THE HONG KONG INSTITUTE OF SURVEYORS

The Hong Kong Institute of Surveyors (HKIS or The Institute) was founded in April 1984 and had 85 founding members. The Institute was statutorily incorporated by virtue of the Hong Kong Institute of Surveyors Ordinance in January 1990 (Cap. 1148). In July 1991, the Surveyors Registration Ordinance (Cap. 417) was passed to set up a Registration Board to administer the registration of surveyors.

The number of Corporate Members has grown to 7,004 as at 31 December 2019; Members and Fellows – distinguished by the initials MHKIS and FHKIS. In 2019, the Institute admitted 77 Associate Members – distinguished by the initial AMHKIS. Apart from this, the total number of training grade members at the end of 2019 was 3,889.

To qualify as a Corporate Member of the Institute, surveyors must possess a recognised academic degree or similar qualification, complete supervised professional experience within strict guidelines for a minimum period of 24 months, followed by an Assessment of Professional Competence (APC).

The Institute plays an important role from time to time in giving advice to the Government on issues such as land supply, unauthorised building works, building safety campaign, property management, town planning and development strategies, construction quality and housing.

The title “Surveyor” embraces a number of disciplines involved with land and its development with land and buildings, covering an extremely wide scope. Some surveyors work in private practices and others may work for a landowner, developer, building contractor or government departments and related bodies. A **Land Surveyor** measures and records the shape and position of the land, define the boundary and set out the legal boundaries of the sites. A **General Practice Surveyor** advises on the best use of the land, assesses the feasibility and viability of the proposed development project as well as the valuation, marketing, sale, leasing and management of completed developments. A **Planning and Development Surveyor** further advises on the possible change of zoning, the likely environmental impacts and make suggestion on

preliminary development contents. A **Quantity Surveyor** is concerned with the building contractual arrangements and cost control, and will evaluate the likely cost of the development project and advise on the most suitable kind of contract for the project. A **Building Surveyor** involves in the project management of building development proposal, holistic maintenance management of building and overall control of private building under relevant legislation. A **Property and Facility Management Surveyor** provides a comprehensive range of services in real estate management.

The Institute has established and continued to expand its presence in the international scene through reciprocity relationships with other national surveying bodies and through membership in relevant world bodies and international organisations to maintain its professional edge at international level. The Institute is one of the 3 founding members, apart from the Singapore Institute of Surveyors and the Institution of Surveyors, Malaysia, of the Surveyors’ Alliance Asia which was inaugurated in November 2004. GENERAL PRACTICE DIVISION

The General Practice Surveyor

Land is a strategic resource for operation and an investment asset. Interest in land or property is bought and sold for residential, retail, office and industrial uses. These uses require careful planning, administration, continuous management and improvement; properties are developed as direct investments or securitised, and if they are professionally managed, their values will be enhanced.

General Practice Surveyors are particularly equipped with skills and knowledge to offer timely and effective advice in connection with development, use and management of property resources both for operational needs and investment purposes. They are also concerned with planning, leases administration and valuation of land and buildings; negotiation of sales and lettings by private treaty and sale by tender or auction; financial and economic aspects of

investment in property. Contemporaneously, because of the General Practice Surveyors' understanding of investment principles and asset pricing, practitioners are ready to respond to the mounting demand for valuation of trade-related business assets and business enterprises.

The services offered by General Practice Surveyors can be wide and varied. Recently, we are involved in valuation of franchises and intangibles and business valuation. Major roles played by General Practice Surveyors are as follows:

Valuation of Properties

General Practice Surveyors value all types of landed properties for various purposes. These include:

- Valuations for sale, purchase, letting and mortgage purposes;
- Statutory valuations relating to land resumption, rating, stamp duty, and other taxation purposes;
- Valuations of company portfolios for listing, balance sheet purposes, company floatation, takeovers and mergers;
- Feasibility studies on all types of properties;
- Acting as an expert witness, independent valuer or arbitrator in valuation disputes.

Development and Town Planning Consultancy

Real estate development is a complex process, which needs professional expertise and judgment. Through proper training and experience, General Practice Surveyors can provide a comprehensive range of professional services covering:

- Market studies and evaluation of development opportunities;
- Negotiation with Government on lease matters including lease modification, surrender and regrant of land leases;
- Valuation of land in connection with land acquisition and lease modification;

- Preparation of detailed financial assessments, cash flow studies and expenditure control systems throughout the development period;
- Preparation of development and design briefs;
- Constant monitoring of the development to ensure that it meets the client's as well as the

land lease requirements and reflects market needs; and

- Project management, from inception to completion and eventual marketing.

Sales, Lettings and Auctions

General Practice Surveyors, on behalf of the clients, negotiate the purchase, sale or leasing of all types of land and buildings. They may act as auctioneers in the disposal of properties or as owner's agents in selling properties by private treaty or tender. They may also advise on marketing strategy and on preparation of sale and lease documents.

Property, Asset and Facilities Management

In a society of rising user expectations, good quality professional management services are essential to sustain and enhance the property values. General Practice Surveyors have been involved in the management of all types of properties and facilities. They negotiate with landlords and tenants on rent review, lease renewal and re-letting of premises. They also advise on situations of refurbishment/ renovation/ enhancement and redevelopment of properties. Upon securitisation of properties, General Practice Surveyors also contribute their expertise in investment strategy and property portfolio planning.

Business Valuation

Contemporarily, experienced General Practice Surveyors are engaged to provide independent valuation of trade-related business assets and enterprises in connection with mergers and acquisitions activities in Hong Kong and Mainland China.

Services in Government and Statutory Body

Apart from their work in the private practice, General Practice Surveyors are also employed by the Hong Kong SAR Government in various departments such as Lands Department, Rating and Valuation Department, Government Property Agency and Housing Department to handle work including government land disposal, resumption, rating, taxation, public housing and home ownership scheme etc. Other major employers include Hong Kong Housing Society, Urban Renewal Authority and MTR Corporation.

LAND SURVEYING DIVISION

The Land Surveyor

Broadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts; defining property boundaries; preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the Land Surveying Division (RPS(LS)) registered under the Surveyors Registration Ordinance and Authorised Land Surveyors (ALS) registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;
- Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of

earthwork quantities for payment are types of works under this category. Land Surveyors are actively involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are:

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;
- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory.

Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, Land Surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundreds of kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along the roadside and benchmarks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;
- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

Land Information Management

In the Land Information Management aspects, Land Surveyors are engaged in the collection, integration and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make valuable contributions to these systems.

Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in the air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer models from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/orthoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eye, its profile is determined by an echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current;
- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and
- Collection of any information relating to marine navigation.

PLANNING & DEVELOPMENT DIVISION

The Planning & Development Surveyor

Real estate development is a complex process which requires professional input of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

Property Development Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximising project return while minimising the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

Land Administration Input

Planning & Development Surveyors specialise in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the land premium); and assist in the execution of the lands document.

Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within, development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and the strategy to submit planning applications, review and/or appeal; and coordinate with other

professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plans to safeguard the interests of land owners.

Development Project Management

Property development requires a wide range of input from various disciplines. Planning & Development Surveyors can help set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme; advise on re-distribution of resources; and to resolve issues arising during the development process.

Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future income and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

Town Planning Public Sector

Planning & Development Surveyors are involved in the formulation of planning, land, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the relevant planning policies, the environmental context and specific site characteristics.

Private Sector

Planning & Development Surveyors advise clients on the extent to which the use and value of their

land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations; and attending hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

Other Common Professional Services

Planning & Development Surveyors also assist clients in site planning and advise on urban design matters together with the relevant design experts. They also specialise in coordinating large-scale planning studies usually supported by various technical impact assessments e.g. Environmental/Ecological Impact Assessment (EIA), Drainage Impact Assessment (DIA), Traffic Impact Assessment (TIA), Geological Impact Assessment (GIA), Landscape and Visual Impact Assessment (LVIA), and Social Impact Assessment (SIA).

QUANTITY SURVEYING DIVISION

The Quantity Surveyor

Quantity Surveyors are professionals who have been trained as construction cost consultants. They possess expert knowledge of costs, values, finance, contractual arrangements and legal matters pertaining to the construction field.

Quantity Surveyors provide appropriate services to suit diverse needs and the majority of their employers or clients include professional quantity surveying firms, private developers, corporations, government departments and related bodies, building and civil engineering contractors, insurance companies etc.

Quantity Surveyors are equipped to provide advice concerning various disciplines ranging from building construction, and civil and structural engineering, to petro-chemical installations and mineral extraction.

Preliminary Cost Advice

From the outset, Quantity Surveyors give practical advice on the likely cost of a project. Cost studies and advice including, but not limited to, alternative design solutions, structural forms, choice of materials, construction sequences and maintenance costs are also prepared. From such information, a detailed cost plan is developed for budgetary control.

Cost Planning

Cost planning is a specialist technique developed by Quantity Surveyors. Its aim is to help all members of the design team – architects, engineering consultants, interior design specialists and the like – to jointly maximise practical and aesthetic design solutions for a project whilst keeping within the client's budget.

Once a cost plan is prepared, and a realistic estimate agreed, effective cost planning ensures that everything that follows is in accord with the plan, from the acceptance of the successful contractor's tender to the final project cost.

In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

Cost Control & Financial Management

Cost control is one of the most important processes in any capital project. The basic objectives are to achieve for the client the best value for money, to maintain the required balance of expenditure between the various parts of the project, and to keep the final expenditure within the client's approved budget.

When clients, or their consultants, decide to effect changes to the designs and introduce variations, Quantity Surveyors rapidly assess and report the cost implications of the changes.

In principle, cost control consists of three basic steps, namely:

- Establishing an overall cost target;
- Checking any deviations that affect the cost target; and
- Taking such remedial action as necessary to preserve the target.

In practice, the process of cost control embraces a range of professional activities such as cost analyses of earlier projects, cost planning/estimating, cost studies of alternative construction options, cost checking during the design stage, cost reconciliation during the tendering stage, and cost monitoring during the construction stage.

Cost planning facilitates improved economic standards, and so better value for money, during the design stage, whilst constant monitoring during the construction phase ensures that the risk of overspending is identified early so that prompt corrective action may be taken.

Cost estimates and financial reports, which are regularly produced by Quantity Surveyors, form an important aspect of the financial management of capital projects. Periodic financial reports enable clients to anticipate and control their future financial commitments.

Value Management

Value management is a systematic approach to eliminate waste from a design or client's brief, while at the same time retaining the safety and key functions of the project.

The objective of value management is to provide the project functions to the required standard and

quality having regard to the best value for the money expended. This does not necessarily mean the lowest initial cost, but the highest value considering all factors impacting upon the project as a whole.

Quantity Surveyors are well qualified to lead value management studies on a project. The structured nature of value management permits the project team to obtain a clearer understanding of the project functions and objectives hence being able to reduce unnecessary costs. Value management also addresses the whole life implications of the building design both in terms of cost and the client's business objectives.

Procurement Methods

Quantity Surveyors have the expertise, knowledge and tools required in the selection of the "right" contractors and suppliers for any given project.

No two projects are the same. Most major projects (and many smaller ones) are individual challenges and need individual solutions.

The most common method of procurement is through competitive tendering based on a variety of forms of contract and options. The bills of quantities prepared by Quantity Surveyors have been used world-wide as the basis of tendering for many decades. During construction, bills of quantities also form a crucial element in effective cost control as well as the basis for the valuation of variations.

On occasions, the situation may warrant other forms of tendering and contractual arrangements. These include design and build, guaranteed maximum price, construction management, prime cost contract and cost plus, to name just a few. Quantity Surveyors provide advice on the best choice of contractual arrangement to suit the circumstances of each individual project.

Tendering

Competitive tendering of one kind or another remains the usual basis for awarding construction contracts, and bills of quantities are fundamental to this process. Bills of quantities translate the drawings, plans and specifications produced by the designer into a document that enables a contractor to calculate his tender price fairly and accurately, on exactly the same basis as his competitors.

Valuation of Construction Works

In most construction contracts, the contractor is paid monthly. Quantity Surveyors prepare interim valuations of the work carried out on the project at regular intervals and submit recommendations for payment.

Quantity Surveyors are normally retained throughout and beyond the completion of the project in order to facilitate the settlement of the accounts, when all necessary adjustments are dealt with. If required, they will also prepare any analyses of the final account that may be required, prepare statements of expenditure for tax or accountancy purposes, and assess the project's replacement value for insurance.

Financial Claims & Programme Analysis

Quantity Surveyors also prepare, and provide specialist advice and responses to claims, counterclaims and the like, for both time and money, including:

- Extension of time analysis: forensic analysis and delay demonstration techniques;
- Delay and disruption: time slicing, project analysis and productivity analysis; and
- Direct loss and/or expense: preparation of claims, responses to claims, auditing and analysis.

Dispute Resolution

If disputes arise, Quantity Surveyors offer the following expertise and technical knowledge:

- Independent appraisal of the strengths and weaknesses of an employer's and/or a contractor's case concerning quantum;
- Technical advice and assistance throughout the dispute resolution process;
- Preparation of particularised documents including technical position papers, assistance with pleadings, further and better particulars and witness statements; and
- When suitably experienced, to act as expert witnesses for quantum or other associated specialist areas.

Insurance Advice

Quantity Surveyors may choose to pursue their career in the field of construction insurance. The

construction insurance professionals work in a variety of capacities in different organisations; examples of which include:

- Insurance administration personnel working for contractors/developers/consultants/public entities/Government/insurers/or other employers;
- Loss adjusters for loss adjusting firms on behalf of the insurers;
- Underwriting personnel for insurance brokers/insurers; and
- Risk assessment personnel for insurance broker/ insurers.

and Pacific Association of Quantity Surveyors (PAQS). Through these visits and conferences, YSG members acquire a worldwide view of the surveying professional.

The professional image of the Institute is extended to the community by the works of YSG through a series of social events, volunteering works, joint events with various professional institutions and career talks to students of the universities and secondary schools in Hong Kong. The HKIS was one of the exhibitors in the annual Education & Careers Expo hosted by the Hong Kong Trade and Development Council and YSG has been the coordinator for the HKIS in the past few years.

YOUNG SURVEYORS GROUP

The Young Surveyors Group (YSG) is a section of the Hong Kong Institute of Surveyors representing the interests of about 5,000 members – comprising student members, probationers and young qualified members across divisions – the power of the surveying profession in future.

YSG representatives are nominated to the General Council, Divisional Councils, Boards, Panels, Committees and Working Groups of the Institute, in order to bring in views from young members.

To enhance the professional competence of young members, YSG has been organising various site visits, Continuing Professional Development (CPD) courses and Pre-qualification Structural Learning (PQSL) events throughout the year. The topics cover a wide range of surveying disciplines in the real estate and construction industry. Tailor-made workshops for different divisions also help our probationers to tackle the Assessment of Professional Competence (APC).

In addition, YSG organises and participates in social events such as dragon boat competition, community services, wine tasting courses, sports competitions, outings, cooking classes and other social gatherings with other professional institutions, to enrich members' social lives.

Every year, YSG hosts study tours to visit cities in the Mainland China or overseas countries. YSG representatives also attend local and overseas conferences organised by local institutes and other international organisations such as the International Federation of Surveyors (FIG)

Project SPARKLE (Supporting Preteen Access to Resource, Knowledge, Love and Education, 「擦亮童心」伙伴同行計劃) is a mentorship programme that aims to create a harmonious and healthy environment to facilitate the children's development in Tin Shui Wai. Since 2017, the 2-year programme have accepted children with special education needs (SEN) and provided additional support in creating a harmonious environment for their growth. The Community and Charity Services Committee implemented its Mentorship Programme jointly with the TWGH's Jockey Club Tin Shui Wai Integrated Services Centre for the year 2018/19. Various activities have been organised to help the children build up their confidence and increase involvement in the community.

The Boys' & Girls' Clubs Association has launched the Growing Partners II – Child Development Fund (CDF) Programme (結伴再成長-兒童發展基金計劃) for Shatin and Kwun Tong Districts for the years from 2017 to 2020. Supported by the Labour and Welfare Bureau of the HKSAR Government, the programme targeted to support 200 children aged from 10 to 16 from low-income families in the development of necessary skillsets, attitude, social network, personal experience and funding during the critical ages of their lives. With the guidance of mentors, the children are able to explore the world, plan their lives and achieve career goals. 12 HKIS members have participated in the programme. The Past Chairman of the Community and Charity Services Committee, Sr Billy Wong, was elected as the Chairman of the Advisory Committee of the Programme. This year, a total of 36 participants of CDF from Shatin and Kwun Tong Districts finished a 6-day, 159km Road Bike Trip in Taiwan during the period from 16 to 21 April 2019. 3. Promoting the Surveyors' Brand

3.1 Community Campaign

The "Create Your District" Competition was organised for the third consecutive year to provide secondary school students with opportunities to gain a better understanding of the role of surveyors in all aspects of the land and property development process, as well as to inspire them to unleash their creativity in developing their ideal future cityscapes in Tsim Sha Tsui District.

Around 200 Form 3 to Form 6 students from 24 secondary schools entered the competition this year. The submitted models and multimedia category entries strongly reflected the important contributions made by surveyors towards Hong Kong's sustainable development as well as the students' understanding of the latter in the city. We were extremely impressed by the submissions from the students. A workshop and guided tour, video-making and story map training workshops and a public exhibition at Mira Place were conducted from July to November 2019, to enhance their recognition of their work and engage public involvement in the process, all of which received overwhelming responses. An Award Presentation Ceremony on 2 November marked the official completion of the Competition.

5.4 Reciprocal Recognition of Qualifications

The Institute continued to explore new relationships, co-operation and strengthen connections with international and regional counterparts.

The HKIS entered into a Memorandum of Mutual Recognition of Membership for Facility Management Professionals with the Royal Institution of Chartered Surveyors on 11 April 2019.

A new Reciprocity Agreement with the Chartered Institution of Civil Engineering Surveyors was signed on 24 April 2019 for the mutual recognition of membership of the geomatics professionals in the two institutes.

On 9 September 2019, the HKIS became the first professional body in Hong Kong to sign a Memorandum of Understanding with the Smart City Consortium in relation to the cooperation in smart cities and urban development.

6. Nurturing the Youth

6.1 Mentorship Scheme

To enhance the exposure of surveying students through experience sharing and interactions with experienced professionals, the HKIS launched the Mentorship Scheme for the second year. University students can learn from the mentors who volunteer to become the committed friends, supporters, counsellors and coaches of their mentees and share their valuable life experiences. The Mentorship Scheme not only serves as a reciprocal learning experience for mentors to understand career aspirations of the young generation, but also helps maintain the sustainability of the surveying profession.

6.2 Young Surveyors' Participation

The Institute will continue to nurture young members and groom them into future leaders. More opportunities are provided to our younger members in gaining more exposure by appearing in newspaper columns and dedicated interviews. This is especially important for the members of Young Surveyors Group (YSG), who take part in the activities of various committees, boards and working groups. In doing so, they can display their new-found maturity by demonstrating their influence and functions in those roles. They are not only our future but will also become our successors.

To provide our young members with a platform for networking with other members, and for the grooming of all-round professionals with social development in various professional bodies and their young groups, the YSG organised social events and joint professional events for their participation.

7. Personal thank you

My sincere thanks are extended to the Office Bearers, members of the General Council and Executive Committee, the Divisional Councils, Boards, YSG, Policy Panels, Committees, Task Forces and Working Groups, and the HKIS Secretariat for their wholehearted dedication, hard work and unfailing support in making the Institute's vision and plans a reality. Despite the challenging role of my presidency and the complicated situation of the social unrests, I have found the experiences to be rewarding. I will continue to

offer my assistance in the future in "Building a Better Tomorrow with Surveying Excellence".

I wish the HKIS and the incoming General Council every success in the year to come.

I am pleased to present herewith the audited account of The Hong Kong Institute of Surveyors (HKIS) for the financial year ended 31 July 2019. The auditor's report was prepared by Messrs Fok Chan Leung Wan CPA Limited.

The total revenue of the HKIS for this financial year was HK\$32,788,948 representing an increase of about 16.4% or HK\$4,621,036 as compared with that of the previous year (2018: HK\$28,167,912). On the expenditure side, the total amount of operating and administrative expenses for the year was HK\$29,191,108, representing an increase of about 16.2% or HK\$4,074,112 when compared with that of the previous year (2018: HK\$25,116,996). In total, a surplus of HK\$3,597,840 was recorded, representing an increase of about 17.9%.

The amount of accumulated fund of the HKIS as at 31 July 2019 was HK\$22,295,375, representing an increase of about 19.2% when compared with that of HK\$18,697,535 in the previous year, demonstrating the importance that the Institute has placed on prudent financial management and stringent control on operating and administrative expenses.

With full endorsement of the General Council, we have reserved a fund in an amount of HK\$2,019,909 from the surplus for capital expenditure or necessary maintenance and renovation work in the future. I would believe that the financial position of the Institute would be equally as good if not better with added funds to the reserve in the years to come.

Apart from the contribution due to the growth of new membership, the Institute and Divisional annual conferences, annual dinner and CPD events are also significant contributors to maintaining a healthy financial situation of the Institute. Thus, I take this opportunity to thank the President, Office Bearers, council members and committees for their greatest efforts in growing the Institute.

The Institute will continue to observe the prevailing practices/guidelines with respect to financial controls on all expenditures to ensure that all resources are allocated to the interests of the Institute as a whole.

The accumulated funds for the Divisions and Young Surveyors Group are listed as follows:

Accumulated Fund (HK\$)	31/7/2019	31/7/2018
The Institute - Reserved Fund	2,019,909	500,000

I would like to thank the President, Sr Dr Tony Leung, Office Bearers, members of the General Council and Finance Committee, and all staff of the Secretariat for their patience and unfailing support. Lastly, I would like to thank Ms Eva Leung (Account Department) for her hard work in keeping the Institute's accounts in good order.

Wishing you all a wonderful year of 2020!

HONORARY SECRETARY'S REPORT

Sr Alexander Lam
Honorary Secretary

I am very honoured to be the Honorary Secretary for the year 2018/19 and it is my great pleasure in presenting this Report for your perusal. As the Honorary Secretary of the Institute, it was my duty under the direction of the General Council to conduct the ordinary business of the Institute in accordance with the Constitution and Bye-Laws; to keep an accurate record of the proceedings of the Institute and the General Council; to keep the Membership Register of the Institute; to conduct the correspondence of the Institute; and to give notice of all meetings of the General Council and General Meetings of the Institute.

Apart from the above, I was responsible for handling membership affairs including the applications for exemptions and concessions of subscriptions, applications for reinstatement of membership, complaints against members as well as disciplinary proceedings.

In 2019, apart from the Annual General Meeting (AGM) for the election of Office Bearers of HKIS, one Extraordinary General Meeting was conducted in relation to the proposed amendments to the Qualifications for Membership under the HKIS Bye-Laws. A resolution to revise the Annual Subscriptions and Application Fees for Admission into Membership was also included in the business of the AGM.

HKIS Extraordinary General Meeting on 6 December 2019

The proposal to amend the HKIS Bye-Laws relating to membership was presented for members' consideration. The level of basic education of young people in Hong Kong had been raised in the past decades. The preparatory education for a professional or technical career had been pegged at Level 5 and Level 4 of the Qualification Framework established by the Education Bureau of HKASR. It was considered that the Institute should continue to base its membership admission criteria at such levels. The Institute should continue to require cognate academic training as the primary entry threshold to the profession and continue to require the fulfillment of the basic post-qualification professional training and assessment for admission to membership. It was acknowledged that many young entrants to the surveying profession do not have prior relevant academic training. They only developed their aptitude for the profession after graduation and wished to develop their career with the relevant professional qualifications. The Institute should continue to accept holders of any graduate degree and sub-degree to enter the profession if they had not less than one year's engagement in surveying practices immediately prior to their applications.

The criteria for membership including the academic eligibility, training requirement and APC were set out in Part II of the HKIS Bye-Laws. A proposal to overhaul the criteria for admission to membership was presented to the General Council in 2018. An open discussion forum was held on 30 October 2018 to share with members the rationale behind the proposed amendments before the Resolutions for amending the HKIS Bye-Laws were put for voting at an Extraordinary General Meeting. After review of the comments received from members at the discussion forum, a revised proposal was put forward to the Divisions for further deliberation. Following several rounds of consultations and revisions, the proposed amendments were approved in principle by the General Council on 26 September 2019. To effect the changes to the criteria for admission to membership, it was necessary to amend the existing provisions under the relevant Bye-Laws. The three resolutions on the proposed amendments to Bye-Law 2.3, 2.4 and 2.5 in respect of the Qualifications for Membership were put to vote at the EGM on 6 December 2019, which was adjourned due to insufficient quorum as required under Bye-Law 5.4.1. The adjourned EGM would be reconvened on 6 January 2020.

HKIS Annual General Meeting on 13 December 2019

The proposal to revise HKIS Annual Subscriptions and Application Fees for Admission into Membership was presented for members' consideration. The operation costs of business in Hong Kong had escalated in the past few years. A review of the financial situation of the Institute had been conducted. The General Council resolved that it was necessary to improve the financial situation for the sustainable development of the Institute including the strengthening of members' service and benefit (e.g. upgrading of the IT system, promotion of professional image and its importance in the society), support of divisional activities, upgrading of office facilities including the Surveyors Learning Centre, and allocating resources for future development. The HKIS Annual Subscriptions and Application fees had remained unchanged since 2017. The proposed increase of the annual subscriptions and application fees was 10%.

The resolution on the proposed revisions to Annual Subscriptions and Application Fees for Admission into Membership was put to vote at the AGM on 13 December 2019. The voting results were as follows:-

Resolution	For	Against	Total number of votes*
In respect of the Annual Subscription and Application Fee for Admission into Membership payable with effect on 1 April 2020	190 (30%)	442 (70%)	632

*Including 598 valid votes by proxy

The resolution was not passed as there were insufficient number of affirmative votes as required under the HKIS Constitution and Bye-Laws.

Proceedings of the Institute

During the year 2019, ten Executive Committee meetings and six General Council meetings were held to conduct the ordinary business of the Institute under the Constitution and Bye-Laws.

Membership Statistics as at 31 December 2019

Last year, the total number of members grew by 3.59% to 10,975, while 278 Corporate Members were newly elected.

DIVISIONAL COUNCIL & YOUNG SURVEYORS GROUP REPORTS BUILDING SURVEYING DIVISION

Sr Kenny Tse
BSD Council Chairman

I am delighted to have the full support of the Council members, co-opt members and others in managing Council matters, as well as in organising promotional, educational and knowledge sharing events in the past 12 months. Here below is a summary of my report.

1. Membership

As compared with 2018, there was an increase of 47 Corporate Members (+3.5%), an increase of 72 Probationers (+9.7%) and a decrease of 1 Associate Member (-33.3%). The net membership gain in 2019, excluding Student Members, was 118 (+5.6%).

BSD Membership Statistics (as at 15 November 2019)							
Year	Corporate Members		Associate Member	Probationer	Student	Total	Total Excl. Student
	Fellow	Member					
2015	101	1,103	0	778	86	2,068	1,982
2016	103	1,132	2	686	83	2,006	1,923
2017	107	1,178	2	672	110	2,069	1,959
2018	106	1,235	3	746	202	2,292	2,090
2019	107	1,281	2	818	214	2,422	2,208

We noticed that the number of surveying students selecting building surveying as their mainstream practice has significantly increased and they are now ranked as the second largest student member group amongst the divisions (QSD - 338p; BSD - 214p; GPD - 174p; LSD - 38p; PDD - 27p; PFMD - 15p). However, we should allocate more resources in promoting our probationers to corporate members, by providing more training and reducing the waiting time for final assessment.

2. Professional Development

(a) Assessment of Professional Competence (APC)

Taking into account the significantly increased number of candidates joining the APC of Building Surveying this year, two Practical Task (PT) events were held on 18 May and 9 November 2019 respectively. 45 candidates attended the May PT and 122 candidates attended the November PT, and around 148 APC assessors (62 in May and 123 in Nov) were involved in the assessment. In the Final Assessment, 48 assessment panels were formed to assess 122 candidates. There was a large backlog of final assessment applications pending for interview, in which some candidates have been waiting for more than six months. More final assessment days/weeks should be arranged and more assessors should be recruited for the final assessments to clear the backlog.

(b) Continuing Professional Development (CPD)

A total of 20 CPD events were organised, covering a diverse scope of professional knowledge/practices. The total CPD registration by 15 November 2019 was 1,990.

(c) Research

- **Professional Guide to Building Inspections—Post-1980 Residential and Composite Buildings in Hong Kong**

A research titled "Professional Guide to Building Inspections—Post-1980 Residential and Composite Buildings in Hong Kong" is currently conducted by a consultant and is now reaching its final stage. Questionnaires will be issued to the practitioners for the collection of data and views from industry. The target delivery time will be Q2 2020.

- **Research on Differences of Legislation in relation to Building Maintenance in Great Bay Areas**

BSD was invited by the Guangdong Province Association of Engineering Consultants (GPAEC 廣東省建設監理協會) to participate in a research on the difference of legislations in relation to building maintenance in Great Bay Areas. Unlike in Hong Kong, the concept of planned maintenance and systematic approach for the up-keeping of the physical condition of buildings are lacking in most old buildings in the Mainland. Due to such potential risks to the public, the research has gained the full support of Guangdong province government for the sake of building safety of old districts in the Greater Bay Areas. In view of the well-developed legislation and system of building safety and maintenance in Hong Kong, GPAEC has worked in joint force with the BSD in the research, making use of our experience and professional knowledge in building repair and maintenance in Hong Kong.

To cope with the new measures for Hong Kong professional sectors working in Greater Bay Areas, the building maintenance market should be an opportunity for the Building Surveyors in the future. The research was completed and will be published soon. BSD shall inform the members once it is available.

- **Benchmarking and Evaluating Building Control Systems in Hong Kong and Asia Pacific Cities**

The BSD will carry out a study titled "Benchmarking and Evaluating Building Control Systems in Hong Kong and Asia Pacific Cities", which will commence in Q1 2020. Building control is one of the three main streams of building surveying discipline. Since a high proportion of members of the BSD are working in projects related to building control, the proposed study is highly relevant and will be beneficial to the BSD in formulating strategies to address concerns of stakeholders as well as the general public. It also provides research evidence for the lobbying of the government in enhancing building control performance. The effectiveness, efficiency and quality of building control have been inadequately measured and evaluated, leaving

a gap to be filled by a comprehensive study in reviewing, evaluating and improving the current regulatory system. The study will also help determine the manpower concerns in building control. Identifying problems within the regulatory system, e.g. the shift from prescriptive to performance-based approach, deregulation and privatization of the building control system, minor works control regime, etc. are important issues that need to be extended by virtual of the findings from this study.

(d) Registered Fire Engineer (RFE) Scheme

Security Bureau agreed that a Building Surveyor who possesses specific qualifications and experience is qualified to register as RFE under the Ordinance. The relevant Bill was passed by LegCo on 1 March 2017. In this regard, Fire Expert Panel of BSD will follow up with Security Bureau on the drafting of regulations in particular related to the formation of the registration committee and the detailed qualifications for RFE. The fire safety expert panel in BSD will closely follow up on the development. Besides, the BSD will arrange more fire engineering related CPD events and courses to update and enrich members' knowledge in this field. A CPD on the fire engineering design of Tai Kwun was held on 10 September 2019. It was well received with positive feedback from the participants.

(e) The Second Mutual Recognition Agreement with China Association of Engineering Consultants (CAEC)

In 2006, BSD signed a mutual recognition agreement with CAEC. Over 200 BS professional members have obtained the CAEC qualification after completing a short training course and passing a written examination and an interview held in Shenzhen. With the increasing work opportunities in the Greater Bay Area and the Belt and Road projects, together with the new measures proposed by the Mainland Government in helping Hong Kong professionals by extending mutual qualification recognitions and exploring job opportunities in the Greater Bay Area, the China Liaison Group of BSD proposed to sign the Second Mutual Recognition Agreement with CAEC. A draft agreement was submitted to CAEC on 15 November 2019 and a visit to CAEC in Beijing was arranged in December 2019. BSD will

closely monitor the development with CAEC and the relevant counterparts.

(f) Updates and Experience Sharing on Authorized Person (AP) Practice

On 27 September 2019, BSD organised a forum for updates and experience sharing on Authorised Person practices. During the forum, the topics shared with the audience included the logistics of APSEC discussion forum and some key items raised in the past forums in 2018 and 2019, the latest development of the Buildings Ordinance related issues and PNAP such as Building Plan submissions in Building Information Model (BIM), electronic form submission and Authorised Person registration system, Code of Practice on Design for Safety—External Maintenance, Barrier Free Access (BFA) review, Modular Integrated Construction (MiC) and streamlining development control, etc. BSD will arrange similar forums in the future and encourage members to apply for being listed in the AP register.

3. Education

(a) Outreach to Students

Talks promoting the building surveying profession were conducted throughout the year for secondary and university students.

(b) Building Surveying Scholarship

The 2019 Building Surveying Scholarship award presentation ceremony was held on 21 February 2019. 5 awardees for building surveying scholarship and 6 awardees and their counselors for APC scholarships were presented with diplomas and scholarships in the event.

For the 2020 Scholarship, 32 nominations were received; screening and assessment exercises were arranged in December. Applicants were required to present his/her submission titled "Alternative Solutions for the Urban Decay in Hong Kong". Award presentation is targeted before Chinese New Year.

(c) Revised Rules and Guides and New Assessment Mode of Practical Task

The rules and guides of APC and mode of Practical Task have been refined and updated to cater

for the need of building industry and advanced technology. Under the new assessment mode, the candidates can use electronic devices as aide-memoire and prepare handouts for the presentation of findings and design proposals to the assessors. The new mode worked well in the May and November Practical Tasks and DEC will keep reviewing the new mode continuously.

4. Promotion and Publicity

(a) Media

There was an increased exposure of building surveyors in the press, online media, television and radio, with topics covering building design, fire safety, building safety, flat inspection, subdivided flats in industrial buildings, bid rigging, typhoon impact, industrial revitalisation scheme, curtain wall design, building revitalisation, views to 2019 Policy Address, setting up of Building Affairs Expert Determination Centre, and Pre-acquisition Survey of second hand domestic premises, etc. The efforts of the spokesmen and veteran surveyors have been well appreciated.

A letter was sent to TVB on 21 January 2019 complaining that TVB news had been repeatedly inviting non-professionals to advise on building safety, whose views or comments had seriously misled the public. TVB promptly replied with a positive response. It appears that the situation has been improved recently with our spokesmen invited to provide advice and views in some building related TV programs.

(b) BSD Pin

The BSD pins of the winning design were distributed to all BSD members. The pin aims to increase the members' sense of belonging and promote the professional image of Building Surveyors. It came to my notice that BSD members did wear this pin when they showed up in BSD events.

5. Society and Community

(a) Building Surveying Volunteer Team (BSVT)

The BSD's Building Surveying Volunteer Team (BSVT) completed a meaningful task last year by delivering preliminary inspection services to around 100 domestic flats in the Community Housing Movement

(CHM) Project organised by the Hong Kong Council of Social Services (HKCSS). On 18 September, the BSD held a debriefing and sharing session for all the volunteers. We are glad to have Mr Ho Chun Kit, Charles, Project Director of Community Housing Movement to join this debriefing session, who shared with us his ideas as well as the difficulties of implementing the project and the matching of tenants to flats. He also briefed the volunteers on the project's interim result and future plans. The attended volunteers learnt that over 220 flats were renovated to accommodate over 600 tenants. I am proud of our volunteers who have contributed their professional skills to this project in serving and connecting the society's neediest members.

(b) Building Rehabilitation Platform

The Urban Renewal Authority (URA) has established a Building Rehabilitation Platform (BRP) to support building owners who face the dilemma of making major repairs to their buildings. Building professionals were invited to join the respective committees of BRP. The BSD supports this initiative as its objectives are very similar to Building Repair and Maintenance Authority (BRMA). In this connection, 11 building surveyors were nominated to join the Technical, Service Providers and Promotion Committees. We are glad that the BRP has been launched in 2019, which appears to be welcomed by building owners. With the increased funding for building repair and maintenance works as stipulated in Policy Address 2019, the BSD will continue to promote BRMA in regulating the market in the long run.

(c) Services and Talks

BSD participated in the "Create Your District Competition", which included guided tours, 3D models and multi-media presentations. In addition, members also delivered talks to the public on building maintenance issues in various districts in Hong Kong under the arrangement of Home Affairs Department, as well as career talks to secondary schools and universities.

6. Conferences, Awards and Events

(a) Building Surveyors Conference 2019

The Building Surveyors Conference 2019 was successfully held on 11 November 2019 with over 240 participants in attendance. This year's

conference title is "Evolving with Hi-tech, Starting with Building Surveyors". The conference aims to inspire the building surveyors to evolve by equipping themselves with new technologies in delivering building surveying services. We had the pleasure to have Ir Wai Chi Sing, GBS, JP, Managing Director of URA, as our Guest of Honour to deliver the opening keynote speech. With the provocative thoughts and the presentations by the speakers, I trust that all participants had their horizons expanded after this daylong conference.

(b) Building Surveyor Awards (BSA) 2019

The Building Surveyor Awards 2019 (BSA 2019) Presentation Ceremony cum Gala Dinner was successfully held on 23 July 2019 (Tuesday) at JW Marriott Hotel Hong Kong. Although it is only in the fifth year of its existence, Building Surveyor Awards has become widely recognised as a flagship event in the building surveying industry. We are very honoured to have Mr Michael WONG Wai-lun, JP, Secretary for Development to be our Guest of Honour and Grand Award Presenter at the event, together with our distinguished guests and fellow members, to celebrate the outstanding achievements of the elites in our industry. The Grand Award went to Caritas Institute of Higher Education, a project by Caritas Hong Kong under the Client/Client's Representative Group of the New Development Category.

Building surveyors provide independent and professional oversight on building work throughout the construction process. The BSA has become an extraordinary platform for building surveyors to showcase their expertise and skills through competitions in categories including New Development, Maintenance and Rehabilitation to A&A and Conversion. Besides being an arena for building surveyors to compete in different categories, the awards also provide opportunities for building surveyors to exchange ideas and enhance knowledge. Collectively, this competition offers golden opportunities to our members in learning the latest innovative solutions and sustainability ideas from the best of the best in the surveying industry. Congratulations to all the winners who came out from this highly competitive selection process.

(c) BSD Grand Cocktail

On 6 April 2019, the BSD celebrated its 35th

anniversary with a cocktail gathering. We were much honoured to have the Director of Building Sr Dr Cheung Tin Cheung JP, the Deputy Director of Building Sr Yu Tak Cheung JP, the Deputy Director of Housing Miss Rosaline Wong, the Assistant Director of Housing Mr Steve Luk and the Assistant Director of Architectural Services Sr Leung Kam Pui and current Chairmen of BS Associations of government departments as our guests in this event. In addition, the HKIS President, Office Bearers and Executive Committee Members, Distinguished Building Surveyors, Past BSD Chairmen and fellow members were present. We were delighted to see many new faces of younger building surveyors, probationers and mentees at this gathering. Altogether, almost 250 members of various ages came together to enjoy this wonderful afternoon.

(d) BSD 35th Anniversary Gala Dinner

2019 marks the 35th Anniversary of the HKIS, as well as the approaching 35th year of celebrating the establishment of Building Surveying Division. To commemorate this important milestone in our history, BSD held a 35th Anniversary Gala Dinner with the special theme "Meet the Legends and Rising Stars" at New World Millennium Hotel on 22 October 2019. Most of the guests came dressing up as movie stars in this grand and remarkable event. BSD was very honoured to have many VIPs as our guests together with our fellow members, newly qualified building surveyors and surveying students in the event to share our happiness. The organising committee made every effort to put together a program of intertwining themed videos and music performance, presenting BSD's evolution with a nod to its past and a look to its future. A 35th anniversary photo album was also prepared and its electronic copies will soon be distributed to all BSD members.

BSD started with 119 building surveyors, growing to more than 1,300 members today. We are proud to witness the growth of our Division, which has become 10 times as large as it was in three decades. Undeniably, Building Surveying Division owes much of its success to the excellent leadership of all the former Chairpersons, along with the dedication and contribution of the committee members over the years. We look forward to another 35 years of anniversary celebrations of BSD!

(e) Great Bay Area Visit to Huizhou

On 23 and 24 August 2019, BSD organised a Greater Bay Area Visit to Huizhou with a group of 20 delegates. Our legislative councilor, Sr Tony Tse, also joined the visit. The group was well received by local government departments including Huizhou Natural Resources Bureau, Huizhou Housing and Urban-Rural Construction Bureau, the United Front Work Department of Huizhou Municipal Committee (惠州市自然資源局、惠州市住房和城鄉建設局、惠州市委統戰部) and leading establishments. On the first day, with the an introduction delivered by a government official from Huizhou Natural Resources Bureau (惠州市自然資源局), we had a good understanding on the city planning as well as their medium and long-term strategy of development to align with the national policies. We also took the chance to meet with representatives from Huizhou Construction Industry Association (惠州市建築業協會) to understand more about the challenges and opportunities of their members arising from the rising demand of city development. We visited a key government building project, the First People's Hospital No. 2 Medical Technology Complex (第一人民醫院2號醫技綜合樓) in Huizhou. The project-in-charge shared with us their quality and safety management and the adoption of prefabricated concrete wall panels during construction. On the second day, we had a memorable tour in the smart city development in Tong Wu – Tong Wu Sci-Tech Town (潼湖智慧城市). It is an ecological town which allows corporations to settle in and carry out research and development works in its innovative and entrepreneurial community, attracts tourists with its beautiful lakefront scenery, and provides a place with favourable climate for the settled enterprises to thrive. We were impressed by the well planned and innovative building design, advanced technologies and intelligent building management system which had inspired us to consider shaping the smart city development in Hong Kong. Our last stop of tour was Dongguan-Huizhou Intercity Track Xihu Station Urban Complex development Project (莞惠城際軌道西湖站城市綜合體發展項目), a large shopping arcade and office complex development project which was under construction. The project is in the vicinity of the railway station. It is a challenging project in terms of complexity and difficulties designed for the accommodation of indigenous inhabitants.

7. Administration

(a) Stakeholders

Maintaining contact and working relationship with our counterparts, the government and the Mainland officials are essential. Over the months, BSD's representatives attended visits, meetings and sharing sessions with local and PRC parties including:

- **Local**

Development Bureau, Transport and Housing Bureau, Planning Department, Lands Department, Buildings Department, Architectural Services Department, Fire Services Department, Home Affairs Department, Hong Kong Housing Society, Urban Renewal Council, etc.

- **PRC**

Liaison Office of the Central People's Government, Hong Kong and Macau Affairs Office of the State Council, Ministry of Commerce, China Association of Engineering Consultant (CAEC), Shanghai Construction Consultants Trade Association, etc.

(b) Representatives to External Bodies

Members were nominated to various committees, focus groups and task forces administrated by different government departments and statutory bodies, including Construction Industry Council, Surveyors Registration Board, Hospital Authority, Buildings Department, Electrical and Mechanical Services Department and Water Supplies Department.

(c) Internal Affairs

Members were nominated to various boards, committees and panels of the HKIS and BSD. In addition, BSD Office Bearers were tasked to support and share workload of different Council matters.

8. New Opportunities and Proposals

(a) Pre-acquisition Survey for Second Hand Domestic Premises

With an objective to promote building safety and the awareness of the impact of UBW, BSD has

submitted views to the Government proposing the implementation of a pre-acquisition survey to second hand domestic premises. BSD also met with people from the Buildings Department (BD) and Estate Agent Authority (EAA), who provided positive support. A seminar for EAA members was also held on 28 September 2019, introducing the UBW problems, which are of great concerns to the bankers, lawyers, estate agents, property owners and tenants. The task force is going to meet with Hong Kong Mortgage Corporation to present a proposal for the implementation of a pilot scheme in reverse mortgage.

(b) Building Affairs Expert Determination Center

BSD proposes a Building Affairs Expert Determination Center to tackle water seepage and other problems with building affairs in private buildings. The proposed scheme will be taken out from the judiciary system and will not overlap with the functions of Small Claim Tribunal or Lands Tribunal. Under the Scheme, any disputes of the parties will be referred to experts such as Building Surveyor or other qualified building professionals with corresponding and relevant experience and expertise in water seepage investigation and disputes in other building affairs. BSD appointed a solicitor firm to draft the administrative documents, which was completed in November 2019. A press conference will be arranged soon.

(c) Construction Innovation and Technology Fund (CITF)

The BSD has prepared a list of innovative equipment and new technologies, which are applicable to our profession, and submitted to the Development Bureau for the consideration of including into the pre-approved list of the one billion Construction Innovation and Technology Fund mentioned in the 2018/19 Budget of the HKSAR government. The pre-approved list was updated and can be viewed in the official website.

(d) Modular Integrated Construction (MiC)

The government promotes the adoption of Modular Integrated Construction (MiC) in the construction industry. MiC can enhance productivity, quality control, safety and sustainability. To encourage wider use of MiC in new buildings, the Buildings Department also

published a new Practice Notes for authorised persons to grant additional GFA exemptions. A task force was formed jointly by BSD and QSD recently with the following terms of reference:

1. To study various aspects of MiC application in the context of Hong Kong construction industry.
2. To review and update construction practices on MiC.
3. To keep abreast of MiC practices (both locally and internationally) and provide updates to members.
4. To liaise with the Government in respect of surveying and related issues applicable to MiC.

The task force has organised a MiC site visit in Jiangmen on 6 June 2019 as well as many CPDs in the past months. The task force will arrange more events and research findings for information sharing and enrichment of technical knowledge of MiC to members.

Last but not least, I would like to extend my heartfelt gratitude and sincere thanks to all Office Bearers, Council Members, Past Chairmen, Distinguished Building Surveyors, Core and Co-opt Members for their hard work and contributions to BSD during my two-year term of chairmanship. I wish every success and all the best to our incoming council.

DIVISIONAL COUNCIL & YOUNG SURVEYORS GROUP REPORTS GENERAL PRACTICE DIVISION

Sr Chiu Kam Kuen
GPD Council Chairman

In 2019, GPD continues to focus on promoting and improving the awareness of the GP profession amongst the public and enhancing the connection amongst members.

GPD offers its members a wide range of activities, ranging from Conferences to knowledge-sharing CPD events, networking and visits which had attracted satisfactory participation.

To attract the younger members to support the growth of the GP profession, GPD actively organised career sharing sessions in colleges and universities, and invited surveying students to participate in the GPD networking activities. The revision of the APC Rules and Guides has also set a clear pathway for the eligible local degree holders of accredited programmes to become qualified GP surveyors.

The release of the GPD promotion video, which helps the public better understand the work of GP profession, will be used in conjunction with other GPD social activities.

I would like to acknowledge the collective efforts of the Council members, who have been working industriously to create and sustain the continuous growth and development of GPD.

On behalf of the GPD Council, I have the pleasure to list our key achievements and activities in 2019 and financial performance as follows.

1. GPD Conference 2019

The Greater Bay Area initiative is a key strategic planning in the country's development blueprint, having great significance in the country's implementation of innovation-driven development and its commitments to reform and opening-up. Its goal of building a world-class city cluster across the Guangdong-Hong Kong-Macau

region will bring unlimited opportunities for local professionals.

GPD held its Conference 2019 (產業測量組 2019 周年研討會：大灣區：這麼近・那麼遠) on 19 January 2019 at the JW Marriott Hotel Hong Kong. 15 property industry experts, policymakers, government officials and scholars were invited to deliver presentations and hold talks on the overall strategic planning and development of the Greater Bay Area. Human resources experts discussed the talent development and career prospects in the Greater Bay Area. Dr The Honourable Leung Chun-ying, GBM, GBS, JP, Vice-Chairman of the National Committee of the Chinese People's Political Consultative Conference was invited as our Guest of Honour of the Conference.

About 200 participants including surveyors, probationers and other industry practitioners attended the event. Participants were able to gain better insights for developing their careers as well as thriving and capitalising on the vast potential unleashed by the Greater Bay Area development plan.

1. Sr KK Chiu, Chairman of the GPD Council presented souvenirs to the guest speakers of the Conference.
2. Dr The Honourable Leung Chun-ying, GBM, GBS, JP, Vice-Chairman of the National Committee of the Chinese People's Political Consultative Conference was invited as Guest of Honour of the Conference.

2. Land Sales Revenue Estimation for Lantau Tomorrow Vision

The Chief Executive announced in her Policy Address 2018 the Lantau Tomorrow Vision with a view to building a solid foundation for a sustainable future of Hong Kong. Phase One entails an extensive reclamation project around Kau Yi Chau on east Lantau Island to create a 1,000-hectare artificial island that will be transformed into a high-density core business district – CBD3 – with residential (public and private) and commercial (offices, retail outlets, hotels etc) development. There are concerns within the community about the significant sums to be invested in reclamation and infrastructure as well as the economic feasibility including the demand for relevant space.

GPD has formed a working group, “Land Sales Revenue Estimation for Lantau Tomorrow Vision”, to study the feasibility of the project from a financial perspective. The working group is convened by Sr KK Chiu and five other members: Sr Alnwick Chan, Sr Charles Chan, Sr Alexander Lam, Sr CK Lau, and Sr Tony Wan.

A preliminary report on Land Sales Revenue Estimation for Lantau Tomorrow Vision prepared by the Working Group was presented during the HKIS media luncheon on 15 February and it has been available for review on the HKIS website. The study reveals that if “Lantau Tomorrow Vision” is implemented, the 1,000 hectares of reclaimed land near Kau Yi Chau can generate \$974-\$1,143 billion of land sales revenue (excluding potential revenue from public sector residential units) for the HKSAR Government within 10-20 years. There will also be a significant supply of new residential dwellings ranging from 150,000 to 260,000 units. The new public-private flat ratio requires that 70% of the residential land under the “Lantau Tomorrow Vision” should be reserved for public housing and 30% for private housing. Therefore, a maximum of 78,000 private housing units will be built on Lantau together with 43 million square feet of commercial floor area. The expected revenue from land sales alone should exceed the cost of reclamation.

Apart from the revenue generated from the sale of commercial and private residential floor spaces, revenue will also be generated from the sale of public sector housing (HOS, Starter Homes, and

Housing Society units), indicating even higher income for the Government’s Treasury.

The HKIS emphasized on putting infrastructure in place before realising the Lantau Tomorrow Vision. The provision of suitable highways and a rail network at the start is critical in determining the success of CBD3.

3. Members’ Affairs

The Divisional Education Committee (“DEC”) has organised the Structured Learning Programme (SLP) 2019 for candidates who intend to apply for the forthcoming Assessment for Professional Competence (APC). The SLP is a 40-hour CPD programme comprising four key subject areas specified in the GPD APC Rules and Guide 2012, namely:

- Laws Relating to General Practice Surveying
- Agency Practices, Development, and Property and Asset Management
- Urban and Land Economics Analysis
- Valuation

75 members registered for the full programme and another 14 registered in multiple subject areas or in single sessions. A revision session was held before the Part I Assessment scheduled for October 2019.

3

3. APC revision class

The APC Part I written examination, attended by 73 candidates, was conducted in October 2018. Out of the 56 first attempt candidates, 31 passed all four papers, representing a passing rate of 55%.

The APC Part II Interview Assessment was held in December 2018 and June 2019. The passing rates were 78% and 57% respectively, indicating that 42 candidates and 4 candidates passed the assessment and became Corporate Members of the GPD.

In recognition of the outstanding candidates, the DEC hosted a welcome reception on 12 March for the 49 new GPD members who obtained their professional qualifications through the APC route in 2018. New probationers and APC candidates who passed the Part I APC exams were also invited to witness the achievements of the 7 members who had been recognised for their outstanding performances in the Part I and Part II exams.

4

4. Welcome Reception to New Members cum Outstanding Awards to Part I and Part II APC Candidates

Congratulations go to the new professional members and we would like to thank Sr Tony Wan and Sr Dr Lennon Choy, convener and co-convener of the DEC, as well as all the assessors who lent their support.

On the other hand, since the establishment of the HKIS and RICS Mutual Recognition Agreement of membership for valuation professionals in March 2018, 45 RICS corporate members have been admitted to become professional members of the HKIS in GPD. Please give a warm welcome to our new members!

The most popular CPD event organisers, including the CPD Panel convener Sr Alnwick Chan, together with Panel members Sr Andrew Chan, Sr Jason CS Chan and Sr Benson Lee delivered 12 CPD events this year. A series of Executive Talks, jointly organised with the Department of Real Estate and Construction of the University of Hong Kong, were opened to all local tertiary institutions offering surveying degrees, HKIS probationers and secondary school students, and, as usual, they turned out with high attendance rate. Apart from the indoor talks and sharing, the CPD Panel also organised site visits to the Mills, a landmark industrial revitalisation project; and SKYCITY, an aerotropolis development project in Hong Kong.

GPD is also planning a number of trips to the Greater Bay Area and will take advantage of the

enhanced transportation network to visit nearby cities that are destined for significant growth. Please stay tuned for the news from members' broadcasts.

4. New APC Rules and Guide

The Strategic Growth Committee was set up to formulate directions, strategies, and expand the number of Corporate Members. One of the action plans identified was to review and suggest possible improvements on the key components of the GPD's existing APC system with a view to improving the performances of APC candidates during APC assessments, and attracting more potential applicants to become qualified GP Surveyors.

Thank you for the great efforts and persistence of the members of Divisional Education Committee ("DEC"), which was convened by Sr Tony Wan. A new APC Rules and Guide was revised and endorsed by the GPD Council in August 2018. It was subsequently approved by the Board of Education and General Council in November 2018. The most salient feature of the revised Rules and Guide is the exemption of eligible local degree holders of accredited programmes from Part I Assessment's written exams. APC candidates who are exempted can instead attempt a Professional Task at least one month before Part II Assessment. A Professional Task is a one-hour written assessment that covers the major subject areas of the APC training, which is reviewed by the Panel Assessors of Part II Assessment as an integral part of the evaluation process.

The new system for Part II Assessment will begin in December 2019. Feedbacks revealed that a majority of the APC probationers welcome the new system. As a transitional arrangement for local cognate degree holders, the DEC received 59 applications for exemption from Part I Assessment, of which 51 were approved, and seven applicants were eligible to attend Part II Assessment as early as in December 2019 provided that their Professional Task Assessments were completed in October 2019.

5. Participation in the Global Platform

For the industry to keep up with the international standard, the GPD participates in overseas professional group's meetings and conferences, and communicates with them, as the Valuation Professional Organisation representing Hong Kong.

As a member of the Advisory Forum Working Group of the International Valuation Standards

Council ("IVSC"), I participated in the working group's meeting in London in June, and the IVSC 2019 Annual General Meeting and Board Meetings in Singapore in October 2019.

10

11. IVSC 2019 Annual General Meeting and Board Meetings in Singapore

The IVSC has published the latest edition of the International Valuation Standards (IVS) and made it available at IVS Online. The latest edition replaces IVS 2017 and will become effective from 31 January 2020. The IVSC encourages its early adoption. The HKIS sent a members' broadcast to all GPD members on 2 August 2019, providing links for the downloading of a full PDF copy of the latest IVS (effective 31 January 2020) and a "red-line" version of the latest IVS highlighting the amendments made.

The IVSC, along with other organisations, invites feedback on the consultation paper "Proposed Standards and Professionalism Framework for Business Valuation in the Hong Kong Market". The HKIS is a member of this Hong Kong Business Valuation Quality Initiative Task Force (other members include, but are not limited to, the RICS, HKICPA, CFA Institute, HKINEDA, CHKLC, along with the SFC and FRC as observers), which was set up in early 2019 to develop a framework for the Hong Kong market to help elevate its members' standards and professionalism. The Task Force is interested in hearing the responses from the HKIS

members with respect to the 14 questions set out in this Paper as well as any other comments.

6. GPD Promotion Committee

I am proud to present to you the GPD Promotion Video. The video was produced by GPD Promotion Committee convened by Sr Victor Chow, with an aim to promote the roles of GP surveyors in a more down-to-earth manner. It will be used in conjunction with GPD's future promotion activities. The team has spent enormous time to put together the story board, casting, scene selection, filming and production. I would like to thank the committee members for their creativity and efforts which has made this happen.

12

12. GPD promotion video in production

To promote the General Practice surveying profession to the public and students, Council members actively participated in the career talks of universities and schools, introducing the surveying profession to students. This year, GPD visited and conducted career talks to the students of the University of Hong Kong, UCEM, and La Salle College. We explained the roles of a GP surveyor, his/her career prospects, and the APC requirements to the students, who were very interested in the routes to HKIS membership and raised a number of questions. GPD is happy to see more students showing interests in its work and in becoming qualified members, contributing to support its expansion.

7. GPD Annual Dinner

GPD hosted an Annual Dinner, a joyful and cheerful event, in June 2019 at Spasso Italian Bar & Restaurant in Tsim Sha Tsui with over 100 participants, including honourable guests, GPD members, probationers, and students. To encourage more of its younger members to join the dinner, GPD offered a discount to probationers, students, and those who have qualified since 2015. We are pleased that the surveying students from HKU, PolyU, and THEI joined the event and interacted with the industry practitioners. Everyone had a great opportunity to network with their peers from other companies, make friends, and catch up on the latest developments.

9. Acknowledgement

The Council's affairs rely on the volunteer participation of our members in the Panels, Committees and Working Groups, and taking part as moderators, speakers, assessors and mentors. Our success would not be possible without the hard work and perseverance of this dedicated team, who have contributed time and skills in improving and sustaining the growth of GPD. Finally, I would like to thank our members for their ongoing support.

It has been a privilege to serve as the Chairman of the GPD Council for four years and a great honour to be able to serve the GP professional industry. I have confidence that the new Council will continue to help members advance the GP profession.

DIVISIONAL COUNCIL & YOUNG SURVEYORS GROUP REPORTS LAND SURVEYING DIVISION

Sr Dr Lesly Lam
LSD Council Chairman

I would like to take this opportunity to express my sincere appreciation to all council members for serving the Institute and leading the Land Surveying Division Council (LSD) this year. LSD grew significantly and expanded its scope of services to the community especially in this year. During the past decade, we contributed a lot of ideas to the Chief Executive and the Financial Secretary with respect to the Policy Addresses on subjects including: (a) spatial data infrastructure and smart city; (b) determining land boundaries; and (c) establishing a cadastre system to encourage the public to participate in the management of Hong Kong's land resources. We have also arranged a number of popular Continuous Professional Development (CPD), Pre-Qualification Structural Learning (PQSL), joint seminars, conferences, as well as exchange activities with our Mainland counterparts and even One Belt One Road (OBOR) countries. The liaison with Mainland's and cross-the-strait's survey and mapping professionals this year achieved a great step by way of two big conferences - the 11th Beijing-Hong Kong-Macau Geomatics Conference & the 9th Cross Strait Geomatics Conference.

Taking up the position of Chairman again has been a very delightful challenge. I enjoyed facilitating the integration of young and experienced LSs, and appreciate the council members for their continued contributions in promoting our professional services to the public and the society, and strengthening our networks with both Mainland and international bodies. In this council year, we put forward: (1) mutual recognitions with RICS - Geomatics and CICES - geospatial engineering; (2) close co-operation agreement with Smart City Consortium; (3) focused on community services such as conducting surveys for the non-profit organization Wheel for Oneness 極地同行 and participating dragon boat races in Eastern District and Stanley; (4) provided opportunities for younger members; and (5) carried out the exploration of expanded scopes of services under smart city initiatives. We are obliged to provide all surveyors and probationers with high quality CPD and PQSL sessions to update their knowledge, with which they can share with their counterparts, as well as to uplift the credentials of the LS membership base.

Community Services: Surveys for Wheel for Oneness 極地同行

As for the engineering and construction industry, our task force has continued to focus on hot issues such as shortage of manpower and professional land surveyor positions in various construction projects. In recent years, we have been advising the government to hire “the right professionals to do the right jobs” for its infrastructure projects. Professional land surveyors have been imparting their land surveying expertise to others in each project. This year we finally achieved a breakthrough under the kindest assistance of Sr Hon Tony Tse Wai-chuen, BBS, Legislative Council Representative of Architectural, Surveying, Planning and Landscape Functional Constituency. Development Bureau will implement a practical system to make sure that there will be appropriate and sufficient LS professionals in various construction projects.

Moreover, Professional Services Advancement Support Scheme (PASS) awarded \$1.93 million to the HKIS last year (10% of which was supplied by HKIS). LSD successfully prepared advanced promotional products including UAV-generated, urban 3D modelling and remote-sensing applications, etc. for the use in urban development and natural resource reservations, translating the surveying practice rules and qualifications to be referenced by the targeted OBOR partners. In March 2019, a LSD-delegation team visited Pakistan on behalf of the HKIS to conduct workshops for its surveying practitioners. It is the first stop of our One Belt On Road (OBOR) promotional activities. The delegation team leader Sr Thomas Lee had fruitful discussions with the participants on various topics. The team also met with the first secretary of the China Embassy in Pakistan. In April 2019, the HKIS LSD delegation team organised a 5-day exhibition cum visit in Kazakhstan. During the stay, the team visited Almaty city, the old capital of Kazakhstan. The word “Almaty” means “Apple city” in Kazakh language. In this city, the team successfully hosted a booth and exhibited Hong Kong’s Remote Sensing and Unmanned Aerial Vehicle (UAV) application in the field of Land Surveying to Kazakhstan experts from various professional fields. The host–Al-Farabi Kazakh National University is a university that carries 15 faculties and this conference is a place for all those faculties to demonstrate their works to the international participants.

LSD’s Annual Dinner was successfully held at Watermark Restaurant in Central on 18 October 2019. Under the current situation of the society,

LSD was extremely grateful for a smooth and calm night during which all guests were able to enjoy a memorable evening with spectacular seaview. A million thanks go to the President, Office Bearers, Division Chairmen, and honourable guests, Sr Hon Tony Tse Wai-chuen, BBS from the Legislative Council and Mr Lo, Mr Lee and Mr Fu from the Liaison Office, as well as guests from the Institute’s fellow surveying institutions. Especially, LSD would like to thank its over a hundred land surveying members who came to support their division, and last, but not least, it would also like to thank all the sponsors of the event. The dinner was truly a great event and we look forward to another great moment next year.

In the coming year, I wish the new council will make even more significant progress in various areas. A few causal gatherings for young surveyors were successfully held in the past year. I look forward to seeing more new faces to help promote our professional services to the public and the society. The genuine demands for land survey professionals in real estate, construction, and particularly smart city development in Hong Kong are widely recognised.

DIVISIONAL COUNCIL & YOUNG SURVEYORS GROUP REPORTS PLANNING & DEVELOPMENT DIVISION

Sr Edmond Yew
PDD Council Chairman

It has been my great honour to continue with the chairmanship and lead the Planning and Development Division for another year in 2018/19. In the coming years, we hope that the new PDD Council will continue to promote planning and development at both local and regional level and provide adequate professional trainings and PQSL to our student members and probationers. Below is a short summary of our achievements in the past 12 months:

1. PDD Annual Conference 2019

The HKIS Planning and Development Division's Annual Conference, with the topic "Planning and Development in the New Territories" has been successfully held on 16 November. I would like to express my sincere gratitude towards the OC Chairman and all our distinguished guest speakers.

2. CPDs

In this term, PDD has successfully organised 14 CPDs and site visits, with special focus on the GBA planning and development, the integrated regional development of Yangtze River Delta, latest planning policy and practice in Singapore and provision of structured learning for probationers who would like to attend the APC this year.

Joint Forum SIP-HKIS (PDD)-URA

PDD Shanghai Technical Visit

Office Visit and Career Sharing in the Link REIT

3. Collaborations with Overseas Professional Bodies

Ever since the signing of the two MOUs with Guangdong City Planning Association (GCPA) and the Singapore Institute of Planners (SIP) respectively last year, we have deepened our cooperation with other professional bodies through organising a series of events together. By inviting representatives from the GCPA and arranging visits to various Chinese cities in GBA, participating members were able to learn about the latest planning strategies of this massive economic agglomeration. Also, we have been working closely with SIP on the SIP Planning Awards 2019 and the Joint SIP-HKIS (PDD)-URA Planning Forum in Singapore which aimed to exchange planning visions of both cities in November 2019.

4. Advise on Controversial Policies

Disputable land and housing policies have been announced in the recent Policy Addresses. With our expertise in urban planning and property development, we have actively raised opinions and formulated recommendations on hot-debated topics such as the land-supply optimising Lantau Tomorrow vision and “Special Rates” on vacant first-hand private residential units.

Meeting with Government Officials Luncheons and dialogues were arranged with the Secretary for Development and the Permanent Secretaries, the Under Secretary for Transport and Housing, Director of Building Department, Director of Lands, Director of Planning and Director of Home Affairs Department. Our discussions were focused mostly on land supply, transport planning and the shortage of surveying professional in infrastructure and development projects. In light of the growing demand for developing land for housing, urban renewal and new town development, we emphasized that the roles of the PD surveyors are becoming more and more important in planning and identifying the potential

uses of lands, optimising land use planning and the overall management of the development process.

5. Career Guidance for Student Members and Probationers

To promote the PD profession to more university students with relevant background and help student members as well as probationers plan their career paths ahead, we held Career Expo and company visits with representatives invited from CEDD, PlanD, Link REIT, Housing Society and other Hong Kong developers and consultant firms to introduce the career prospects of the PD surveyors.

7. Course Accreditation

We are very pleased to accredit the MSc in Real Estate (without major) and MSc in Real Estate majoring in Real Estate Investment and Finance courses of The University of Hong Kong starting from 2018 intakes to 2022 intakes. We look forward to accrediting more relevant courses so as to nurture more Planning and Development surveyors in light of the pressing demand.

DIVISIONAL COUNCIL & YOUNG SURVEYORS GROUP REPORTS PROPERTY & FACILITY MANAGEMENT DIVISION

Sr Daniel Hui
PFMD Council Chairman

This has been a fruitful year for PFMD. A number of tasks and events have been successfully accomplished or held. Members enriched their technical knowledge from many quality CPD events, which have been organised with overwhelming responses.

Major activities organised and tasks performed in this year are reported below for our members' reference.

1. Research Studies

PFMD commissioned The Hong Kong Polytechnic University to conduct a research study with the title "The Use of the Building Information Modelling (BIM) in the Property / Facility Management Industry in Hong Kong". The objectives of this study were to identify the barriers to and enablers of the use of BIM and to recommend ways to promote the use of BIM by PFM practitioners in Hong Kong. The principal investigator of this study, which commenced in May 2019, is Dr Joseph Lai. The literatures on the barriers to and enablers of the use of BIM and cases of successful BIM applications in PFM were reviewed and a survey questionnaire was issued to solicit the opinions of PFMD members on the use of BIM. The study should be completed by December 2019 and a CPD will be arranged to inform the members of the details and the findings from this research study.

2. Regulation of the Property and Facility Management Industry

Property Management Services Authority (PMSA) launched a public consultation on the Licensing Regime for Property Management Companies and Property Management Practitioners on 21 November 2018. The PFMD conducted a detailed study and submitted its results on 18 January 2019. Its main concerns were as follows:

- a) The definition of and differentiation among seven categories of property management services were not clear; and
- b) The education background and professional requirements for Tier 1 property management practitioners were too low.

To uphold the professionalism and status of property management practitioners, the HKIS arranged a forum on 11 January 2019 to further discuss on this matter. The former Chief Executive Officer, Mr Thomas Leung, and General Manager

(Regulatory), Mr Kevin Cheung, were invited to brief members on the topic, giving them a better understanding of the issue, as well as an opportunity to exchange views. Due to the significant impact of the licencing regime on practitioners, over 100 members joined this forum, in which the attendees raised many questions and the event did not end until 9pm.

After receiving the comments from PFMD, the PMSA fine-tuned and submitted the proposal to LegCo's Home Affairs Panel (HAP). However, the PMSA was requested to consult more property management practitioners before re-submitting the proposal. Another round of consultation was arranged in August 2019 and the PFMD responded proactively to safeguard the interests of its members.

In August 2019, PFMD worked with the HKIS to prepare all the documentations and information for submission to PMSA for application to become a Recognised Professional Body (RPB). The PFMD has just been informed that the PMSA has recognised the HKIS as one of the RPB. Any corporate members who possess the required academic qualifications and relevant property management working experience are eligible to apply for the PMP (Tier 1) Licence.

3. CPD Events and Site Visits

With the continued support from various PFMD Council Members, including CPD Committee Members, PFMD successfully conducted 11 quality CPD events (as listed below) during the period from January to October 2019. These CPD events attracted many members and received very good feedback and comments.

4. Memorandum of Mutual Recognition of Membership (MMRM) between PFMD and the Counterparts of RICS

After more than a year of negotiations and discussions with RICS regarding the terms and conditions of the MMRM which the HKIS General Council finally approved, both organisations signed the MMRM on 11 April 2019. The HKIS hopes this will foster a closer relationship with RICS in developing the surveying profession not only in Hong Kong, but worldwide. PFMD plans to organise more social and technical events in the years to come.

With the MMRM in effect, HKIS members can apply to become RICS members by reciprocity and vice versa, subject to the following conditions:

- a. An applicant must have at least one year of relevant post-qualification experience in Hong Kong;
- b. The HKIS accepts all RICS members who are qualified through different routes provided that their memberships have not been acquired through reciprocity agreements with other professional bodies; and
- c. The HKIS will conduct professional interviews with all applicants except in some special circumstances where an applicant is eligible for exemption.

5. Quality Property and Facility Management Award 2018

Jointly organised by the HKIS and the Hong Kong Association of Property Management Companies (HKAPMC), the Quality Property and Facility Management Award (QPFMA) 2018 was a biennial award that recognised the exceptional achievements and excellence of the property and

facility management industry. It has also become the most credible and prestigious industry award in the PFM sector. The theme of QPFMA 2018 was “Smart Building, Smart Management”.

The winners of the QPFMA 2018 were revealed at the QPFMA Award Presentation Ceremony cum Dinner held on 8 January 2019. Over 300 industry leaders attended the ceremony along with the Guest of Honour, Mr Michael Wong Wai-lun, JP, Secretary for Development, HKSARG. The QPFMA 2018 featured ten award categories and each winner was recognised with an Excellence Award or Certificate of Merit. The most outstanding projects received the QPFMA’s highest honour, the Grand Award. The winners were selected by a panel of 15 judges from diverse professional backgrounds, who collectively assessed the projects in accordance to strict selection criteria to ensure the credibility and professionalism of the award.

The award this year featured 118 submissions in total and 31 best projects were recognised. The organisers were honoured to have invited an esteemed judging panel led by the Head Judge, Dr Cheung Tin Cheung, the former Director of Buildings, to evaluate the entries and we thank the assessors for their great efforts and earnest contributions.

6. PFMD Division Conference 2020 cum 15th Anniversary

A conference is being arranged to celebrate the PFMD’s 15th anniversary on 8 July 2020 with the theme “Building a Livable City: The Role of Property and Facility Management Profession”. The conference will explore the ways to build a liveable city centering on people’s needs, mobility and sustainability. Dr So Wai Man, Raymond, BBS, JP, Under Secretary for Transport and Housing, will be the Guest of Honour. The venue will be the Crowne Plaza Hong Kong, Kowloon East.

So far, some renowned speakers have accepted our invitation:

- a. Mr Walter Chan Kar Lok, SBS, JP, Chairman of Hong Kong Housing Society;
- b. Ir Patrick YF Cheung, JP, Deputy Director / Trading Services of Electrical & Mechanical Services, EMSD, HKSAR;

7. Way Forward

I want to express my heartfelt gratitude to all Council Members for their unfailing support for and valuable contributions to the PFMD. Special thanks go to our fellow PFMD members for their commitment to the Division's well-being. With your support, I expect PFMD to continue its success in the years ahead.

We received a warm welcome from the Site Manager of Woh Hup Mr Vince Chew and his team.

They presented the delegation the flow of application of PPVC including the design, off-site fabrication and on-site installation, logistic and transportation restrictions on the modules as well as challenges and difficulties in the hoisting and installation.

The visit ended following a site tour to visualise the module blocks and a ready-to-hoist module.

Our delegates were greeted and received by the Managing Director Mr Khoo Sze Boon and his team at Arcadis Singapore.

Mr Khoo is also the President of SISV QS Division who gave us an account of the PPVC background information in Singapore with emphasis on the procurement arrangement, time and costs aspects of PPVC.

Mr Khoo had also invited an experienced PPVC project manager to give us a more detailed evaluation of the design aspect and challenges brought by the PPVC construction approach.

To get a wider perspective on PPVC construction in Singapore, we visited SJ on 18 January 2019. We met with their Senior Director Mr Eugene Seah and the Managing Director of Threesixty Cost Management Pte Ltd (a subsidiary of SJ) and their colleagues. They briefed us about the execution plan and the road map of SJ in achieving Integrated Digital Delivery and their efforts in

driving Immersive Virtual Reality Systems which would allow interaction between 3D models and human at 1-to-1 scale.

We have consolidated the information collected during our stay in Singapore and conducted two CPD sessions to share with our members about Singapore's insights into the recent technological development in the construction field.

2.3 The PAQS Congress in Kuching, Sarawak, Malaysia (22 and 27 August 2019)

2.3.1 Introduction

The PAQS Congress 2019 was held at the Pullman Hotel in Kuching Sarawak, Malaysia on 26 and 27 August 2019. The Congress was officiated by YAB Datuk Patinggi (Dr) Abang Haji Abdul Rahman Zohari bin Tun Abang Haji Openg, the Honourable Chief Minister of Sarawak.

The theme of the Congress 2019 was Human Wisdom Amidst Emerging Technologies. The keynote speakers were YB Tuan Baru Bian, the Honourable Minister of Works Malaysia, YBhg Tan Sri Rafidah Aziz, Chairman, AirAsia, YBhg Datuk Prof Dr Khairuddin Ab Hamid and YBhg Dato Omar Osman.

Sr Sunny Choi, QSD Vice Chairman, was the moderator of a parallel session: Emerging Technology.

There were also technical sessions in which 3 members of HKIS QSD shared their knowledge of Modular Integrated Construction and Emerging Technologies with the audiences. They were Sr Dr Peter Ng, Sr Mandy Ng and Sr Hubert Hiew.

2.3.2 Hong Kong Delegates

The HKIS had a delegation of 18 members attending the Congress, which included Senior Vice-President Sr Winnie Shiu, Past President Sr Francis Leung, QSD Vice-Chairman Sr Amelia Fok, QSD Vice-Chairman Sr Sunny Choi, Past QSD Chairman Sr Daniel Ho, Sr Dr Paul Ho and Sr Antony Man, QSD Council member Sr Joseph Chong, Sr Dr Sandy Tang, YSG representatives Sr Karen Wong and Sr Sunny Wong, QSD member Sr Dr Leung Mei-yung, Sr KC Tang, Sr Peter Ng, Sr Mandy Ng, Sr Hubert Hiew, Sr Jim Chark and me.

2.3.3 PAQS Board Meeting (22 August 2019)

The PAQS Board Meeting was held on 22 August 2019. Our Senior Vice-President, Sr Winnie Kwok, QSD Vice Chairman Sr Amelia Fok and Sr Sunny Choi, QSD Past Chairman Sr Dr Paul Ho and Sr Daniel Ho, Council member Sr Joseph Chong and I were in attendance. Our Past President Sr Francis Leung was the Chair of the PAQS Board.

2.3.4 PAQS BIM Committee Meeting (23 August 2019)

QSD Vice Chairman Sr Sunny Choi, QSD Past Chairman Sr Dr Paul Ho, and QSD Council Co-opted Member Sr KC Tang attended the PAQS BIM Committee meeting on 23 August 2019. Sr Sunny Choi chaired the meeting, during which participants presented the latest BIM developments in their countries. Everyone agreed that client support, especially from the government, was essential for promoting BIM development and implementation, and that quantity surveyors

should enhance the clients' awareness of the benefits of BIM adoption in managing costs, which would positively affect the work of architects and engineers in improving the adequacy and quality of information that BIM models provide.

Australia (AIQS), New Zealand (NZIQS), and Singapore (SISV) have already documented some of the best BIM practices or BIM attribute requirements for communicating with clients and designers. Malaysia (RISM) just updated the New Rules of Measurement of Malaysia. Sr Sunny Choi reported to the Committee that the HKIS had also started drafting the BIM Model Information Requirements to Facilitate Quantity Take-off. The Committee agreed that when quantity surveyors from different countries formulated their own model information requirements, the resulting collective forces were great and effective enough to promulgate the information requirements of BIM models from the perspectives of quantity surveyors. A BIM Workshop with two panel sessions was also held on 25 August 2019, one of which was on BIM contractual framework issues and the other was on the standard methods of measurement. Sr Dr Paul Ho's was a speaker in both sessions and presented the QSD's proposed BIM contract conditions and the new HKSM5. The participants showed great interest in Sr Dr Paul's presentation, especially in the considerations behind the drafting of the BIM contract conditions.

2.3.5 PAQS Research Committee Meeting (23 August 2019)

10. Modular Integrated Construction (MiC)

10.1 Visit to a CIMC MiC Manufacturing Plant in Xinhui (6 July 2019)

The HKSAR Government's Development Bureau is promoting the use of modular integrated construction (MiC) as an alternate form of building construction in Hong Kong. As propagated, MiC is one of the most efficient and complete principles for improving construction productivity because it facilitates the complete offsite manufacture of modules made of multiple units, including internal finishes, fixtures, and fittings, before these units are transported for installation onsite in a Lego-like manner.

In collaboration with the HKIS MiC Committee and BSD, QSD was invited to a tour of a CIMC MiC manufacturing plant in Xinhui on 6 July 2019.

QSD will organise visits to the same plant after further meetings with CIMC.

As a business division of the CIMC Group, CIMC Modular Building Systems (CIMC MBS) specialises in technology and the manufacture of steel MiC. Since its establishment in 2004, CIMC MBS has become one of the largest providers in this field globally. With its innovative designs, patented building technology, and over 30 years of manufacturing experience and technologies, CIMC regaled the HKIS delegation with the account of its services, including product design and consultation, material suggestion, extensive global procurement and supply chain management, cross-operational management across onsite and offsite activities, as well as a global shipping and logistics network, etc. At present, CIMC MBS has delivered about 40 projects in the UK, Australia, USA, China, Japan, and the Netherlands, etc. The building types it has worked on include hotels, residences, student accommodations, mine workers' accommodations, and commercial buildings. In 2018, it completed its first project in Hong Kong, the CIC MiC Demonstration Centre in Zero Carbon Building, which was also Hong Kong's first MiC project. It developed this project jointly with the Construction Industry Council (CIC).

The delegation found the visit very fruitful and informative. The knowledge its members acquired together with the information collected from their earlier visit to Singapore at the beginning of this year will be published as a report for circulation to members.

11. NEW LEGISLATIONS

11.1 Proposed Security of Payment Legislation (SOPL)

The HKIS has been working closely with the Hong Kong Institute of Architects (HKIA), Association of Architectural Practice (AAP), Association of Consulting Quantity Surveyors (ACQS) on the proposed SOPL. A number of meetings have been conducted among the 3 professional bodies and Development Bureau in the last few years. HKIS is now focusing on the establishment of the Adjudicator Nominating Body in HKIS.

12. Construction Innovation and Technology Fund (CITF) and CIC BIM Certification and Accreditation Schemes (30 January 2019)

CIC accepted QSD's invitation to give a briefing to HKIS members on the content and application procedures for the Construction Innovation and Technology Fund (CITF) and CIC BIM Certification and Accreditation Schemes.

The speakers briefed that the CITF, with an approved allocation of HK\$1 billion, was established by DevB of the Government of HKSAR in October 2018 to cover Technology Adoption and Manpower Development. In regard to Technology Adoption, the fund encompasses: BIM; Advanced Construction Technologies; Modular Integrated Construction (MIC); and Prefabricated steel rebar.

The speakers also explained the Certification Scheme for BIM personnel like BIM Manager and the Accreditation Scheme for relevant courses.

Before the talk, our Past President and also Past Chairman of QSD, Sr Thomas Ho, presented certificates of appreciation to CIC speakers:

Mr Alex Ho, Senior Manager, BIM;
Mr George Wong Manager, BIM;
Ms Lee Oi Yen, Assistant Director, Finance and Registration; and
Mr Raymond Leung, Assistant Manager, CITF.

13. CONCLUSIONS

One year ago, I talked about connecting members and providing more opportunities for the young members to participate in the council affairs. I am confident that this is the right direction for the council and I am very pleased to see that there are young new faces in the incoming council.

This year term has been very successful for QSD in terms of connection with its members, training for probationers and associate members, continuous professional development for its members and external collaborations and liaisons with other local and overseas professional bodies. In particular, QSD has provided opportunities for young members to go overseas and learn the development of the quantity surveying profession in other countries or regions. QSD has also been maintaining connections with various cost engineering associations in the Mainland.

My heartfelt thanks go to all outgoing Council members for their support and valuable advices, without which QSD would not have been able to accomplish its targets in the Council Year 2018/19. I also thank all the members for their support to QSD and wish our members will continue to support QSD in next the Council Year 2019/20.

DIVISIONAL COUNCIL & YOUNG SURVEYORS GROUP REPORTS

YOUNG SURVEYORS GROUP

Sr Refeal Leung
YSG Chairman

1. Continuous Professional Development (CPD)

A total of 38 CPD events which included seminars, forums, site visits and study tours were held in this year's term. These provided YSG members with updated information of the profession and market insights such that the members could adjust their professional development to match with our industry needs, including but not limited

to new statutory requirements, construction technology and new trend of the industry. Besides, we endeavoured to hold 9 site visits and 1 study tour this year. These visits were held to enhance the members' understandings of the latest developments and some special aspects of the surveying profession. Thanks to Sr Gigi Mok, Sr Frank Poon, Sr Kitty Ng, Sr Sunny Wong and other CPD sub-committee members for their year-round arrangements of events.

2. Study Tour

The YSG Study Tour 2019 was held in Seoul, Korea from 5 to 9 October 2019 with the support of 29 members from various discipline as well as students. I am sure all participants had a fulfilling journey with lots of knowledge and ideas exchanged with respect to the planning, construction and real estate developments in Seoul. I would like to thank our organising committee, namely Sr Frank Poon, Sr Wilson Ko, Sr Sunny Wong, Winnie Mak, Patrick Choi, Miki Hau and Aaron Cheng for their contribution and efforts in arranging this fruitful five-day study tour.

3. Social Events

It is always our mission to organise various social events, which can serve as a platform for our young members to network with friends from different backgrounds. YSG encourages our young members to actively participate in these events to meet new friends and relax. However, under the social context of the time, we considered it was not an appropriate timing for a lot of social events. The 5 social events held earlier this year were interest classes, exercise classes and a social gathering which provided good networking opportunities for our members. Thanks to Sr Kirsten Lam, Sr Kitty Ng and other sub-committee group members who managed to plan and hold those wonderful events.

4. HKIS Dragon Boat

YSG organises the Dragon Boat team every year with the aim of uniting our members and promoting a healthy living. The dragon boat championship held in Stanley each year has been one of the biggest annual events of YSG. Our team had made a great effort in practicing since March 2019 in order to achieve the astonishing good results in various competitions. We are glad that the HKIS has sponsored a race in the Stanley International Dragon Boat Championships on 7 June 2019, as an event to celebrate the 35th anniversary of the HKIS. We would also like to thank the paddlers who participated in the practices and competitions this year for their efforts, time and sweat. Special thanks go to Sr Sana Shek, Sr Sunny Wong and Paul Sze, who led and coordinated our Dragon Boat Team in achieving the excellent results.

5. Institutional Events

Since YSG consists of members coming from different divisions, we always have a role to play in every institutional function. Our committee and helpers have actively served the HKIS by taking different roles in various events. During its 35th anniversary, the HKIS launched a series of activities promoting the profession and HKIS to the public. YSG showed our support to the Institute by actively contributing our efforts in various events such as Careers Expo, the HKIS 35th Anniversary Cocktail Reception, Create Your District Competition 2019, the HKIS 35th Anniversary Run – Runderful Pro, Diploma Presentation, Annual Dinner, Annual Conference, large-scale career talk and other Divisional Activities.

6. Universities Events

YSG has been contributing lots of time and efforts to encourage communications with University students majoring in or intending to major in surveying by holding study tours and social events every year. We were delighted to be invited by five students' societies from four universities to deliver seminars and sharing sessions regarding the HKIS, route to the membership, professional development and career prospects. Besides, YSG also encouraged them to organise a Joint University Party, which provided a platform for them to meet with each other from different universities.

7. Joint Professional Events

In order to provide our members with all-round professional and social development, YSG works closely with various professional bodies and their young groups in providing a variety of seminars, forums and social events to our members. We worked with professional institutes including CI Arb, CIBSE, HKIE-YMC and ICE in organising a One Day Seminar on Contract Management and two social events. We also organised a Joint Professional Indoor War Game with HKICPA and HKICS and a

Tram Party with HKIP-YPG. These events offered a great opportunity for our members to update their understanding of different profession and build their own social networks.

8. YSG Annual Dinner 2019

The YSG Annual Dinner was held on 9 November 2019 evening at ClubONE The Grand Stage. This year our theme was "Royalty" and participants were dressed up in different types of royal style. By holding this event YSG wished to provide our members a break during their busy lives. Over 200 participants including guests from Executive Councils, chairmen from different Boards and Divisions, past YSG chairmen, LegCo member, representatives from the Liaison Office of the Central People's Government in HKSAR, young professionals from other institutes, members and surveying students attended the event. Our thanks goes to the dedicated organising committee, which comprised Sr Kirsten Lam, Sr Kitty Ng, Sr Frank Poon, Sr Sunny Wong, Sr Wilson Ko, Cara Ng, Jenny Yuen, Patrick Choi and other helpers.

9. Vote of Thanks

Once again, I would like to send my sincerest gratitude to the team including our Immediate Past Chairman Sr Simon Wong, YSG Committee, past YSG chairmen, Co-opted Members, the Students' Representatives of the four universities and the HKIS Secretariat, especially Margaret, Coody, Donna, Karen, Eugena and Kanice for their contributions in 2018/19. Without their dedicated contributions and continuous support, the above events could not be held so successfully.

I would like to request all of you for your continued support to our upcoming Chairman and Committee and I believe they will continue the YSG spirit in striving for a greater success. I Wish YSG all the best!

Survey to collect information about the surveying graduates

To promote the growth of the surveying profession and to meet the needs of the industry, the BOE has conducted a survey on the local surveying programmes and analysed the supply and demand of surveying graduates in recent years. After reviewing the results of the survey, BOE was concerned about the insufficient supply of surveying graduates. It was noted that some universities would reduce the admission quotas for their UGC-funded surveying programmes soon. The General Council has set up the Task Force on Manpower Supply in Surveying Industry to follow up the issue.

Review visits of existing accredited programmes

The BOE has conducted visits to the local academic institutions to keep up with the academic development of the surveying industry and expressed our members' concerns about the surveying programmes. The visits also served as review visits of existing accredited course in accordance with Clause 8.7 of the HKIS Course Accreditation Manual. The review visits to the Department of Real Estate and Construction and the Department of Urban Planning and Design of University of Hong Kong were made on 8 November 2019. The BOE will contact City University of Hong Kong and the Hong Kong Polytechnic University for the scheduling subsequent review visits.

2019 was a busy but fruitful year for the members of BOE, Divisional Education Committees, and the Divisional Panel of Assessors. I would like to take this opportunity to convey my heartfelt thanks to all colleagues who have offered their unfailing supports and contributions to the Institute and the surveying profession. Thank you very much for your dedicated service!

In order to provide timely response to membership applications, the Board continued to hold bi-monthly meetings. The dedication of Divisional Membership Committees and the YSG Membership Committee is deeply appreciated, for without which, the Board could not have functioned so efficiently. The Divisional and YSG Membership Committees comprised the Divisional and YSG representatives to the Board and co-opted committee members and assessors for the vetting of applications and assessment interviews with the applicants if required.

During the session year, the statistics of membership applications processed are as follow:

Applications	BSD	GPD	LSD	PDD	PFMD	QSD	Total
FHKIS	2	4	5		1	6	18
<i>Rejected</i>						1	1
<i>Approved</i>	2	4	5		1	5	17
MHKIS	51	107	32		12	109	311
<i>Rejected</i>		8	12		4	9	33
<i>Approved</i>	51	99	20		8	100	278
<i>(via APC)</i>	(51)	(48)	(7)		(1)	(96)	(203)
<i>(via reciprocity)</i>		(51)	(13)		(7)	(4)	(75)
Multiple		1		11	6		18
<i>Rejected</i>				2			2
<i>Approved</i>		1		9	6		16
AMHKIS	1					7	7
<i>Rejected</i>							
<i>Approved</i>	1					7	7
Probationer	174	93	27	2	5	283	584
<i>Rejected</i>						1	1
<i>Approved</i>	174	93	27	2	5	282	583
Student	57	43	14	2	11	92	219
<i>Rejected</i>							
<i>Approved</i>	57	43	14	2	11	92	219

As more reciprocity agreements are being entered into with sister professional bodies, the number of applications for membership via reciprocity has significantly increased.

The above statistics refer only to the number of applications processed during the year and does not reflect the actual changes to the membership base of the Institute. It should be noted that applicants may migrate from one membership grade or category to another. For full details of all members, readers should refer to the Membership Registers kept by the Honorary Secretary in accordance with Bye-law 2.1 of the HKIS Constitution.

Pursuant to Bye-law 2.5.2, the required Probationer membership of 8 years continued to be enforced administratively. Probationers with over 8 years of membership but still in the process of pursuing the APC will have their membership extended further for a year subject to the approval of the General Council. This arrangement has been working well and the membership statistics may be rationalised to reflect the legitimate status of surveyors-in-training.

During the session year, the statistics of the changes of probationer membership are as follow:

Probationers	BSD	GPD	LSD	PDD	PFMD	QSD	Total
<i>Applications for extension</i>	44	22	17	1	4	248	336
<i>Rejected</i>	13	5			1		19
<i>Approved</i>	31	17	17	1	3	248	317
<i>Withdrawal</i>	2				1	7	10

The HKIS Bye-law 2.4 provides for the technical grading of membership known as Associates Members (previously known as Technical Associates), which has not been attractive primarily due to the restrictive academic entry requirements. Only a few cognate sub-degrees or diplomas have been approved by the General Council, and the number of graduates of such programmes applying to be qualified as AMHKIS are few. To attract more applicants, the Board of Education has proposed and the General Council has approved to amend the relevant bye-law to allow holders of any other sub-degrees or diplomas with at least 12 months of post qualification engagements in surveying practices to apply for the entrance to the APC and pursue the technical qualification. This was put to the EGM on 6 December 2019, which, because of insufficient quorum (the attendance of 100 members), had to be deferred to 6 January 2020.

From membership's point of view, unless HKIS can increase the membership base of Associate Members, we will not have sufficient bargaining power to urge the government and the industry to respect the technical status of AMHKIS for engagement in public or other statutory appointments.

All professional and technical members are required to engage themselves in continuous enhancement of their expertise and enrichment of their specialist knowledge base. It is only with consistently high and ever-improving professional competence of its members that the Institute can strengthen its leading role in the local real estate and construction sector.

Despite the unexpected social situation in Hong Kong after early June 2019, a total of 252 CPD events were organised by various Divisions, YSG and the HKIS during the entire year of 2019, representing only a slight decrease of 0.8% as compared to 254 events recorded in Year 2018.

Mandatory CPD requirements checking 2016 - 2018

To maintain the professionalism of our members and to preserve the confidence of the public in the surveying profession, each member must comply with the Guidance Notes for Mandatory Continuing Professional Development (June 2007) and complete a minimum requirement of 60 CPD hours over a three-year period.

The 4th Mandatory CPD checking exercise for the period between 1 January 2016 and 31 December 2018 was conducted in 2019. 2% of members were selected by computer and were requested to submit their CPD records to demonstrate their compliance with the requirement. About 81% of the selected members submitted records of more than 60 CPD hours. The checking of CPD records is in progress at the moment.

It had been another challenging but successful year. I would like to take this opportunity to thank all the BoPD Members, the CPD organisers and the helpers for their valuable inputs and participation. Without your participation and dedication, we would not have accomplished such achievements in Year 2019.
