONAL DEVELOPMENT (CPD)
8. PUBLICATIONS
9. PROMOTION OF THE QUANTITY SURVEYING PROFESSION

To allow students to appreciate the importance of transport infrastructure and the roles of quantity surveyors in urban development, QSD organised an online workshop on the Trunk Road T2 and Cha Kwo Ling Tunnel project on 26 March 2022.

A total of 49 secondary school students joined this workshop. Sr Johnson Cheung represented QSD to give an opening briefing and vote of

thanks to the event organiser. Representatives of the project team shared details of the project including the subsea tunnelling method by tunnel boring machines, advanced land surveying technologies, and innovative geotechnical monitoring devices for the improved reliability and efficiency of the tunnelling process.

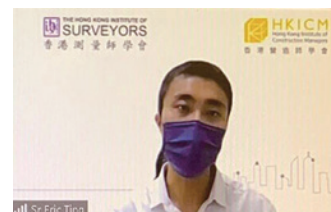

1.3 Security of Payment

Security of payment (SOP) is a term used by the construction industry to describe the need for secure and professional payment arrangements. The idea is that parties should receive money to which they are legitimately entitled due to the works they completed and the services provided. The recent implementation of the SOP provisions in public works contracts, known as the Development Bureau's Technical Circular (Works) No 6/2021 issued on 5 October 2021, represented a step forward towards SOP development in Hong Kong. It is possible that SOP will change contract and payment practices and Qs are encouraged to familiarise themselves with and be prepared for it.

(A) Contract and Claim Management Tactics under SOP (20 April 2022)

QSD and HKICM jointly organised an online CPD event on Contract and Claims Management Tactics under SOP on 20 April 2022.

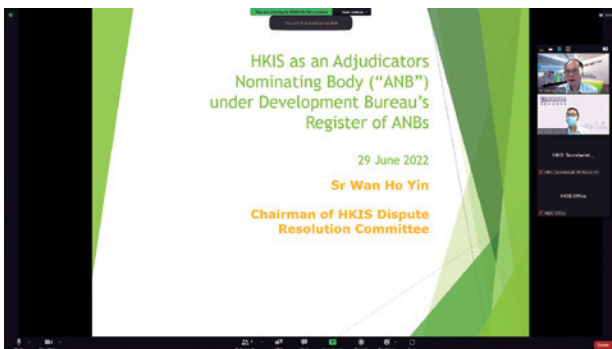

During this seminar, QSD Honorary Treasurer Sr Eric Ting shared some key points and made recommendations on contract and claims management under SOP from both the client and contractor's perspectives.

(B) HKIS as an Adjudicators Nominating Body (ANB) under Development Bureau’s Register of ANBs (29 June 2022)

On 23 December 2021, the HKIS was admitted by the Development Bureau to become one of the ANBs under the its Register of ANBs.

Sr H Y Wan, Chairman of HKIS Dispute Resolution Committee and Council Member of QSD, delivered an online CPD programme entitled “HKIS as an Adjudicators Nominating Body under the Development Bureau’s Register of ANBs” on 29 June 2022 sharing the following information to the members:

- a) A brief review of the HKIS becoming one of the ANBs under the Development Bureau’s Register of ANBs;
- b) The function of ANBs;
- c) Information and documents included on the HKIS website for adjudication; and
- d) Training of adjudicators.

1.4 Sustainability and Quantity Surveyors

Quantity Surveyors, by training and by profession, are in a prime position to calculate carbon emissions of construction projects and constructed assets, to advise clients and designers on the cost implications of using different kinds of green materials on a project, and even to carry out energy audits by applying appropriate digital tools.

I promulgated the subject “Sustainability: What Roles Do Quantity Surveyors Play?” in my Chairman’s Message published in the March issue of the *Surveyors Times*.

QSD gathered a pool of Qs with expertise in the field of sustainability to form a new subcommittee called Sustainability

Subcommittee this year, with Sr Emily Li as the Chairperson and Sr Jason Chan as the Vice Chairman. The purpose is to raise the awareness of our fellow members about sustainability and to explore setting up certain standards and practices.

The following CPD events related to sustainability had been arranged for QS members this year:

- a) “Building as Material Bank – a QS Perspective” by Mr Eugene Seah from Singapore (3 May 2022)
- b) “Estimating Embodied Carbon: The Next Evolution of QS” by Mr Andy Ang from Malaysia (6 June 2022)
- c) “The CIC on Promoting Sustainable Construction” by Ms Margaret Ho and Ms Ivy Lee (1 November 2022)

1.5 Survey on the Competence of Fresh QS Graduates and Quantity Surveyor Manpower Demands

QSD had conducted a questionnaire survey to review the competence of Hong Kong’s fresh QS graduates and the demand for quantity surveyors. The objectives of the survey were to:

- a) Examine employers’ requirements on the skill sets that quantity surveyors require to meet the needs of the industry;
- b) Identify the gap, if any, between employers’ expectations and QS graduates’ performances; and
- c) Get insights into the manpower demand for quantity surveyors in the coming years.

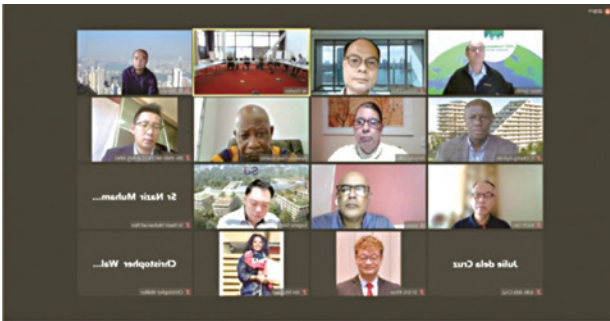

The preliminary findings had been presented to the Architectural Services Department, the

Development Bureau, and the Association of Consultant Quantity Surveyors (ACQS) during a coordination meeting held in November 2022. The survey findings, analysis, and follow-up actions will soon be shared with stakeholders and the public.

5.1 New Members' Welcoming Party (21 October 2022)

This year's QSD New Members' Welcoming Party was held for the first time at Helena May, a gracious heritage building at 35 Garden Road, on 21 October 2022. This beautiful colonial building stands out as a superb example of Hong Kong's architectural heritage. Over 60 participants joined the Party.

I introduced to our newest members the functions of QSD's various subcommittees and organising committees in the hope that our young surveyors would be inspired to participate in the Council's events/activities.

We were also grateful to have our HKIS Senior Vice-President and QSD Past Chairman Sr Paul Wong, HKIS Past President Sr Serena Lau, and QSD Past Chairman Sr Tommy Yim join the Party as our guests.

Creative games for the new members were full of fun and laughter. At the end of the Party, we conducted a lucky draw and presented prizes to the winners.

5.2 1st QSD Social Event: Mosaic Lamp Workshop (11 June 2022)

The first QSD social event in 2022, a mosaic lamp workshop, was successfully held on 11 June 2022. All participants enjoyed making colourful mosaic lamps by designing and melding colourful mosaic blocks into different patterns. Every member valued the experience of making their unique mosaic lamp.

The DEC had fixed to conduct the professional interviews on 14 January 2023. Similar to previous years, there was a tremendous demand for interviewers. I appealed to members who could spare half or a whole day of their precious time to participate in this meaningful exercise. It was the moment for us to have face-to-face discussions with the prospective new blood of the QS profession.

7. PRE-QUALIFICATION STRUCTURED LEARNING AND CONTINUING PROFESSIONAL DEVELOPMENT

7.1 Pre-qualification Structured Learning (PQSL)

Fulfilling the PQSL hours is one of the mandatory requirements of Associate Members and Probationers, who must take a minimum of 15 hours of approved learning activities every six full months after their entry to the APC before they sit the APC.

PQSL aims to enrich Associate Members and Probationers with essential knowledge in QS practices and principles in construction contracts, so as to prepare them for the APC examination. There were a series of PQSL events, namely measurement, procurement, standard form of building contract, contract administration, and specialisation, which cover QS topics such as:

- Measurement techniques
- Measurement of building works and building services installations
- Tendering
- Reporting on tenders
- Variation and post-contract cost control
- Payment valuation and final accounts
- Contractual arrangements
- Liquidated damages and extension of time
- Direct loss and expense claims
- Dispute resolution
- Liquidation

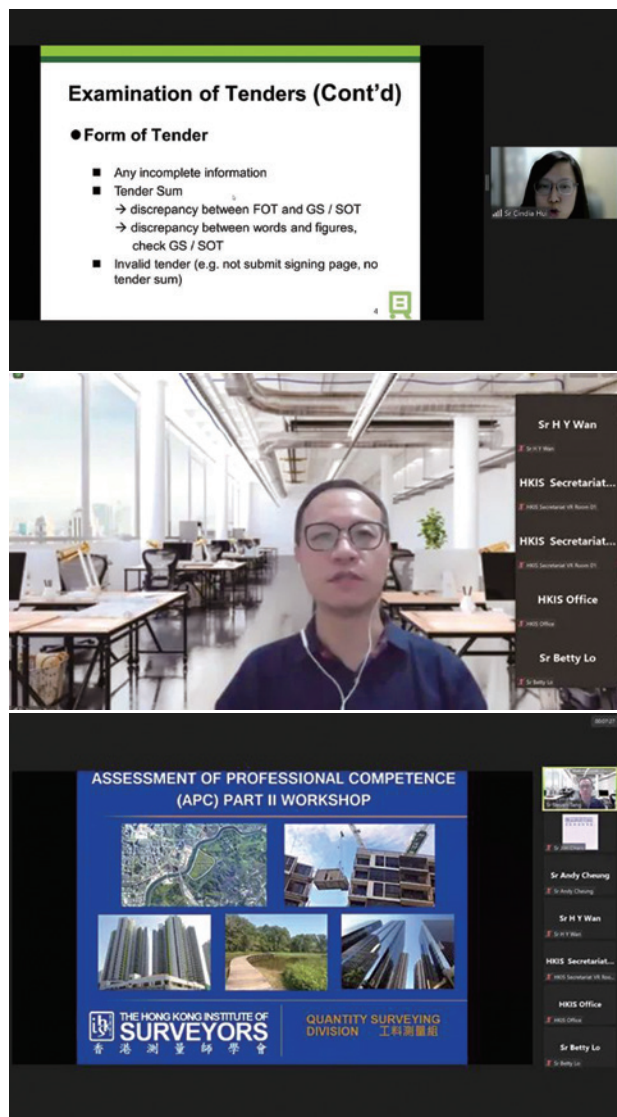

Together with the workshops for the APC Parts I and II, QSD has committed to organising more than 20 PQSL events each council year.

In the Council Year 2021/22, 24 PQSL events have been held, including three workshops for APC. For details, please see Annex A.

7.2 Continuing Professional Development (CPD)

CPD is the systematic maintenance, improvement and broadening of knowledge and skill and the development of personal qualities necessary for the execution of professional and technical duties throughout the practitioner's working life.

To upkeep our members' professional competence in their professional practices and technical performances is one of the important tasks of QSD. This year, QSD's CPD Subcommittee organised 46 CPD events on a variety of topics, including contractual and legal, cost management, insurance, management, BIM, green measures, and other technical issues. For details of the CPD events of the Council Year 2021/22, please see Annex B.

Looking forward, QSD will continue to organise good quality CPD events in diversified areas, collaborate with other construction professionals, and cater for professional development and lifelong learning for our members.

On behalf of QSD, I express my heartfelt thanks to our Training Subcommittee Chairman Sr Jim Chark, CPD Subcommittee Chairperson Sr Betty Lo, and their teams for their devotion and tremendous efforts in organising and

promoting the PQSL and CPD events to the members.

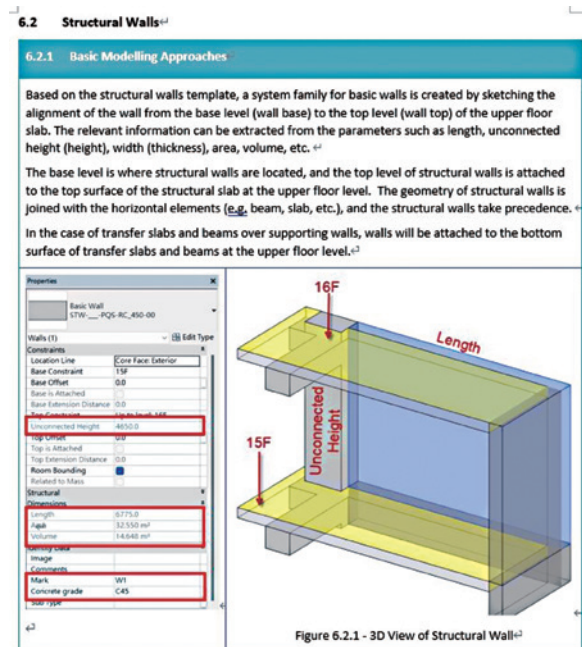

8. PUBLICATIONS

8.1 BIM Measurement Information Requirements (MIR) (November 2022)

BIM has been implemented in Hong Kong construction industry for several years. Since 2019, cost estimation has been specified by the Development Bureau as one of the mandatory BIM uses in Public Works Capital Works projects with a contract value greater than HK\$30 million.

Quantity Take-off (QTO) is an essential task for the preparation of cost estimates and bills of quantities. With the advent of BIM, the traditional manual QTO approach would gradually be transformed into the extraction and generation of quantities from BIM models for various cost management needs. The extent of transformation depends on the rate of BIM adoption in construction contracts.

Some quantity surveyors have become acquainted with the skill to use BIM to increase the productivity of QTO and thus tender preparation, while many still do not have a deep understanding of BIM QTO. The Digitalisation Subcommittee of QSD had drafted a document called BIM Measurement Information Requirements to serve as a guide for quantity surveyors who would like to know how to start BIM QTO.

6.2.2 Information Requirements for Quantity Take-off⁴²

1. Wall marks.⁴²
2. Mix or strength of concrete.⁴²
3. Wall types – structural /retaining/ vertical / sloping/ curved. ⁴²
4. Type of specified admixtures (if any). ⁴²

This sample model has not included:⁴²

- a. reinforcement, and⁴²
- b. formwork.⁴²

6.2.3 Quantity Take-off Guidelines⁴²

For measurement of structural walls, create a schedule with the following fields:⁴²

<Wall Schedule>								
A	B	C	D	E	F	G	H	I
Family	Type	Mark	Concrete grade	Width	Length	Area	Volume	Face, Both sides of Wall
Basic Wall	STW_PQS-RC_450-00	W1	C45	450	6775	32 56	14 65	65 10
Basic Wall	STW_PQS-RC_450-00	W2	C45	450	6360	29 53	13 29	59 06
Basic Wall	STW_PQS-RC_450-00	W3	C45	450	6775	30 46	13 71	60 52
Basic Wall	STW_PQS-RC_450-00	W4	C45	450	6775	32 56	14 65	65 10
Basic Wall	STW_PQS-RC_450-00	W5	C45	450	6360	29 53	13 29	59 06
Basic Wall	STW_PQS-RC_450-00	W6	C45	450	6775	30 46	13 71	60 50
Grand total: 6							83 28	370 14

The parameter "Area" of wall is representing the larger side surface of the wall. For measurement of formwork to sides of wall, create the following formula for the column I in the schedule:⁴²

- For stand-alone walls and walls connected perpendicularly: $Area * 2$ or $[Volume / Width (thickness)] * 2$ ⁴²
- For walls connected at an acute angle or obtuse angle: $[Volume / Width (thickness)] * 2$ or $(Length * Unconnected Height) * 2$ ⁴²

This draft document has been launched for comments in November 2022. It is anticipated that it could be formally released in Q1 in 2023.

推動房地產綠色金融發展

政府發表的 2022/23 年度《財政預算案》，提及香港在綠色和可持續金融的發展具優勢，可引導國際資金配對優質的綠色項目，全力推動香港邁向 2050 年前達到碳中和的目標，推動經濟向綠色轉型。

這項新政策有利建築行業內的承包商和供應商使用綠色金融產品，減輕融資或貸款的財務負擔。現時許多企業都關注或已遵循香港交易所的環境、社會及管治 (ESG) 報告指引，以充分善用綠色金融的可發展空間及帶來的優勢。

工料測量師可成為建築界 ESG 團隊核心成員，執行相關的數據審視和分析，提供專業估算作策略性決定。現時 ESG 相關的評級有很多，評級由兩個主要部分組成：風險敞口及風險管理的部分，如建築廢料和工地垃圾管理問題將帶來環境風險。公司對應 ESG 問題的低敏態度、低執行力的綠色政策，綠色合同上的爭議，都會對公司的管理評分產生負面影響。

工料測量師 合分析風險

工料測量師對工程項目的建築規格和合同條款都有詳細了解，是進行 ESG 數據及風險分析的合適人選之一。可持續材料一般被認為會增加額外成本，令資產擁有人或設計團隊猶疑選用。但工料測量師善於計算建築設計及用料的生命週期成本，在選取可持續設計方案及建築材料時，可提供不同設計方案或用料選擇的初始成本、現金流模式和生命週期成本。例如「組裝合成」建築法被視為未來綠色建築房屋的里程碑，也是減少碳排放的一種手段。工料測量師可以為其安裝時間和生命週期成本進行全面分析，提供綠色建築的重要數據以對衝增加了的初始成本。

工料測量師更是處理綠色建築合同的合適人選，其中涉及相關標準，例如全球報告倡議組織可持續發展報告標準、ISO 14064-1：2018「組織層級溫室氣體排放與移除之量化及報告規範」、聯合國可持續發展目標等相關要求寫入合同規範內，及處理締約雙方在綠色合同上的爭議。

項目執行過程中，採購和安裝都對碳排放有重要的影響。工料測量師憑着專業的訓練及項目全過程管理的經驗，能有效掌握採購和供應材料數量的相關數據，在碳排放計算工作方面，包括應用如「建造業議會碳評估工具」之碳排放計算模型或軟件，亦佔優勢，實現碳中和以及幫助企業取得 ESG 相關認證有莫大貢獻。

據建造業議會網頁顯示，建造業致力在 2030 達致恒常業務的 11% 減排量。可持續建築旨在減少建築過程中行業對環境、社會和經濟方面的影響，措施包括：1. 綠色融資；2. 使用低碳材料和設備；3. 建築廢料分類與管理；4. 創新技術，例如裝配式設計 (DiMA) 和建築信息模擬 (BIM) 等。

工料測量師在上述各項措施擁有一定經驗，在達致持續建築的路線圖上定能為推動綠色金融及綠色建築擔當務實角色，為社會邁向「淨零排放」出一分力。

女性成生力軍 細心謹慎成優勢

不讓鬚眉

測量行業一向以男性主導，但隨着時代改變，現時愈來愈多女性投身測量業。趙錦權表示，DEI 概念 (多元、平等與包容) 逐漸普及，加上業界科技化，吸引更多女性入行。

在私人機構從事工料測量師的邱焯然表示，兒時喜歡留意建築物、道路所採用的物料，以及其價格。之後也對工程感興趣，但由於不想經常進入地盤，於是在大學修讀測量學系，其後成為工料測量師。

工料測量師 需細看合約條款

邱表示，雖然工作需要經常計算，但不會太複雜，只是加減乘除，所以沒有太深的數學根底也可以應付。她續指，作為工料測量師需要對數字敏感，因需要對建築工程各範疇中的造價進行監控。除了要對數字敏感，細心和謹慎也十分重要。邱指，工料測量師需要細看合約條款，以確保工程按合約內訂明的細則完成。

工料測量師就像建築界的「會計師」，其需要負責計算工程造价和總支出，如建築材料、人工價格、施工設備與方法、財務、招投標和各類型建築合同的策劃及制定，可以按客戶及工程項目的需求而提供應對方案。

兩位測量師邱焯然 (左) 及黃穎妍認為，女性在測量行業擁有優勢，如細心及擅於表達，對工作有幫助。(曾耀輝攝)

9.6.3 《女性成生力軍 細心謹慎成優勢》 (28 July 2022)

On 26 July 2022, the HKET interviewed Sr Beverly Yau, a young-qualified quantity surveyor; Sr K K Chiu, HKIS President; and Sr Winnie Wong, another young-qualified surveyor from LSD on their careers.

The article profiling them, titled “女性成生力軍 細心謹慎成優勢”，was published on the HKET's

9.6.4 Media Interviews of the QS Awards 2022 Winners (26 September 2022)

The presentation ceremony of the HKIS QS Awards 2022 was successfully held on 23 September 2022. On 26 September 2022, a few awardees and I were respectively interviewed by the HKET and ST Daily.

The following articles titled “2022年工料測量師QS大獎” and “香港測量師學會工料測量師大獎2022表揚業界傑出人才” were published on the HKET and ST Daily on 5 October 2022 respectively.

- c) Standards and publications
 - SFBC 2022
 - HKSM5
 - BIM MIR
- d) Council development
 - Duration reduction of meetings
 - Digitisation of workflow
 - KPI of committees
 - Succession

The key objective of the core plan is promoting the QS profession, either to the public, the construction industry, or the younger generation. With the support of the QSD Council and the devoted contribution of various members, we had successfully held the QS Awards 2022 cum QSD Annual Dinner even under strict pandemic restrictions on social distancing. QSD received compliments from our fellow members as well as from other industry practitioners.

Career talks to tertiary students and the production of promotional video are actions to connect with the younger generation. A QS Survey had also been conducted to reveal the demand for quantity surveyors in the coming years. I believe that promoting the image and scope of services of the QS discipline is the right strategy for the Council to further raise the status of our profession and attract more students to pursue QS as their career.

Beyond Hong Kong, we had actively participated in overseas activities like the PAQS Congress 2022 held in Singapore. QSD was committed to joining the PAQS Congress back in May this year to show our support to the PAQS and the SISV. With the concerted effort of all delegates, we all returned to Hong Kong safely afterwards. We met our counterparts in China twice online this year and hope we could meet them in person soon.

The duration of each council meeting was reduced while the function of meeting for discussing and resolving council matters was maintained. More experienced or young members were invited to join the Council as members or co-opted members. This year, QSD has been very successful in terms of the connections with its members, training for Probationers and Associate Members, CPD of its members, and its external collaboration

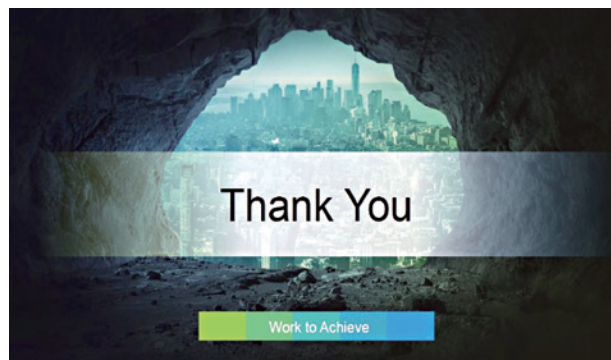

10. CONCLUSIONS

In the QSD Year Plan 2022, I put forward the core plan of work covering the following:

- a) Activities and events
 - Annual Dinner
 - QS Awards
 - Scholarship Awards Presentation
 - Welcoming Party
- b) Promotions and connections
 - Brand QS and QSD
 - Connect with students
 - Join PAQS 2022
 - Connect with CCEA and ICEC

and liaison with other local and overseas professional bodies.

I dare to say that the Council has done a lot this year but still, we have a lot of tasks to accomplish. My heartfelt thanks go to all outgoing Council Members for their support and valuable advice, without which QSD would not have been able to achieve its targets in the Council Year 2021/22. I also thank all members' support to QSD and hope they will continue supporting QSD in the Council Year 2022/23.

YOUNG SURVEYORS GROUP

Sr Sunny Wong

Chairman, Young Surveyors Group

It has been my honour to work with the following Office Bearers to serve YSG during this term:

Sr Ko Tak Yan Wilson, Vice Chairman
Sr Ho Yik Lam Candy, Vice Chairlady
Sr Wong Cheuk Sze Tracy, Honorary Secretary
Sr Chan Leonie Yuet-man, Honorary Secretary
Sr Hau Wing Shuen Miki, Honorary Treasurer

Special thanks also go to all Committee Members, Co-opted Members, and representatives from universities' surveying student societies, who have made great effort and contribution during this term.

Although this term has been tragic as we were unable to finish most of the planned activities due to COVID-19 and the corresponding social distancing measures, I believe the YSG Committee can take this opportunity to develop new initiatives.

Continuing Professional Development (CPD) and APC Workshops

There were a total of 22 CPD events and APC workshops held during this term, with over 3,000 registered participants. They covered critical topics related to the surveying profession, which provided participants with the latest information about the real estate and construction industry and market insight from experienced practitioners in the industry.

Apart from CPD, we also worked with other divisions to provide APC workshops for the probationers. Throughout the workshops, our

speakers shared their knowledge on different core competences and valuable work or APC-related experiences with the audience, so that the probationers could get prepared to equip themselves with the required knowledge and skills to become a professional surveyor.

On behalf of YSG, I would like to take this opportunity to thank our CPD Conveners, Sr Gigi Mok and Sr Johnson Cheung, and our Committee Members, Ms Tansy Cheung, Sr Rocky Chan, Sr Wilson Ko, Sr Aaron Cheng, and Sr Mickey Ng for their contributions to the organisation of CPD events for our members.

Social Events

Thanks to our Social Event Subcommittee, despite the pandemic situation, we successfully organised two neon light workshops this year, which was a day full of fun and laughter. Special thanks go to Conveners Sr Tracy Wong and Ms Tansy Cheung for coordinating this exciting event!

Charity Events

Ever since its establishment in 2019, the YSG Social Services Subcommittee has been brainstorming ideas on various charity events and bringing our members together, which could bring positivity into the society. We had two charity events this year, with thanks to Convener Sr Wilson Ko for leading the Social Service Subcommittee.

On 16 April 2022, we participated in “Fight the Virus Together! Let’s do it” volunteer project launched by the Agency For Volunteer Service (AVS). A team of 25 volunteers delivered care packs and food to the elderly at Shek Wai Kok, Tseun Wan. The pandemic situation did not stop our members from helping the people in need. A total of 47 number of households with elderly were served on the day.

There was another event held with the Society for the Prevention of Cruelty to Animals (SPCA) on 6 August 2022, where 17 of our members devoted themselves to the annual SPCA Flag Day to raise funds for homeless animals. It was great to hear the participants discuss how they had enjoyed the event and their interest in joining more community services like this in the future.

HKIS Dragon Boat

The HKIS Dragon Boat Team (港測龍) competed in the Hong Kong Dragon Boat Short Course Meet 2022 held on 19 June 2022 at Stanley Main Beach. From April, our dragon boat team had been training every week in order to achieve good results in the competition. Our team competed in the Men's Division and achieved third runner-up in the race after competing with seven other strong squads on that day! Thank you to all the paddlers for their effort during training and the competition, and members for supporting our team, especially during the COVID-19 pandemic. Special thanks to Ms Iris Mak, Mr Thomas Wu, Sr Camman Chan, and Sr Aaron Cheng, who participated and led our team, and for the excellent results.

Institutional Events

As YSG consists of members coming from different divisions, we have always been actively participating in various institutional functions. Our committee and co-opted members have helped out during many events such as the HKIS Scholarship and Dissertation Awards Presentation, Diploma Presentation, Annual Conference, Annual Dinner, large-scale Career Talks, and other divisional events so that we could help connect our young members with the Institute.

Universities Events

It is one of the top priorities for YSG to build up relationships with our student members in order to enhance their sense of belonging to the Institute. Through organising various events, we have been able to communicate with students and share with them the latest information of the surveying profession. We were also invited by student societies from University of Hong Kong (HKU), The Hong Kong Polytechnic University (PolyU), and Technological and Higher Education Institute of Hong Kong (THEi) to deliver talks related to topics about the roles of surveyors, the route to membership, career prospects, etc. We were also invited by PolyU SPEED to deliver a talk regarding the same. It was happy to see that the members from student societies of CityU, HKU, PolyU, and THEi actively participating in our events this year and we hope they could help further promote YSG at their institutions to broaden our exposure.

Joint Professional Events

YSG has been closely working with various professional bodies and their young groups to provide a great variety of events for our members. On 10 December 2021, we supported the Joint-society Christmas Event 2021, which brought our members opportunities to make friends and exchange knowledge with other institutions. I am sure our members have broadened their own social network. With our support, there will be routine joint professional events held in the future.

YSG Annual Dinner

In consideration of the current COVID-19 pandemic situation, we decided to call off the YSG Annual Dinner 2022. Despite this, the efforts made by the convener, Sr Wilson Ko, and his team are appreciated. I hope that with the relaxation of social distancing measures, we will resume our Annual Dinner in the upcoming years, bringing excitement and joy to our members.

Acknowledgements

Lastly, I would like to express my greatest gratitude to our Immediate Past Chairperson, Office Bearers, Committee Members, Co-opted Members, and Student Representatives for their continuous support throughout the year. We are lucky that the pandemic situation has improved a bit these months so that we can resume physical meetings and our activity plan. I am so proud of our Committee Members who devoted themselves to organising a series of exciting events for our members. Also, special thanks are given to the HKIS Administration Office; without their

assistance, our events could not have been held so successfully.

I hope all of you will keep supporting our upcoming Chairman and the YSG Committee and believe that they will continue to serve the members in YSG with their best effort and strive for greater success.

Assessment of Professional Competence (APC)

In the calendar year of 2022, there were 477 new APC candidates (122 BS, 65 GP, 29 LS, 253 QS, 6 PD, and 2 PFM), representing an increase of six per cent over the 2021's figure of 451 candidates (144 BS, 67 GP, 33 LS, 203 QS, 1 PD, and 3 PFM).

There were 517 BS, 69 GP, 49 LS, 476 QS, 3 PD, and 2 PFM assessors participating in the APC in 2022. The full lists of Divisional Panel of Assessors are available in the Annexes. BoE wishes to appreciate the contributions of all the assessors in maintaining the professional standards of the new surveyors.

In order to help APC candidates better prepare themselves for the assessments, the Divisions, often in collaboration with YSG, organised training programmes, which were well received by the candidates.

Sponsorship for Writing Textbooks

BoE allocated funding for producing textbooks on local topics for surveying practitioners and students. Academics from local universities and HKIS members were invited to express their interests in writing textbooks related to the local practice. Three applications were approved by BoE and the sponsorship details are as follows:

Author	Book Title
Sr Prof Dr Lawrence W C Lai and Sr Dr Jason W Y Kwong	<i>Town Planning: Physical Planning Principles and Key Issues</i>
Prof Qihao Weng	<i>Geospatial Approaches to Sustainable Cities</i>
Sr Lo Ming Yan Leo	<i>The Development of Real Estate and Construction Innovation in APAC and its Impact on the Architecture and Surveying Industries</i>

Review of Overseas Academic Qualifications for Probationer Membership of the HKIS

BoE has reviewed and amended the “Overseas Academic Qualifications for Probationer Membership of the HKIS” to comply with the requirements of the *APC Rules and Guide* and the *HKIS Constitution and Bye-laws*. The Board would revise the webpage layout to improve the presentation of the recognised degrees, sub-degrees, and overseas academic qualifications.

Accreditation Exercise

Accreditation of surveying courses continued to be pursued in accordance with the *HKIS Course Accreditation Manual 2012*. During the year, BoE granted accreditation to the following programmes:

- (i) The MSc in Urban Informatics and Smart Cities of the Hong Kong Polytechnic University has been approved as a cognate degree under LSD for admission to the APC Scheme from 2021 intake to 2025 intake, subject to compliance with the specified conditions and the *Course Accreditation Manual*.
- (ii) The BSc (Hons) in Property and Asset Management of the School of Professional Education and Executive Development (SPEED) of the Hong Kong Polytechnic University has been approved as a cognate degree under GPD and PFMD for admission to the APC Scheme from 2021 intake to 2025 intake, subject to compliance with the specified conditions and the *Course Accreditation Manual*.

Digitising Submission and Approval of the Training Record Required for APC

BoE would provide support to the Task Force on e-System Development for developing the APC digital platform.

2022 was a busy and challenging year for members of BoE, Divisional Education Committees, and the Divisional Panel of Assessors. The APC assessments had been conducted successfully under strict adherence to the social distancing measures implemented by the Government. I would like to take this opportunity to convey my heartfelt thanks to all assessors and administrative staff who have offered their unfailing support and contributions to the Institute and the surveying profession in spite of the COVID-19 pandemic. Thank you very much for your dedicated service!

In order to provide timely response to membership applications, the Board continued to hold bimonthly meetings. Despite having held its first face-to-face meeting in this session in January 2022, due to the fifth wave of the COVID-19 pandemic, the Board had to meet over Zoom in March, May, July, and September. As the pandemic was gradually under control, the Board managed to hold its last meeting in the session in November in person.

The continued dedication of all Board Members, together with all Divisional and YSG Membership Committees, is deeply appreciated, for without which the Board could not have functioned so efficiently. The Divisional and YSG Membership Committees comprised the Divisional and YSG Representatives to the Board and Co-opted Committee Members and Assessors for the vetting of applications and assessment interviews with the applicants when required.

During the session year, the statistics of membership applications processed are as follows:

With more reciprocity agreements having been entered into by Divisions with their counterparts in sister professional bodies, the number of applications for membership significantly increased.

The above statistics refer only to the number of applications processed during the year and do not reflect the actual changes to the membership base of the Institute. It should be noted that applicants may migrate from one membership grade or category to another. For full details, readers should refer to the Membership Registers kept by Honorary Secretary in accordance with Bye-Law 2.1 of the HKIS Constitution.

Pursuant to Bye-Law 2.5.2, the required Probationer membership of eight years continued to be enforced administratively. Probationers with over eight years of membership but still in the process of pursuing the APC will have their membership extended further for a year subject to the approval of the General Council. This arrangement has been working well and the membership statistics may be rationalised to reflect the legitimate status of surveyors-in-training.

During the session year, the statistics of the changes in Probationer membership are as follows:

Probationers	BSD	GPD	LSD	PDD	PFMD	QSD	Total
<i>Applications for extension</i>	25	7	16	2	1	327	378
<i>Rejected</i>	7		2				9
<i>Approved</i>	18	7	14	2	1	327	369
<i>Withdrawal</i>	15	1	8			19	43

The Board observes the decision made in the General Council that an ex gratia renewal of Student membership is allowed for one more year so that the students may smoothly upgrade to Probationers when they secure suitable employment for their professional practical training. The Board will keep monitoring the issue and ensure the route to membership would be in compliance with our Constitution and Bye-Laws.

During the session year, the statistics of the changes in Student membership are as follows:

Students	BSD	GPD	LSD	PDD	PFMD	QSD	Total
<i>Applications for renewal</i>	7	5		1		12	25
<i>Rejected</i>	4	4				10	18
<i>Extended</i>	3	1		1		2	7

I would like to express my wholehearted thanks to Ms Kiny Hung, Secretary, for her dedicated and efficient service during my chairmanship. I would also like to thank Past Chairman Sr Prof Barnabas H K Chung who kindly accept my invitation to join the Board as Co-opted Member in this session.

In pursuance of the provisions under Part VII of the Bye-Laws, BoPD continued to consider the policies and control mechanism for mandatory continuing professional development (CPD) and lifelong learning with a view to enhancing the members' professional competence. All professional and technical members were required to engage themselves in continuous enhancement of their expertise and enrichment of their specialist knowledge base. It is only with consistently high and ever-improving professional competence of its members that the Institute can strengthen its leading role in the local real estate and construction sector.

In 2022, a total of 232 CPD events were organised by various Divisions and the Young Surveyors Group (YSG) of the HKIS, representing a decrease of 2.5% as compared with 238 events in the previous year. The CPD events were held in person or virtual or hybrid mode.

Mode of delivery	Virtual (Zoom)	Face-to-face (including Site Visits)	Hybrid

Mandatory CPD Requirements Checking 2019/21

To maintain the professionalism of our members and to preserve the confidence of the public to the surveying profession, each member must comply with the Guidance Notes for Mandatory Continuing Professional Development (June 2007) and complete a minimum requirement of 60 CPD hours over a three-year period.

The 5th Mandatory CPD Checking Exercise for the period between 1 January 2019 and 31 December 2021 had been conducted in 2022. The selected members were required to submit a CPD record for the relevant three-year period to demonstrate compliance.

The random draw for the 5th Mandatory CPD Checking exercise was conducted in late 2021 and 138 members were selected by the computer to submit CPD records for checking.

BSD	28
GPD	35
LSD	9
QSD	66
Total	138

The Board received 126 members' CPD records; about 86 per cent of them submitted more than 60 CPD hours. The CPD records had been distributed to the Divisions for checking and the results of checking would be ready soon.

Review on Type 2 of CPD Category under Mandatory CPD Requirements

The Board considered it necessary to have a proper interpretation of "per module" in Type 2 Structured Learning and Programmes of the CPD category. The Board is reviewing the CPD category and the number of CPD hours associated with the respective category. The Guidance Notes for Mandatory Continuing Professional Development (June 2007) would be amended if necessary.

Types of CPD	Examples
2. Structured learning and programmes (subject to a <i>maximum</i> claim of 15 hours per module in any three-year period)	<ul style="list-style-type: none"> - Full/part-time study - Open/distance learning - Research for publications - Staff training - Developing skills (e.g. IT, business/financial skills)

Promotion Video of Mandatory CPD Requirements

The Board adopts a constructive approach to encourage members to fulfil the Mandatory CPD requirements. To increase the understanding of the CPD requirements among members, the Board is currently preparing a promotion video to introduce the CPD requirements and encourage the use of the online CPD Profile, etc.

It has been a challenging year: I would like to take this opportunity to thank all BoPD members and CPD organisers and helpers for their valuable input and participation; without your participation and dedication, we would not have accomplished such achievements in 2022.
